The third Canadian edition of this anthology has been substantially revised and updated for a contemporary audience; a selection of classic essays from earlier eras has been retained, but the emphasis is very much on twenty-first-century expository writing. There is also a focus on issues of great importance in twenty-first-century Canada, such as climate change, the Truth and Reconciliation Commission, the Jian Ghomeshi trial, Facebook, police discrimination, trans rights, and postsecondary education in the humanities. Works of different lengths and levels of difficulty are represented, as are narrative, descriptive and persuasive essays—and, new to this edition, lyric essays. For the new edition there are also considerably more short pieces than ever before; a number of op-ed pieces are included, as are pieces from blogs and from online news sources. The representation of academic writing from several disciplines has been increased—and in some cases the anthology also includes news reports presenting the results of academic research to a general audience. Also new to this edition are essays from a wide range of the most celebrated prose writers of the modern era—from Susan Sontag, Eula Biss, and Michel Foucault to Anne Carson and Ta-Nehisi Coates. The anthology also offers increased diversity of representation—including, for example, a larger proportion of First Nations writers and women writers than previous Canadian editions. Unobtrusive explanatory notes appear at the bottom of the page, and each selection is preceded by a headnote that provides students with information regarding the context in which the piece was written. Each reading is also followed by questions for discussion. A unique feature is

the inclusion of a set of additional notes on the anthology's companion website—notes designed to be of particular help to EAL students and/or students who have little familiarity with Canadian culture. The anthology is accompanied by two companion websites. The student website features additional readings and interactive writing exercises (as well as the additional notes). The instructor website provides additional discussion questions and, for a number of the anthology selections, background information that may be of interest. "HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps:

- Boost reading comprehension
- Improve organizational and study skills
- Enhance speaking abilities
- Develop analytical capabilities

TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content. As seen in military documents, medical journals, novels, films, television shows, and memoirs, soldiers' invisible wounds are not innate cracks in individual psyches that break under the stress of war. Instead, the generation of weary warriors is caught up in wider social and political networks and institutions—families, activist groups, government bureaucracies, welfare state programs—mediated through a military hierarchy, psychiatry rooted in mind-body sciences, and various cultural constructs of masculinity. This book offers a history of military psychiatry from the American Civil War to the latest Afghanistan conflict. The authors trace the effects of power and knowledge in relation to the emotional and psychological trauma that shapes soldiers' bodies, minds, and souls, developing an extensive account of the emergence, diagnosis, and treatment of soldiers' invisible wounds.

Reading *The Immigrants' New Camera: A Family Collection* is like sitting down to a large Italian meal. Maryfrances Wagner's images are seasoned with the immediacy of Kansas City's Little Italy, the family kitchen, the table with its stories, tender, painful, and humorous. The poet's narratives simmer in the richness of the Italian-American experience. Yet, as the best poems do, Wagner's poetry connects the reader to the universal, but with a hint of fresh basil and chopped tomatoes. Al Ortolani, author of *On the Chicopee Spur*

Protest songs had long been part of the heritage of rock - but not like this. "Earth Song's" vision was more panoramic, its roots more primal. Its unusual fusion of blues, opera, rock, and gospel resembled nothing on the radio. A massive hit globally, it wasn't even offered as a single in the United States. Most critics didn't know what to make of it. Yet decades later, it stands as one of Jackson's greatest artistic achievements. In this groundbreaking book, Joseph Vogel traces the song's evolution, from its inception in Vienna in 1988, to its long gestation in the recording studio, to Jackson's final rehearsal in

2009. Situating the song within the historical context of the Reagan, Bush and Clinton eras, the book also explores the artist's broader humanitarian efforts, from his participation in USA for Africa to his Heal the World Foundation. Based on original research, including interviews with the song's key participants, *Earth Song: Michael Jackson and the Art of Compassion* offers a necessary reassessment of this powerful anthem and Jackson's audacious efforts to change the world.

As the general population of Latinxs in the United States burgeons, so does the population of college-going Latinx students. With more Latinxs entering college, the number of Hispanic Serving Institutions (HSIs), which are not-for-profit, degree granting postsecondary institutions that enroll at least 25% Latinxs, also grows, with 523 institutions now meeting the enrollment threshold to become HSIs. But as they increase in number, the question remains: What does it mean to serve Latinx students? This edited book, *Hispanic Serving Institutions (HSIs) in Practice: Defining "Servingness" at HSIs*, fills an important gap in the

Access Free Drone Detectives Sara Margo Adventure Series Volume 2

literature. It features the stories of faculty, staff, and administrators who are defining “servingness” in practice at HSIs. Servingness is conceptualized as the ability of HSIs to enroll and educate Latinx students through a culturally enhancing approach that centers Latinx ways of knowing and being, with the goal of providing transformative experiences that lead to both academic and non-academic outcomes. In this book, practitioners tell their stories of success in defining servingness at HSIs. Specifically, they provide empirical and practical evidence of the results and outcomes of federally funded HSI grants, including those funded by Department of Education Title III and V grants. This edited book is ideal for higher education practitioners and scholars searching for best practices for HSIs in the United States. Administrators at HSIs, including presidents, provosts, deans, and boards of trustees, will find the book useful as they seek out ways to effectively serve Latinx and other minoritized students. Faculty who teach in higher education graduate programs can use the book to highlight practitioner engaged scholarship. Legislators and policy advocates, who fight for funding and support for HSIs at the federal level, can use the book to inform and shape a research-based Latinx educational policy agenda. The book is essential as it provides a framework that simplifies the complex phenomenon known as servingness. As HSIs become more significant in the

U.S. higher education landscape, books that provide empirically based, practical examples of servingness are necessary.

Experience the uplifting, "unforgettable" New York Times bestseller about an abandoned kitten named Dewey, whose life in a library won over a farming town and the world--with over 2 million copies sold! (Booklist) Dewey's story starts in the worst possible way. On the coldest night of the year in Spencer, Iowa, at only a few weeks old--a critical age for kittens--he was stuffed into the return book slot of the Spencer Public Library. He was found the next morning by library director Vicki Myron, a single mother who had survived the loss of her family farm, a breast cancer scare, and an alcoholic husband. Dewey won her heart, and the hearts of the staff, by pulling himself up and hobbling on frostbitten feet to nudge each of them in a gesture of thanks and love. For the next nineteen years, he never stopped charming the people of Spencer with his enthusiasm, warmth, humility (for a cat), and, above all, his sixth sense about who needed him most. As his fame grew from town to town, then state to state and finally, amazingly, worldwide, Dewey became more than just a friend; he became a source of pride for an extraordinary Heartland farming community slowly working its way back
