But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. 20,000 Collisions Waiting to Happen. That's what faces America's driving population each and every day. No wonder. An exploding population of poorly-trained, overconfident, aggressive drivers cram themselves into a barely-growing network of pavement. That's why crashes shut down parts of our metropolitan arteries almost daily. It's why bad weather always brings a spike in the number of incidents. And it's why driving remains the most dangerous thing most of us do in our lives. The Driving Challenge was written to help reduce the odds that you'll be involved in one of those 20,000 daily collisions. It is drawn from Phil Berardelli's years of painstaking observations and research, and from his own experiences as a reformed aggressive driver. Just as in *Safe Young Drivers*, his acclaimed book for parents and teens, Phil provides sound advice and simple rules that can make a big difference in your safety - starting with the next time you slip behind the wheel. You can be safer and happier on the road. All it requires is a willingness to change - to refuse to accept the status quo on the roads any longer.

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls “grit.” “Inspiration for non-geniuses everywhere” (People). The daughter of a scientist who frequently noted her lack of “genius,” Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she’s learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. “Duckworth’s ideas about the cultivation of tenacity have clearly changed some lives for the better” (The New York Times Book Review). Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is “a fascinating tour of the psychological research on success” (The Wall Street Journal).
