*eBook: Business Research Methods 5e* Boris Blumberg,Claire MacRae,2024-06-13 This book is a one stop guide to all your research methods needs. It is tailored specifically towards business and management courses, and central to this edition is the balanced coverage of qualitative and quantitative methods to clearly and concisely lead students through the research process, whatever their project may be. Now in its much anticipated fifth edition, Business Research Methods has been revised and updated to reflect all the latest trends in research methodology. The integration of statistical issues, as well as coverage of web-based surveys, qualitative interviews, big data, and content analysis of social media, aims to support the current student experience. A Running Case Study charts the progression of two student research projects - one qualitative and one quantitative - and shows how the content of each chapter can be used to develop their projects. Thought provoking questions are included to help students consider the issues and decisions involved, and how these might be applied to their own project. Deeper Insight into Research Methods boxes delve further into particular research issues, offering a detailed description to increase understanding of these areas, whilst Real Life examples put research methods into context, by showing how they have been applied in real world situations. New pedagogy features include: Research in Practice boxes provide an insight into situations and research decisions that students may encounter in real life projects. They contain hints, tips and sometimes questions to help think through a project. Theory Explained highlights key theories and demonstrates how these can be applied in practical research examples. Statistics in Action provides practical alternatives to qualitative research methods and gives examples of how statistical data can be presented, analyzed and interpreted to improve students data insights skills. The Online Learning Centre contains a vast amount of extra resources to support lecturers and student, including power points, instructor manuals, and a question bank. New to this edition are short case studies with teaching notes covering current topics and key theories, and worked examples and videos with associated questions for further practical exercises and real world examples. Boris F. Blumberg is Senior Lecturer and Executive Director of UMIO, the postgraduate unit at the Maastricht University School of Business and Economics, the Netherlands. Boris has supervised hundreds of dissertations and teaches courses in strategic management, entrepreneurship and innovation. His research focuses mainly on entrepreneurship, networks and methodology. Claire MacRae is Senior Lecturer in Public Policy at the Centre for Public Policy, University of Glasgow. Claire has taught courses on research methods for undergraduate, masters and Professional Doctorate students. Her research focuses mainly on policymaking, risk and resilience, and the impact of

policy design and implementation on society.

**Entrepreneurship** Alan S. Gutterman,2018-08-30 This book provides an introduction to a number of important topics relevant to the study and understanding of entrepreneurship and the process of creating, or giving birth to, a new business. Entrepreneurship has become a popular career path in developed and developing countries, a phenomenon that has contributed to the intense interest in the subject shown by researchers and policymakers around the world. Several factors have come into play, including advances in technology that allowed smaller firms to take advantage of economies of scale that previously were only available to larger firms; the ability of smaller firms, because of their size, to be more flexible and responsive to market changes; implementation of government policies calculated to encourage entrepreneurial activities and behavior; support from governments and other economic units that established procurement programs to assist small businesses; high unemployment rates in recent decades due to corporate restructuring and downsizing, which have caused some workers to choose an entrepreneurial path rather than retrain for placement in an unsteady job market as a means for dealing with their midlife crisis; and changes in typical career patterns away from expectations of long-term employment with large firms in a single occupation toward a flexible labor force, a phenomenon that has led to increased interest in entrepreneurship among those with post-secondary education and an established career record build over several decades in the workplace. The chapters cover definitions and types of entrepreneurship; the relationships among entrepreneurship, innovation and development; research on entrepreneurship, comparative research into entrepreneurship in multiple countries and research into cross- border entrepreneurship (i.e., international activity of small- and medium-sized enterprises and new ventures); factors influencing entrepreneurial activities; motivational traits of prospective entrepreneurs; the influence of societal culture on entrepreneurial activities and attitudes regarding entrepreneurship as a career path; the influence that the institutional environment has on entrepreneurship; and the role of entrepreneurs in launching new businesses. This book is an excellent introductory source of information on entrepreneurship research for use by academics and other professionals in their courses and for entrepreneurs looking to fit their dreams and aspirations in the broader context of entrepreneurship.

Entrepreneurship and Innovations in E-Business: An Integrative Perspective Zhao, Fang,2006-01-31 The book presents a comprehensive introduction of the concepts and practices of e-entrepreneurship and e-innovation--Provided by publisher.

Entrepreneurial Development S S Khanka,2006 This book is useful for B.Com., M.Com., and MBA students of all Indian Universities. Presentation of various aspects of entrepreneurship is the most salient features of this book. Clarity of all topics has been given throughout. Description of the most difficult topics, in a simple and easy to follow style, has been the authors main attempt. At the end of the each chapter Assessment Questions are included in this book. Glossary, Bibliography, Author Index, Subject Index and Abbreviations are incorporated at the end of the book.

*Entrepreneurship* Andrew Zacharakis, Andrew C. Corbett, William D. Bygrave, 2019-12-05 *Entrepreneurship*, 5th Edition helps aspiring entrepreneurs understand the process of starting a new venture and appreciate the vital role of entrepreneurship in the economy. This accessible textbook explains the steps involved in starting a new company, and offers insights on engaging with startups as investors, bankers, accountants, lawyers, vendors, customers, and employees. Delving into the real-world trials and tribulations of entrepreneurship, the text covers every stage of the entrepreneurial process, from searching for an opportunity and molding it into an attractive product or service, to launching, growing, and eventually harvesting the new venture. The fully revised and updated fifth edition integrates core concepts of entrepreneurship and practical case studies—enabling students to develop an inclusive perspective on how businesses are born, grow, and succeed or fail. The authors explore the entrepreneurial competitiveness of nations throughout the world, describe the critical factors for starting a new enterprise and building it into a successful business, and demonstrate how to build a workable business model. Clear, straightforward chapters cover each essential area of entrepreneurship, including marketing, strategy, team building, financial projections, business planning, and more.

**Your Entrepreneurial Potential** Jorge Olmos Arrayales, 2007

**Entrepreneurial Marketing** Robert D. Hisrich, Veland Ramadani, 2018 One key for success of an entrepreneur is to obtain sales (revenue) and profits as quickly as possible upon launching the venture. Entrepreneurial Marketing focuses on the essential elements of success in order to achieve these needed sales and revenues and to grow the company. The authors build a comprehensive, state-of-the-art picture of entrepreneurial marketing issues, providing major theoretical and empirical evidence that offers a clear, concise view of entrepreneurial marketing. Through an international approach that combines both theoretical and empirical knowledge of entrepreneurship and marketing, this book informs and enhances the entrepreneurs' creativity, their ability to bring innovations to the market, and their willingness to face risk that changes the world. Key components addressed include: identifying and selecting the market; determining the consumer needs cost-effectively; executing the basic elements of the marketing mix (product, price, distribution, and promotion); and competing successfully in the domestic and global markets through implementing a sound marketing plan. Numerous illustrative examples throughout the book bring the content to life. The mix of theoretical content, examples, empirical analyses, and case studies make this book an excellent resource for students, professors, researchers, practitioners, and policymakers all over the world.

Entrepreneurship Robert D. Hisrich, Michael P. Peters, Dean A. Shepherd, 2023 Starting and operating a new business involves considerable risk and effort to overcome the inertia against creating something new. In creating and growing a new venture, the entrepreneur assumes the responsibility and risks for its development and survival and enjoys the corresponding rewards. This risk is compounded for entrepreneurs who go international or who are in fact born global. The fact that

consumers, businesspeople, and government officials from every part of the world are interested in entrepreneurship is evident from the increasing research on the subject, the large number of courses and seminars on the topic, the more than two million new enterprises started each year (despite a 70% failure rate), the significant coverage and focus by the media, and the realization that this is an important aspect of the economics of the developed, developing, and even controlled economies--

Women's Empowerment Within the Tourism Industry Bayram, Gül Erkol, Shah, Syed Haider Ali, Tunio, Muhammad Nawaz, 2023-08-01 In recent decades, more women around the world have taken the opportunity to enter the market, join the workforce, and start their own entrepreneurial ventures. These changes have had a strong impact on market demographics. Particularly within the tourism industry, it is important to investigate the behavior, motivations, experiences, and needs of women as travelers, employees, and entrepreneurs. Women's Empowerment Within the Tourism Industry offers a conversant and comprehensive overview of the themes and concepts of women as tourists, employees, and entrepreneurs in tourism. Providing interdisciplinary insights from leading international researchers and academicians, this book makes a critical contribution to the knowledge of women's participation within the tourism industry. It discusses the nature of their work and ways in which tourism creates tension between the attitudes and conduct of tourists and the beliefs and behavior of local women. Covering topics such as consumer experience, gender studies, and women's employment, this premier reference source is an excellent resource for business leaders and managers, entrepreneurs, marketers, government officials, students and educators of higher education, librarians, researchers, and academicians.
