When first invited to give talks and demonstrations on carving techniques to school children, Howard K. Suzuki quickly found out that wood was not the most suitable medium. It took too long to show much progress in the limited time available. He decided to use bars of soap to demonstrate basic techniques on carving and sculpturing. Soap is an inexpensive and very desirable carving medium. Soon demonstrations developed into hands-on experiences for his students. In this book, Dr. Suzuki describes and illustrates with color photographs how to make safe and simple wooden carving tools. He demonstrates basic soap-carving techniques using several stepwise how-to examples, from a simple heart to a more complex turtle. Dr. Suzuki integrates art and science into his instructions and combines them to produce a super learning experience for children (of all ages) who do learn to carve through his methods.

A delightfully Danish guide to whittling for the home, crammed with projects for all ages and abilities. Our interest in the simple but satisfying art of whittling has never been higher. Our Danish-inspired book on whittling (snitte in Danish) has a range of wonderful simple whittling projects for the home. The beautiful Scandinavian projects range from simple wooden toys for children, including a bird whistle, ring catcher, animal figures and a wooden sword to practical items like door hooks, butter knives and then to decorative pieces such as a wooden necklace, buttons, delicate carved flowers and a chess set. All the projects are amazingly simple, and with the visual step-by-step technique section at the front of the book, even a beginner could take on these projects. The art of whittling has never been more accessible and these beautiful but simple projects capture the spirit of the Scandinavian love of craft and nature. Author and Danish craftsman Frank Egholm shares not only his considerable knowledge but also his passion for simple wooden carving.

Do you find yourself drawn to wooden art carved with knives and wishing that you can create all the amazing projects you see each day? Do you want a step by step guide on how to get started with whittling to carve out awesome projects in no time? If so, then read on... Have you ever picked up a piece of wood and had that sudden moment where it is as though your mind opened up and you had a rush of inspiration on how to turn that wooden piece into something beautiful? If you have had these feelings, or you are simply interested in wood carving but do not know where to start, there's good news for you. Wood carving can sometimes seem overwhelming. With all the hardware required, maneuvering of wood and high skills deployed to create amazing artworks out of wood, it can sometimes look like a too daunting task for you to approach. But what if there was a way for you to satisfy your desire to create stunning pieces out of wood without having to go through the long and tedious process of cutting, drilling holes, and fighting with heavy machinery? The way around this would be to get started with whittling. Although not as elaborate as full-blown wood carving, whittling is a process of creating amazing artworks and utilities out of wood, with the aid of smaller tools that are easily obtainable. This implies that with some patience, attention to detail, a whittling knife, and some time, you will be able to create simple woodwork that is both beautiful and useful to you. Classic and innovative hands-on projects for kids ages 3 and up designed to teach both heritage skills and how to think creatively. Handcraft is part of human nature: we build, we create, we innovate. The 20+ projects in this book from an experienced art educator weave a story of human innovation and creativity, from the very beginnings of building shelters in the woods to tinkering with recycled materials. Heritage skills teach children how to be independent and capable makers; fiber and wood projects offer rewarding crafts that also teach planning, preparation, and safe risk taking; and tinkering activities connect the low-tech process of making and doing with innovation. From soap carving and knot tying to building toy cars and junk robots, this book brings the fun of making things with your hands to young kids and links skills of the past with the present. The book also explores how to set up a maker space and teaches foundational

workshop practices that can easily be applied to the home studio. Each project offers extensions for different ages and abilities and provides guiding questions to enrich the experience for both the maker (teacher/parent) and the apprentice (child) to encourage and celebrate creative, practical play.
