Toni Morrison Box Set Toni Morrison, 2019-10-29 A box set of Toni Morrison's principal works, featuring *The Bluest Eye* (her first novel), *Beloved* (Pulitzer Prize winner), and *Song of Solomon* (National Book Critics Award winner). Staring unflinchingly into the abyss of slavery, *Beloved* transforms history into a story as powerful as *Exodus* and as intimate as a lullaby. This spellbinding novel tells the story of Sethe, a former slave who escapes to Ohio, but eighteen years later is still not free. In *The New York Times* bestselling novel, *The Bluest Eye*, Pecola Breedlove, a young black girl, prays every day for beauty and yearns for normalcy, for the blond hair and blue eyes, that she believes will allow her to finally fit in. Yet as her dream grows more fervent, her life slowly starts to disintegrate in the face of adversity and strife. With *Song of Solomon*, Morrison transfigures the coming-of-age story as she follows Milkman Dead from his rustbelt city to the place of his family's origins, introducing an entire cast of strivers and seeresses, liars and assassins, the inhabitants of a fully realized black world. This beautifully designed slipcase will make the perfect holiday and perennial gift.

Lost in the Funhouse John Barth, 2014-06-25 NATIONAL BOOK AWARD FINALIST • John Barth's lively, highly original collection of short pieces is a major landmark of experimental fiction exploring themes of purpose and the meaning of existence. [Barth] ran riot over literary rules and conventions, even as he displayed, with meticulous discipline, mastery of and respect for them. —*The New York Times* From its opening story, *Frame-Tale*--printed sideways and designed to be cut out by the reader and twisted into a never-ending Mobius strip--to the much-anthologized *Life-Story*, whose details are left to

the reader to fill in the blank, Barth's acclaimed collection challenges our ideas of what fiction can do. Highlights include the Homeric story-within-a-story-within-a-story (times seven) of Menelaoid, ' and Night-Sea Journey, a first-person account of a confused human sperm on its way to fertilize an egg. All of the characters in Lost in the Funhouse are searching, in one way or another, for their purpose and the meaning of their existence. Together, their stories form a kaleidoscope of exuberant metafictional inventiveness.

Language Hacking Spanish Benny Lewis,2017-03-28 It's true that some people spend years studying Spanish before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of Spanish, #LanguageHacking shows you how to learn and speak Italian through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only other people can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in Spanish from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

Mullin seeks to determine whether freewriting lives up to

claims made for it. Barbara W. Cheshire assesses the efficacy of freewriting. James W. Pennebaker checks the short- and long-term effects of freewriting on students' emotional lives. Ken Macrorie notes that freewriting means being freed to use certain powers. Peter Elbow shows how authors use freewriting. Robert Whitney tells why I hate to freewrite. Karen Ferro considers her own freewriting, showing how it leads to a deeper self-understanding. Chris Anderson discusses the qualities in freewriting that we should maintain in revision. Discrimination, Challenge and Response Venkat Pulla, Rituparna Bhattacharyya, Sanjai Bhatt, 2020-09-14 This book explores discrimination against Northeast Indians, who have been frequently stereotyped as backwards, anti-national, anti-assimilationist, immoral, and relegated to low paying positions across retail, hospitality, telecommunications and wellness industries. The contributions draw on interviews with individuals who have migrated to other Indian cities and towns to find jobs and escape from native poverty, and provide a critical examination of the intersections between power, privilege and racial hierarchy in India today. The chapters cover a variety of perspectives including social movements and activism, history, policy, youth studies and gender studies. With a focus on marginalised communities, and the effects and persistence of racial inequality in a South Asian context, this collection will be an important contribution to critical race studies, public policy, human rights discourse, and social work.

Indeed, we are humbled by the complexity, extent and beauty of cross-talks in various biological systems; on the other hand, we are becoming more educated and are able to start addressing honestly and skillfully the various important issues concerning translational medicine, global agriculture, and the environment. The two volumes of this book presents a series of high-quality research or review articles in a timely fashion to this emerging research field of our scientific community.
