It's February 21, 1981, a sunny morning in Los Angeles, California where the top distributors of the newly founded, Herbalife International, have gathered at the Bonaventure Hotel for the one and only event of its kind called The Millionaire Training. Once too shy to stand up in front of his class and give an oral book report, the 35-year old Vice President of Sales, Larry Thompson, takes the stage teaching the timeless fundamental principles of network marketing to the small and enthralled crowd. Thankfully just hours before, Herbalife founder, Mark Hughes, decided to invest the \$150 to tape the training. The audio cassette of The Millionaire Training was immediately included in every Herbalife distributor pack. Those who metabolized The Millionaire Training became the top network marketing leaders we see today and several of their stories are included. Today, Herbalife is the #2 direct sales company in the world with over \$5 Billion in sales annually. Larry Thompson has continued to be a dynamic leader in the network marketing industry for over 50 years and has developed and simplified sales strategies for multiple companies around the globe. Most recently, Larry and his strategic alliance with Rolf Sorg, has helped guide PM International to its first billion dollars in annual sales. Why is this book being written now? There is a distinct difference between marketing and network marketing. Many leaders are teaching marketing and expect the everyday, average person to learn it and then implement it. It's not that easy.

Network marketing is simple. The fundamentals of network marketing never change. When you fully understand these foundational principles, you can easily bridge the gap and apply them to the ever changing world of social media marketing techniques. You will be taught How to Employ Yourself, The 7 Diseases of Attitude and Get the Goldmine Attitude plus many other principles that will remain relevant throughout your lifetime. It will impact who and how you are as a business leader and as a person in your everyday life. Larry Thompson is known by many as the "Mentor to the Millionaires." The Wall Street Journal called Larry, "The Original Architect of Wealth Building." And, now you have the opportunity to have The Millionaire Training in your hands as your very own success manual. The Millionaire Training is accepted to be the essential foundation to anyone building a business and is more relevant today than when it was originally recorded. Larry and his wife Taylor reside in Prosper, Texas and continue to train and teach willing entrepreneurs the fundamentals of creating wealth through their LT WealthBuilding Academy.

Today, it is difficult to imagine that in 1948 L'Oréal was just another small business. In 35 years its turnover went from 200 million to 20 billion francs. This book reveals that factors such as money or classic management techniques played a minor role in L'Oréal's growth. For François Dalle, such expansion was due primarily to the adherence of the entire L'Oréal staff to what he called the "L'Oréal Spirit:" an infusion into the company's "psyche" of a passionate will for conquest and development, associated with indisputable quality and an unquenchable desire to be the first to "seize new opportunities." This is what enabled L'Oréal to diversify its activities, and to expand them throughout Europe, Japan, and both North and South America, and to endure and overcome the crises of the 1970s and 80s. In 1942, François Dalle began working at Monsavon, a small soap-making company that belonged to Eugène Schueller, the founder of L'Oréal. He was made director of L'Oréal in 1948, first working alongside Eugène Schueller, and became president of the company from 1957 to 1985.

Shortlisted for the 2014 Miles Franklin Literary Award An exhilarating new book from Australia's most acclaimed writer Tim Winton is Australia's most decorated and beloved literary novelist. Short-listed twice for the Booker Prize and the winner of a record four Miles Franklin Awards for Best Australian Novel, he has a gift for language virtually unrivaled among English-language novelists. His work is both tough and tender, primordial and new—always revealing the raw, instinctual drives that lure us together and rend us apart. Just before he descends completely into pills and sorrow, a woman from his past and her preternatural child appear, perched on the edge of disaster, desperate for help. When you're fighting to keep your head above water, how can you save someone else from drowning? As Keely slips into a nightmarish world of con artists, drug dealers, petty violence, and extortion, Winton confronts the cost of benevolence and creates a landscape of uncertainty.
