The impeccably researched, deeply moving, never-before-told tale about a World War II incarceration camp in Wyoming and its extraordinary high school football team—for fans of *The Boys in the Boat* and *The Storm on Our Shores*. In the spring of 1942, the United States government forced 120,000 Japanese Americans from their homes in California, Oregon, Washington, and Arizona and sent them to incarceration camps across the West. Nearly 14,000 of them landed on the outskirts of Cody, Wyoming, at the base of Heart Mountain. Behind barbed wire fences, they faced racism, cruelty, and frozen winters. Trying to recreate comforts from home, many established Buddhist temples and sumo wrestling pits. Kabuki performances drew hundreds of spectators—yet there was little hope. That is, until the fall of 1943, when the camp's high school football team, the Eagles, started its first season and finished it undefeated, crushing the competition from nearby, predominantly white high schools. Amid all this excitement, American politics continued to disrupt their lives as the federal government drafted men from the camps for the front lines—including some of the Eagles. As the team's second season kicked off, the young men faced a choice to either join the Army or resist the draft. Teammates were divided, and some were jailed for their decisions. Explorer and naturalist Tim Gallagher is obsessed with rare birds. A decade ago, Gallagher was one of the rediscoverers of the legendary ivory-billed woodpecker, which most scientists believed had been extinct for more than half a century—an event that caused an international stir. Now, in *Imperial Dreams*, Gallagher once again hits the trail, journeying deep into Mexico's savagely beautiful Sierra Madre Occidental, home to rich wildlife, as well as to Mexican drug cartels, in a perilous quest to locate the most elusive bird in the world—the imperial

woodpecker, a giant among its clan. The imperial woodpecker's trumpetlike calls and distinctive hammering on massive pines once echoed through the high forests. Two feet tall, with deep black plumage, a brilliant snow-white shield on its back, and a crimson crest, the imperial woodpecker had largely disappeared fifty years ago, though reports persist of the bird still flying through remote mountain stands. In an attempt to find and protect the imperial woodpecker in its last habitat, Gallagher is guided by a map of sightings of this natural treasure of the Sierra Madre, bestowed on him by a friend on his deathbed. Charged with continuing the quest of a line of distinguished naturalists, including the great Aldo Leopold, Gallagher treks through this mysterious, historically untamed and untamable territory. Here, where an ancient petroglyph of the imperial can still be found, Geronimo led Apaches in their last stand, William Randolph Hearst held a storied million-acre ranch, and Pancho Villa once roamed, today ruthless drug lords terrorize residents and steal and strip the land. Gallagher's passionate quest takes a harrowing turn as he encounters armed drug traffickers, burning houses, and fleeing villagers. His mission becomes a life-and-death drama that will keep armchair adventurers enthralled as he chases truth in the most dangerous of habitats.

at last to the heart of the tale, the creation of fabled Camelot and the love story that enshrined its glory. Whyte takes us into the minds and lives of Arthur, Guinevere, and Lancelot, three astonishing but fallible people who were bound together by honor, loyalty, and love. Three who created the glory that was Britain's shining dream...and, some say, caused its downfall. The Gaulish nobleman Clothar—known in our time as Lancelot—is drawn to the young High King's court by tales of honor and nobility, where he meets a man whose love of law matches his own. More, he finds in Arthur a life-long friend whose dream of uniting the people of Britain in peace Clothar embraces. And Clothar meets Arthur's queen, a wondrous beauty whose passion and ideals match her husband's. Together they work to bring Arthur's dream to life. But dark forces rise in opposition to Arthur's plans for creating this noble island nation and it is hard to tell friend from foe in the swirling chaos that ensues. Many tales have been told of the dream that shined and died. This one will astonish even the most jaded. For many hundreds of years Kazakh nomads have been grazing their livestock near the Altai Mountains in western Mongolia. The Altai Kazakhs are unique in their tradition of using golden eagles to hunt on horseback. The lifestyle of these hunters, known in Kazakh as burtkitshis, is changing rapidly, and over the last few years the award-winning photographer Palani Mohan has spent time with these men and their families, documenting a culture under threat. The special bond between a hunter and his eagle begins when the hunter takes an eagle pup from a nest high on the rock face. The pups are usually about four years old (a golden eagle can live to 30 years of age). It's important that the pup has learned to hunt and is not still dependent on her mother; but neither can she be too old nor experienced, or she will not learn to live with humans. The hunters take only female pups from the nest, as females are larger and more powerful and aggressive than the males. Adult female golden eagles can have a wingspan of up to 9 feet, and weigh over 15 pounds. The eagle pup gradually learns to accept food from the hunter, and once trust has been established, the hunter begins to train the bird. The hunters describe the eagle as part of their family. The eagle takes pride of place in the home most of the time except during the day in the summer months or the warmest part of the day in the winter months. While all the men in the family handle the eagle, only the man who took her from the nest hunts with her. Hunting takes place in winter, when temperatures can plummet to minus 40 degrees Fahrenheit. The birds are carried in swaddling, which the hunters claim keeps them both warm and calm. The strong bond between hunter and eagle is strengthened by the amount of time they spend together. Hunting trips can last many days, as the hunter and eagle trek up to a mountain ridge to obtain a good view across the landscape. Once the

prey – usually a fox – is spotted, the hunter charges towards it to flush it into the open, then releases the eagle to make the kill. Hunters traditionally wear fur coats made from the skins of the prey their eagle has caught. The relationship between hunter and eagle typically lasts six to eight years, then the eagle is released back into the wild to breed. One hunter tells Mohan: ‘You love them as your own, even when you set them free at the end.’ In his book, which comprises an introductory essay and 90 dramatic duotone images, Mohan explains how the burkitshis are slowly dying out. Rather than endure the brutal winters, their children choose to move to the capital, Ulan Bator, for a better way of life. There are also fewer golden eagles in the Altai Mountains. Although the ‘Golden Eagle Festival’ takes place every October to showcase the ancient art of hunting with eagles, attracting tourists from across the world, there are only between 50 and 60 ‘true’ hunters left. This book is therefore a timely, important record of these proud men and their magnificent eagles in a remote, unforgiving part of the planet.

Artemidorus' *Oneirocritica* ('The Interpretation of Dreams') is the only dream-book which has been preserved from Graeco-Roman antiquity. Composed around AD 200, it comprises a treatise and manual on dreams, their classification, and the various analytical tools which should be applied to their interpretation, making Artemidorus both one of the earliest documented and arguably the single most important predecessor and precursor of Freud. Artemidorus travelled widely through Greece, Asia, and Italy to collect people's dreams and record their outcomes, in the process casting a vivid light on social mores and religious beliefs in the Severan age: this volume, published as a companion to the new translation of *The Interpretation of Dreams* by Martin Hammond in the Oxford World's Classics series, aims to provide the non-specialist reader with a readable and engaging road-map to this vast and complex text. It offers a detailed analysis of Artemidorus' theory of dreams and the social function of ancient dream-interpretation, while also aiming to foster an understanding of the ways in which Artemidorus might be of interest to the cultural or social historian of the Graeco-Roman world. Alongside chapters on

Artemidorus' life, career, and world-view, it also provides valuable insights into his conceptions of the human body, sexuality, the natural world, and the gods; his attitudes towards Rome, the contemporary Greek polis, and the social order; and his knowledge of Greek literature, myth, and history. In addition, its accessible exploration of the differences and similarities between ancient traditions of dream-analysis and modern psychoanalytic approaches will make this volume of interest to anybody with an interest in the history of dreams and dream interpretation.

This book, entitled "How to Fly like an Eagle," is a motivational book written by the author in French, Spanish, and English to help people learn the techniques and to get the skills to help them to fly to the top like that bird of prey which is the eagle. In this book, the readers will learn how to overcome obstacles and to cultivate the fruit of persistence which is an essential factor in the process of transformation of desire into its monetary equivalent. The basis of persistence is the power of will. When this power and desire combine correctly, they form an irresistible combination, the perfect one to help you overcome your failures. There are four simple steps which lead to the habit of persistence. This does not require a large amount of intelligence or a special education, but time and minimal effort. The four steps are as follows: 1- A target set backed by a burning desire to achieve it. 2- A definite plan, expressed in continuous action. 3- A closed mind to any negative influence (including negative suggestions of relatives, friends and others). 4- A harmonious agreement with one or more persons, able to lead someone to go forward with the plan and with the goal. These four steps are essential for success in all areas of life. These are the steps with which you can control your economic destiny. These are the steps that lead to freedom and independence of thought, that convert dreams into reality. These are the

steps that lead to the domination of fear, discouragement and indifference. I do not know the situation you are facing currently, maybe you are in a wheelchair, or in a hospital bed and without any hope of survival, maybe you're on the verge of divorce, or you are unable to complete your schooling or university, or find a job. You can now be crawling like a snake or you have broken wings preventing you from being able to fly like an eagle, but one thing is certain, regardless of your economic, family, health situation you can have a better life, develop your potential and fly as high as the eagle above any obstacles or constraints you are facing right now. Of course, this will be possible if you apply the principles to be taught in this book. I testify to you with all my heart that this book has the power to transform the lives of people from nothing to excellence, from the dust of the ground to the top of success. I promise you if you read it, and put the principles into practice, your life will be completely blessed!

Westerners. That was until 1990, when Stephen J. Bodio began planning his trip. As a boy, Bodio was always fascinated with nature. When he saw an image in National Geographic of a Kazakh nomad, dressed in a long coat and wearing a fur hat, holding a huge eagle on his fist, his life was changed from then on. When Mongolia became independent in 1990, Bodio knew that his dream to see the eagle hunters from the picture in National Geographic so many years ago was soon to become a reality. In *Eagle Dreams*, readers follow Bodio on his long-awaited trip to Mongolia, where he spent months with the people and birds of his dreams. He is finally able to visit the birth place of falconry and observe the traditions that have survived intact through the ages. Not only does he get to witness things most people will never be able to, but he's also able to give life to his dreams and the people, landscapes, and animals of Mongolia that have become part of his soul.

of the most beautiful bird in the world -- the eagle, with a lengthy and admiring introduction by Annie Proulx. The Eagle's Shadow traces our love-hate relationship to these "living dinosaurs," from Neolithic rock art and Native American religion through the practices of Kazakh falconers who use them to hunt wolves, and to contemporary art and popular culture. Proulx sums up best the heart of this book: "Those of us who are interested in bird behavior beyond the feeder or the identification guide book find meager pickings when it comes to information. I am fortunate that my house faces a cliff with a river at the base where I can watch raptors, water fowl, and a hundred other species. The nests of a pair of bald eagles and another upriver inhabited by golden eagles are in sight from the breakfast table. I have plenty of books on birds, but the information on why the big eagles do what they do is hard to dig out. Eagle behavior is usually lumped together with the general behavior of the Accipitrids, but a single book focused on the rich lore and sweep of eagledom did not seem to exist... . Bodio's beautifully written and authoritative book, *Eagles*, is a primary source of information as well as an omnium gatherum from literature, film and mythology concerning these large, striking birds."

Stephen Bodio was born and educated in Boston and has lived in a rural New Mexico village for over thirty years. He has traveled extensively in Europe, Africa, and Asia and has written five books.
