

English Literature Golden Guide Class 10 Cbse

The book has a wide coverage and studies all the famous writers of English literature in the field of poetry, fiction, essay etc. The writers covered, among others, include Geoffrey Chaucer, William Shakespeare, Samuel John Milton, John Dryden, Alexander Pope, Samuel Johnson, William Wordsworth and Alfred Tennyson. A special feature of the book is that studies writers and their contributions not in isolation but in the context of surroundings and various elements of civilisation of the age of the writer. Thus it suggests a vital relationship between English literature and English life. The book is written in a simple and lucid style. It will be found of great interest by the students of English Literature, researchers and the general readers.

Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, Literature for Young Adults includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy format in their own right—and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language—including traditional elements as well as metafictional terms—enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.

The Guide has been written primarily for students of AS and A Level English Literature as specified by Edexcel in the post-2015 syllabus (9ET0). It addresses Component 1 (8ET0/01 - Poetry and Drama) of the AS syllabus and Component 3 (9ET0/03 - Poetry) of the A2 syllabus, specifically, the requirement to study a selection of Post-2000 poetry. The Guide covers all the poems in the selection from Poems of the Decade: An Anthology of the Forward Books of Poetry 2002-2011 (ISBN 978-0571281732). The poems are explored individually, and links and connections between them are drawn as appropriate. The format of each exploration is similar: * A summary of the key themes of the poems, with a note on possible connections and links to other poems in the selection * An explanation of any key features of the poem that require additional contextual knowledge or illustration * A brief summary of the metric form, rhyme scheme or other structural features * A "walk-through" (or explication) of the poem, ensuring that what is happening in the poem is understood, how the rhythm and rhyme contribute to meaning, an explanation of the meaning of words which may be unfamiliar, an exploration of imagery and language and a comment on main themes.

Knights and ladies, giants and dragons, tournaments, battles, quests and crusades are commonplace in stories for children. This book examines how late Victorians and Edwardians retold medieval narratives of chivalry—epics, romances, sagas, legends and ballads. Stories of Beowulf, Arthur, Gawain, St. George, Roland, Robin Hood and many more thrilled and instructed children, and encouraged adult reading.

Lavish volumes and schoolbooks of the era featured illustrated texts, many by major artists. Children's books, an essential part of Edwardian publishing, were disseminated throughout the English-speaking world. Many are being reprinted today. This book examines related contexts of Medievalism expressed in painting, architecture, music and public celebrations, and the works of major authors, including Sir Walter Scott, Tennyson, Longfellow and William Morris. The book explores national identity expressed through literature, ideals of honor and valor in the years before World War I, and how childhood reading influenced 20th-century writers as diverse as C. S. Lewis, J. R. R. Tolkien, Siegfried Sassoon, David Jones, Graham Greene, Ian Fleming and John Le Carré.

Is it a book-of-the-month club? Is it a literature course? You decide. At first glance A Guide to English Literature may seem to be no more than a short bibliography of English literature with perhaps rather more extensive--and certainly more outspoken--comments on the principal editions, commentaries, biographies, and critical works than bibliographies usually provide. But it is something more: this guide contains long ""inter-chapters"" that provide reinterpretations of the principal periods of English literature in the light of modern research, as well as two final sections summarizing in unusual detail the literary criticism that exists in English and recent scholarship in the field. The purpose of this book, then, is to provide the reader with convenient access to a disciplined

study of the texts themselves. This guide proposes itself as a new kind of literary history. The conventional history of literature has often tended to become a substitute for the reading of the literature it describes: the better the history, the greater the temptation to substitute it. The present combination of reading lists and inter-chapters cannot be a substitute for anything else. Meaningless as literature in themselves, they nevertheless provide the necessary preliminary information to meaningful reading. Since oddities of arrangement derive from these assumptions, the authors are not arranged alphabetically. Instead there are chronological compartments--with the divisions circa 1500, 1650, and 1800--in which authors succeed each other in the order of their births. This pioneering handbook is primarily a bibliographical laborsaving device. It is meant mostly for students and the general reader in that it stops where original research by the reader is expected to begin. However, the last chapter on literary scholarship is devoted specifically to the research specialist and provides indispensable equipment for the reader. There is also a general section on literary criticism which will be of use to all.

Doing English presents the ideas and debates that shape how we 'do' English today, explaining arguments about the value of literature, the

canon, Shakespeare, theory, politics and the subject itself. In his lucid and engaging style, Robert Eaglestone: orients students by encouraging them to think about what they are doing when they study literature; bridges the gap between English at A-level and International Baccalaureate to English in Higher Education by exploring traditional and theoretical approaches to literature and explaining key ideas and trends; explains to students why English, more than any other subject, is the cause of public debate and concern in the media and amongst politicians and educators. This popular and classic guide has been fully updated throughout to take account of recent research, educational changes and current events, and it now includes a chapter called 'Why Study English?' – showing how and why the skills taught by English are transferable to a range of careers. This immensely readable book is the ideal introduction to studying English Literature.

A reference guide to world literature in English includes information on writers, works, genres, and movements.

More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.
