Political Terrorism Grant Wardlaw,1989-11-23 This work outlines the important considerations of policy that confront a democratic state in trying to combat terrorism and at the same time remain democratic. Part I of this book, provides the reader with a comprehensive introduction to the definition, history, theory, operation and effects of terrorism as an essential background to policy analysis. Part II analyses counter-terrorist policies. It begins by outlining basic policy choices and then looks at specific policy areas such as the role of intelligence agencies, the use of the armed forces, the development of anti-terrorist legislation and international treaties, and the issue of regulation of media reporting of terrorist incidents. Developments in the strategic dimension of terrorism are discussed in chapters on the importance of hostage takings to international terrorism and issues surrounding state involvement in international terrorism. In the preparation of this second edition, Grant Wardlaw has considerably expanded the second part of the book, focusing firmly upon the international policy consequences of prevalent developments within international terrorism.

*Hadrian and the Christians* Marco Rizzi,2010-09-22 The Second Century occupies a central place in the development of ancient Christianity. The aim of the book is to examine how in the cultural, social, and religious efflorescence of the Second Century,to be witnessed in phenomena such as the Second Sophistic, Christianity found a peculiar way of integrating into the more general transformation of the Empire and how this allowed the emerging religion to establish and flourish in Graeco-Roman society. Hadrian's reign was the starting point of that process and opened new possibilities of self-definition and external self-presentation to Christianity, as well as to other social and religious agencies. Differently from Judaism, however, Christianity fully seized the opportunity, thus gaining an increasing place in Graeco-Roman society, which ultimately led to the first Christian peace under the Severan emperors. The point at issue is examined from a multi-disciplinary perspective (including archaeology, cultural, religious, and political history) to challenge well-established, but no longer satisfactory, historical and hermeneutical paradigms. The contributors aim to examine institutional issues and sociocultural processes in

their different aspects, as they were made possible on Hadrian's initiative and resulted in the emergence of early Christianity into the Roman Empire.

*Studies in Religious Fundamentalism* Lionel Caplan,1987-01-01 This book examines the specific circumstances that nurture fundamentalist beliefs and practices. It studies contemporary fundamentalist developments in several continents, involving groups associated with five major religions. The authors answer important questions regarding the 'rationality' of fundamentalism, its complex link with modernism, the nature of its relationship to a sacred text, and its perspectives on history and knowledge. No fixed set of qualities defines fundamentalism. Since it implies a view of the universe and a discourse about the nature of truth, it encompasses and transcends the religious domain. For that reason, every movement or cause is potentially fundamentalist.

Cento lettere a uno sconosciuto Roberto Calasso,2013-07-03T00:00:00+02:00 Un programma editoriale nasce inevitabilmente dal disegno e dal caso - e finisce per configurarsi come un mondo possibile. E i mondi variano per bellezza, ricchezza, vivibilità. Questo libro è una prima guida a quel mondo possibile che si è manifestato in una foresta di pagine sotto il nome Adelphi: circa millecinquecento titoli a partire dal dicembre 1963. E nel corso di quarant'anni numerosi lettori hanno notato come, a tenere insieme questi libri, ci sia qualcosa, un legame tenace, che va oltre la qualità. Questo legame tenace abbiamo tentato di indicarlo fin dall'inizio, per quanto possibile in modo esplicito, nell'unica forma in cui l'editore accompagna ogni singolo libro: il risvolto di copertina. Che è poi il luogo dove i motivi che hanno dettato la scelta di quel libro dovrebbero apparire e rivelarsi ogni volta al lettore, il quale è sempre innanzitutto uno sconosciuto. Fra gli oltre mille risvolti che ha scritto, Roberto Calasso ha isolato quei cento che più gli sembravano capaci di una vita indipendente, e li ha inanellati come altrettante «lettere a uno sconosciuto».
