Christ-Mary-Energy, what's that? Very easy to explain: It's Christ Energy re-named, giving honor to the Divine Feminine and the feminine in general. The spiritual world has chosen the name of Mary to refer to the feminine. Mary, the mother of Jesus, and Mary of Magdala, his wife, were representatives of Christ Consciousness two thousand years ago, as well as Jesus himself. Nowadays, we are aware of the fact that Christ-Mary-Energy is Quantum Energy, and working with this energy is another way of using the quanta for healing. A warning to the reader: you will have to take a decision! Are you ready for self-responsibility and self-empowerment? Are you ready for actual change? If so, this book will make you inestimable presents!

That bad things happen to good people was as true in early China as it is today. Franklin Perkins uses this observation as the thread by which to trace the effort by Chinese thinkers of the Warring States Period (c.475-221 BCE), a time of great conflict and division, to seek reconciliation between humankind and the world. Perkins provides rich new readings of classical Chinese texts and reflects on their significance for Western philosophical discourse.

The aim of this book is to map some of the deep structural and interpretive functions of the three "modes" for astrology. By first making inferences from ancient writings, then analyzing the correlations of the modes, it will be argued that the modes are vital to an understanding of human behavior. They anticipate a person's level of functioning, or in other words, their governing meme. In traditional systems modes define three basic levels of human functioning: the intellectual, social, and biological. Properly understood, these human imperatives provide psychological insight into the interpretive meaning of sun, moon, ascendant, and planets. The associative values ascribed to the modes derive from their corresponding direct relations to the planes of the ecliptic, equator, and the horizon. Consequently, it is within astrological technology that this essay contends that the modes help interpret the sun, moon and ascendant in a natal chart, whose meaning also is measured by these same three planes.

Living Between Heaven and Earth Part One is C Wolinski's first hand account of supernatural experiences. Journey along as she recounts coming face to face with spirits and angels, that all began with a memory of Heaven. It will change the way you look at life, love and the after world.

The New York Times bestselling authors of Lessons from the Light offer a new and provocative understanding of heaven and how messages from the afterlife can assist you in the here and now. We live in a world of near-universal acceptance that once our lives on the earth come to an end we continue to a greater world. Whether that destination is called "Heaven," "Nirvana," or simply "The Other Side," tradition teaches us that there is, in most cases, a fairy-tale ending to life, a place where joy and harmony reigns supreme. Yet, as this book attests there is still more to heaven and earth than is dreamt of in our philosophies. George Anderson is considered by many to be the greatest medium living today. After more than 50 years of hearing from souls who have transitioned to the world hereafter, he is constantly reminded by those who have passed that our preconceived notions of this life--and the next--aren't always accurate. The nine stories in this book illuminate times when unusual circumstances such as sudden death, unresolved emotions, abusive relationships, and painful family dynamics, make it necessary for the dead and the living to find new doors to healing. In session with Anderson, survivors and those who have passed meet again in encounters that are profound, bittersweet, highly-emotional and sometimes, downright, funny. What we learn is that there are little-known spiritual treasures--and lessons to be learned--about heaven and earth that can restore, revitalize, and make new what was once broken. Life Between Heaven and Earth is an inspiring, thought-provoking, path-changing work, one that affirms that no matter how complicated a circumstance is, resolution, peace and acceptance can be found in deep and remarkable ways.

The movements in the Between Heaven and Earth practices are simple but energetically very powerful. By stimulating the flow of energy within the eight extraordinary meridians in the body. They set up a very strong and stable energy pattern within us, similar to the pattern found within galaxies, atoms and gyroscopes. This strong stable energy pattern makes us very resilient both physically and mentally, and able to cope with whatever life throws at us without being knocked out of balance. Activation of the extraordinary meridians also allows us to connect to the power of Heaven and the power of Earth, allowing this energy to flow through us, refreshing and cleansing our energy field. When our energy field is full and strong it forms a protective buffer, and developing skill with this allows us to interact more harmoniously with other people and the world around us. This book contains complete instructions and illustrations of how to practice the Between Heaven and Earth exercises, along with theory and practical explanations so that you can understand exactly what you are trying to achieve with each exercise and how each exercise works. The Between Heaven and Earth qigong practices are an excellent way to boost your energy and build health, strength, and resilience while gaining a practical understanding of the often misunderstood extraordinary meridians.

"Comprehensive, encyclopedic, and lucid, this book is a must for all practitioners of the healing arts who want to broaden their understanding. Readers interested in the role of herbs and foods in healing will also find much to learn here, as I have. . . . A fine work."—Annemarie Colbin, author of *Food and Healing* The promise and mystery of Chinese medicine has intrigued and fascinated Westerners ever since the "Bamboo Curtain" was lifted in the early 1970s. Now, in *Between Heaven and Earth*, two of the foremost American educators and healers in the Chinese medical profession demystify this centuries-old approach to health. Harriet Beinfeld and Efrem Korngold, pioneers in the practice of acupuncture and herbal medicine in the United States for over eighteen years, explain the philosophy behind Chinese medicine, how it works and what it can do. Combining Eastern traditions with Western sensibilities in a unique blend that is relevant today, *Between Heaven and Earth* addresses three vital areas of Chinese medicine—theory, therapy, and types—to present a comprehensive, yet understandable guide to this ancient system. Whether you are a patient with an aggravating complaint or a curious intellectual seeker, *Between Heaven and Earth* opens the door to a vast storehouse of knowledge that bridges the gap between mind and body, theory and practice, professional and self-care, East and West. "Groundbreaking . . . Here at last is a complete and readable guide to Chinese medicine."—San Francisco Chronicle

Discover the secret to manifesting and maintaining the Honeymoon Effect—a state of bliss, passion, energy, and health in the early stages of a great love—throughout your entire life Think back on the most spectacular love affair of your life—the Big One that toppled you head over heels. For most, it was a time of heartfelt bliss, robust health, and abundant energy. Life was so beautiful that you couldn't wait to bound out of bed in the morning to experience more Heaven on Earth. It was the Honeymoon Effect that was to last forever. Unfortunately for most, the Honeymoon Effect is frequently short lived. Imagine what your planetary experience would be like if you could maintain the Honeymoon Effect throughout your whole life. Bruce H. Lipton, Ph.D., best-selling author of *The Biology of Belief*, describes how the Honeymoon Effect was not a chance event or a coincidence, but a personal creation. This book reveals how we manifest the Honeymoon Effect and the reasons why we lose it. This knowledge empowers readers to create the honeymoon experience again, this time in a way that ensures a happily-ever-after relationship that even a Hollywood producer would love. With authority, eloquence, and an easy-to-read style, Lipton covers the influence of quantum physics (good vibrations), biochemistry (love potions), and psychology (the conscious and subconscious minds) in creating and sustaining juicy loving relationships. He also asserts that if we use the fifty trillion cells that live harmoniously in every healthy human body as a model, we can create not just honeymoon relationships for couples but also a "super organism" called humanity that can heal our planet.

Twenty years ago, in England, author Richard Leviton "discovered the planet." Following quite specific guidance, he began a long process that amounted to an apprenticeship. "My mentors dispatched me to various specific locations in the Somerset landscape, and at all hours of the night and day. I sat on hills and valleys and rocks under sunlight, moonlight, rain, snow, and fog, and had visions. I started to see another landscape behind the apparent landscape. It was an apparitional landscape with stars, planets, galaxies, angels, spirits of Nature, mythic deities, divinity." As time went on, he found himself talking with angels, visiting celestial cities, and following gnomes. He came to understand that at one level we are the planet, and that both we and it have an intimate relationship with our galaxy. "I found myself living inside the myths of the world as if they were expert scripts for real-life inner adventures. I never once thought I was crazy. Why should I? Quite the opposite. I believed I was finally getting grounded in something real. But it would take me twenty years to make sense of it. That sense is embodied in *The Emerald Modem*." *The Emerald Modem* includes: direct correspondences between human chakras and the Earth's energy features--and the galactic originalstables listing locations of sacred sites around the planet where you may experience this relationshipexplanations of world myths, which provide clues to this unsuspected visionary world around us This is the first book to synthesize all the fragments of geomantic perception (sacred sites, energy points, vertexes, etc.) into a global interactive model that ties human consciousness directly to it. Leviton describes 85 subtle features in the planetary landscape, places you can go for mystical experiences. They are features of the Earth's energy body, almost all invisible to conventional sight. But psychic cognition can be trained, and you can usefully interact with any of these types of sites today without seeing what you're doing. Your intent to interact for the benefit of yourself and the planet is all that's required. Just as modems dial us into the Internet, so the features of the Earth's energy body described in *The Emerald Modem* help us get online with the galaxy. You can learn to visit Grail Castles, experience a Mount Olympus, or walk through the stars in a landscape zodiac--and you can learn enough to become confident that you're not traveling alone.

James Van Praagh teaches that death is not the end, nor is it something to be feared, and that there is indeed life beyond this physical world. He believes that everyone has psychic awareness but only a few have the knowledge and self-awareness to develop it. In Heaven and Earth he describes a variety of proven practical techniques to expand one's psychic awareness and intuition. He includes inspirational stories from those who have been touched by angels or visited by spirit guides. He explains how, with the help of spirits, we can learn to solve our problems with less strain, lead healthier lives and experience more contentment and creativity.

Temple of Heaven and Earth is the focus of a study of earth and cosmic energy. Energy affects everything from the physics of the universe down to the miracle of life on Earth. Modern corporate-science uses energy to power mechanisms. Ancient science used energy to heal, cure, and support health, but more especially to promote inspiration, truth in speech, communication, knowledge, and the gift of the 'joy of life.' Both ancient and modern science, traditions, and testimony are woven together to give the reader an opportunity to come to their own conclusions. Much of the confusion rests in the multiplicity and duplication of different names and concepts for the same thing. Astronomical phenomena transfers, modulates, and stores energy according to random and chaotic movement, as well as orderly cyclical progressions which can be cataloged by geometry, numbers, and proportions. Therefore, ancient people accepted a universe that is half chaos and half order which resulted in the perpetual creation of change, motion, and especially energy. This cosmic energy was captured by the Earth to fuel earth-energy sites that promoted health and inspiration to mankind.

Heaven, Earth, and Humankind, Volumes I through IV was inspired by a dream in which I witnessed the collision of two worlds, one red and one green, the red cube was the dragon of Chinese Medical Philosophy, the green globe was the holistic cosmos that I already knew well through tropical astrology. The outcome of this dream was this book that integrates the two systems, and illuminates the core they share. Behind every aspect of human experience we find the influence of light and darkness both as a reality and metaphor. Three great cycles of light and darkness govern experience: the seasonal cycle, the waxing and waning of the moon, and the emergence and retreat of daylight. These three cycles connect directly to the triune principle in Chinese philosophy that differentiates three aspects of human endeavor: spirit, body, and social life. Heaven and earth seem to form a polarity. When they interact, they produce all the multifarious form of life near the surface of the earth. The whole ever remains a unity. Heaven floods the earth with both solar and celestial energy. The earth responds to that influx by producing living forms on its surface. The horizon line of the celestial chart symbolizes this plane where energy and matter interact. From this we can assess where a person's

focus is and how they balance the three different aspects of human experience. Human beings are the finest expression of heaven and earth, if and only if we harmonize with the great cycles of light. In Volume IV I connect this core wisdom from Chinese sages with the astrological idea of the three modes of tropical astrology. This volume continues the holistic and cyclic approach to astrology developed in the previous three volumes and culminates in a detailed description of the effect of the Sun, Moon, or Horizon in each zodiac sign. Each sign has a mode and the mode has affinity either with heaven and the sun, earth and the moon, or the ascendant and human affairs. The mutable signs are aligned with the sphere of the ecliptic and the mutable mode. Heaven, Earth, and Humankind maps a path to understanding why astrology works in terms that anyone can understand. The operative power of astrology is the three light cycles as all the ancients understood. We have lost the wisdom, but that lost wisdom is recovered somewhat in this valuable book. How is our human experience connected to the greater life of the cosmos? Our answer depends on our degree of self-realization, and we cannot truly know ourselves unless we understand how we feel and react to the cycles of heaven. This book brings some traditional wisdom into focus to help us with these fundamental questions about how to live well.
