Q&A with the author: Question: What are the most common problems people encounter when it comes to applying for grants in your experience? Answer: Most people do not pay attention to the grant guidelines- and their applications get thrown out or declined. Question: Why most grant applications are declined? Answer: People do not take the time to plan their programs or projects and that is very evident in the application- and especially the budget. Most nonprofits do not charge for their services. They are providing something that is needed in the community- therefore, they must seek funds to help pay for staffing, offices, materials- so they apply for grants. There are lots of different types of nonprofits and lots of different reasons nonprofits apply. People applying have to look at a grantor as a partner in their mission, and try to convince that partner to help them provide the needed service. That is the emotional part of the writing.
