English Grammar for Students of Spanish. The study guide for those learning Spanish.

Thousands of students have found these books the ideal way to master the grammar of their chosen language. They offer a step-by-step explanation of a concept as it applies to English, a presentation of the same concept as it applies to the target language, the similarities and differences between the two languages, stressing common pitfalls for English speakers and including review exercises with an answer key.

This groundbreaking undergraduate textbook on modern Standard English grammar is the first to be based on the revolutionary advances of the authors' previous work, The Cambridge

Grammar of the English Language (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. This book is intended for students in colleges or universities who have little or no previous background in grammar, and presupposes no linguistics. It contains exercises, and will provide a basis for introductions to grammar and courses on the structure of English not only in linguistics departments but also in English language and literature departments and schools of education.

The study of classical languages by earlier generations of English-speaking students was greatly facilitated by the study of English grammar in the schools, a tradition now out of favor but one that emphasized precisely the concepts, terms, and constructions needed for the study of Greek and Latin. Recent classical language textbooks, while presuming little or no grammatical sophistication on the part of their students, often provide little more by way of remediation than definitions of grammatical terminology. A Student Handbook of Greek and English Grammar offers a student-friendly comparative exposition of English and ancient Greek grammatical principles that will prove a valuable supplement to a wide range of beginning Greek textbooks as well as a handy reference for those continuing on to upper-level courses.

This textbook introduces basic concepts of grammar in a format which should encourage readers to use linguistic arguments. It focuses on syntactic analysis and evidence. It also looks at sociolinguistic and historical reasons behind prescriptive rules.

English Grammar: The Basics offers a clear, non-jargonistic introduction to English grammar and its place in society. Rather than taking a prescriptive approach, this book helps the reader become aware of the social implications of choices they make to use standard or non-standard (regional/dialect) forms. Readers will consider: • what grammar is and how it fits into the structure of language; • how grammar functions in the school curriculum, the press, broadcasting and social media, as well as how these outlets reflect and reinforce our attitudes towards grammar; • differences between speech and writing, as well as between formality and informality; • major different approaches to theorising and describing grammar from important grammarians, including Noam Chomsky and Michael Halliday. Featuring a glossary of key terms and practical tips and insights from the author's 50+ years of language teaching experience around the world, this book is for anyone who has ever found themselves questioning the 'rules' of the English language.

This innovative grammar text is an ideal resource for writers, language students, and classroom teachers who need an accessible refresher in a step-by-step guide to essential grammar. Rather than becoming mired in overly detailed linguistic definitions, Nancy Sullivan helps writers and students understand and apply grammatical concepts and develop the skills they need to enhance their writing. Along with engaging discussions of both contemporary and traditional terminology, Sullivan's text provides clear explanations of the basics of English grammar and a practical, hands-on approach to mastering the use of language. Complementing the focus on constructing excellent sentences, every example and exercise set is contextually grounded in language themes. This updated edition includes new sections in each chapter on Writing Matters (addressing key tools and concerns for writers) and Language Varieties (addressing issues of social and regional dialect variation). This is an ideal textbook for any writing course across disciplines where grammatical precision is important. Online resources including additional exercises, links, and an answer key are available at Routledge.com/9780367148683. Instructor materials accompanying the text provide teachers with activities designed for face-to-face, hybrid, and online instruction to enliven these basic grammar lessons as well as writing activities to integrate these concepts into students' own writing.

Available as an E-Inspection Copy! Go here to order *Grappling with grammar? Struggling with punctuation?* Whether you're writing an essay or assignment, report or dissertation, this useful guide shows you how to improve the quality of your work at university – fast – by identifying and using the correct use of English grammar and punctuation in your academic writing. English Grammar for Students of LatinThe Study Guide for Those Learning LatinHodder Arnold

Thousands of students have found this book the ideal way to master and upgrade their Spanish grammar.

A self-study handbook for English speakers learning Latin introducing them to English grammar and pointing out the similarities and differences with Latin grammar. An elementary comparative grammar which complements any textbook and any method.

This practical and research-based introduction to current and effective English grammar instruction gives pre-service and in-service teachers and teacher educators a strong foundation for teaching second language grammar and helps them develop their professional knowledge and skills. Written in a highly readable style for an international audience, it provides a thorough and rounded overview of the principles, strategies, techniques, and applications currently dominant in teaching L2 grammar in a range of instructional settings around the world. Chapter authors are world-class authorities in grammar and grammar teaching and learning. All chapters are based on theoretical frameworks and/or research foundations with a strong emphasis on practical applications and implications for classroom teaching, and highlight teaching methods, key concepts, and terminology associated with grammar instruction. Illuminating the options and choices in grammar teaching from a contemporary perspective, *Teaching English Grammar to Speakers of Other Languages* is ideal as key text for students in undergraduate and graduate MA-TESOL programs and as a resource for practicing ESL/EFL teachers, teacher educators, and teaching faculty.

Offering a fun, engaging approach to grammar instruction, this guide includes clear explanations of grammatical terms and practical activities for all students, including English language learners.

The proposed book is best described as a linguistically oriented textbook taking the grammar of English as its subject matter. It is directed to professional teachers of English (ESL and EFL) and their students, as well as those currently training to become teachers of English. The book is also likely to be of interest to interpreters, translators and other English language professionals. It will explore selected aspects and problem areas of English from a broadly "functional" linguistic perspective. My experience as a teacher and teacher trainer has shown me that this perspective has the potential to inspire teachers and students with a genuine enthusiasm for the grammatical features of English and that it often enables them to "make sense" of the grammar in a way that all too often other approaches signally fail to do. An important focus of the book is on understanding grammar as a series of conventionalized patterns rather than a set of rules (which is how grammar has traditionally been presented). Moreover, unlike many other grammar books, this book emphasizes how the grammatical constructions under consideration are employed in various types of communicative situation, attention being given to the importance of discourse context in interpreting the target forms. In line with contemporary linguists generally, the approach adopted is descriptive rather than prescriptive. While the main focus is on English, I offer occasional comments on how the issue under discussion is expressed in languages other than English. Apart from the inherent interest which I hope such comparisons may have for the reader, I take the view that these can be helpful in casting further light on the grammar of English.

Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries and key readings - all in the same volume. The innovative and flexible 'two-dimensional' structure is built around four sections - introduction, development, exploration and extension - which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. *English Grammar*: presents the basic concepts and key terms of English grammar in a clear and systematic way encourages readers to evaluate critically the knowledge they already have, particularly in areas that are problematic for them as learners, and to build up and trust their own intuitions about the language uses a range of international authentic texts to illustrate concepts and theories, from sources such as newspapers, novels and academic texts discussing English grammar is accompanied by a companion website featuring audio files of authentic spoken English, and further activities. Written by an experienced teacher and researcher, this accessible textbook is an essential resource for all students of English language and linguistics.

English Grammar for International Studies is designed for students taking international programmes in higher vocational education, such as Business and Management Studies, International Marketing, International Finance, Business Administration, International Communication and Media, Finance and Banking, Hotel and Facility, and Tourism. Such programmes often have an international student body and therefore the language of instruction is English. *English Grammar for International Studies* caters precisely for these programmes since the instruction, examples and exercises are offered in English. Offering grammar instruction based on problem-oriented learning, the grammatical principles in the book are rehearsed in a variety of exercises and assignments using primary source texts, such as newspaper headlines, advertisements and internet texts. This book is eminently suitable for self-study, because of its step-by-step approach to English grammar, its transparent instruction, wide range of exercises and the possibility to check answers to questions on the accompanying website (www.englishgrammarforinternationalstudies.noordhoff.nl) which also provides a self-assessment test allowing students to monitor their grammar deficiencies.

Using a time-tested approach that has helped millions of students around the world, *Fundamentals of English Grammar* blends direct grammar instruction with carefully sequenced practice to develop speaking, writing, listening, and reading skills. The fifth edition has been extensively revised to keep pace with advances in theory and practice, particularly from cognitive science. Now more than ever, teachers will find an extensive range of presentations, activities, and tasks to meet the specific needs of their classes. **New to This Edition** * A pretest at the start of each chapter allows learners to assess what they already know and orient themselves to the chapter material. * Practice, spaced out over time, helps students learn better. Numerous exercises have been added to provide more incremental practice. * New charts and exercises show patterns to help learners make sense of the information. * Meaning-based practice is introduced at the sentence level. Students do not have to wait for longer

passages to work with meaning. * Frequent oral exercises encourage students to speak more naturally and fluidly. * Step-by-step writing activities promote written fluency. All end-of-chapter tasks include writing tips and editing checklists. * A wide range of contextualized exercises, frequently including life skills vocabulary, encourages authentic language use. * Updated grammar charts based on corpus research reflect current usage and highlight the differences between written and spoken English in formal and informal contexts. * The BlackBookBlog focuses on student success, cultural differences, and life-skills strategies. * End-of-the-chapter Learning Checks help students assess their learning. * A Pearson Practice English app with end-of-chapter learning checks, Student Book audio, and guided PowerPoint videos. * Revised MyEnglishLab for a fully blended program.

To assist in mastering Italian grammar, this text explains a concept as it applies to English and presents the same concept as it applies to Italian. It illustrates the differences between the two languages and guides the selection of the correct form.

Explains the basic terminology and concepts of English grammar, focusing on material which will most benefit students of Japanese.

PLEASE NOTE - this is a replica of the print book and you will need paper and a pencil to complete the exercises. Puzzled by past tenses? Confused by comparatives? This clearly structured and beautifully presented workbook is packed with grammar practice activities that make learning English grammar incredibly easy. The English for Everyone Grammar Guide Practice Book is an essential companion to the English for Everyone Grammar Guide, a comprehensive reference book that makes even the trickiest grammar rules clear and simple. The Practice Book mirrors the unit-by-unit structure of the Grammar Guide. Each Practice Book unit is full of carefully graded grammar exercises to drill and reinforce the grammar you have learned in the corresponding Grammar Guide unit. These exercises will help you build up your confidence and become more fluent, giving you the chance to practice using the most important English grammar constructions again and again. Ideal for students at all levels, the English for Everyone Grammar Guide Practice Book covers basic, intermediate, and advanced English grammar in one easy-to-navigate book. Like all books in the innovative English for Everyone series, it uses a visual learning method: many of the exercises are accompanied by attractive illustrations that put grammar practice points into context and give you visual cues to help you understand the exercises. Whether you want to improve your grammar for work, study, travel, or exams, the English for Everyone Grammar Guide Practice Book offers you a simple way to learn English grammar, remember it, and use it with confidence.

This book offers explanations of grammatical terms and functions as they apply to English and German. It illustrates the similarities and differences between the two languages and stresses the common linguistics pitfalls for English speakers. It includes review exercises with answers at the back.
