The "raging frenzy" of the sex drive, to use Plato's phrase, has always defied control. However, that's not to say that the Sumerians, Victorians, and every civilization in between and beyond have not tried, wielding their most formidable weapon: the law. At any given point in time, some forms of sex were condoned while others were punished mercilessly. Jump forward or backward a century or two (and often far less than that), and the harmless fun of one time period becomes the gravest crime in another. Sex and Punishment tells the story of the struggle throughout the millennia to regulate the most powerful engine of human behavior. Writer and lawyer Eric Berkowitz uses flesh-and-blood cases—much flesh and even more blood—to evoke the entire sweep of Western sex law, from the savage impalement of an ancient Mesopotamian adulteress to the imprisonment of Oscar Wilde in 1895 for "gross indecency." The cast of Sex and Punishment is as varied as the forms taken by human desire itself: royal mistresses, gay charioteers, medieval transvestites, lonely goat-lovers, prostitutes of all stripes, London rent boys. Each of them had forbidden sex, and each was judged—and justice, as Berkowitz shows, rarely had much to do with it. With the light touch of a natural storyteller, Berkowitz spins these tales and more, going behind closed doors to reveal the essential history of human desire.

The internet has made access to sexually explicit content radically more easy than ever before. This book is essential reading for those who are troubled by their own relationship with pornography, and for those who want to understand the world we now live in. Republished with extensive revisions in December 2017.

Sexual addiction treatment has long focused on managing the symptoms of addiction with abstinence-a difficult challenge in a world where limitless pornographic gratification is never more than a mouse click away. A new recovery method is needed: one capable of identifying and treating the core cause of addictive behavior. TINSA(R) is such a program. Created by a preeminent Colorado master clinician, TINSA(R), or Trauma Induced Sexual Addiction, explores the effects of adverse developmental experiences on a young brain and nervous system and illustrates how the damage caused by those experiences encourages addictive behavior. Realizing how many sex addicts suffer from abandonment, neglect, and other childhood trauma led TINSA(R) creator Michael Barta, PhD, LPC, CSAT, to examine how emotional wounding leads to the need to self-regulate the release of the pleasure hormone dopamine through sexual stimuli. As increasing levels of dopamine are required over time to reach the same

"high," by adulthood, self-regulation can produce compulsive, damaging sexual behavior. Through TINSAR, Barta offers the means to treat sex addiction at the source, reducing compulsive sexual behavior over time and providing effective, long-term recovery. TINSAR has helped thousands already. It can help you too.

Don't fly blind. See how the power of experiments works for you. When it comes to improving customer experiences, trying out new business models, or developing new

products, even the most experienced managers often get it wrong. They discover that intuition, experience, and big data alone don't work. What does? Running disciplined business experiments. And what if companies roll out new products or introduce new customer experiences without running these experiments? They fly blind. That's what Harvard Business School professor Stefan Thomke shows in this rigorously researched and eye-opening book. It guides you through best practices in business experimentation, illustrates how these practices work at leading companies, and answers some fundamental questions: What makes a good experiment? How do you test in online and brick-and-mortar businesses? In B2B and B2C? How do you build an experimentation culture? Also, best practice means running many experiments. Indeed, some hugely successful companies, such as Amazon, Booking.com, and Microsoft, run tens of thousands of controlled experiments annually, engaging millions of users. Thomke shows us how these and many other organizations prove that experimentation provides significant competitive advantage. How can managers create this capability at their own companies? Essential is developing an experimentation organization that prizes the science of testing and puts the discipline of experimentation at the center of its innovation process. While it once took companies years to develop the tools for such large-scale experiments, advances in technology have put these tools at the fingertips of almost any business professional. By combining the power of software and the rigor of controlled experiments, today's managers can make better decisions, create magical

customer experiences, and generate big financial returns. Experimentation Works is your guidebook to a truly new way of thinking and innovating.

“Erica Garza has written a riveting, can’t-look-away memoir of a life lived hardcore...In an era when predatory male sexual behavior has finally become a topic of urgent national discourse...Getting Off makes for a wild, timely read” (Elle). A fixation on porn and orgasm, strings of failed relationships and serial hook-ups with strangers, inevitable blackouts to blunt the shame—these are not things we often hear women share publicly, and not with the candor, eloquence, and introspection Erica Garza brings to Getting Off. What sets this courageous and riveting account apart from your typical misery memoir is the absence of any precipitating trauma beyond the garden variety of hurt we’ve all had to endure in simply becoming a person—reckoning with family, learning to be social, integrating what it means to be sexual. Whatever tenor of violence or abuse Erica’s life took on through her behavior was of her own making, fueled by fear, guilt, self-loathing, self-pity, loneliness, and the hopelessness those feelings brought on as she runs from one side of the world to the other in an effort to break her habits—from East Los Angeles to Hawaii and Southeast Asia, through the brothels of Bangkok and the yoga studios of Bali to disappointing stabs at therapy and twelve-steps back home. In these remarkable pages, Garza draws an evocative, studied portrait of the anxiety that fuels her obsessions, as well as the exhilaration and hope she begins to feel when she suspects she might be free of them. Getting Off offers a brave and necessary voice to our

evolving conversations about addiction and the impact that internet culture has had on us all—“a profoundly genuine, gripping story that any reader can appreciate” (Vice). “In reading Garza’s insight into her own experiences, we better understand ourselves” (The New York Times Book Review).

In the days when the Bourbon reigned over Gaul, before the "simple, sensuous, passionate" verse of Alfred de Musset had succeeded the débonnaire Muse of Béranger in the affections of young France,--in days when the site of the Trocadero was a remote and undiscovered country, and the word "exposition" unknown in the Academic dictionary, and the Gallic Augustus destined to rebuild the city yet an exile,--a young law-student boarded, in common with other students, in a big dreary-looking house at the corner of the Rue Grande-Mademoiselle, abutting on the Place Lauzun, and within some ten minutes walk of the Luxembourg. It was a very dingy quarter, though noble gentlemen and lovely ladies had once occupied the great ghastly

mansions, and disported themselves in the gruesome gardens. But the young students were in nowise oppressed by the ghastliness of their abode. They sang their Béranger, and they pledged each other in cheap Bordeaux, and clinked their glasses noisily in their boisterous good-fellowship, and ate the messes compounded for them in a darksome cupboard, known as the kitchen, by old Nanon the cook, purblind, stone-deaf, and all but imbecile, and popularly supposed to be the venerable mother of Madame Magnotte. The youngsters grumbled to each other about the messes when they were unusually mysterious; and it must be owned that there were vol-au-vents and fricandeaux consumed in that establishment which were awful and wonderful in their nature; but they ventured on no complaint to the mistress of the mansion. She was a grim and terrible personage. Her terms were low, and she treated her boarders de haute en bas. If they were not content with her viands, they might go and find more agreeable viands elsewhere. Madame Magnotte was altogether mysterious and inscrutable. Some people said that she was a countess, and that the wealth and lands of her family had been confiscated by the committee of public unsafety in '93. Others declared that she had been a popular actress in a small theatre in the days of Napoleon. She was tall and thin--nay, of an exceptional leanness--and her complexion was of a more agreeable yellow than the butter that appeared on her hospitable board; but she had flashing black eyes, and a certain stateliness of gait and grandeur of manner that impressed those young Bohemians, her boarders, with a kind of awe. They

talked of her as the "countess," and by that name she was known to all inmates of the mansion; but in all their dealings with her they treated her with unflinching respect. One of the quietest among the young men who enjoyed the privileges of Madame Magnotte's abode was a certain Gustave Lenoble, a law-student, the only son of a very excellent couple who lived on their own estate, near an obscure village in Normandy. The estate was of the smallest; a dilapidated old house, known in the immediate neighbourhood as "the Château," and very dear to those who resided therein; a garden, in which everything seemed to have run to seed; and about forty acres of the poorest land in Normandy. These possessions constituted the patrimonial estate of François Lenoble, propriétaire, of Beaubocage, near Vevinordin, the department of Eure.

This is the story of Mack Sennett, one the world's most influential entertainers. Based on interviews with Mr. Sennett and persons associated with the master comedian, King of Comedy begins with Sennett's birth on January 17, 1880 in a province of Quebec. The story invites the reader to follow Sennett through his childhood, his many entertainment experiences, his personal life highlighted by his relationship with Mabel Normand, his creation of masterpieces such as Keystone Cops and his discoveries of unforgettable entertainers such as Charlie Chaplin. As he states in his final chapter, Mack Sennett strives to, "...tell about the comedies and how we made them, and about the funny fellows and the pretty girls who acted in them. They are a lost breed. Their like may never, walk, tumble, or pratt-fall again." And the same holds true for the likes

of a man such as Mack Sennett.

Celebrate the fortieth anniversary of the enduring gothic masterpiece *Flowers in the Attic*—the unforgettable forbidden love story that earned V.C. Andrews a fiercely devoted fan base and became an international cult classic. At the top of the stairs there are four secrets hidden—blond, innocent, and fighting for their lives... They were a perfect and beautiful family—until a heartbreaking tragedy shattered their happiness. Now, for the sake of an inheritance that will ensure their future, the children must be hidden away out of sight, as if they never existed. They are kept in the attic of their grandmother's labyrinthine mansion, isolated and alone. As the visits from their seemingly unconcerned mother slowly dwindle, the four children grow ever closer and depend upon one another to survive both this cramped world and their cruel grandmother. A suspenseful and thrilling tale of family, greed, murder, and forbidden love, *Flowers in the Attic* is the unputdownable first novel of the epic Dollanganger family saga. The Dollanganger series includes: *Flowers in the Attic*, *Petals in the Wind*, *If There Be Thorns*, *Seeds of Yesterday*, *Garden of Shadows*, *Beneath the Attic*, and *Out of the Attic*.

In the heart-stopping conclusion to Emily R. King's *The Evermore Chronicles*, the fate of the seven worlds lies in the courage of a girl on the run--and running out of time. There's a price on Everley Donovan's head. Fleeing from the queen's false accusation of murder and sorcery, the girl with the clock heart knows there's only one way to prove

her innocence. Everley must catch Killian Markham, the fugitive prince guilty of the crimes for which she's been condemned. To do that, Everley must follow him into the towering realm of the Silver-Clouded Plain. It's where flesh-eating behemoths thrive, long-lost gods hide, and an artifact of destructive force awaits the death grip of the immortal prince. Haunted by visions of burning Everwoods and bloody battlefields, Everley is beset with rising fears. Because the elusive relic threatens more than the very power that drives her clock heart. In Killian's hands, it can lead to the dismantling of the seven worlds. With everything--and everyone--Everley loves at stake, she must depend on Killian's one weakness to outwit him: in his mad ambitions, Killian has underestimated her once again. For Everley is the Time Bearer. This is her destiny. The time of reckoning is at hand.

From the co-author of the New York Times bestseller *Team of Teams*, a practical guide for leaders looking to make their organizations more interconnected and unified in the midst of sudden change. Too often, companies end up with teams stuck in their own silos, pursuing goals and metrics in isolation. Their traditional autocratic structures create stability, scalability, and predictability -- but in a world that demands rapid adaptation to a new reality, this traditional model simply doesn't work. In *Team of Teams*, retired four-star General Stanley McChrystal and former Navy SEAL Chris Fussell made the case for a new organizational model combining the agility, adaptability, and cohesion of a small team with the power and resources of a giant

organization. Now, in *One Mission*, Fussell channels all his experiences, both military and corporate, into powerful strategies for unifying isolated and distrustful teams. The articles in this volume examine historical, cultural, literary and political facets of translation in Turkey, a society in tortuous transformation since the 19th century from empire to nation-state. Some draw attention to tradition in Ottoman practices and agents of translation and interpreting, while others explore the republican period, starting in 1923, with the revolutionary change in script from Arabic to Roman coming in

1928, making a powerful impact on publication and translation practices. Areas covered include the German Jewish academic involvement in translation, traditional and current practices of translating from Kurdish into Turkish, censorship of translated literature, intralingual translations from Ottoman into modern Turkish, pseudotranslation, ideological manipulation and resistance in translation, imitateness vs. originality and metonymics of literary reviewing.

Every business faces the existential threat of competitors producing cheaper copies. Even patent filings, market dominance and financial resources can't shield them from copycats. So what can we do -- and, what can we learn from companies that have endured and even prospered for centuries despite copycat competition? In a book of narrative history and practical strategy, IMD professor of management and innovation Howard Yu shows that succeeding in today's marketplace is no longer just a matter of mastering copycat tactics, companies also need to leap across knowledge disciplines, and to reimagine how a product is made or a service is delivered. This proven tactic can protect a company from being overtaken by new (and often foreign) copycat competitors. Using riveting case studies of successful leaps and tragic falls, Yu illustrates five principles to success that span a wide range of industries, countries, and eras. Learn about how P&G in the 19th century made the leap from handcrafted soaps and candles to mass production of its signature brand Ivory, leaped into the new fields of consumer psychology and advertising, then leaped again, at the risk of cannibalizing

its core product, into synthetic detergents and won with Tide in 1946. Learn about how Novartis and other pharma pioneers stayed ahead by making leaps from chemistry to microbiology to genomics in drug discovery; and how forward-thinking companies, including China's largest social media app -- WeChat, Tokyo-based Internet service provider Recruit Holdings, and Illinois-headquartered John Deere are leaping ahead by leveraging the emergence of ubiquitous connectivity, the inexorable rise of intelligent machines, and the rising importance of managerial creativity. Outlasting competition is difficult; doing so over decades or a century is nearly impossible -- unless one leaps. Ultimately, Leap is a manifesto for how pioneering companies can endure and prosper in a world of constant change and inevitable copycats.

School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered

include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

The author describes how he left a lucrative business consulting job to found the nonprofit Pencils of Promise, an organization responsible for building schools for the poor in developing

countries around the world and which recently completed its two hundredth school. The Oxford Handbook of Women and Gender in Medieval Europe provides a comprehensive overview of the gender rules encountered in Europe in the period between approximately 500 and 1500 C.E. The essays collected in this volume speak to interpretative challenges common to all fields of women's and gender history - that is, how best to uncover the experiences of ordinary people from archives formed mainly by and about elite males, and how to combine social histories of lived experiences with cultural histories of gendered discourses and identities. The collection focuses on Western Europe in the Middle Ages but offers some consideration of medieval Islam and Byzantium. The Handbook is structured into seven sections: Christian, Jewish, and Muslim thought; law in theory and practice; domestic life and material culture; labour, land, and economy; bodies and sexualities; gender and holiness; and the interplay of continuity and change throughout the medieval period. It contains material from some of the foremost scholars in this field, and it not only serves as the major reference text in medieval and gender studies, but also provides an agenda for future new research.

What might the world look like in the aftermath of COVID-19? Almost every aspect of society will change after the pandemic, but if we learn lessons then life can be better. Featuring expert authors from across academia and civil society, this book offers ideas that might put us on alternative paths for positive social change. A rapid intervention into current commentary and debate, *Life After COVID-19* looks at a wide range of topical issues including the state, co-operation, work, money, travel and care. It invites us to see the pandemic as a dress rehearsal for the larger problem of climate change, and it provides an opportunity to think about what we can improve and how rapidly we can make changes.

The architects of the sexual revolution won over the popular imagination because they knew the power of story. They drew together radical new ideologies, often complex and hard to grasp, and melded them into the simpler structure of narrative. Crucially, they cast narratives that appealed to the moral instincts of ordinary, decent people. This moral vision overwhelmed the church and silenced its faltering apologists. The author argues that if Christians still believe they have

have good news in the sphere of sexual ethics, then two big tasks lie ahead. Our first priority is to work out what has gone so badly wrong, both in our understanding and application of what the Bible teaches and the way we have presented our case to the non-churched. And then we must offer a better story, one that fires the imagination with such force that people will say, 'I want that to be true.' This book offers a confident, biblically rooted moral vision which needs to be shared with prayer and courage.

One of the most profound changes in business and society is the emergence of the post-Millennial generation, Gen Z. While every new generation has faced its share of disruption in technology, economics, politics and society, no other generation in the history of mankind has had the ability to connect every human being on the planet to each other and in the process to provide the opportunity for each person to be fully educated, socially and economically engaged. What might this mean for business, markets, and educational institutions in the future? In this revolutionary new book, *The Gen Z Effect: The Six Forces Shaping the Future of Business*, authors Tom Koulopoulos and Dan Keldsen delve into a vision of the future where disruptive invention and reinvention is the acknowledged norm, touching almost every aspect of how we work, live and play. From radical new approaches to marketing and manufacturing to the potential

obliteration of intellectual property and the shift to mass innovation, to the decimation of our oldest learning institutions through open source and adaptive learning, The Gen Z Effect provides a mind-bending view of why we will need to embrace Gen Z as the last, best hope for taking on the world's biggest challenges and opportunities, and how you can prepare yourself and your business for the greatest era of disruption, prosperity, and progress the world has ever experienced.
