Back in the 1950s and 1960s, cars such as the Jaguar XK 120, the ASA Cisitalia, Veritas, or Pegaso could be seen performing superbly on the racing circuits of Europe. The classic models of some 150 different makes are featured in this comprehensive reference work. This book takes you back to the racing circuits of the 1950s, 1960s, and 1970s when automobiles such as those of Gianni and Lamborghini ruled the road. The book also covers lesser-known makes such as the kit cars that Lotus sold for people to build themselves; there are sports cars for the road as well as for the race track. For instance, did you know that the Merak closely resembled the Bora but was powered by the same V-6 motor used in the SM Citroen? That is because the factory needed to use up its large stock of these engines. The book contains the fascinating stories of the manufacturers and designers of countless famous and lesser-known brands of both road-going and racing sports cars. With more than 750 color photographs, this is an essential reference work for automobile enthusiasts, especially classic sports car-lovers. Book jacket.

Feel the heat--the street heat from the 1960s and 70, when the meanest, fastest, and most powerful cars tore up the streets. Jim Campisano, editor in chief of Muscle Mustangs & Fast Fords magazine, has written the ultimate, illustrated A to Z field guide of these supreme, extreme American vehicles. Muscle cars came onto the market when Detroit's "big three" manufacturers (Chevy, Ford, and Pontiac) decided to compete for a younger, more performance-obsessed buyer at the end of the 1950s. Gone were the bulky "land boats" with their huge fins; instead, out came lean ponycars, like the Dodge Coronet 500 Convertible and the Ford Falcon, pumped up on big-inch, high-compression, multiple-carburetor equipped super-mills. Though they were sold to the general public, any one of them, with only minor adjustments, could have won on the superspeedways of the NASCAR circuit. Even now, three decades after these gas-guzzling greyhounds went out of style, they regularly attract new generations of admirers throughout the world.

The Liberation to the African Mind: The Key to Black Salvation is a strong book written to the millions of African Americans who have had their history distorted by the Church and public schools. Because of these distortions Black people are estranged and alienated from their culture and the wisdom of their ancestors. The book challenges African Americans to begin to think for themselves especially in the realm of religion. It is a prophetic book with a revolutionary perspective. It is prophetic in that it points to the direction the Black Church must take to effectively address the spiritual needs of the Black community. It is revolutionary because it challenges the Church and believers to establish a new paradigm, an African Spiritual frame of reference. The Black Church must transform itself and take on a new view of the scriptures, doctrines and dogmas of Christendom. This book documents the fact that what Blacks have been given as Christianity is in reality stolen African mythology, cosmology and history that has been corrupted by Roman and Greek priest, philosophers and emperors. It is one of the most powerful challenges to Orthodox Christianity to date. The Truth will liberate you from their strong delusions. While there is indeed some positive and beneficial aspects to Church membership it is time for the Black Church to make its exodus from the Western religious way of faith in God to the African spiritual way of knowledge of God. Black Pastors and religious leaders must begin to teach that which will bring about the manifestation of the fullness of Christ. This is the charge given to all church leadership by the Bible they teach from. "And He Himself gave some to be apostles, some prophets, some evangelist, some pastors and teachers, for the equipping of the saints for the work of the ministry, for the edifying of the body of Christ, till we all come to the unity of the faith and the knowledge of the Son of God, to be a perfect man, to the measure of the stature of the fullness of Christ." Ephesians 4:11-13. There are far too many Babes in Christ in the Church. It is not the fault of the believers but a reflection of corrupted doctrines and false dogmas. In addition the unity of the Black Church must become a priority. Not one church or believer can say they have no need of the rest of the Body of Christ in

The must-have guide to pop culture, history, and world-changing ideas that started in New York City, from the magazine at the center of it all. Since its founding in 1624, New York City has been a place that creates things. What began as a trading post for beaver pelts soon transformed into a hub of technological, social, and cultural innovation—but beyond fostering literal inventions like the elevator (inside Cooper Union in 1853), Q-tips (by Polish immigrant Leo Gerstenzang in 1923), General Tso's chicken (reimagined for American tastes in the 1970s by one of its Hunanese creators), the singles bar (1965 on the Upper East Side), and Scrabble (1931 in Jackson Heights), the city has given birth to or perfected idioms, forms, and ways of thinking that have changed the world, from Abstract Expressionism to Broadway, baseball to hip-hop, news blogs to neoconservatism to the concept of "downtown." Those creations and

more are all collected in The Encyclopedia of New York, an A-to-Z compendium of unexpected origin stories, hidden histories, and useful guides to the greatest city in the world, compiled by the editors of New York Magazine (a city invention itself, since 1968) and featuring contributions from Rebecca Traister, Jerry Saltz, Frank Rich, Jonathan Chait, Rhonda Garelick, Kathryn VanArendonk, Christopher Bonanos, and more. Here you will find something fascinating and uniquely New York on every page: a history of the city's skyline, accompanied by a tour guide's list of the best things about every observation deck; the development of positive thinking and punk music; appreciations of seltzer and alternate-side-of-the-street parking; the oddest object to be found at Ripley's Believe It or Not!; musical theater next to muckracking and mugging; and the unbelievable revelation that English muffins were created on...West Twentieth Street. Whether you are a lifelong resident, a curious newcomer, or an armchair traveler, this is the guidebook you'll need, straight from the people who know New York best.

Contains brief histories, photographs, and illustrations of automobiles from around the world, arranged alphabetically from Cadillac to Duesenburg.

Arranged from A to Z with the history of the make, technical data, and production numbers of each car listed.
