"Advanced Statistics in Research: Reading, Understanding, and Writing Up Data Analysis Results" is the simple, nontechnical introduction to the most complex multivariate statistics presented in empirical research articles. "wwwStatsInResearch.com," is a companion website that provides free sample chapters, exercises, and PowerPoint slides for students and teachers. A free 600-item test bank is available to instructors. "Advanced Statistics in Research" does not show how to "perform" statistical procedures--it shows how to read, understand, and interpret them, as they are typically presented in journal articles and research reports. It demystifies the sophisticated statistics that stop most readers cold: multiple regression, logistic regression, discriminant analysis, ANOVA, ANCOVA, MANOVA, factor analysis, path analysis, structural equation modeling, meta-analysis--and more. "Advanced Statistics in Research" assumes that you have never had a course in statistics. It begins at the beginning, with research design, central tendency, variability, z scores, and the normal curve. You will learn (or re-learn) the big-three results that are common to most procedures: statistical significance, confidence intervals, and effect size. Step-by-step, each chapter gently builds on earlier concepts. Matrix algebra is avoided, and complex topics are explained using simple, easy-to-understand examples. "Need help writing up your results?" Advanced Statistics in Research shows how data-analysis results can be summarized in text, tables, and figures according to APA format. You will see how to present the basics (e.g., means and standard deviations) as well as the advanced (e.g., factor patterns, post-hoc tests, path models, and more). "Advanced Statistics in Research" is appropriate as a textbook for graduate students and upper-level undergraduates (see supplementary materials at StatsInResearch.com). It also serves as a handy shelf reference for investigators and all consumers of research.

The candid, revealing, hilarious, and inspiring memoir of the iconic star of the Hellboy movies, Beauty and the Beast, and Sons of Anarchy

Upton Sinclair, one of America's foremost and most prolific authors, addresses the cultivation of the mind and the body in this 1922 volume. Sinclair's goal was to attempt to tell the reader how to live, how to find health, happiness and success, and how to develop fully both the mind and the body. Part One: The Book of the Mind covers such subjects as faith, reason, morality, and the subconscious. Part Two: The Book of the Body develops such subjects as errors in diet, the fasting cure, food and poisons, work and play, and diseases and their cures .

Our lives are spent watching the clock. We go to sleep by it. Wake up to it. Rely on it. Race it.It's easy to forget that we're only given so much.We ignore it because we're convinced we'll always have more.I am proof that we aren't promised anything.The clock owes us nothing.I know this because not only was Time my name, I wasn't given enough of it.Sure I had challenges but I vowed to make the most of it, of my young life.My limitations wouldn't hold me back.Time was on my side.Then I was told otherwise.Now the clock was working against me.I would face this disease alone.Then he walked in and changed everything.He gave me a reason to fight.He helped me prepare.Like others before me, when time slowed I wasn't ready.I begged for more.But the clock, it stopped for no one.On the day my world went black, I refused to take him with me.Only he didn't listen.I was a doctor.A bringer of bad news.I read the chart.She was fucked.My hands, they were tied.I was a doctor who could not heal what was beyond that door.I had no hope to offer her.But I wanted this over with.The sooner the better.I walked in, looked up and saw color.Not one.All of them.They surrounded her.She was a patient.You did not cross that line.I would not cross that line.I should have kept my eyes closed.Life was easier when you didn't see.But they were open now.They saw her.They saw everything.Suddenly invisible lines ceased to matter.For me, Time mattered.How far would you go to make sure the one you loved had enough of it?Would you challenge the clock?Help them prepare?Could you watch them suffer?Could you accept a life without them in it?Or, would you follow them into the darkness?I did. This is our story.

In high school, everyone's talking about college. What to do. Where to go. Why it's important. Classes are given on it. Books are written about it. But details get left out. Every year, college graduates learn this the hard way as they step into adulthood. I was one of them. After earning a four-year degree, I went through two of the worst years of my life. Not that my situation is unique. I am a part of a generation that was told to go to college first and sort out the details later. Most of us did. We chased the promise of a big shiny future, and we ended up being chased by the mistakes of our past. That's not to say we completely regretted going. This book isn't a list of privileged millennial complaints. It's a collection of wisdom gained in less than pleasant ways. It's a story of hardship, failure, victory, and perseverance. It's all of the things we wish someone had told us. And it takes place before college, in college, after college, and without college. This is the wild, painful, awkward, hilarious, depressing, & beautiful journey from youth to maturity. This is the college book that no one ever gave us.

His obsession with the past threatens to destroy his stable life. Meanwhile, Sarah and her father, Tristan, continue to combat the lingering discord that developed between them years before but refuse to take their main focus from Daniel. As he reviews his biological father's efforts to be a good man, Daniel searches for a way to comprehend shocking disclosures. He questions his own goodness as he fights not to emotionally withdraw from those around him, especially the two people he knows will always love him, Sarah and Tristan.

Our choices seal our fate. Hannah Reed is about to learn just how important one little decision can be. Hannah's plans for a nice, quiet senior year of high school are rapidly disintegrating. It all starts when she innocently bursts in on Ethan Flynn in the change room of the clothing store where she works. Ethan's presence in Hannah's world is subtle but constant, and when he saves her life, they become linked by the workings of an ancient society and Ethan's sworn duty to protect Hannah. Working together to figure out what destiny wants with Hannah, the two of them stumble on a baffling mystery that leaves even Ethan questioning what is in store for her future. With Ethan's help, Hannah learns there is far more to this life, to her life, than she ever realized. As they attempt to untangle Hannah's unique past and emerging abilities, an unknown danger from Ethan's past looms ever closer. While racing to put together the pieces of the puzzle before it's too late, Hannah wrestles with the idea that she is anything but average, and that perhaps she is also more to Ethan than just a job. Hleo is the first book in the series with the same name. A story of destiny and how one decision can change everything. When you buy a copy of Hleo, your one decision also has the ability to change the lives of others across the globe. \$3.00CAD from every copy of Hleo purchased goes towards the amazing efforts of the Because I am a Girl Education initiative. Fighting to bring literacy and safe learning resources to girls living in some of the poorest nations in this world.

A Collection of Matt Shaw's heartbreaking dramas Matt Shaw does not just write horror. In fact, when asked what his favourite books are, he often names the tales collected within this set. Stories of heartbreak, loss and grief - all with an element of hope... A hope we often forget when dealing with grief. Contained within this collection *Heaven's Calling BOY: Built to Love The Missing Years of Thomas Pritchard* (unpublished short story) *Alone Heaven's Calling Josh and Holly* could face anything thrown at them all the time they had each other. Their love would conquer anything and the world was their oyster. But when a tragic accident tears Josh away from Holly she realises that, without her husband, she cannot cope and her world begins to crumble; her loss being more than she can handle. Until, that is, she receives a phone call. Her late husband. The same time every day; he doesn't appear to know what has happened to him and Holly can't bring herself to tell him. She isn't even sure if it really is him calling or whether it's all in her tormented mind. Especially seeing as the calls only happen when she is alone. Is it all in her head, has she gone mad, or is heaven really calling? *Boy: Built to Love* No parent should have to bury their own child and yet that was exactly what they had to do. Stillborn; a young boy never to open his eyes to take in the world around him. And now Lucy and Jack's marriage was on the verge of crumbling under the strain of the grief they struggled to cope with. A grief made worse when the doctors tell them they'll never be able to have a child of their own due to complications from the last pregnancy. But what if it didn't have to be that way? What if there was a way of using science and technology to create a son they could love? What if Jack was able to use Artificial Intelligence to create *A Boy: Built to Love*? Is the answer to their problems to be found within the world of science-fiction or are they setting themselves up for yet more grief and sadness? *The Missing Years of Thomas Pritchard* August 3rd. 6:03am. The tranquil summer's morning was shattered by the desperate screams of Thomas' mother echoing down the near deserted suburban street. The few people milling about outside getting ready for their daily business had said they couldn't make out what the cries were about when they were interviewed. Not initially. Not until Anne, a pretty woman in her early thirties with shoulder length blonde hair, spilled out onto the street wearing nothing more than her dressing gown and slippers anxiously calling out for her five year old son, Thomas, to come out from wherever he was hiding. Eye witnesses reported Anne was closely followed by her husband Bill - a professional, clean-shaven man in his late thirties with dark, short hair - half dressed for work in his suit trousers and unbuttoned white shirt, and that he too looked just as frantic as the mother did. The year was 2003; the year Thomas disappeared from his home without a trace. \* \* \* \* \* August 3rd. 6:03am. A young, fragile looking hand knocked confidently on the white PVC of the front door to number twenty-two. The hand belonged to a smartly dressed, skinny fourteen year old, fresh-faced boy. Whilst waiting for an answer to his knocking he slid a brown leather satchel off his shoulder down onto the floor as though the weight was too much for him to bear any more. He went to knock again but stopped himself when he heard the sound of footsteps from the other side of the door as the freshly woken homeowner came to answer his initial knocking. There was the slightest of pauses as keys were twisted in locks before the door opened as much as the strong, gold, security chain would permit it to. "Can I help you?" asked the homeowner, a frail looking woman in her late sixties. "Where's my mum?" asked the boy. The year was 2012; the year Thomas came home.

Another body in a string of ritualistic murders. A serial killer who's getting cocky. Detective Derek Childress thinks this day just can't get any worse. And then he meets his new partner. Investigator Kayle Perrine is a Variant: one of several races of once-thought mythical creatures who now live among and lord-over humankind. Led by a group of vampires called the Clan Gentry, the Variants protect their own, just as they did when Derek's previous partner was killed by one, nearly a year ago. Now that Perrine's on the case, Derek expects a cover-up. Kayle Perrine has worked his whole life to prove himself, but being paired up with a boorish mundane like Derek Childress is feeling more like punishment than reward. Derek is so blinded by his prejudice against Variants, that he refuses to see the evidence Kayle finds blatantly obvious. The sooner Kayle can close this case, the sooner he can go back home and forget about the infuriating human detective. A brutal attack forges a fragile truce between the two men, driving them together. Derek and Kayle must learn to trust and depend on each other while tempers flare and passions of every kind run hot between them. Yet as they begin to grow closer, one fact continues to keep them apart: they are from different worlds. With time running out to solve this case, Derek and Kayle understand that love may not be enough to overcome prejudice, politics, and murder.

Gregory the Great was pope from 590-604 and left behind a substantial literary heritage. His most ambitious work and one of the most popular works of scriptural exegesis in the middle ages was the Moralia in Job, commenting the book of Job in 35 books running to over half a million words. Saint Gregory's Commentary on Job was written between 578 and 595, begun when Gregory was at the court of Tiberius II at Constantinople, but finished only after he had already been in Rome for several years. This is Volume 1 of 3 - containing Books 1-10

The engaging, passionate, always-honest, and often-hilarious memoir of actor Ron Perlman--his triumphant story of perseverance and determination navigating the slippery slopes of Hollywood, with a foreword by Guillermo del Toro Ron Perlman was a kid who had a myriad of self-image issues, yet he triumphed in an industry that trades on image and self-confidence. He landed a leading role in Quest for Fire. He won a Golden Globe for Beauty and the Beast. And he played the title role in two Hellboy movies, becoming along the way an icon among sci-fi and comic book fans worldwide. Although his name may be unknown to some, most people know Ron Perlman's face, despite the fact that for nearly half his career he's been disguised under feature-altering foam-rubber prosthetics. On his offbeat path to success, Ron has amassed nearly 200 stage, TV, voiceover, and major motion picture credits, including roles in Drive, Pacific Rim, and a six-year gig as the badass biker boss Clay Morrow in Sons of Anarchy. In Easy Street (the Hard Way), Ron shares his life story, starting with his up-by-your-bootstraps background in New York's Washington Heights. His father, a Swing Era drummer, gave up his dream in order to feed his sons while his mother worked as a municipal clerk. Ron's hard-earned road to Easy Street included bouts of abject poverty, heartbreaking familial episodes, and a long, often uncomfortable struggle for self-acceptance. He sheds light on his life as a working actor and also offers behind-the-scenes insight into the working styles of internationally famous directors, including Jean-Jacques Annaud, Jean-Pierre Jeunet, and Guillermo del Toro (Hellboy and Academy Award-winning Pan's Labyrinth). He provides his own peek into Hollywood, up close and personal, where he has encountered the likes of Marlon Brando, Sean Connery, Frank Sinatra, Sammy Davis, Jr., and others. Plus, he turns his eye on the trajectory of American culture--the good and the bad--as observed by a man who started out in a mom-and-pop world where the arts were disseminated by individuals rather than corporations. Easy Street (the Hard Way) will inspire anyone who has ever dared to dream and offers a roadmap to the next generation of dreamers.

Beauty and the Beast may be a tale as old as time, but never has it been more imaginatively told than in the 1987-1990 live action television series created by Ron Koslow. The concept has a noble lion-man,

Vincent (Ron Perlman), a member of a vast wondrous community located beneath the streets of Manhattan, who saves the life of New York socialite turned assistant district attorney Catherine Chandler (Linda Hamilton). As he nurses her back to health, a connection is formed between them that drives the rest of the series as their worlds intertwine, exploring their love and the darker underpinnings of society. For the series' 25th anniversary, the author looks back at the making of the series, beginning with profiles of Hamilton and Perlman. His research continues with a behind-the-scenes look at every episode through the eyes of the various writers and directors who helped bring it to life, among them George R.R. Martin, creator of Game of Thrones; and the team of Howard Gordon and Alex Gansa, creative minds behind Homeland. Together, they recount struggles with the network, (including fears regarding the Catherine/Vincent romance), the challenge of changing creative course in response to declining ratings, and being forced to completely reconceptualize the series when Hamilton departed at the end of season two and they struggled with how to produce the show without a leading lady to portray Beauty. Discover the magical, enthralling history of the imaginative series in a richly researched work that captures the glamour, excitement, and back stories never before told. About the Author: Edward Gross is an entertainment journalist, who has served on the editorial staff on a number of magazines and web sites. He is currently executive editor of Movie Magic and Life Story magazines, a regular contributor to SciFi Now and Geek, and the author of numerous nonfiction works covering film and television.

The United States, once upon a time not long ago, was filled with family farms. You could walk along a country road and pass family after family. They'd maybe be working in the fields or around in the yard. They might be lounging on the porch drinking sweet cold tea. No big operations on houseless land, no amalgamations, no paved roads, no total efficiency, just home. They'd wave, and you'd wave. Growing fills a child's day all the way up. Years later we might -- or might not -- remember what was happening in the big world. Like the Great Depression, which (for some) was gone. And World War II, fought by Americans (mostly farm boys) far from home. In the 1940s, a child was growing up hungry to learn. She already knew that mules, herd dogs, and turkey gobblers don't like children but nanny goats and little dogs do, that bare feet are best, and that money is 'way less important than freedom and good grownups. Soon as she could read and print, she filled a dime-store diary every year. Each had a tiny clasp and key. At the end of summer 1949 she unlocked her diaries and found them tricky to read but full of true-to-life telling about animals, clashes, bravery, tangles, crops, shadows, lightning bugs and lightning. She spent 4 months translating their jumble into 20-some notebooks. Being in school by now and seeing differences, she added fierce defenses of feed-sack playclothes, outdoor toilets, and country ways. Being so young, the child couldn't grasp these further challenges of the 1940s: Farms are where the Great Depression hit first and gripped longest. Family farms depend on people who belong on the land, who brave its uncertainties. Those people are not considered good credit risks. Others without a clue how valuable farm life can be might get title. This means the ones with the most to lose often lose. Far more Americans went to war from farms than cities. Many came home eager to take up the lives they laid down. But post-war farmland could be bought up cheap by outsiders. On this confusing new battleground, who is the enemy? The Depression and the Duration combined to teach a dangerous double lesson: Take life day by day. Don't look too far forward. MINERAL SPRINGS ROAD 1940s is a little girl's notebooks, put together and expanded from memory. Its characters are tame, half-tame, and wild. At age not-quite-10, she's only half-tame herself, and too busy growing to realize how much she knows. Some chapters in her book: Reddish-Goldilocks Walking-Distance People How We Got Toby Pee Dee Country Nanny and the Soft Top Cap's Luck How Not To Ride a Mule Day of the Mad Fox The Army Air Base, the WAC, and Lassie Darlington Auction Market The Mint-Green House Storm, Lightning, Fire and Rain The Smell of Singed Fur The Mineral Spring Red Leather Pony And the last -- 28 December 1949 MINERAL SPRINGS ROAD 1940s is first in M B Spears' planned series MEMORY IS MY NAME.
