Over a 200-year period thousands of newspaper reports, town and county histories, letters, photos, diaries, and scientific journals have documented the existence of an ancient race of giants in North America. Extremely large skeletons ranging from 7 feet up to a staggering 18 feet tall have been reportedly uncovered in prehistoric mounds, burial chambers, caves, geometric earthworks, and ancient battlefields. Strange anatomic anomalies such as double rows of teeth, horned skulls, massive jaws that fit over a modern face, and elongated skulls have also been reported. Many of these discoveries were sent to the Smithsonian Institution in Washington D.C., seemingly never to be heard about again. The Smithsonian's own records describe at least 17 giant skeletons in annual reports. This book examines a possible cover-up initiated by Smithsonian scientists starting in the late 1800s. The origins of "the tall ones" has been shrouded in mystery for centuries, but this book reveals where they came from, why they got so large, and the reason for their downfall, using the latest scientific research, genetic data, native myths, news reports, and ethnological research. This has become one of the most gripping stories of the last few centuries and for the first time the truth of the giants of North America has been revealed. This book also reveals: How early explorers to America witnessed these giants firsthand, including Sir Francis Drake, John Smith and even some of the early presidents; Legends and myths that talk of cannibalistic, red-haired giants; Strange inscriptions, metal armor, mummified remains, and sophisticated technologies buried with the skeletons; How secret societies such as the Rosicrucians, Freemasons and Theosophists all claim the existence of giant humans in the past as historical fact in their literature; and How the giants may be connected to the Denisovans from Siberia, the Nephilim of Bible tradition, and other ancient cultures.

They call me Sundown; this is my life story. I was a miracle baby who grew up to become one of the longest active members and leader of one of the nation's bloodiest prison gangs and criminal organizations, La Nuestra Familia. It began inside the California prison walls and spread to the streets of California and America, the land of the free and the home of the brave and of bloody men like me who were baptized in the blood and fed from the table of bloody men, taught in the knowledge and ways of tried and proven warriors who have been to hell and back again. Home of murderers and thieves who dared to believe that we could become something and somebody, not just inside of California prison walls, but even reaching out into the very streets and society from which we had been sentenced to be forgotten by the rest of the world. But we were men who refused to be forgotten, and with the blood of our enemies, we would carve our names upon the pages of criminal history. And we did. I deserved to be crucified for the blood that stained my whole life and the crimes I've committed and the evil I had done. Like that one thief on the cross next to Jesus who found grace in God's eyes, God remembered me too, and now I am trying to live my life as an instrument of God's mercy to men who are as I used to be—murderers, thieves, and organized gangsters. This book was written raw, just as it was lived.

Here is some BAD news first; trying to make money on eBay selling Brand Name products is NOT the way to make money! Here's why, even if you could manage to locate a source of genuine products you would have to spend \$1,000's just to get enough discount to make even a small profit. You see there are just too many sellers competing for the same business. Brand name products are just too expensive to buy, the margins are slim and there is too much competition. There must be an easier way to make money? Well there is, the market for non branded and private label products on eBay is huge and this approach works in any market, it costs a tiny amount to set up and the profit margins are outrageous and it is much easier than most people would believe. In this comprehensive book I show you step by step how to build your own eBay empire selling Private Label and Non Branded stock. The profit margins on private label products and non branded products are massive. The Advantage Of Private Label Products Are: • No one can directly compete with you as you own the brand. • Your customers will know where you sourced product from. • Private labelling is widespread across many industry sectors as is none branded products. • Small minimum orders allow us to test products for a tiny risk. • You can build an entire business using Private Label & Non Branded Products • Compete with household name products at a fraction of the price of stocking branded items. • You are almost always dealing directly with the manufacturer so no wholesalers cut. As no one is selling exactly the same product as yourself and no one will know where you bought it from, you can sell at your own price. I even provide a list of Private Label Suppliers and Manufacturers who stock a massive range of product that you can sell in multiple niche markets these are the exact same sources I use in my eBay businesses. This is your COMPLETE blueprint to building your own profitable eBay business on a shoestring and making outrageous profits.
