La violencia, ese instinto animal arraigado en el hombre desde tiempos remotos, se institucionaliza a través del Estado, poseedor de su monopolio bajo el amparo de la ley, para impartirse desde motivaciones supuestamente legítimas; entre otras, la de salvaguardar la paz social mediante esa represión que trata de mantenernos alejados de la barbarie. Intrínseca a esa prerrogativa del Estado está la facultad de obligar a sus ciudadanos a secundar esa violencia, aportando su sufrimiento e incluso su propia vida y la de sus seres queridos. El cine, reflejo de todas las facetas que engloba la existencia del ser humano, nunca estuvo al margen de la representación de la guerra, ya sea para apoyarla, para censurarla, para constituirse en mero testimonio histórico o incluso para utilizarla como un espectáculo más con el que distraer a la audiencia. La guerra es, por desgracia, ese elemento que siempre estuvo, está y estará presente en el devenir del género humano.

Esta es la historia de un equipo de operaciones especiales, el grupo SEAL llamado los "Castigadores", que participó en la batalla de Ramadi en 2006. Conocíamos sus hazañas de guerra a partir de las memorias de uno de sus miembros, Chris Kyle, pero la versión que nos ofrece Kevin Lacz, el último superviviente del grupo, basada en su diario personal de campaña, resulta enriquecedora, y muy distinta, ya que no nos habla de héroes individuales, sino de la acción de un colectivo. Porque esta salvaje forma de guerra —el acecho, el disparo

lejano que puede matar a un inocente, la respuesta de los insurgentes...- no es obra de máquinas de matar, sino de seres humanos que no podrían resistir la tensión sin el contrapunto de la camaradería. Kevin Lacz, conocido en el grupo como Dauber, nos muestra en estas páginas la historia real de unos hombres destruidos por la guerra.

Extraordinario, inolvidable y cargado de adrenalina, el relato de Kyle se situa como una de las mejores autobiografias de guerra de todos los tiempos."

The widow of "American Sniper" Chris Kyle shares their private story: an unforgettable testament to the power of love and faith in the face of war and unimaginable loss--and a moving tribute to a man whose true heroism ran even deeper than the legend In early 2013, Taya Kyle and her husband Chris were the happiest they ever had been. Their decade-long marriage had survived years of war that took Chris, a U.S. Navy SEAL, away from Taya and their two children for agonizingly long stretches while he put his life on the line in many major battles of the Iraq War. After struggling to readjust to life out of the military, Chris had found new purpose in redirecting his lifelong dedication to service to supporting veterans and their families. Their love had deepened, and, most special of all, their family was whole, finally. Then, the unthinkable. On February 2, 2013, Chris and his friend Chad Littlefield were killed while attempting to help a troubled vet. The life Chris and Taya fought so hard to build together was shattered. In an instant, Taya became a single parent of two. A widow. A young woman facing the rest of her life without the man she loved. Chris and Taya's remarkable story has captivated millions through Clint Eastwood's blockbuster, Academy Award-winning film American Sniper, starring Bradley Cooper as Chris and Sienna Miller as Taya, and because of Chris's bestselling memoir, in which Taya contributed passages that formed the book's emotional core. Now, with trusted collaborator Jim DeFelice, Taya writes in never-before-told detail about the hours, days, and months after his shocking death when grief threatened to

overwhelm her. Then there were wearying battles to protect her husband's legacy and reputation. And yet throughout, friendship, family, and a deepening faith were lifelines that sustained her and the kids when the sorrow became too much. Two years after her husband's tragic death, Taya has found renewed meaning and connection to Chris by advancing their shared mission of "serving those who serve others," particularly military and first-responder families. She and the children now are embracing a new future, one that honors the past but also looks forward with hope, gratitude, and joy. *American Wife* is one of the most remarkable memoirs of the year -- a universal chronicle of love and heartbreak, service and sacrifice, faith and purpose that will inspire every reader.

"One of the very best books to come out of the war in Iraq," (Lt. Col. Dave Grossman, bestselling author of *On Killing*), *The Last Punisher* is a gripping and intimate on-the-ground memoir from a Navy SEAL who was part of SEAL Team THREE with American Sniper Chris Kyle. Experience his deployment, from his first mission to his first kill to his eventual successful return to the United States to play himself in the Oscar-nominated film directed by Clint Eastwood and starring Bradley Cooper. *The Last Punisher* is a "thoughtful, funny, and raw...always compelling" (Bing West, New York Times bestselling author of *No True Glory*) first-person account of the Iraq War. With wry humor and moving testimony, Kevin Lacz tells the bold story of his tour in Iraq with SEAL Team THREE, the warrior elite of the Navy. This legendary unit, known as "The Punishers," included Chris Kyle (American Sniper), Mike Monsoor, Ryan Job, and Marc Lee. These brave men were instrumental in securing the key locations in the pivotal 2006 Battle of Ramadi. Minute by minute, Lacz relays the edge-of-your-seat details of his team's missions in Ramadi, offering a firsthand glimpse into the heated

combat, extreme conditions, and harrowing experiences they faced every day. Through it all, Lacz and his teammates formed unbreakable bonds and never lost sight of the cause: protecting America with their fight. “A rare glimpse into the mind of a Navy SEAL,” (Clint Emerson, New York Times bestselling author of 100 Deadly Skills) Kevin Lacz brings you onto the battlefield and relays the tough realities of war. At the same time, Lacz shares how these experiences made him a better man and how proud he is of his contributions to one of this country’s most difficult military campaigns. The Last Punisher is the story of a SEAL and an “honest-to-God American hero” (Mike Huckabee, #1 bestselling author) who was never afraid to answer the call.

Chris Kyle—fallen hero and #1 bestselling author of American Sniper—reveals how ten legendary guns forever changed U.S. history. At the time of his tragic death in February 2013, former Navy SEAL Chris Kyle, the top sniper in U.S. military history, was finishing one of the most exciting missions of his life: a remarkable book that retold American history through the lens of a hand-selected list of firearms. Kyle masterfully shows how guns have played a fascinating, indispensable, and often underappreciated role in our national story. “Perhaps more than any other nation in the world,” Kyle writes, “the history of the United States has been shaped by the gun. Firearms secured the first Europeans’ hold on the continent, opened the frontier, helped win our independence, settled the West, kept law and order, and defeated tyranny across the world.” Drawing on his unmatched firearms knowledge and combat experience, Kyle carefully chose ten guns to help tell his story: the American long rifle, Spencer repeater, Colt .45 revolver, Winchester rifle, Springfield 1903 rifle, Thompson sub-machine gun, 1911 pistol, M1 Garand, .38 Special police revolver, and the M-16 rifle platform

Kyle himself used as a SEAL. Through them, he revisits thrilling turning points in American history, including the single sniper shot that turned the tide of the Revolutionary War, the firearms designs that proved decisive at Gettysburg, the "gun that won the West," and the weapons that gave U.S. soldiers an edge in the world wars and beyond. This is also the story of how firearms innovation, creativity, and industrial genius has constantly pushed American history—and power—forward. Filled with an unforgettable cast of characters, Chris Kyle's *American Gun* is a sweeping epic of bravery, adventure, invention, and sacrifice.

New York Times bestseller *The Life Story of Chris Kyle, the American Sniper* Journalist Michael J. Mooney reveals the life story of Navy SEAL Chris Kyle, the American Sniper, from his Texas childhood up through his death in February 2013. A brutal warrior but a gentle father and husband, Kyle led the life of an American hero and legend. His heroism and reputation in the military service earned him the nickname "the devil" among insurgents and the nickname *The Legend* among his SEAL brethren, but his impact extended beyond that after he came home, through his work with fellow veterans. Mooney also sheds light on the life of the suffering fellow veteran who killed Kyle and interviews those closest to the late SEAL. *The Life and Legend of Chris Kyle* is an honest portrayal of the life of a man whose memorial service brought thousands of people to Cowboys Stadium--the most celebrated war hero of our time. The political, social and economic changes which overtook England in the early seventeenth century were both powerful and dramatic, forcing Parliament to adapt from a medieval institution into one with authority over all facets of society. Dynastic change, union with Scotland, fiscal reform, civil war, revolution and Restoration required Parliament not only to be

at work, but also to discover how to work. These studies focus on change and development in three areas: firstly, the institution of Parliament itself, exploring its growing institutional sophistication and the problems connected with attendance, workload and physical environment; secondly, on Parliament's role within the institutional set-up of the constitution, and the structure and relationships of power within the governance of the country; and thirdly, on the public perception of Parliament, and the practicalities of the relationship between Parliament and the wider world. In this dramatic, behind-the-scenes chronicle, Howard Wasdin takes readers deep inside the world of Navy SEALs and Special Forces snipers, beginning with the grueling selection process of Basic Underwater Demolition/SEAL (BUD/S)—the toughest and longest military training in the world. After graduating, Wasdin faced new challenges. First there was combat in Operation Desert Storm as a member of SEAL Team Two. Then the Green Course: the selection process to join the legendary SEAL Team Six, with a curriculum that included practiced land warfare to unarmed combat. More than learning how to pick a lock, they learned how to blow the door off its hinges. Finally as a member of SEAL Team Six he graduated from the most storied and challenging sniper program in the country: The Marine's Scout Sniper School. Eventually, of

The mission: capture or kill Somalian warlord Mohamed Farrah Aidid. From rooftops, helicopters and alleys, Wasdin hunted Aidid and killed his men whenever possible. But everything went quickly to hell when his small band of soldiers found themselves fighting for their lives, cut off from help, and desperately trying to rescue downed comrades during a routine mission. The Battle of Mogadishu, as it became known, left 18 American soldiers dead and 73 wounded. Howard Wasdin had both of his legs nearly blown off while engaging the enemy. His dramatic combat tales combined with inside details of becoming one of the world's deadliest snipers make this one of the most explosive military memoirs in years.

This book chronicles the expansion and creation of new public spheres in and around Parliament in the early Stuart period. It focuses on two closely interconnected narratives: the changing nature of communication and discourse within parliamentary chambers and the interaction of Parliament with the wider world of political dialogue and the dissemination of information. Concentrating on the rapidly changing practices of Parliament in print culture, rhetorical strategy, and lobbying during the 1620s, this book demonstrates that Parliament not only moved toward the center stage of politics but also became the center of the post-Reformation public sphere. Theater of State begins by examining the noise of politics inside Parliament, arguing that the House of Commons increasingly became a place of noisy, hotly contested speech. It then turns to the material conditions of note-taking in Parliament and how and the public became aware of parliamentary debates. The book concludes by examining practices of lobbying, intersections of the public with Parliament within Westminster Palace, and Parliament's expanding print culture. The author argues overall that the Crown dispensed with Parliament because it was too powerful and too popular.

The Road to Fatima Gate is a first-person narrative account of revolution, terrorism, and war during history's violent return to Lebanon after fifteen years of quiet. Michael J. Totten's version of events in one of the most volatile countries in the world's most

volatile region is one part war correspondence, one part memoir, and one part road movie. He sets up camp in a tent city built in downtown Beirut by anti-Syrian dissidents, is bullied and menaced by Hezbollah's supposedly friendly "media relations" department, crouches under fire on the Lebanese-Israeli border during the six-week war in 2006, witnesses an Israeli ground invasion from behind a line of Merkava tanks, sneaks into Hezbollah's postwar rubblescape without authorization, and is attacked in Beirut by militiamen who enforce obedience to the "resistance" at the point of a gun. From the Cedar Revolution that ousted the occupying Syrian military regime in 2005 to the devastating war between Israel and Hezbollah in 2006 to Hezbollah's slow-motion but violent assault on Lebanon's elected government and capital, Totten's account is both personal and comprehensive. He simplifies the bewildering complexity of the Middle East; gains access to major regional players as well as to the man on the street; and personally witnesses most of the events he describes. *The Road to Fatima Gate* should be indispensable reading for anyone interested in the Middle East, Iran's expansionist foreign policy, the Arab-Israeli conflict, asymmetric warfare, and terrorism in the aftermath of September 11.

Today One of the most dynamic and globally recognized entertainment forces of our time opens up fully about his life, in a brave and inspiring book that traces his learning curve to a place where outer success, inner happiness, and human connection are aligned. Along the way, Will tells the story in full of one of the most amazing rides through the worlds of music and film that anyone has ever had. Will Smith's transformation from a West Philadelphia kid to one of the biggest rap stars of his era, and then one of the biggest movie stars in Hollywood history, is an epic tale—but it's only half the story. Will Smith thought, with good reason, that he had won at life: not only was his own success unparalleled, his whole family was at the pinnacle of the entertainment world. Only they didn't see it that way: they felt more like star performers in his circus, a seven-days-a-week job they hadn't signed up for. It turned out Will Smith's education wasn't nearly over. This memoir is the product of a profound journey of self-knowledge, a reckoning with all that your will can get you and all that it can leave behind. Written with the help of Mark Manson, author of the multi-million-copy bestseller *The Subtle Art of Not Giving a F*ck*, Will is the story of how one person mastered his own emotions, written in a way that can help everyone else do the same. Few of us will know the pressure of performing on the world's biggest stages for the highest of stakes, but we can all understand that the fuel that works for one stage of our journey might have to be changed if we want to make it all the way home. The combination of genuine wisdom of universal value and a life story that is preposterously entertaining, even

This collection explores the dynamics of local/national political culture in seventeenth-century Britain, with particular reference to political communication. It examines the degree to which connections were forged between politics in London, Whitehall and Westminster, politics in the localities and the patterns and processes that can be recovered. The goal is to create a dialogue between two prominent strands in recent historiography and between the work of social and political historians of the early modern period. Chapters by leading historians of Stuart England examine how the state worked to communicate with its people and how local communities, often far from the metropole, opened their own lines of communication with the centre.

The remarkable story of the Finnish marksman nicknamed “White Death” by the Red Army for his record number of confirmed kills. Simo Häyhä is the most famous sniper in the world. During the Winter War fought between Russia and Finland from 1939 to 1940, he had 542 confirmed kills with iron sights, a record that still stands today. A man of action who spoke very little, Simo Häyhä was hugely respected by his men and his superiors and given many difficult missions, including taking out specific targets. Able to move silently and swiftly through the landscape, melting into the snowbound surroundings in his white camouflage fatigues, his aim was deadly and his quarry rarely escaped. The Russians learned of his reputation as a marksman and tried several times to kill him by indirect fire. He was promoted from corporal to second lieutenant, and he was awarded the Cross of Kollaa. For sniping, Simo Häyhä only ever used his own M/28-30 rifle. Eventually, his luck ran out, and Simo received a serious head wound on March 6, 1940, though he subsequently recovered. *The White Sniper* fully explores Simo Häyhä’s life, his exploits in the Winter War, the secrets behind his

success, including character and technique, and also includes a detailed look at his rifle itself. There are appendices on the basics of shooting, the impact of fire on the battlefield, battles on the Kollaa Front during the Winter War, and a list of ranked snipers of the world. “No matter how many books on sniping you have read, this must be added to your list if you are serious about shooting.” —GunMart

THE NEW YORK TIMES BESTSELLER The only comprehensive, firsthand account of the fourteen-hour firefight at the Battle of Keating in Afghanistan by Medal of Honor recipient Clinton Romesha, for readers of *Black Hawk Down* by Mark Bowden and *Lone Survivor* by Marcus Luttrell. “‘It doesn't get better.’ To us, that phrase nailed one of the essential truths,

maybe even the essential truth, about being stuck at an outpost whose strategic and tactical vulnerabilities were so glaringly obvious to every soldier who had ever set foot in that place that the name itself—Keating—had become a kind of backhanded joke.” In 2009, Clinton Romesha of Red Platoon and the rest of the Black Knight Troop were preparing to shut down Command Outpost (COP) Keating, the most remote and inaccessible in a string of bases built by the US military in Nuristan and Kunar in the hope of preventing Taliban insurgents from moving freely back and forth between Afghanistan and Pakistan. Three years after its construction, the army was finally ready to concede what the men on the ground had known immediately: it was simply too isolated and too dangerous to defend. On October 3, 2009, after years of constant smaller attacks, the Taliban finally decided to throw everything they had at Keating. The ensuing fourteen-hour battle—and eventual victory—cost eight men their lives. Red Platoon is the riveting firsthand account of the Battle of Keating, told by Romesha, who spearheaded both the defense of the outpost and the counterattack that drove the Taliban back beyond the wire and received the Medal of Honor for his actions.

The twentieth century in Europe witnessed some of the most brutish episodes in history. Yet it also saw incontestable improvements in the conditions of existence for most inhabitants of the continent - from rising living standards and dramatically increased life expectancy, to the virtualelimination of illiteracy, and the advance of women, ethnic minorities, and homosexuals to greater equality of respect and opportunity. It was a century of barbarism and civilization, of cruelty and tenderness, of technological achievement and environmental spoliation, of imperial expansion and withdrawal, of authoritarian repression - and of individualism resurgent. The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood's blockbuster movie which was nominated for six academy awards, including best picture. From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

They are the lone wolves of the battlefield. Tracking the enemy, lying in wait for the target to appear -- then they shoot to kill. Armed with an unerring eye, infinite patience and a mastery of camouflage, combat snipers stalk the enemy with only one goal... In World War II, Korea, Vietnam, and Beirut, American snipers honed the art of delivering a single deadly shot from nowhere -- and devastating enemy morale. They met the enemy on his own turf, picking off officers, unwary soldiers, and even other snipers from extraordinary distances of up to 1 ½

miles. Now, these uncommon men tell their stories: of the emotions felt when a man's face came into their crosshairs and they pulled the trigger, of the nerve-wracking hours and days of waiting, motionless, for the enemy, of the primal savagery of a sniper duel. Often trained haphazardly in wartime, and forgotten in times of peace, combat snipers were officially recognized after the Vietnam War, when the Marine Corps became the first military branch to start a full-time sniper school. One Shot-One Kill is their powerful record of desperate trials and proud victories. A MAIN SELECTION OF THE MILITARY BOOK CLUB

The training and character that make for success in one of the most challenging and mysterious jobs the military has to offer, clearly described and illustrated. Profiles Marine Carlos Hathcock, an ace marksman, whose missions during the Vietnam War included assassinating a North Vietnamese.

The sniper is a battlefield threat second to none. Mastering the art of marksmanship is critical but is only part of what makes a Navy SEAL sniper. Snipers must be able to apply the craft in an urban environment or alone on a hostile mountain top with equal effectiveness. Today's sniper must not just leverage technological advances but also have the foreknowledge to select the best rifle and gear for the mission. Increasingly, he must have the mental toughness to adapt to a constantly changing environment, gather intelligence, and truly act as a force multiplier. In this comprehensive look through the eyes of former Navy SEAL sniper instructor Brandon Webb and fellow Navy SEAL

snipers Chris Kyle and Glen Doherty, the authors reveal not just the fundamentals of marksmanship but also the science of shooting, stalking, and camouflage and how technological advances have changed the training and increased the effectiveness of the modern sniper. Including maritime, helicopter, and urban sniper operations, this updated edition also goes into detail on the latest research, development, testing, and evaluation of weapons and optics. From the basics like compensating for wind and bullet drop, to camouflage and placing yourself or your team in the best position to take a photo or pull a trigger, Webb and Doherty cover the critical elements that comprise the twenty-first century sniper.

The Red Circle: My Life in the Navy SEAL Sniper Corps and How I Trained America's Deadliest Marksmen Now including an excerpt from The Killing School: Inside the World's Deadliest Sniper Program BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS... HE HAD TO BECOME ONE HIMSELF. Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, The Red Circle provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead

instructor for the shadowy "sniper cell" and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors-including Marcus Luttrell and Chris Kyle-that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military. Explosive, revealing, and intelligent, *The Red Circle* provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world.
