An exploration of the wild spirits that once roamed the lands and inhabited the waters and the pagan rites used to gain their good will • Explores medieval stories and folk traditions of brownies, fairies, giants, dragons, will-o'-the-wisps, and demons • Explains the specific rites performed to negotiate with the local spirits and ensure their permission before building on new land • Shows how these beliefs carried through to modern times, especially in architecture Our pagan ancestors knew that every forest has brownies and fairies, every spring its lady, and every river malevolent beings in its depths. They told tales of giants in the hills, dragons in the lakes, marshes swarming with will-o'-the-wisps, and demons and wild folk in the mountains who enjoyed causing landslides, avalanches, and floods. They both feared and respected these entities, knowing the importance of appeasing them for safe travel and a prosperous homestead. Exploring medieval stories, folk traditions, spiritual place names, and pagan rituals of home building and site selection, Claude Lecouteux reveals the multitude of spirits and entities that once inhabited the land before modern civilization repressed them into desert solitude, impenetrable forests, and inaccessible mountains. He explains how, to our ancestors, enclosing a space was a sacred act. Specific rites had to be

performed to negotiate with the local spirits and ensure proper placement and protection of a new building. These land spirits often became the household spirit, taking up residence in a new building in exchange for permission to build on their territory. Lecouteux explores Arthurian legends, folk tales, and mythology for evidence of the untamed spirits of the wilderness, such as giants, dragons, and demons, and examines the rites and ceremonies used to gain their good will. Lecouteux reveals how, despite outright Church suppression, belief in these spirits carried through to modern times and was a primary influence on architecture, an influence still visible in today's buildings. The author also shows how our ancestors' concern for respecting nature is increasingly relevant in today's world.

Explores this dark aspect of folklore and religion and the role that demons play in the modern world. Includes numerous entries documenting beliefs about demons and demonology from ancient history to the present. This book examines the fairies, demons, and nature spirits haunting the margins of Christendom from late-antique Egypt to early modern Scotland to contemporary Amazonia. Contributions from anthropologists, folklorists, historians and religionists explore Christian strategies of encompassment and marginalization, and the 'small gods' undisciplined tendency to evade such efforts at exorcism. Lurking in forest or fairy-mound, chuckling in dark corners of the home or of the demoniac's body, the small gods both define and disturb the borders of a religion that

is endlessly syncretistic and in endless, active denial of its own syncretism. The book will be of interest to students of folklore, indigenous Christianity, the history of science, and comparative religion.

'An energy, a pulse form of quantum physics perhaps, alive at the margins of sleep or madness, and more often in the whispering of a single unwelcome thought.' The Economist According to Islamic tradition, Allah created three types of beings: angels, made of light; humans, made of earth; and jinn, made of smokeless fire. Supernatural, shape-shifting, intelligent and blessed with free will and remarkable powers, jinn have over the ages been given many names - demon, spirit, ghoul, genie, ifrit and shaitan. Neither human nor immortal, they roam the earth inhabiting dark and empty places, luring humans to their deaths or demonically possessing them if harmed or offended. Despite the fact they cannot be seen, jinn are said to be strangely human-like - marrying, bearing children, forming communities and tribes, eating, sleeping, playing and facing judgement like any other human. They are ever-present partners in the human experience,

causing endless mischief, providing amazing services and sometimes inducing sheer terror. Believed in by hundreds of millions of people throughout the world and from all faiths, jinn have played a particularly central role in the literature, culture and belief systems of the Middle East and the Islamic world. Legends of the Fire Spirits explores through time and across nations the enduring phenomenon of the jinn. From North Africa to Central Asia, from the Mediterranean to sub-Saharan Africa and beyond, this riveting, often chilling, yet reasoned book draws on long-forgotten ancient testimonies, medieval histories, colonial records, anthropologist's reports and traveller's tales to explore the different types of jinn, their behaviour, society, culture and long history of contact with humankind. It documents their links with famous figures in history such as King Solomon and the Queen of Sheba and illustrates the varied and vivid portrayals of jinn in world literature. In essence Legends of the Fire Spirits demonstrates the colourful diversity of human culture and the durability of faith and is a magnificent and indispensable portrayal of the rich folklore of the Islamic world.
