It is well known the standard HNN suffers from problems of convergence to local minima, and requirement of a large number of neurons and synaptic weights. Therefore, improved solutions are needed. The non-linear synapse neural network (NoSyNN) is one such possibility and is discussed in detail in this book. This book also discusses the applications in computationally intensive tasks like graph coloring, ranking, and linear as well as quadratic programming. "Hands-down the best human-with-dog memoir you will ever read!" —Bark Magazine In this rich, humorous and insightful memoir, critically-acclaimed author Lee Harrington shares her story of love, loss, dysfunctional relationships, and the shelter dog who put things right. In 1997, New York City hipsters Lee and Ed were at a crossroads. Money was tight, their careers were floundering, their apartment was tiny, and their relationship, frankly, was dysfunctional. Then, on a fateful day in August, they decided on impulse to visit a nearby animal shelter, just to "look at" dogs. In a split-second decision that would change their lives, they brought home Wallace. They quickly realized that this spaniel mix was more than they could handle—he was aggressive, fearful of humans, and seemingly untrainable. Faced with overwhelming new responsibilities, the couple bickered constantly, worried incessantly, and disagreed on nearly every aspect of how to handle the dog. But the one thing they could agree on was that they loved Wallace. And slowly but surely, this love helped transform both the dog and their relationship. And thus, by rescuing an abused spaniel, they ended up rescuing themselves. Funny and heartfelt, this memoir chronicles a couple's changing outlook on their relationship, on their city, and on life through Wallace. Rex and the City will resonate with everyone who has ever loved their four-legged friend. "A sweet and exquisite story . . . that should appeal to urban dog lovers and New Yorkers." —Publishers Weekly (starred review)

Recognising strangeness in familiar objects, the present in the past, the construed in what is authentic -- the four masterly photographers show excerpts from our world in which the boundary between reality and imagination becomes blurred. From fleeting everyday scenes to mysterious happenings and historical events, they reveal a complex and multi-layered reality. Thomas Demand, Philip-Lorca diCorcia, Andreas Gursky and Jeff Wall use the proximity to reality and the momentary nature of photography in order to create their idiosyncratic viewpoints of reality. What is real? They play with the viewers' perceptions, irritate and invite them to an individual interpretation of what is shown. This exclusive volume presents the works of the stars of the contemporary international photography scene magnificently and in clearly narrated texts.

In an era of standards and norms where assessment tends to minimize or dismiss individual differences and results in punitive outcomes or no action at all, *Assessment of Young Children* provides teachers with an approach to assessment that is in the best interest of both children and their families. Author Lisa B. Fiore explores a variety of ways to study and assess young children in their natural environments, while stressing the importance of bringing children and families into the process. This lively text helps the reader learn how to cultivate developmentally appropriate practice, create appropriate expectations, examine children's work, interact in groups, and improve their teacher behavior. Accounts of real experiences from children, families, teachers, and administrators provide on-the-ground models of assessment strategies and demonstrate how children are affected. *Assessment of Young Children* explores both standardized and authentic assessment, work sampling systems, and observation skills. Readers will walk away with strategies for communicating information about children and portfolio assessment, and how the use of formal and informal methods of observation, documentation, and assessment are connected to teacher and student inquiry. *Assessment of Young Children* encourages an assessment strategy where the child remains the focus and explores how collaboration with children, families, and colleagues creates an image—not a diagnosis—of the child that is empowering rather than constraining. Special Features Include: Case Study examples that anchor the concepts presented in the chapters and engage readers more deeply in the content. "Now what?" and "Avenues for Inquiry" throughout the book present students with concrete extensions of the material that they may pursue for further investigation

The Pulitzer Prize-nominated author of *Little Big Man* returns with perhaps one of his most imaginative alternate realities yet: a matriarchal society. Women reign supreme in the not-so-distant future, where Georgie Cornell has no choice but to wear the high heel shoe on the other foot. Swept into the chaotic world of publishing, he is at the mercy of his female bosses, especially if his pencil skirt is an inch too short. Georgie only has one male coworker he can lean on for a bit of support, and his friend Charlie's fascination with gender roles borders on the scandalous for Georgie's taste. Still, when Georgie loses his job it's Charlie he turns to for comfort. Spilling a drink on his expensive dress, he has no choice but to wear the women's clothes Charlie keeps in secret on the way home. The simple journey quickly turns chaotic when Georgie is taken in by the police for the crime of being a transvestite. A prison escape is only the start of this piercing, insightful, and prescient look at gender norms. "Imagined with such ferocity and glee that we assent to it almost in spite of ourselves . . . A brilliant accomplishment by one of our best novelists." —The New York Times Book Review

Ronney is an introverted young woman with a disgraceful appearance. She lives humbly in one of the poorest neighborhoods of Sheryl Valley, a town corrupted by the mafia in Southern California. With no diploma, she works hard in her parents' restaurant and provides voice-overs for children's animated movies during the weekend. The Khans' reputation precedes them, rumored to be in association with the mafia. But when Ronney knocks on the door, before she has the chance to run, the Khan family matriarch, Camilia, takes an interest in Ronney. Ronney's lack of conventional beauty and disinterest in fashion draws Camilia in, leading her to offer Ronney the position of personal assistant to her eldest son, Yeraz, with a substantial salary at stake. It's an offer Ronney cannot refuse. To keep her job, Ronney's task is simple: do not fall in love with Yeraz. "Easy," she thinks. But what if destiny decides otherwise? At the height of Tim Maia's soaring fame, he joined a radical, extraterrestrial-obsessed cult and created two plus albums of some of Brazil's--and the globe's--best funk and soul music. This book explores the career of the man often hailed as the James Brown or Barry White of Brazil, and the time of his radical transformation from a musician notorious for hedonistic living to a devoted follower of Manoel Jacinto Coelho's Rational Culture. After suddenly joining Coelho's cult in 1974 (which started first as an offshoot of the mystical Afro-Brazilian religion Umbanda), Maia gave up drugs and alcohol, threw away his material possessions, and released Racional Vols. 1 & 2 in the attempt to convert the entirety of Brazil and the world to the revelation of Rational Culture. Thayer explores this strange, brief, yet incredibly prolific period of Maia's life wherein the reigning soul and funk artist of Brazil produced two albums, an EP, and a recently unearthed tape containing almost another full album of funky jams laced with spiritual content and scripture. For just as quickly as Maia became entranced with Coelho did he become disillusioned with the cult, disavowing and destroying everything having to do with that experience and refusing to speak of it for the rest of his life. 33 1/3 Global, a series related to but independent from 33 1/3, takes the format of the original series of short, music-based books and brings the focus to music throughout the world. With initial volumes focusing on Japanese and Brazilian music, the series will also include volumes on the popular music of Australia/Oceania, Europe, Africa, the Middle East, and more. In October 1939, Albert Einstein warns President Franklin D. Roosevelt that Nazi Germany is actively pursuing an atomic bomb and urges him to make sure that the United States develops the bomb first. Roosevelt heeds the warning and launches the "Manhattan Project" in June 1942.

Like *The Group*, Mary McCarthy's classic tale about coming of age in New York, Joanna Smith Rakoff's richly drawn and immensely satisfying first novel details the lives of a group of Oberlin graduates whose ambitions and friendships threaten to unravel as they chase their dreams, shed their youth, and build their lives in Brooklyn during the late 1990s and the turn of the twenty-first century. There's Lil, a would-be scholar whose marriage to an egotistical writer initially brings the group back together (and ultimately drives it apart); Beth, who struggles to let go of her old beau Dave, a onetime piano prodigy trapped by his own insecurity; Emily, an actor perpetually on the verge of success -- and starvation -- who grapples with her jealousy of Tal, whose acting career has taken off. At the center of their orbit is wry, charismatic Sadie Peregrine, who coolly observes her friends' mistakes but can't quite manage to avoid making her own. As they begin their careers, marry, and have children, they must navigate the shifting dynamics of their friendships and of the world around them. Set against the backdrop of the vast economic and political changes of the era -- from the decadent age of dot-com millionaires to the sobering post-September 2001 landscape -- Smith Rakoff's deeply affecting characters and incisive social commentary are reminiscent of the great Victorian novels. This brilliant and ambitious debut captures a generation and heralds the arrival of a bold and important new writer.
