Sometimes I Lie Alice Feeney,2018-03-13 My name is Amber Reynolds. There are three things you should know about me: 1. I'm in a coma. 2. My husband doesn't love me anymore. 3. Sometimes I lie. Amber wakes up in a hospital. She can't move. She can't speak. She can't open her eyes. She can hear everyone around her, but they have no idea. Amber doesn't remember what happened, but she has a suspicion her husband had something to do with it. Alternating between her paralyzed present, the week before her accident, and a series of childhood diaries from twenty years ago, this brilliant psychological thriller asks: Is something really a lie if you believe it's the truth?

The Sense of an Ending Julian Barnes,2011-10-05 BOOKER PRIZE WINNER • NATIONAL BESTSELLER • A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly present. A novel so compelling that it begs to be read in a single sitting, *The Sense of an Ending* has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

Transforming the Workforce for Children Birth Through Age 8 National Research Council,Institute of Medicine,Board on Children, Youth, and Families,Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success,2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the

fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

936 Pennies Eryn Lynum,2018-02-06 Make the Most of Your Time with Your Children On the day of their baby dedication, Eryn and her husband were given a jar of 936 pennies. The jar contained a penny for every week they would raise

their child until graduation, and they were instructed to remove one penny each Sunday as a reminder, placing it into another jar as an investment. At some point every parent realizes time is moving swiftly, and they ask themselves, How am I investing in my child? Through personal stories and biblical examples, 936 Pennies will help you discover how to capture time and use it to its fullest potential, replacing guilt and regrets with freedom. Meanwhile, your kids will see how simple choices, like putting the cell phone down and going on a family hike, will make all the difference. Together you will stretch time and make it richer. Craft a family legacy in tune with God's heartbeat as you capture a new vision for your children and learn the best ways to spend your pennies.
