This book is the first dedicated volume of academic analysis on the monumental work of Elena Ferrante, Italy's most well-known contemporary writer. *The Works of Elena Ferrante: Reconfiguring the Margins* brings together the most exciting and innovative research on Ferrante's treatment of the intricacies of women's lives, relationships, struggles, and dilemmas to explore feminist theory in literature; questions of gender in twentieth-century Italy; and the psychological and material elements of marriage, motherhood, and divorce. Including an interview from Ann Goldstein, this volume goes beyond "Ferrante fever" to reveal the complexity and richness of a remarkable oeuvre.

The first volume of the new series “European Avant-Garde and Modernism Studies” focuses on the relation between the avant-garde, modernism and Europe. It combines interdisciplinary and intermedial research on experimental aesthetics and poetics. The essays, written by experts from more than fifteen countries, seek to bring out the complexity of the European avant-garde and modernism by relating it to Europe’s intricate history, multiculturalism and multilingualism. They aim to inquire into the divergent cultural views on Europe taking shape in avant-garde and modernist practices and to chart a composite image of the “other Europe(s)” that have emerged from the (contemporary) avant-garde and experimental modernism. How did the avant-garde and modernism in (and outside) Europe give shape to local, national and pan-European forms of identity and community? To what extent does the transnational exchange and cross-fertilisation of aesthetic tendencies illustrate the well-rehearsed claim that the avant-gardes form a typically European phenomenon? Dealing with canonised as well as lesser known exponents of modernism and the avant-garde throughout Europe, this book will appeal to all those interested in European cultural, literary and art history.

Philo sophie et Lettres de l'Universite de Gand in the September of that year, contemporaneou. Roma 1634. Il pontefice Urbano VIII riceve una lettera misteriosa: l'autore sostiene di volergli rivelare la chiave per decifrare i geroglifici e, forse, accedere così al sapere originario che Adamo avrebbe tramandato ai suoi discendenti. Il segreto sarebbe custodito nella trascrizione di un'antica stele perduta. Per evitare che cada nelle mani sbagliate, l'uomo ha smembrato il manoscritto e ne ha celato le varie parti dietro una serie di enigmi. Il papa si rivolge così al suo uomo più geniale, il gesuita Athanasius Kircher, inventore, illusionista e studioso, cui affida il difficile compito di decifrare il mistero. Ma anche il cardinale Richelieu è sulle tracce dell'antica conoscenza perduta, mentre la setta che nei secoli ha protetto il segreto fa di tutto per impedire che venga svelato... Padre Kircher, accompagnato da un improvvisato giovane assistente, parte per seguire le tracce che potrebbero aiutare a svelare l'enigma: da Roma all'Egitto, da Parigi a Vienna, da Costantinopoli di nuovo a Roma, gli agenti papali ingaggiano una sfida serrata e senza esclusione di colpi con i francesi, che li costringerà a scelte difficili e a una corsa contro il tempo. This is a new edition of a major document from World War II with additional, previously unavailable texts assembled from the stenographic record of Hitler's informal conversations ordered by Martin Bormann. These texts remain the classic collection of Hitler's nighttime monologues with his entourage, covering mostly nonmilitary subjects and long-range plans. Hitler lets his thoughts wander, never failing to provide an opinion on every subject. Additional documents from various archives make this the most complete English-language edition in print.

Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The Boundaries of Europe, edited by Pietro Rossi, is the first installment in the ALLEA book series Discourses on Intellectual Europe, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region. Politica, cultura, economia.

studying the relationships between the volume, weight or shape of the human brain and the degree of 'intelligence'. In Pogliano's book, the thread of time drives the narrative up to the mid-twentieth century. It investigates the duration and changes of a game that was intrinsically political, although having to do with bones and nervous matter. Races made its main object, during a long period when Western culture believed the human species to be naturally partitioned into a number of discrete types, with their innate and hereditary traits. Never leading to irrefutable achievements, the polycentric (as well as visual) enterprise herein described is full of growing tensions, doubts, and disillusionment"--

From the author of the "wonderfully ingenious" (Marilyn Stasio, *The New York Times Book Review*) novel *After the Crash*, a thrilling tale of a murder that takes place in Claude Monet's garden and the mystery that surrounds it. Giverny, France. During the day, the town is the home of the famous artist Claude Monet and the gardens where he painted his *Water Lilies*. But once the tourists have gone, there is a darker side to the peaceful French village. This is the story of thirteen days that begin with one murder and end with another. Jéme Morval, a man whose passion for art was matched only by his passion for women, has been found dead in the stream that runs through the gardens. In his pocket is a postcard of Monet's *Water Lilies* with the words: Eleven years old. Happy Birthday. Entangled in the mystery are three women: a young painting prodigy, the seductive village schoolteacher, and an old widow who watches over the village from a mill by the stream. All three of them share a secret. But what do they know about the discovery of Jéme Morval's corpse? And what is the connection to the mysterious, rumored painting of *Black Water Lilies*?

Part of the bestselling saga about childhood friends following different paths by “one of the great novelists of our time” (The New York Times). In the third book in the New York Times–bestselling Neapolitan quartet that inspired the HBO series *My Brilliant Friend*, Elena and Lila have grown into womanhood. Lila married at sixteen and has a young son; she has left her husband and the comforts her marriage brought and now works as a common laborer. Elena has left the neighborhood, earned her college degree, and published a successful novel, all of which has opened the doors to a world of learned interlocutors and richly furnished salons. Both women are pushing against the walls of a prison that would have seen them living a life of misery, ignorance, and submission. They are afloat on the great sea of opportunities that opened up for women during the 1970s. And yet, they are still very much bound to each other in a book that “shows off Ferrante’s strong storytelling ability and will leave readers eager for the final volume of the series” (Library Journal). “One of modern fiction’s richest portraits of a friendship.” —NPR

Dagon H. P. Lovecraft - "Dagon" is a short story by American author H. P. Lovecraft. It was written in July 1917 and is one of the first stories that Lovecraft wrote as an adult. It was first published in the November 1919 edition of *The Vagrant*. Dagon was later published in *Weird Tales*. It is considered by many to be one of Lovecraft's most forward-looking stories. The story is the testament of a tortured, morphine-addicted man who relates an incident that occurred during his service as an officer during World War I. In the unnamed narrator's account, his cargo ship is captured by an Imperial German sea-raider in "one of the most open and least frequented parts of the broad Pacific". He escapes on a lifeboat and drifts aimlessly, south of the equator, until he eventually finds himself stranded on "a slimy expanse of hellish black mire which extended about [him] in monotonous undulations as far as [he] could see.... The region was putrid with the carcasses of decaying fish and less describable things which [he] saw protruding from the nasty mud of the unending plain." He theorizes that this area was formerly a portion of the ocean floor thrown to the surface by volcanic activity, "exposing regions which for innumerable millions of years had lain hidden under unfathomable watery depths. Famous works of the author Howard Phillips Lovecraft: *At the Mountains of Madness*, *The Dreams in the Witch House*, *The Horror at Red Hook*, *The Shadow Out of Time*, *The Shadows over*

Questo volume si compone di due parti. Nella prima viene presentata al lettore italiano la raccolta *Écrits et conférences 1. Autour de la Psychanalyse* a cura del Fonds Ricoeur, che comprende dieci saggi di notevole interesse sia per il filosofo che per lo psicoanalista, in larga misura poco conosciuti e difficilmente accessibili. La seconda parte, *Una lunga via. Scritti 1954-2003*, include testi antecedenti e successivi a quelli

della prima, raccolti dal curatore dell'edizione italiana con la collaborazione di Vinicio Busacchi e di Giuseppe Martini. Nell'insieme, il lettore italiano ha qui a disposizione per la prima volta la maggior parte degli scritti ricoeuriani «attorno alla psicoanalisi» (al di fuori delle due grandi opere degli anni '60, *Della interpretazione. Saggio su Freud e Il conflitto delle interpretazioni*), che concorrono a mostrare l'evoluzione del pensiero ricoeuriano sulla psicoanalisi. La «voie longue» del confronto con Sigmund Freud rappresenta certamente uno dei più ricchi, articolati e complessi dialoghi intrapresi da Ricoeur con la tradizione filosofica e scientifica occidentale. Anche negli ultimi quindici anni durante i quali il filosofo francese non dedicherà alla psicoanalisi scritti specifici vi è una sorta di «ritorno a Freud»; la psicoanalisi diventa ora una presenza prevalentemente interna al «cerchio dei pensieri» che Ricoeur viene elaborando e si palesa solo in modi più rapsodici, ma non per questo meno significativi. Ci auguriamo che il presente volume possa contribuire ad allargare la visione nella quale il rapporto Ricoeur-psicoanalisi è spesso ancora ristretto; e magari anche a dissipare, almeno in parte, alcune difettose comprensioni, che non hanno facilitato la ricezione in ambito psicoanalitico di questa ricchissima riflessione filosofica.
