The photos in this edition are black and white. Mitsubishi's 4G63t engine is among the most powerful engines ever in the sport-compact world. It's not uncommon to find one of these four-cylinder, iron-block, aluminum-headed, 2-liter turbocharged monsters making more than 1,000 horsepower with the right modifications and tuning - well above the 200-300 hp produced in the factory-made engines. Bolted into such cars as the Mitsubishi Lancer Evolution, Eclipse, and Galant, and the Eagle Talon and Plymouth Laser, the 4G63t has more than a cult following among sport-compact enthusiasts, who know and respect this engine's immense performance potential at the track or on the street. Up until now, in-depth performance information on the 4G63t has been hard to find. For this book, author Robert Bowen went straight to the source, Robert Garcia of Road/Race Engineering in Santa Fe Springs, California. RRE is the most well-known and respected Mitsubishi turbo performance shop in the United States, and Garcia is its in-house engine builder. Mitsubishi enthusiasts will benefit from Garcia's expertise and be able to build better, stronger engines than ever before. "How to Build Max-Performance Mitsubishi 4G63t Engines" covers every system and component of the engine, including the turbocharger system and engine management. More than just a collection of tips and tricks, this book includes a complete history of the engine and its evolution, an identification guide, and advice for choosing engine components and other parts. Profiles of successful built-up engines show the reader examples of what works, and the book includes helpful guidance for choosing your own engine building path.

Women comprise at least half the world, and usually more than half the church, but so often Christian teaching to women either fails to move beyond a discussion of roles or assumes a particular economic situation or stage of life. This all but shuts women out from contributing to God's kingdom as they were designed to do. Furthermore, the plight of women in the Majority World demands a Christian response, a holistic embrace of all that God calls women and men to be in his world. The loudest voices speaking into women's lives in the twenty-first century thus far come from either fundamentalist Islam or radical feminism. And neither can be allowed to carry the day. The Bible contains the highest possible view of women and invests women's lives with cosmic significance regardless of their age, stage of life, social status, or culture. Carolyn Custis James unpacks three transformative themes the Bible presents to women that raise the bar for women and calls them to join their brothers in advancing God's gracious kingdom on earth. These new images of what can be in Christ free women to embrace the life God gives them, no matter what happens. Carolyn encourages readers with a positive, kingdom approach to the changes, challenges, and opportunities facing women throughout the world today.
