""The Yellow Wallpaper"" is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in The New England Magazine.[1] It is regarded as an important early work of American feminist literature, due to its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband (John) has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the unnamed woman is forbidden from working, and is encouraged to eat well and get plenty of air, so she can recuperate from what he calls a ""temporary nervous depression - a slight hysterical tendency"", a diagnosis common to women during that period" Alive in the Killing Fields is the real-life memoir of Nawuth Keat, a man who survived the horrors of war-torn Cambodia. He has now broken a longtime silence in the hope that telling the truth about what happened to his people and

his country will spare future generations from similar tragedy. In this captivating memoir, a young Nawuth defies the odds and survives the invasion of his homeland by the Khmer Rouge. Under the brutal reign of the dictator Pol Pot, he loses his parents, young sister, and other members of his family. After his hometown of Salatrave was overrun, Nawuth and his remaining relatives are eventually captured and enslaved by Khmer Rouge fighters. They endure physical abuse, hunger, and inhumane living conditions. But through it all, their sense of family holds them together, giving them the strength to persevere through a time when any assertion of identity is punishable by death. Nawuth's story of survival and escape from the Killing Fields of Cambodia is also a message of hope; an inspiration to children whose worlds have been darkened by hardship and separation from loved ones. This story provides a timeless lesson in the value of human dignity and freedom for readers of all ages.

Eleven short stories of the Cuban immigrant experience as characters adjust to life in the United States, from an award-winning author. From the prize-winning title story—a masterpiece of humor and heartbreak—unfolds a collection of tales that illuminate the landscape of an exiled community rich in heritage, memory, and longing for the past. In *Cuba I Was a German Shepherd* is at once “tender and sharp-fanged” as Ana Menéndez evocatively charts the territory from

Havana to Coral Gables, Florida, and explores whether any of us are capable, or even truly desirous, of outrunning our origins (LA Weekly). “With the grace of Margaret Atwood and the sensuality of Laura Esquivel,” Menéndez makes an unforgettable debut “rich in metaphor, wisdom, and delicious subtlety” (St. Petersburg Times).

Vols. 1-8 contain "Judicial decisions of the Commissioner of Education and formal opinions of counsel" (with Decisions of Motion Picture Commissioner; and Decisions of Textbook Commission); v. 9-25 contain "Judicial decisions of the Commissioner of Education."

In the classroom, knowledge is widely distributed among the students and teacher, but is difficult to share across linguistic and cultural barriers. Seeking paths across these barriers, Lynne Wiltse meticulously explores the question: What is the discourse frame in which students and teachers work? Situated in a grade nine multilingual classroom, her work provides a rich description of the research process in the classroom. At the same time, she draws the reader sequentially through the analysis, revealing inferences in increasing levels of abstraction within a framework of “communities of practice.” She highlights issues related to second language acquisition, students’ immigration experiences, teaching, and learning, and points the way toward multi-vocal dialogues and practices that can forge a path across cultural and linguistic divides.

In *Demonstrating Student Mastery with Digital Badges and Portfolios*, David Niguidula shows

how students can meet standards and express their individuality through digital badges and portfolios. Building off an essential question—What do schools want their students to know and be able to do?—he then shows how schools can implement a proficiency-based approach to student learning that has been successfully field-tested in districts across the United States. In manageable steps, readers are guided through the implementation process. Niguidula shows readers how to Connect standards to badges. Create portfolio-worthy tasks. Develop common rubrics and a common understanding of what work is considered "good enough." Guide students in curating the elements of their portfolios. Promote authentic student reflection on their work. Replete with real-life examples, this book is essential reading for principals who want to take their schools to the next level, and for teachers who want a refreshing and sensible approach to assessment.

To reach even the most challenging students, this book offers ten student archetypes to help teachers understand and work with learners who exhibit certain kinds of behaviors.

This book provides critical insights into the English-medium instruction (EMI) experiences which have been implemented at a number of universities in countries such as China, Finland, Israel, the Netherlands, South Africa, Spain and the USA, which are characterised by differing political, cultural and sociolinguistic situations. In particular, it reflects on the consequences of implementing EMI as an attempt to gain visibility and as a strategy in response to the need to become competitive in both national and international markets. The pitfalls and challenges specific to each setting are analysed, and the pedagogical issues and methodological implications that arise from the implementation of these programmes are also discussed. This volume will serve to advance our awareness about the strategies and tools needed to improve EMI at tertiary level.

"Walter Abish has dovetailed his novel within a Procrustean scheme that has the terrifying and irrefutable logic of the alphabet. Alphabetical Africa is in the line of writers such as Raymond

Roussel, Raymond Queneau, Georges Perec and Harry Mathews, who have used constrictive forms to penetrate the space on the other side of poetry." -- John Ashbery

This book focuses where assessment has greatest relevance—the classroom. A great deal of research related to assessment is focused on ‘the testing industry’, high-stakes language proficiency testing, and related analytical and statistical reports that are far removed from teachers’ and students’ experiences in the classroom. Recently, more attention has been paid to assessment in language classrooms and the many challenges that teachers face in both measuring and promoting student learning. This book contributes to the body of knowledge related to teacher assessment competence, and how it is manifested in the decisions they make about assessment procedures and instruments in their classes. Focused on specific challenges related to classroom assessment, each chapter reports on particular assessment issues faced by teachers, their choices regarding such issues, and the consequences (actual or anticipated) of their decision-making. This book will interest the thousands of teachers globally dealing with the numerous challenges associated with effective classroom assessment in language learning. This collection of teacher voices, stories, and investigations provides possible solutions to such challenges, and will serve to promote assessment literacy in the

language teaching profession.

A first-person narrative of Olaudah Equiano's journey from his native Africa to the New World, that follows his capture, introduction to Christianity and eventual release. His story is an eye-opening depiction of personal resilience in the face of structural oppression. Olaudah Equiano's origins are rooted in West Africa's Eboe district, which is modern-day Nigeria. He details the shocking events that led up to his kidnapping and subsequent trade into slavery. His journey starts at 11 years old, forcing him to come of age in a society that abuses him at every turn. During his plight, he attempts to find new ways to survive, educating himself and eventually formulating a plan to obtain his freedom. In *The Interesting Narrative of the Life of Olaudah Equiano*, the author illustrates the harsh realities of slavery. Upon its release, the book was well-received and translated into multiple languages including German and Dutch. It set the precedent for many first-person narratives that would highlight their own unfathomable experiences. With an eye-catching new cover, and professionally typeset manuscript, this edition of *The Interesting Narrative of the Life of Olaudah Equiano* is both modern and readable.

Inhaltsangabe:Introduction: In Germany, education matters lie within the scope of each of the 16 German federal states. Consequently, there is no unique educational system which is valid for the entire Federal Republic of Germany, but 16 individual ones. However, a German-wide basic framework, including regulations about the compulsory school attendance for instance, does exist. The duration of compulsory schooling until passing the Abitur at the Gymnasium, however, is not regulated by this framework, but belongs to the power of decision of each federal state. For instance, in Thuringia and Saxony, the duration of compulsory schooling at the Gymnasium has been limited to eight years, as it was already the case before the reunification of Germany in 1990. In the other federal states, like North-Rhine Westphalia for example, the duration of compulsory schooling at the Gymnasium included an additional ninth year, resulting in the fact that the students attended the Gymnasium from grade 5 until grade 13. Nevertheless, in 2001, the ministry of education of the federal state Saarland decided for a reduction of the duration of compulsory schooling at the Gymnasium by one year. By now, all the other federal states have followed and therefore also made the decision for a reduced duration of only eight years at the Gymnasium. After many heated discussions, also the North-Rhine Westphalian ministry of education decided for a reduction of the duration of compulsory schooling at the Gymnasium. As a consequence of this decision, students of two grades (G8 and G9 students) entered the upper secondary level at all North-Rhine Westphalian Gymnasien on August 31st, 2010 (Ministerium für Schule und Weiterbildung des Landes

Nordrhein-Westfalen, n.d.a). The students of this so-called Doppeljahrgang will all graduate in 2013 and therefore all of them will have to pass the same Abitur exams. Hence, it must be guaranteed that G8 students have the same preconditions as G9 students, despite having one year less of general schooling before graduating. Since no students have entered the upper secondary level after only five years at the Gymnasium in North-Rhine Westphalia before 2010, empirical research in this area is hardly available by now. Nevertheless, this Doppeljahrgang offers the unique chance of directly comparing G8 and G9 students in order to find out in how far the new G8 system was implemented successfully or not. Especially in the context of learning [...]

Ecologies of Writing Programs: Profiles of Writing Programs in Context features profiles of exemplary and innovative writing programs across varied institutions. Situated within an ecological framework, the book explores the dynamic inter-relationships as well as the complex rhetorical and material conditions that writing programs inhabit—conditions and relationships that are constantly in flux as writing program administrators negotiate constraint and innovation.

This is the second book for J C Sum's "Unwritten: A Hands-off Book Test that Transcends Words." "Unwritten" is a professionally designed and produced book that allows you to bring the traditional book test beyond just words by incorporating visual drawings as the focus of the thoughts and revelations. It is perfect for performers looking to present a visual book test routine. The 260-page 5.5" x 8.5" book is in the form of an English language guide for travelers which gives motivation for the book content, layout and format. From a presentation point of view, the English language guide for travelers also allows for a variety of interesting

introductory patter presentations. The nature of the book makes it perfect for shows for corporate events, travel fairs, tourist attractions, cruise ships, schools & libraries. The full "Unwritten" routine consists of two different basic effects. Effect 1 - Any Word Drawing A spectator opens the book to any page and chooses a word describing something that she can visualize in her mind. Without asking for the page number or any specifics of the word (such as the length of the word or the letters it contains), the performer correctly draws out the image that the spectator is visualizing. Effect 2 - Imagined Drawing Prediction A spectator opens the book to any page and mentally selects a word from the last line of a chosen paragraph. She makes a simple drawing that represents the word and then uses her imagination to add to the sketch to make it into a larger picture. A sealed envelope that has been in full view from the start of the show is opened to reveal a prediction drawing that correctly matches the spectator's imagined drawing! Note: Instead of a prediction, you can perform the effect as a drawing duplication. Both effects can be performed individually or together to form a complete routine. The routine can be performed in casual settings or close-up, parlour and large-scale stage shows. "Unwritten" includes the following features: - Can be Performed Completely Hands Free - The Book Can be Freely Examined During Performance - No Pumping for Page Numbers, Length of Word or Specific Letters - No Peeks - No Switches - No Pre-Show Work - No Sleight of Hand - No Memory Work or Cribes - No Assistants - Large Fonts Make the Text Easy to Read - Can Be Performed Stand-Alone or with Other Book Tests

"Finnie Walsh will forever remain in my daily thoughts, not only because of the shocking circumstances of his absurd demise, but because he managed to misunderstand what was truly important even though he was right about almost everything else." So begins Steven Galloway's critically acclaimed first novel. The story is told by Paul Woodward, Finnie's best friend and the only good child in a long line of delinquents. Hockey is one of the few things they have in common: Finnie's family is rich and snobbish, while Paul's father works the night shift at the local mill owned by Finnie's father. One fateful day, the boys noisily play hockey in the Woodward's driveway, keeping Paul's father awake. This seemingly innocent activity triggers a shattering chain of events. "Finnie Walsh" has been compared to the work of John Irving, but Galloway's voice, most particularly his unforgettable portrait of the title character, is uniquely his own.

In a globalized society, effective communication is critical, and study of language from a mathematical perspective can shed light on new ways in which to express meaning across cultures and nations. Computational Linguistics: Concepts, Methodologies, Tools, and Applications explores language by dissecting the phonemic aspects of various communication systems in order to identify similarities and pitfalls in the expression of meaning. With applications in a variety of areas, from psycholinguistics and cognitive science to computer science and artificial intelligence, this multivolume reference work will be of use to researchers, professionals, and educators on the cutting edge of language acquisition and communication science.

Rethinking Languages Education assembles innovative research from experts in the fields of sociocultural theory, applied linguistics and education. The contributors interrogate innovative and recent thinking and broach controversies about the theoretical and practical considerations that underpin the implementation of effective Languages pedagogy in twenty-first-century classrooms. Crucially, Rethinking Languages Education explores established understandings about language, culture and education to provide a more comprehensive and flexible understanding of Languages education that responds to local classrooms impacted by global and transnational change, and the politics of language, culture and identity. Rethinking Languages Education focuses on questions about ways that we can develop farsighted and successful Languages education for diverse students in globalised contexts. The response to these questions is multi-layered, and takes into account the complex interactions between policy, curriculum and practice, as well as their contention and implementation. In doing so, this book addresses and integrates innovative perspectives of contemporary theory and pedagogy for Languages, TESOL and EAL/D education. It includes diverse discussions around practice, and addresses issues of the dominance of prestige Languages programs for 'minority' and 'heritage' languages, as well as discussing controversies about the current provision of English and Languages programs around the world.
