Effects of Boko Haram Insurgency on the Socio-Economic Development in Nigeria Joseph Nkwede,2015 One of the most intractable elements in the governance of Nigeria as a country is the current Boko Haram insurgency which has continually posed a serious threat to the corporate existence and unity of the country. Contemporaneously, it has seemingly defiled all political solutions to the extent that the spate of terrorist attacks on the innocent Nigerian citizens, are on the increase. Consequent upon government efforts to tame the dreaded ailment in the polity, the fragility of Nigerian state embedded in this monster has fascinated and heightened iniquitous terrorist uprising and dimension. The paper aims at investigating the activities of Boko Haram in Nigeria with particular attention on its effects on the socio-economic development of the country. The paper ventured into panoramic view of Boko Haram insurgency and its manifestations in Nigeria. A critical examination of the origin, forms and dimensions becomes sacrosanct. This session is therefore devoted to the discussion of Boko Haram insurgency and socio-economic development with Nigeria in perspective.

Socio-Economic Effects of Boko Haram Operations in Nigeria Bright Ndimele,2020-08 Bachelor Thesis from the year 2018 in the subject Politics - International Politics - Region: Africa, grade: 4.7/5, University of Ibadan, language: English, abstract: The Nigerian State since 2009 has been under the throes of the deadly terrorist operations of the Islamic sect formally known as JamaatuAhlis Sunna Liddaawati Wal-Jihad. This sect famously dubbed Boko Haram, meaning western civilization/education is forbidden, claims to be on a mission to Islamize the Nigerian State. Prima facie, Boko Harams motivations appeared to be religious; however considering factors as dismal socio-economic conditions that prevail in the Northern region, the epicenter of the sect, a religious explanation alone is reductive. More so, relevant and related literature was reviewed using conceptual and theoretical approaches. A threefold theoretical framework constituting of Marxian, Relative deprivation, and Frustration aggression respectively were adopted to explain the phenomenon. Unlike other authors who have hinged the operations of the sect to a kind of political undertone; this study deems fit to establish the poor socio economic conditions especially in the North eastern region which have been serving as a veritable ground for the sect quest to gradually dethrone the legitimacy of the Nigerian State. This study also exposes the extent of the damage further caused

by the sect violent operations as well as the suitability of the carrot and stick strategies or policies in dealing with the sect negative impact. Hence, this study employs secondary source of data from library materials, newspapers, journals, articles and so on. The findings revealed that the strategies of Nigerian government failed because she failed to address adequately the socio-economic factors that equipped the sect such as unemployment, poverty, corruption/bad leadership, poor economy structure. The research further exposed that the strategy used in curtailing militancy in the Niger Delta region of Nig

Boko Haram Ojochenemi J. David,Lucky E. Asuelime,Hakeem Onapajo,2015-06-25 This book investigates the socio-economic determinants of the emergence and persistence of Boko Haram terrorism in Nigeria. Since 2009, Boko Haram continues to capture mainstream news headlines, as well as the imagination of aspiring young Salafi-jihadists around the world who support the notion of a radical Islamist socio-political system. By providing an essential overview of the literature on Boko Haram and bridging research and current events, the authors cover a broad spectrum of topics and suggest relevant policies for addressing the problem of Boko Haram terrorism. While Boko Haram's motivations are ostensibly religious, the primary focus is on socio-economic inequality as one of the main factors that predispose the disillusioned, poverty-driven and jobless populace in the northern regions of Nigeria to take up arms against the state. The insights presented in this book will help researchers and policy-makers alike to understand the emergence of locally focused terrorist groups and insurgencies.

Terrorism Financing Samuel F. Johnson-Rokosu,Akepe Enobi,2016 Various Scholars account for the actual date of the evolution of Boko Haram terrorist group. However, the sect came to prominence in 2009 following the death of its leader, Mohammed Yusuf in police custody. Aside from the police act and Mohammed Yusuf's death, poverty, unemployment, lack of development, high level of illiterates, unkept electoral promises are identified as other reasons for the rise of Boko Haram insurgency. This study involves determination of socio-political and economic impact of Boko Haram insurgency on Lake Chad basin. To achieve this, mixed research method was employed in the study because both primary and secondary data are used. Many factors can be adduced as driving force that motivates Boko Haram activities in the region such as poverty, unemployment, illiteracy, under-development/ education deficiency region and neglects by government. Finding in the study shows that lack of government support for armed forces and low moral; lack of government political will to fight the insurgency; political interest all contribute in recent time to the rise of terrorist activities in Lake Chad. Finding revealed that the increase in Boko Haram activities in recent time in the region have negatively impact on the socio political/economic activities and these is due partly to increase in terrorist financing. The study suggests therefore that government ability in Lake Chad basin to cut the sources of terrorist finance will significantly affect Boko Haram activities and attacks.

Terrorism and the Nigerian Economy. An Assessment of the Boko Haram Insurgency Onyebuchi Stanley Okafor,2019-08-17 Bachelor Thesis from the year 2017 in the subject Politics - International Politics - Topic: Peace and Conflict Studies, Security, grade: 65, Federal University Dutse, course: Political Science, language: English, abstract: This

work focuses on the relationship between terrorism and the Nigerian economy. It represents an assessment of the Boko Haram insurgency. The impact of the activities of the dreaded Boko Haram has brought physical, psychological and economic damage to Nigeria and has become a threat to the entire nation. It is against this background that the study examines the impact of Boko Haram insurgency on the economy of the affected states in Nigeria. The study is a literature based research and therefore descriptive in structure. Basically, secondary data that is used in this research includes relevant text books, magazines, archival materials, published and unpublished works, journals, newspapers and internet materials, all of which the researcher thoroughly explored for critical examination and analytical insight. The data collected is analyzed using a framework of content analysis and simple percentage. Findings from the study indicate that the atrocities of Boko Haram have severe implications on the economy and social lives of the people of the northeast where the activities of the sect is concentrated. The study recommends that anybody that has links with the sect should face the law and government should develop a strong political will to fighting the scourge.

The Socioeconomic Impact of the Boko Haram Insurgency in the Lake Chad Basin Region Cecilia Idika-Kalu, 2020 The Lake Chad Basin (LCB), in West Africa, is surrounded by three countries with shared borders. In the previous years, the Lake Chad Basin was a flourishing area, as a result of the opportunities presented by the lake for livelihood, agriculture, tourism, and access to markets and trade. Severe drought has since decimated the socioeconomic potential of the Lake Chad Basin, but more recently, it has worse impact with the Boko Haram insurgency. The insurgency that started in 2002 from Maiduguri town, Borno State in Nigeria, has spread to the Chad and Cameroon leaving destruction, displacement, and the demise of a once-vibrant economy in its wake. The insecurity that plagues the region has forced millions to flee their homes and abandon their livelihood and trade around the lake. Major trade routes and markets in the area now have greatly reduced activity, as poverty and deep deprivation hold sway and inhabitants who have migrated or live within internally displaced persons camps depend on aid.

Insurgency and National Security. The Case of Boko Haram in Nigeria Leo the Great Ebenezer Ph.D, 2021-09-09 Academic Paper from the year 2021 in the subject Politics - Topic: Peace and Conflict, Security, grade: 2.5, , language: English, abstract: This research examines the impact of Boko Haram insurgency on Nigeria's national security. The objectives were to determine the nature of Boko Haram insurgency on Nigeria's security, examine the impact of the Boko Haram insurgency on the national security challenges confronting Nigeria, and determine the cost of tackling insurgency by the federal government of Nigeria. The resurgence of the Boko Haram attacks before, during and after the 2019 general elections showed that the Boko Haram insurgency has not been technically defeated as claimed by the federal government of Nigeria. As at May 31, 2019 when this work was concluded, the daily update from the Nigeria's Security Tracker (NST) of the Council of Foreign Relations (CFR) showed that more than 200 Nigerian and Multinational Joint Taskforce (MJTF),

comprising Nigeria, Chad, Niger and Cameroonian troops, Civilian Joint Taskforce (CJTF), insurgents and civilians were killed in just May, 2019 (May 10 - May 31, 2019). These deaths were possible through suicide missions, guerilla attacks, bombings, communities' massacre, gun battles, ambush, sporadic shooting, kidnappings etc. From 2011 to 2018, Boko Haram insurgents carried out over 3,346 incidents (attacks). This research observed that trillions of naira has been spent in the fight against insurgency by the military as released by the federal government and donor agencies. Countries with strategic economic, political and social interests in Nigeria have also supported financially. However, lack of transparency and accountability on the part of the military, abuse of human rights and lack of transformative approach in tackling the Boko Haram insurgency have undermined the general support (especially morally) needed to ensure that Boko Haram insurgency does not pose any security threats to the sovereignty and territorial integrity of the Nigerian state.

The Impact of Boko Haram on Church and Society in Nigeria Longji Ayuba Dachal, 2018-01-23 Essay from the year 2015 in the subject Theology - Practical Theology, grade: B+, , language: English, abstract: The activities of the Boko Haram sects in Nigeria have negatively affected the Nigerian society. The socio-economic, political and religious aspects of the Nigerian society have a lot due to the activities of the Boko Haram sects especially in the northern parts of Nigeria. The Bishop of Kaduna Diocese of the Church of Nigeria, Anglican Communion, Reverend Josiah Idowu-Fearon, observed that violence and insurgency has destroyed the economic, social and religious lives of the people of Kaduna State. This can also be said of all the Boko Haram stricken states in northern Nigeria. He pointed out that The entire North-east of the country, Jos and Kano are almost completely isolated economically, socially and politically... This essay outlines and discusses some of the impacts of the Boko Haram sects on both the Church and the society in Nigeria.

Impact of Boko Haram Insurgency on Nigeria's Relations with its Neighbours Monsuru Rasaq, 2017-08-17 Bachelor Thesis from the year 2016 in the subject Politics - Region: Africa, grade: 70.0, Obafemi Awolowo University, course: International Relations, language: English, abstract: This study unravels the impact of Boko Haram insurgency on Nigeria's relations with its Neighbours. This study analyses the nature and character of Nigeria's neighbours and discovers that it is most time responsible for a low profile in Nigeria's foreign policy gesture towards them. This phenomenon is not unconnected to their perception of Nigeria as a hegemonic power in its neighbourhood given Nigeria demographic, economic and military preponderance over them. This perception of Nigeria by its neighbours has over the years contributed to their frosty relations notably; the hostile gestures of Chad and Cameroon towards Nigeria, the security concern that the internal crisis in Chad in the 1970s generated for Nigeria coupled with the presence of French forces in N'Djamena at the eve of the Nigerian Civil War. The study draws the attention to how Boko Haram insurgency further influences Nigeria's relations with its neighbours. The outreach of Boko Haram insurgency beyond the boundary of Nigeria to include that of Nigeria's neighbours has worsened the existing frosty relations among them. This is true if one considers the fact that the activities of

the Boko Haram have gone beyond the north-eastern part of Nigeria, with its violent attacks on the Nigerian soil compounding the already existing economic crisis in Niger Republic, kidnapping of prominent citizens of Cameroon and foreign nationals for ransom motive, its use of Chad as a safe haven and notably, its thwarting of Nigeria's influence in its neighbourhood, Boko Haram insurgency has forced Nigeria to concentrate more on its domestic issue. The study therefore, concludes by recommending to the government to adopt policies that are expansive and inclusive to address the crisis among which is the revamping of the socioeconomic condition and that attention should be given to border management and administration.

Socio-economic Context of Boko Haram Terrorism in Nigeria Sogo Angel Olofinbiyi, 2018

The Political Economy of Kidnapping and Insecurity in Nigeria J. Shola Omotola,

The effects of the Boko Haram Insurgency Group in West and Central Africa Andrew D. Nicholson, 2016 Boko Haram (BH) is one of these insurgent groups that began small and later spread outside the control of their host government. Today, BH has expanded its operational reach outside of Nigeria and inside the neighboring countries of Niger, Chad, and Cameroon. Due to Nigeria's inability to combat it, BH is now affecting the social, economic, and military aspects of governance in these four countries. Consequently, the U.S. military is now required to assist these African countries in combating BH.

The Impact of Poverty on Terrorism in North-Eastern Nigeria Emmanuel Uzuegbu-Wilson, 2019 The impact of terrorism in Nigeria is felt mostly in the north eastern geo-political region as a result of the activities of Boko Haram insurgency. While poverty remains a critical issue considered as a precipitating factor in the contentious discourse of violence and insecurity, the impact played by it in the north eastern region of Nigeria in relation to acts of terrorism perpetrated by Boko Haram insurgents remains a critical issue of discourse that this paper examines. The paper adopted qualitative research design approach with the use of secondary sources of data. As theoretical framework, the paper adopted poverty breeds conflict hypothesis and the Ted Gurr deprivation theory. The data gathered were analyzed through content analysis. The findings reveal that poverty negatively impacted on terrorism in the north eastern region as sustained conflict in the zone is known to be "both caused by and contribute to poverty". Poverty therefore remains a major socio-economic factor that causes terrorism. The study recommended that the federal government should declare a state of emergency on poverty in the north east region of Nigeria through the implementation of a systematic poverty elevation programme aimed at improving the wellbeing of the citizenry. Government should also work towards implementing a de-radicalization of the insurgent. This will greatly help to re-integrate them into the society.

A Comparative Assessment of the Socio-economic Dimension of Niger Delta Militancy and Boko Haram Insurgency: Towards the Security-development Nexus in Nigeria David. James Ojochenemi,2019

Understanding Boko Haram James J. Hentz,Hussein Solomon,2017-05-08 The primary objective of this book is to understand the nature of the Boko Haram insurgency in northeast Nigeria. Boko Haram’s goal of an Islamic Caliphate, starting in the Borno State in the North East that will eventually cover the areas of the former Kanem-Borno Empire, is a rejection of the modern state system forced on it by the West. The central theme of this volume examines the relationship between the failure of the state-building project in Nigeria and the outbreak and nature of insurgency. At the heart of the Boko Haram phenomenon is a country racked with cleavages, making it hard for Nigeria to cohere as a modern state. Part I introduces this theme and places the Boko Haram insurgency in a historical context. There are, however, multiple cleavages in Nigeria- ethnic, regional, cultural, and religious- and Part II examines the different state-society dynamics fuelling the conflict. Political grievances are common to every society; however, what gives Boko Haram the space to express such grievances through violence? Importantly, this volume demonstrates that the insurgency is, in fact, a reflection of the hollowness within Nigeria’s overall security. Part III looks at the responses to Boko Haram by Nigeria, neighbouring states,

and external actors. For Western actors, Boko Haram is seen as part of the global war on terror and the fact that it has pledged allegiance to ISIS encourages this framing. However, as the chapters here discuss, this is an over-simplification of Boko Haram and the West needs to address the multiple dimension of Boko Haram. This book will be of much interest to students of terrorism and political violence, insurgencies, African politics, war and conflict studies, and IR in general.

Undertaking Population-centric Counterinsurgency in the Age of Salafi-driven Insurgencies Surulola Eke,2017
The Boko Haram conflict in northern Nigeria has generated immense scholarly interest since it began in 2010. Much of this interest has centred on advancing counterinsurgency policy prescriptions. There are two dominant approaches in the generic counterinsurgency literature: enemy-centric counterinsurgency, which involves the use of brute force to eliminate insurgents and population-centric counterinsurgency, which entails the use of persuasive means to end an insurgency. The counterinsurgency scholarship on Boko Haram is dominated by scholars that advance the latter approach. These scholars argue that the Boko Haram insurgency is a result of the socio-economic challenges that beset northern Nigeria, hence the government should adopt a policy of dialogue with the group and implement socio-economic reforms. However, there is a disjuncture between this policy prescription and Boko Haram's Salafi-driven objective of establishing an Islamic Caliphate. Thus, this thesis answers the following question: given the Salafi ideology of BH, can population-centric counterinsurgency be an effective state response? I explored this question based on the theories of Weinstein (2007) and Ugarriza & Craig (2013): the notion that the factors that influence the emergence of an insurgent group continues to shape the group's attitudes, emotions and dispositions. In answering my question, I explored the history of Islamic fundamentalism in northern Nigeria in order to ascertain the outcome of the government's accommodation of Islamist demands in the past. Using textual analysis, I also examined the speeches of Boko Haram's leader, Abubakar Shekau, in order to identify the group's specific objectives and understand its disposition to dialogue. Based on the historical exploration and analysis of Shekau's speeches, I argued that whereas the implementation of socio-economic reforms can win over potential Boko Haram recruits, neither dialogue nor socio-economic reforms can convince the existing Boko Haram members and leaders to stop fighting.

On the Crisis of Boko Haram Terrorism Sogo Angel Olofinbiyi,2023-10-01
The book provides a pentapartite theoretical analysis of socio-economic factors as the grand basis for the evolution of Boko Haram terrorism in Nigeria. It describes the terrorism as a by-product of unresolved conflict emanating from unequal hegemonic power exchange with respect to the non-fulfillment of socio-economic goals between the political state and the citizenry. Rather than follow the popular notion of religion as the root causes of Boko Haram crisis, the book widens its scope to cover terrorism as a whole with a view to laying a more viable foundation for its readers to understand the concept of terrorism, provoking causes and perspectives, as well as influential factors that may interplay to sustain extremist terrorism in contemporary global society. Using Boko Haram as a potentially useful model, the book contends that the discursive framework of terrorism cannot be

isolated from its socio-economic perspectives. In view of the foregoing, the simplistic response to resolving terrorism crisis in Nigeria still lies at the heart of ameliorating the socio-economic conditions of the citizens via the political state. The book will be appropriate for individuals whose interests are vested on terrorism and homeland security, terrorism and counterterrorism studies, criminal justice and organized crime, terrorism and political violence, African politics, peace and conflict resolution as well as security and conflict management. Counter-terrorism experts, policy makers, academic scholars, intelligence and security operatives will also find this book resourceful. Ultimately, as interest in terrorism studies continues to grow exponentially among Sociologists, Anthropologists and Criminologists, it is my utmost quest to provide the most invaluable themes and updated theories in terrorism research for use by independent researchers, students and academics seeking to advance empirically and theoretically driven research in the fields of terrorism, homeland security and related crimes.

Insurgency and War in Nigeria Akali Omeni, 2019-12-12 Boko Haram is the major threat to the Nigerian state, and has emerged as a destabilizing factor across sub-Saharan Africa. This is now a major focus of global policy-making, as between 2013 and 2014 insurgency-related deaths in Nigeria exceeded those in Iraq and Afghanistan. This book is the first to focus on the military nature of Boko Haram, the reasons for its success in those specific regions of the Chad basin it operates in and a detailed history of the Nigerian army's counter-insurgency - with whom, uniquely, the author has spent research time. The book identifies and analyses the battles and skirmishes on the front line, as well as unearthing a wider explanation for Boko Haram's military success and the causes of the instability in the region.

Boko Haram's Terrorism and the Nigerian State Olumuyiwa Temitope Faluyi, Sultan Khan, Adeoye O. Akinola, 2019-03-08 This book assesses the effectiveness of Nigeria's counterterrorist policies against Boko Haram. It takes a critical review of the interventionist strategies adopted by the Nigerian government, highlights the motivations behind the choice of strategies, and proffers a deeper understanding of the factors responsible for the state's inability, thus far, to rid the country of terrorism. Specifically, it evaluates the NACTEST policy framework that guides the Nigerian state's counterterrorist strategies, which contains both hard and soft power approaches. Adopting historical and case study approaches which put the Nigerian state and occurrences of violent conflict in context, it takes cognizance of the politics of ethno-religious diversity which reinforce violent conflicts among groups and against the state, and reviews the socio-economic and political realities that led to the emergence and sustenance of Boko Haram. The volume concludes by suggesting practical policy options for combating Boko Haram and other similar armed insurrection. This book is appropriate for researchers and students interested in African politics, conflict, security, peace studies, terrorism, and counterterrorism, as well as policy makers and government departments dealing with terrorism and counterterrorism.
