

## **Ebersole And Hess Gerontological Nursing Healthy Aging 3e By Touhy Dnp Cns Dpnap Theris A Jett Phd Gnp Bc Kathleen Mosby2009 Paperback 3rd Edition**

Designated a Doody's Core Title! Named an Outstanding Academic Title for 2006 by CHOICE "Those who are interested in the care of older individuals will find this book thoughtful, exciting, and useful...Highly recommended." --CHOICE Learn the history of the development of geriatric nursing as a specialty, as well as the current state of geriatric nursing, from the stories of pioneers in this field. Through the history of those who laid the foundations for the profession to the geriatric nurse leaders who continue the specialty today, see first-hand how geriatric nursing began, evolved, and continues to flourish. Covering the scope of the specialty: How to become a geriatric nurse Geriatric nursing organizations and publications Standards of practice Certification and licensure Future directions This text provides both inspirational stories of nursing and practical information on how you can find resources, develop ideas, and access research in order to become a successful geriatric nurse.

"This innovative interactive text explains 58 of the most common nursing concepts - including six all new concepts - that span the areas of patient physiology, patient behavior, and the professional nursing environment. Featured exemplars for each concept are also discussed to help you more easily understand the concepts and apply them to the clinical setting. In addition to more concepts and featured exemplar sections, this new second edition also boasts a more intuitive organization and review questions for both RN and LPN/LVN programs"--Publisher.

Each unit builds the fundamental concepts required to effectively treat older adults and teaches how to help them to reach their highest level of wellness regardless of their physical disorder.

Praise for the first edition: "This is an excellent teaching guide and resource manual for instructors, gerontological nursing students, and practicing nurses and social workers who wish to learn more about geriatric concerns and care. It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers. As a home care nurse working mainly with the geriatric community, I found the resources helpful in my practice. As an instructor, I found the book to be a very useful guide for teaching geriatrics." Score: 90, 4 Stars —Doody's Medical Reviews "[This] is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students. Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice." —The Gerontologist "The case narrative approach of this book promotes active learning that is more meaningful to students (and practicing nurses) and more likely to increase the transfer of evidence into practice. An excellent resource for faculty (staff educators) to facilitate critical learning skills." —Liz Capezuti, PhD, RN, FAAN Dr. John W. Rowe Professor in Successful Aging Co-Director, Hartford Institute for Geriatric Nursing New York University College of Nursing Vivid case examples help guide nurses in developing appropriate interventions that include complementary and alternative health therapies and provide a basis for evaluating outcomes. Exercises interspersed throughout each case study include numerous open-ended and multiple-choice questions to facilitate learning and critical thinking. The text is unique in that some of the presented cases focus on psychosocial issues such as gambling addiction, hoarding behavior, emergency preparedness, and long-distance caregiving. Cases also depict geriatric clients who are living healthy, productive lives to counter myths and negative attitudes about older adults. Scenarios demonstrating ethical dilemmas prepare students to appropriately respond to "gray area" situations. The text is geared for AACN and NLN accreditation and is organized according to the needs of actual clinical settings. With cases that take place in the home and community or within primary, acute, and long-term care facilities, this book will be useful for courses specific to gerontology nursing or across any nursing curriculum. New to the Second Edition: A completely new section of Aging Issues Affecting the Family New cases addressing health care disparities, aging in place, and prevention of catheter-associated urinary tract infection Additional contemporary case studies The addition of Quality for Safety in Nursing Education (QSEN) initiatives A greater focus on prioritization and delegation of client's needs infused throughout exercises

Ensure you thoroughly understand the intricate details of providing effective care for adults as they age. Ebersole & Hess" Toward Healthy Aging, 10th Edition is the only comprehensive gerontological nursing text that effectively communicates how to provide holistic care, promote healthy lives, and address end-of-life issues and concerns. Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing, the tenth edition has been extensively revised and updated with shorter, more streamlined chapters and pedagogical features to facilitate learning. It covers the areas of safety and ethical considerations, genetics, communication with the patient and caregiver, promoting health in persons with conditions commonly occurring in later-life world-wide addressing loss and palliative care and much more. Special sections provide an honest look at the universal experience of aging and the nurse's role in the reduction of health disparities and inequities as a member of the global community. Plus, it contains a variety of new learning features that focus on applying research and thinking critically in when providing care to aging adults across the care continuum. UPDATED COPD guidelines ensure you understand the latest information used by clinicians. UPDATED Theories of Aging chapter discusses the latest covers current findings on this timely issue. UPDATED Information on medication use and misuse instructs you in what to look for when working with prescription medications. UPDATED chapters incorporate the latest information on timely topics such as Palliative Care and Sleep. UPDATED Wound care guidelines reflect nationally recognized standards. UPDATED Information on LGBT family relationships and sexuality in older adults. A Student Speaks and An Elder Speaks sections at the beginning of every chapter provide honest and candid thoughts from students and elders. Learning objectives found at the beginning of every chapter help you to identify the primary take away messages they should learn from the chapter. Promoting Healthy Aging: Implications for Gerontological Nursing sections provide best practice guidelines for

management and promotion of wellness for older adults with chronic illness and those at the end of life. Key concepts are bulleted at the end of every chapter to provide a quick review of the most important concepts found in the chapter. Nursing Studies provide practice examples designed to assist you in assessment, planning, interventions, and outcomes to promote healthy aging. Critical Thinking Questions and Activities assist you in developing critical thinking skills related to chapter and nursing study content and include suggestions for in-classroom activities to enhance learning. Content consistent with the core competencies for geriatric nursing incorporates the Recommended Baccalaureate Competencies and Curricular Guidelines for the Nursing Care of Older Adults, the Geriatric Nursing Education State of the Science Papers, and the Hartford Institute for Geriatric Nursing Best Practices in Nursing Care to Older Adults. The latest information on biological theories of aging and evolving genomic research covers current findings on these timely issues. Research Highlights Boxes highlight important research studies in the field of gerontology. Research Questions found at the end of chapters gives you a chance to do further research outside of your book study to give you a better grasp of the field as a whole. Safety Alert Boxes emphasize important safety tips to consider while working in a clinical setting. Resources for Best Practice boxes contain suggestions for further information on various chapter topics and tools for practice. Tips for Best Practice boxes feature summarized lists of evidence-based nursing interventions for practice. Healthy People boxes reference the goals cited in Healthy People 2020. NEW! Additional coverage of frailty in older adults helps you to understand the precautions you need to take when working with this population. NEW! Increased information on Health Literacy assists you in learning the right terms to promote healthy aging. NEW! Added information on herbs/supplements includes essential oils and green tea.

A concise, easy-to-understand introduction to the fundamentals, Gould's Pathophysiology for the Health Professions, 5th Edition helps you learn essential concepts of major diseases/disorders and disease processes. Continuing in its well-known tradition of readability and vivid, full-color illustrations, the text is updated with the latest research and trends in human disease. Disorders are described by body system, with coverage of the interactions between systems, and special features help you apply the material to real-life situations. No matter which healthcare field you may enter, Gould's Pathophysiology prepares you for the conditions encountered in clinical practice. "Gould's Pathophysiology for the Health Professions can easily be incorporated into a course as a prescribed book to students in the health care professions. The authors of this book are commended for their contribution to the literature on pathophysiology and its application to the health professions." Reviewed by: Dr Benita Olivier, University of the Witwatersrand, Date: Oct 14

Concise and readable approach includes the information you need without being overwhelming, even if you have a limited scientific background. Unique Think About questions alert you to important points and help with self-evaluation, test preparation, and review. Warning Signs boxes help you identify the pre-emptive signs of physiologic events such as strokes. Emergency Treatment boxes give step-by-step instructions to follow for emergencies such as shock, cardiac arrest, and pneumothorax. Apply Your Knowledge questions ask you to use what you've learned to predict What can go wrong with this structure or system? Ready References in the appendix provide a quick lookup for anatomic terms, conversion tables, abbreviations and acronyms, diagnostic studies and tests, and more. Key terms are listed at the beginning of each chapter and defined within the text, covering the scientific terminology you need to know. Research boxes discuss new developments, problem areas of pathophysiology, and complications associated with research. Learning objectives and bulleted chapter summaries help you focus on key concepts and information. NEW

Defense/Protective Mechanisms section consolidates coverage of inflammation and healing, infection, and immunity. UPDATED chapters are reorganized with a building-block method that presents content in a more logical and systematic approach. UPDATED format for individual disorders includes 1) background, 2) pathophysiology, 3) etiology, 4) signs and symptoms, 5) diagnoses, 6) possible related complications/disorders, and 7) treatments/research. NEW! Pathophysiology of Body Systems chapters begin with a brief review of normal anatomy and physiology and show the interrelatedness and the interactions between systems. NEW authors bring a fresh and contemporary approach to the content while keeping true to the integrity of Barbara Gould's original text.

Equip yourself with the skills to meet the needs of an aging Canadian population. Ebersole and Hess' Gerontological Nursing and Healthy Aging in Canada, Second Edition is a concise, gerontological nursing text that follows a wellness-based, holistic approach to older adult care. Featuring the most up-to-date CGNA guidelines, this new edition identifies potential problems and gives you the means to address complications, alleviate discomfort, and assist older adults to help them lead healthy lives. Plus, it contains a variety of learning features that focus your attention on statistics, legislation, practice guidelines, standards of care, and examples relevant to Canadian practice. Focus on health and wellness throughout the book highlights all aspects of the aging process. Core competencies identified by the CGNA integrated throughout book. Careful attention to age, cultural, and gender differences are integrated throughout book to help you care for different population groups. Expanded assessment guidelines and tools incorporated throughout as tables, boxes, and forms, including the latest scales and guidelines for proper health assessment. Activities and discussion questions at the end of every chapter ensure you understand the material and know how to use it in clinical situations. NEW! Enhanced coverage regarding the safety of nurses and clients emphasizes important information for you to consider while working in a clinical setting. NEW! UNIQUE! Latest CGNA guidelines/standards included to ensure you have access to the most up-to-date knowledge and understanding of gerontological nursing. NEW! Additional coverage on disease process and treatment for the older adult covers current findings on timely issues. NEW! Evidence-informed Practice boxes summarize research findings that confirm effective practices and identify practices with unknown, ineffective or harmful effects. NEW! UNIQUE! Gerontology coverage adequately addresses questions on the NCLEX®-RN.

Prepare for a successful career in caring for geriatric populations! Williams' Basic Geriatric Nursing, 7th edition is an easy-to-read text which

presents the theories and concepts of aging along with appropriate nursing interventions. This comprehensive book helps you understand the unique physiologic and psychosocial changes that affect the elderly adult. Threaded throughout this new edition are practical QSEN boxes and Nurse Alert features, which highlight safety, cultural considerations, health promotion, coordinated care, and home care specific to elderly patients. In addition, an online Study Guide, NCLEX®-PN review questions, and real-world clinical situation boxes help you to study for exams and apply concepts to practice. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. UNIQUE! A FREE Study Guide, presented in a comprehensive PDF format on Evolve, reinforces your understanding. 10th grade reading level makes learning easier for you. Nursing Care Plans include Critical Thinking boxes to help you to assimilate and synthesize information. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Cultural Considerations throughout text cover biocultural variations as well as health promotion for specific ethnic groups so you can provide culturally competent care. Health Promotion and Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. Home Health Considerations boxes provide information on home health care for the older adult. NEW! QSEN boxes provide you with the knowledge, skills, and attitudes necessary to continuously improve the quality and safety of care of the older adult. NEW! Nurse Alert feature emphasizes important safety and health promotion content specific to the elderly patient. NEW! Updated and expanded art program makes learning the material easier through clear and timely photographs and illustrations.

What does that term mean? How is it even pronounced? Make sense of the complex world of health care with Mosby's Pocket Dictionary of Medicine, Nursing & Health Professions, 8th Edition. This comprehensive, portable dictionary offers a unique, strong focus on nursing and health science terminology. Featuring over 56,600 authoritative definitions of diseases, procedures, equipment, drugs, and more, it ensures you have the most reliable health science information right at your fingertips. Word roots and pronunciations help you learn and correctly use medical terminology, and alphabetized screened thumb tabs make finding definitions quick and easy. Emphasis on nursing and health science terminology supports health science students and practicing professionals. Over 56,600 definitions provide you with necessary information. Revised by an experienced educator, Marie O'Toole, and an expert team of health professionals, nurses, and doctors, so definitions are brief, pertinent, and — most important of all — accurate! Practical alphabetical organization without subentries makes it easier for you to find terms. British spellings assist you in recognizing alternate spellings. Pronunciations for key terms help you use terminology correctly in everyday practice. A Spanish/English Appendix and commonly used abbreviations, printed on the front and back endsheets, make dictionary an indispensable reference. Alphabetized screened thumb tabs save you time locating terms. Included etymologies build professional vocabulary and understanding of medical terminology. Small trim size makes dictionary easy to transport.

GERONTOLOGIC NURSING provides comprehensive coverage of health promotion, gerontologic concepts and issues, and medical-surgical problems associated with the older adult. Divided into seven parts, each chapter follows a consistent organization including learning objectives, emergency boxes, client and family teaching boxes, research boxes, key points, special insights, and new health promotion and nutrition boxes. The second edition also includes a new chapter on health promotion, expanded chapters on nutrition and functional assessment, and a dedicated MERLIN which provides the student and instructor with additional up-to-date tools and resources to enhance and expand their content knowledge. Highlights fundamental aging theories to provide a basis for biological and psychosocial aspects of quality nursing care. Provides complete and comprehensive coverage of assessment recapping normal, deviations from normal and abnormal findings. Uses a 5-step nursing process format to provide the consistent framework for presentation of nursing care. Features care plans with clinical situations for those disorders most prevalent in the elderly. Includes a separate chapter on cultural influences and integrates cultural awareness boxes throughout to focus on specific customs related to how a nurse might care for the aging client. Includes separate chapters focusing on acute, home and long term care to provide a complete discussion of care in each of these settings. Provides detailed coverage of pain, infection, cancer, chronic illness, loss, death and dying, and substance abuse to explain potentially complex aspects of aging and the related care. Provides a consistent chapter pedagogy including learning objectives, summary, key points, and critical thinking exercises. Includes Client/Family teaching boxes that emphasize key aspects of practice and teaching for self-care. Highlights Home Care Tips Boxes to promote practical, effective care for the home-bound older client. Integrates Insight boxes that provide realistic vignettes on caring for the elderly and helpful hints from today's practicing gerontological nurses. Provides Emergency Treatment boxes that alert the student to danger signs and list immediate interventions. Includes research boxes with abstracts of current research and implications for practice. Provides a nuts-and-bolts guide to blood-product administration for adult and pediatric patients. Outlines and explains transfusion reactions. Describes the effect of different types of fluids used in resuscitation. Includes formulas used in fluid administration. Provides the most up-to-date information about oxygen delivery devices. Presents information on how to help a Spanish-speaking child identify his/her level of pain. Includes the pediatric coma scale. Features the pediatric trauma score which is used to help evaluate the severity of injury. Provides information about domestic violence in the Mental Health Conditions chapter. Includes a section on the role of the Sexual Assault Nurse Examiner (SANE) and the latest findings on sexual assault. Presents additional information on mammalian bites and anaphylactic shock. Highlights major points of care for quick reference with bold or italicized text. Presents pediatric and adult content separately in the reference section of the book for fast and easy access. Includes stroke and hypothermia algorithms. Covers the latest information on conscious sedation according to JCAHO standards, including a table on deep sedation. Features several new and updated tables which include the following information: conversion of Centigrade and Fahrenheit, updated normal lab values, updated medication tables, etc. (Includes a FREE MERLIN website at: [www.harcourthealth.com/MERLIN/Lueckenotte/](http://www.harcourthealth.com/MERLIN/Lueckenotte/))

Binder-Ready Edition: This loose-leaf copy of the full text is a convenient, accessible, and customizable alternative to the bound book. With this binder-ready edition, students can personalize the text to match their unique needs! Gain the nursing skills you need to provide wellness-based care for older adults! Ebersole and Hess' Gerontological Nursing & Healthy Aging, 6th Edition uses a holistic approach to describe compassionate care along a continuum of wellness. Designed to promote healthy aging regardless of the patient's situation or disorder, this text provides best-practice guidelines in covering physical, psychosocial, spiritual, and cognitive health. New to this edition are Next Generation NCLEX®-style case studies, updates on measuring clinical judgment, expanded coverage of core competencies, and more. Written by gerontological nursing experts Theris Touhy and Kathleen Jett, this concise text provides a solid foundation in every aspect of healthy aging. Focus on health and wellness provides the evidence-based information and strategies needed to promote healthy aging. Key concepts, learning activities, and discussion questions in every chapter emphasize the information needed to enhance care. Recommended competencies from the AACN and the Hartford Institute for Geriatric Nursing are integrated throughout. Discussion of disease processes is placed in the context of healthy adaptation, nursing support, and responsibilities. Easy-to-use information on nursing techniques and communication appears with the associated disorders, symptoms, and situations. Tips for Best Practice and Resources for Best Practice boxes provide insight into proven methods of nursing care. Discussions of nursing and interprofessional actions help students learn to enhance wellness, maintain optimal function, and prevent unnecessary disability. Coverage of age, cultural, racial, and gender differences highlights these important considerations in caring for older adults. NEW! Updates reflect the NCSBN Clinical Judgment Model. NEW! Next Generation NCLEX® (NGN)-style case studies provide optimal preparation for the Next Generation NCLEX Examination. NEW! Specialized information addresses the unique needs of older adults such as atypical disease presentation, geriatric syndromes, neurocognitive disorders,

quality of life with chronic illness, legal and ethical issues, and mental health challenges such as depression and substance abuse. NEW! Coverage of competencies of expanding nursing roles in the care of older adults addresses the continuum of care. NEW! Gerontological expertise is incorporated into nursing actions and complements other nursing texts (including med-surg, community health, mental health, and assessment books) used in programs without a freestanding gerontological nursing course. NEW! Expanded content includes information on COPD guidelines, medication use and misuse, Alzheimer's Disease, wound care guidelines, diagnosis and treatment of sleep-disordered breathing, joint replacement, caregiver strain, hospice and transitional care, and more.

Ebersole & Hess' Gerontological Nursing and Healthy Aging is the only gerontological nursing text that follows a wellness-based, holistic approach to older adult care. Designed to facilitate healthy aging regardless of the situation or disease process, this text goes beyond simply tracking recommended treatments to address complications, alleviate discomfort, and help older adults lead healthy lives. Featuring evidence-based practice boxes, safety alerts, expanded tables, and careful attention to age, gender, and cultural differences, "Ebersole & Hess' Gerontological Nursing and Healthy Aging" is the most complete text on the market.

Ensure you thoroughly understand the intricate details of providing effective care for adults as they age. Ebersole & Hess' Toward Healthy Aging, 10th Edition is the only comprehensive gerontological nursing text that effectively communicates how to provide holistic care, promote healthy lives, and address end-of-life issues and concerns. Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing, the tenth edition has been extensively revised and updated with shorter, more streamlined chapters and pedagogical features to facilitate learning. It covers the areas of safety and ethical considerations, genetics, communication with the patient and caregiver, promoting health in persons with conditions commonly occurring in later-life world-wide addressing loss and palliative care and much more. Special sections provide an honest look at the universal experience of aging and the nurse's role in the reduction of health disparities and inequities as a member of the global community. Plus, it contains a variety of new learning features that focus on applying research and thinking critically in when providing care to aging adults across the care continuum.

The Nursing Student's Guide to Clinical Success is the perfect resource for undergraduate nursing students entering the clinical side of their education. This text helps students better understand their role as a health care provider by preparing them for what they will encounter on the clinical floor in hospital or other health care setting. The first text of its kind, this shows students how to get the most out of a clinical experience."

TOWARD HEALTHY AGING is based on Maslow's conceptual framework of human needs from the basic to the transcendental. With a focus on wellness and healthy aging, this fifth edition emphasizes the individuality of the aged and the humanistic and spiritual potential for further development in late life. Disease processes are discussed in the context of healthy adaptation, nursing support and responsibilities. The text is organized from the basic to the complex in terms of understanding the aged and their needs. Extensive current references, nursing care plans, case studies, student activities, research questions, resources, and appendixes are included in each chapter. \* Focuses on health and wellness to establish a positive perspective to aging. \* Discusses disease processes in the context of healthy adaptation, nursing support and responsibilities to help the reader gain an understanding of their client's experience. \* Integrates considerations for age, cultural, and gender differences throughout to help the nurse understand these important aspects of caring for older adults. \* Provides a consistent chapter organization including objectives, nursing care plans, research questions, and study questions/activities to make information easy to find and use. \* Includes case studies at end of every chapter to expand student knowledge and understanding. \* Features a separate chapter on laboratory values including comparisons and implications for the aged. \* Integrates federal guidelines for Healthy People 2000 that reflect current practice about healthy aging considerations. \* Includes appendixes and resource lists to assist the student in further exploration of material.

"This 5th edition is an important achievement; it is a symbol of commitment to the field of palliative nursing, where we have been and where we are going." - Betty Rolling Ferrell, PhD, MA, FAAN, FPCN, CHPN From the Foreword The aging population has only grown since the first edition of this comprehensive and seminal publication nearly 20 years ago. Based on the need to humanize rather than medicalize the illness experience for patients, this text delves into palliative care beyond the specific diseases affecting the patient. Instead, content focuses on the whole person and family. Palliative patients struggle with chronic, debilitating, and painful conditions, and grapple with the fact that life as they knew it has already passed away. Families and friends reciprocally suffer, not knowing how to help and therefore become the secondary victims of the disease. This is not the challenge of a lone nurse, or a single physician, therapist, or social worker. Rather, palliative and hospice care requires the expertise and unique roles of an interprofessional team to help the patient and family strengthen their resilience, continue to find meaning and purpose in life, and cure what can be cured. Palliative Care Nursing, Fifth Edition, delivers advanced empirical, aesthetic, ethical and personal knowledge. This new edition brings an increased focus on outcomes, benchmarking progress, and goals of care. It expounds upon the importance of the cross-disciplinary collaboration introduced in the previous edition. Every chapter in Sections I, II, and III includes content written by a non-nursing member of the interprofessional team. Based on best-evidence and clinical practice guidelines, this text presents comprehensive, targeted interventions responsive to the needs of palliative and hospice patients and family. Each chapter contains compassionate, timely, appropriate, and cost-effective care for diverse populations across the illness trajectory. Key Features The expanded new edition offers current, comprehensive, one-stop source of highly-relevant clinical information on palliative care Life-span approach: age-appropriate nursing considerations (e.g. geriatric, pediatric and family) Includes disease-specific and symptom-specific nursing management chapters Promotes a holistic and interdisciplinary approach to palliative care Offers important legal, ethical and cultural considerations related to death and dying Case Studies with Case Study Conclusion in each clinical chapter New to The Fifth Edition: An expanded chapter on Palliative Care incorporates most up to date scope and standards, information on Basic and Advanced HPNA certification, self-reflection and self-care for nurses. A chapter on Interprofessional Collaboration Instructor Resources: Power points and Test bank

Learn a positive, uniquely Canadian approach to older adult care. Canada's rapidly aging population will place an unprecedented burden on the health care system and on tomorrow's nurses. It is critical that health care professionals be properly equipped to address the needs and comfort of your older adult patients and clients. Ebersole and Hess'

Gerontological Nursing and Healthy Aging, First Canadian Edition includes statistics, legislation, practice guidelines, standards of care, and examples relevant to Canadian practice. Chronic disorders are presented in the framework of health promotion and illness prevention. Canadian demographics and statistics Canadian practice guidelines Canadian law Roles of Canadian health care providers CNA code of ethics Canadian drug names Canadian lab values Canadian research findings Canadian assessment tools Canadian screening guidelines

GERONTOLOGICAL NURSING, 3/e is a comprehensive, research-based, and up-to-date guide to nursing care for older adults in all settings. It brings together essential information about normal and pathological changes associated with aging; healthy aging; common diseases of aging; and key psychosocial, cultural, and public health issues. Reflecting today's emphasis on evidence-based practice and appropriate delivery of scarce healthcare resources, this text presents new best practices and QSEN standards throughout, promoting more effective assessment, diagnosis, planning, and outcome evaluation. The text's multidisciplinary approaches help nurses "add life to years," not just extend life. Its coverage of acute and chronic diseases includes nursing implications, atypical presentation, functional implications, pharmacology, evaluation, etiology, risk factors, and complications; the text also includes a full chapter on multisystem diseases. This book supports safe, effective, and appropriate practice in the home, hospitals, long-term care, and hospice settings.

As the most comprehensive resource on health promotion and maintenance for older adults and their families and caregivers, *Toward Healthy Aging, 7th Edition* includes the most current information you need to provide effective holistic care, promote healthy lifestyle choices, and address end-of-life issues. Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing and using Maslow's hierarchy of needs, this book includes complete coverage of both common and uncommon conditions in the older adult. *Towards Healthy Aging* also highlights key aging issues with sections devoted to basic physiologic needs, safety and security, the need to belong, self-esteem, and self-actualization. A strong focus on health and wellness emphasizes a positive approach to aging. Disease processes are discussed in the context of healthy adaptation, nursing support, and responsibilities. Careful attention to age, cultural, and gender differences are integrated throughout to help you remember these important considerations when caring for older adults. Up-to-date content on AIDS provides important information on addressing this growing concern among older adults. Consistent chapter organization with objectives, case studies, critical thinking questions, research, and study questions make information easy to find and use. Assessment guidelines are incorporated throughout in helpful tables, boxes, and forms for quick access. Case studies at the end of most chapters explore realistic patient care scenarios to help you expand your knowledge and understanding. Resource lists and appendices provide opportunities for further research and study. With over 200 illustrations, the full-color design is engaging and easy to read. Healthy People 2010 boxes address healthy aging considerations. Evidence-Based Practice boxes help you incorporate the latest research findings into practice and advise you on how to avoid potentially harmful practices. A Nutritional Needs chapter includes the most current nutritional guidelines for older adults to help you better address patients' nutritional needs. Includes the latest scales and guidelines for assessing the gerontologic patient in the Health Assessment in Gerontological Nursing chapter. Expanded coverage of end-of-life issues helps you meet the needs of older adults and their families and caregivers during this difficult transition. Economics of aging discussions help you better understand the financial challenges your patients may face. The latest pharmacologic and nonpharmacologic pain management information helps you reduce pain and discomfort for your patients and helps you provide more effective care.

Rev. ed. of: *Foundations of psychiatric mental health nursing* / [edited by] Elizabeth M. Varcarolis, Margaret Jordan Halter. 6th ed. c2010.

Discover a wellness-based, holistic approach to older adult care. Ebersole & Hess' *Gerontological Nursing and Healthy Aging, 5th Edition* is the only gerontological nursing text on the market that focuses on this thoughtful, organic method of care. Designed to facilitate healthy aging regardless of the situation or disease process, this text goes beyond simply tracking recommended treatments to addressing complications, alleviating discomfort, and helping older adults lead healthy lives. Featuring an updated four-color design, additional information on long-term care, evidence-based practice boxes, safety alerts, expanded tables, and careful attention to age, gender, and cultural differences, Ebersole & Hess' *Gerontological Nursing and Healthy Aging* is the most complete text on the market. Focus on health and wellness helps you gain an understanding of the patient's experience. Safety Alerts highlight safe practices and quality of care QSEN competencies. Careful attention to age, cultural, and gender differences helps you to understand these important considerations in caring for older adults. AACN and the Hartford Institute for Geriatric Nursing core competencies integrated throughout. Evidence-Based Practice boxes summarize research findings that confirm effective practices or identify practices with unknown, ineffective, or harmful effects. Activities and discussion questions at the end of every chapter equip you with the information that you need to assess the patient. Healthy People 2020 boxes integrate information about healthy aging. Expanded tables, boxes, and forms, including the latest scales and guidelines for proper health assessment make information easy to find and use. NEW! New four-color design provides a higher-level of detail and readability to caregiving procedures. NEW! New chapter on Caregiving includes expanded coverage of abuse and neglect. NEW! Expanded content about Long-Term and Transitional Care added to chapter six. NEW! Expanded Safety coverage spans two separate chapters. NEW! Expanded Nutrition and Hydration content divided into two separate chapters.

*Evidence-Informed Approaches for Managing Dementia Transitions* provides evidence-informed approaches and future directions for supporting a higher quality of life for people living with dementia. Through a person-centered lens, this book equips care providers to better help people living with dementia align their expectations and hopes with the trajectories

they can expect in their journey. It highlights the various transitions that those with dementia will experience and describes best practices for optimal adjustment to each. Topics covered include problem identification, driving cessation, loss of financial autonomy, acute hospital admission, moving to assisted living residences and long term care homes, and palliative and end of life care. This is a must have reference for researchers, clinicians, and mental health professionals (psychologists, counsellors, social workers, mental health nurses) as well as policy makers and other health and social care providers working with individuals with dementia. Emphasizes empowerment and quality of life for all those living with dementia Explores strategies for managing the ups and downs of the dementia journey from diagnosis to end of life Recommendations are couched in evidence and extensive experience of the authors

Tips for Best Practice and Resources for Best Practice boxes provide insight into proven methods of nursing care. Discussions of nursing and interprofessional actions help students learn to enhance wellness, maintain optimal function, and prevent unnecessary disability. Coverage of age, cultural, racial, and gender differences highlights these important considerations in caring for older adults. NEW! Updates reflect the NCSBN Clinical Judgment Model. NEW! Next Generation NCLEX® (NGN)-style case studies provide optimal preparation for the Next Generation NCLEX Examination. NEW! Specialized information addresses the unique needs of older adults such as atypical disease presentation, geriatric syndromes, neurocognitive disorders, quality of life with chronic illness, legal and ethical issues, and mental health challenges such as depression and substance abuse. NEW! Coverage of competencies of expanding nursing roles in the care of older adults addresses the continuum of care. NEW! Gerontological expertise is incorporated into nursing actions and complements other nursing texts (including med-surg, community health, mental health, and assessment books) used in programs without a freestanding gerontological nursing course. NEW! Expanded content includes information on COPD guidelines, medication use and misuse, Alzheimer's Disease, wound care guidelines, diagnosis and treatment of sleep-disordered breathing, joint replacement, caregiver strain, hospice and transitional care, and more.

Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Gerontological Nursing: Competencies for Care, Second Edition is a comprehensive and student-accessible text that offers a holistic and inter-disciplinary approach to caring for the elderly. The framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding care for the growing elderly population. It is the first of its kind to have more than 40 contributing authors from many different disciplines. Some of the key features include chapter outlines, learning objectives, discussion questions, personal reflection boxes, and case studies.

Ebersole and Hess' Gerontological Nursing & Healthy Aging4Ebersole and Hess' Gerontological Nursing & Healthy AgingElsevier Health Sciences

Get a unique, conceptual approach to nursing care in this rapidly changing healthcare environment. Lewis's Medical-Surgical Nursing, 11th Edition gives you a solid foundation in medical-surgical nursing. This thoroughly revised text includes a more conversational writing style, an increased focus on nursing concepts and clinical trends, strong evidence-based content, and an essential pathophysiology review. Content covers all aspects of nursing care including health promotion, acute intervention, and ambulatory care. Helpful boxes and tables make it easy for you to find essential information, and a building-block approach makes even the most complex concepts simple to grasp. Key topics such as interprofessional care, delegation, safety, and prioritization are integrated throughout. Additionally, extensive drug therapy information and diagnostic studies tables give you a full picture of care. Best of all — a complete collection of learning and study resources helps you learn more effectively and offers valuable, real-world preparation for clinical practice.

The newest edition of best-selling Chronic Illness continues to focus on the various aspects of chronic illness that influence both patients and their families. Topics include the sociological, psychological, ethical, organizational, and financial factors, as well as individual and system outcomes. This book is designed to teach students about the whole client or patient versus the physical status of the client with chronic illness. The study questions at the end of each chapter and the case studies help the students apply the information to real life. Evidence-based practice references are included in almost every chapter.

With a strong focus on health and wellness, this gerontological nursing text offers you a holistic perspective to caring for older adults. Designed to facilitate the healthiest adaptation possible, this text identifies potential problems that may occur and the means to address complications, alleviate discomfort, and help older adults lead healthy lives. Disease processes are discussed in the context of healthy adaptation, nursing support, and nursing responsibilities to help you gain an understanding of your clients' experience. Focus on health and wellness establishes a positive perspective to aging. Careful attention to age, cultural, and gender differences are integrated throughout to help you understand these important considerations when caring for older adults. Healthy aging strategies maximize the healthiest behaviors of clients with dementia and their caregivers. Consistent chapter organization includes learning objectives, research, and study questions/activities to make information easy to find and use. Incorporates assessment guidelines throughout provide useful tools for practice. End-of-chapter activities and discussion questions help you expand your knowledge and understanding of the content. Resource lists provide you with additional means to explore ways to care for the older adult. Incorporates the core competencies identified by the AACN and the Hartford Foundation Institute for Geriatric Nursing. Healthy People 2010 boxes assist you in integrating knowledge about healthy aging considerations. Evidence-Based Practice boxes summarize research findings that confirm effective practices or identify practices with unknown, ineffective, or harmful effects. Expanded sexuality-related content includes older adults living with AIDS and STDs. Genetics section reflects the emergence of the role of genetics in gerontological assessment.

As the fastest growing population sector worldwide, older adults are seen in almost every care setting in which clinicians practice. Developed as a resource for advanced practice nurses in any setting, Case Studies in Gerontological Nursing for the Advanced Practice Nurse presents readers with a range of both typical and atypical cases from real clinical scenarios. The book is organized into six units covering cases related to ageism, common health challenges, health promotion, environments of care, cognitive and psychological issues, and issues relating to aging and independence. Each case follows a similar format including the patient's presentation, critical thinking questions, and a thorough discussion of the case resolution through which students and clinicians can enhance their clinical reasoning skills. Designed to promote geriatric clinical education through self-assessment or classroom use, Case Studies in Gerontological Nursing for the Advanced Practice Nurse is a key resource for all those dedicated to improving care for older adults.

A collection of visual images to increase memory and learning for the nursing student.
