

Electronics Instrumentation Engineer Resume

Basic electric instruments. Various meter movements. Potentiometers and resistance bridges. Capacitance bridges and their applications. Inductance bridges and their applications. Semiconductor devices and digital systems. Transducers. General description of oscilloscopes. Solid-state electronic voltmeters and multimeters. Oscillators and signal generators. Comparators, function and pulse generators. Telemetry transmitters and receivers. A typical triggered-sweep dual-trace oscilloscope. Digital multimeter design. Introduction to the TV terminal using a microprocessor. Motorola MC6800 instructions. Software of the TVT using MC6801.

Explains how to prepare a resume for electronic posting and video presentation, covering how computers scan resumes and the importance of keywords
