Penulis : Komang Wira Adhi Mahardika, Hendra Santosa, Ni Wayan Ardini Ukuran : 21 cm x 14,5 cm Tebal : 108 Halaman ISBN : 978-623-79438-7-7 blurb : Pengantar Karya Musik Chamber “Kacang Dari” Nilai-nilai kehidupan dapat ditemukan, baik secara implisit maupun eksplisit di dalam karya-karya seperti dongeng, lagu-lagu, dan permainan tradisional. Ada paradoks dikotomis yang mengkontradiksikan perkembangan lagu-lagu populer untuk anak-anak Indonesia dewasa ini adalah komersialisasi yang tidak kalah menggebunya dengan musik pop orang dewasa pada umumnya. Lagu anak-anak sudah dipandang sebagai hal yang ketinggalan jaman dan tidak lagi relevan dengan situasi sekarang ini. Wira Adhi mengangkat karya lagu pengantar tidur dengan judul “Kacang Dari” bukannya tidak ada maksud untuk mengangkat lagu lainnya sebagai sebuah karya yang menarik, tetapi karena justru lagu pengantar tidur bagi anak-anak ini mempunyai nilai dan makna pendidikan karakter dalam lirik lagunya. Secara tidak langsung lirik lagu “Kacang Dari” memberikan petunjuk kepada pendengarnya khususnya anak-anak. Kemudian perlu diingat bahwa Gegendingan (Sekar Rare) di Bali mempunyai lagu dan irama yang halus, tenang, berulang-ulang (monoton), dengan mengambil tema kasih sayang, terkesan santai, sejahtera, dan menimbulkan rasa kantuk bagi anak yang mendengarkannya”. Setiap putra dan putri Bali yang pernah atau sedang mengasuh anak kecil, gending Bali tidaklah asing lagi bagi mereka. Buku Pengantar Karya Musik Chamber “Kacang Dari” ini sangat layak dibaca oleh mereka yang bergelut dalam bidang Musik, calon musikus, mereka mencintai seni musik klasik dan musik Nusantara, dan tentunya para komposer musik di Indonesia.

The twentieth century has spawned a great interest in Indonesian music, and now books, articles, and manuscripts can be found that expound exclusively about karawitan (the combined vocal and instrumental music of the gamelan). Scholar Judith Becker has culled several key sources on karawitan into three volumes and has translated them for the benefit of the Western student of the gamelan tradition. The texts in her collection were written over a forty-five-year time period (ca 1930–1975) and include articles by Martopangrawit, Sumarsam, Sastrapustaka, Gitosaprodjo, Sindoesawarno, Poerbapangrawit, Probohardjono, Warsadiningrat, Purbodiningrat, Poerbatjaraka, and Paku Buwana X. The final volume also contains a glossary of technical terms, an appendix of the Javanese cipher notations (titilaras kepatihan), a biographical listing, and an index to the musical pieces (Gendhing).

Dalam buku ini, tim penulis akan memberikan pencerahan, serta menambah ilmu pengetahuan kepada pembaca tentang adat perkawinan yang ada di Sulawesi Utara dan Gorontalo. Walau sekarang dua provinsi, sebelumnya merupakan satu wilayah administrasi. Hanya saja, dalam perkembangan tata kelola pemerintahan, Gorontalo dibentuk menjadi wilayah provinsi tersendiri. Dengan dua provinsi seperti sekarang menggambarkan dua etnisitas yang masing-masing memiliki kekhasan tersendiri. Buku ini memberikan pemahaman secara holistik dan komprehensif tentang akulturasi Islam dengan budaya lokal melalui adat perkawinan. Sistem sosial dan kekerabatan yang dianut oleh masyarakat Indonesia menjadi kekuatan dalam mengelaborasi interaksi sosial dalam masyarakat Sulawesi Utara yang heterogen dan multikultural. Berbeda dengan model kekerabatan masyarakat Gorontalo dimana masyarakatnya homogen dari aspek agama, budaya, dan adat istiadat. Adat istiadat masyarakat Gorontalo terjadi akulturasi agama Islam ke budaya lokal yang dikenal sebagai kota serambi Madinah dengan semboyan “Adat bersendikan syariat-syariat, bersendikan Kitabullah” artinya sistem sosial dan kekerabatan pada masyarakat Gorontalo agama Islam menjadi dasar dalam melakukan interaksi sosial.

In this book I have aimed at completeness in the sense that all publications known to me, which are wholly or partly devoted to Malay and Bahasa Indonesia (B.I.), or are important for the study of these languages, have been included. Popular publications in non-professional periodicals have been included only exceptionally. All the publications mentioned in the text are incorporated in the Bibliography (p. 91-157). The countless

articles in four post-war, semi-professional periodicals in Malaya and Indonesia, Dewan Bahasa, Pembina Bahasa Indonesia. 11:1 edan Bahasa, Bahasa dan Budaya, are not mentioned separately in the Bibliography, but sections 33 to 36 contain a survey, as complete and systematic as possible, of the contents of these periodicals in so far as they pertain to the Malay language; nor have I discussed in the text or incorporated in the Bibliography several hundreds of titles of practical textbooks or school-books of Malay or B.I. which are of no importance to the scientific study of these language. These titles have been entered in a separate Appendix (p. 158--171). The fact that completeness was aimed at certainly does not mean that it has been achieved. Especially various recent writings from Indonesia and Malaya may have escaped my attention. Experience has also proved that publications on Malay sometimes appear in the most unexpected places. The qualification above: "publications ... devoted to ... , or important for the study of" Malay and B.I. has been taken in a wide sense.

The Routledge Handbook of Asian Music: Cultural Intersections introduces Asian music as a way to ask questions about what happens when cultures converge and how readers may evaluate cultural junctures through expressive forms. The volume's thirteen original chapters cover musical practices in historical and modern contexts from Central Asia, East Asia, South Asia, and Southeast Asia, including art music traditions, folk music and composition, religious and ritual music, as well as popular music. These chapters showcase the diversity of Asian music, requiring readers to constantly reconsider their understanding of this vibrant and complex area. The book is divided into three sections: Locating meanings Boundaries and difference Cultural flows Contributors to the book offer a multidisciplinary portfolio of methods, ranging from archival research and field ethnography to biographical studies and music analysis. In addition to rich illustrations, numerous samples of notation and sheet music are featured as insightful study resources. Readers are invited to study individuals, music-makers, listeners, and viewers to learn about their concerns, their musical choices, and their lives through a combination of humanistic and social-scientific approaches. Demonstrating how transformative cultural differences can become in intercultural encounters, this book will appeal to students and scholars of musicology, ethnomusicology, and anthropology.

Music is an expression of feelings of the soul conveyed through the medium of sound. But not all sounds are music. It might be said that only an organised sound or series of sounds can be called music. Thus, music is connected to the eternal and constant flow and order of the universe, to the laws and rhythms of nature. It can also be said that musical order is comparable to the natural order of the universe. There are laws of a certain nature in the natural sciences and likewise in music there are structures and procedures, or even rules, that should be followed to produce beautiful music. The International Conference "Innovations for 21st Century Music Education and Research" provided a timely opportunity to take stock of the latest developments in music education and brought together educators, researchers and members of the broader community in a welcoming forum in which they were able to express theoretical and practical views, concepts, research results and principles to help support the further development of music education.

In West Java, Indonesia, all it takes is a woman's voice and a drum beat to make a man get up and dance. Every day, men there—be they students, pedicab drivers, civil servants, or businessmen—breach ordinary standards of decorum and succumb to the rhythm at village ceremonies, weddings, political rallies, and nightclubs. The music the men dance to varies from traditional gong ensembles to the contemporary pop known as dangdut, but they consistently dance with great enthusiasm. In *Erotic Triangles*, Henry Spiller draws on decades of ethnographic research to explore the reasons behind this phenomenon, arguing that Sundanese men use dance to explore and enact contradictions in their gender identities. Framing the three crucial elements of Sundanese dance—the female entertainer, the drumming, and men's sense of freedom—as a triangle, Spiller connects them to a range of other theoretical perspectives, drawing on thinkers from Eve Kosofsky Sedgwick, Lévi-Strauss, and Freud to Euclid. By granting men permission to literally perform their masculinity, Spiller ultimately concludes, dance provides a crucial space for both reinforcing and resisting orthodox gender ideologies.
