Writing ought to be the easiest of the four skills for students of English as a Second or Foreign Language. Unlike listening and reading, the students control all the words. Unlike speaking, the students can go back, check their work, revise it, and resubmit it. It should then follow that writing would be one of the most popular courses to teach. Yet teachers never say, "I can't wait till I get tenure, so I can teach some of those composition classes of 35 students." However, writing classes also offer the opportunity to see growth, to share important ideas, and to develop a sense of community. The tips in *Fifty Ways to Teach Writing* are chosen with that goal in mind -- to make it easier for students to succeed at

becoming better writers, and for instructors to enjoy the teaching of writing. This book is divided into three categories, which represent the stages of process writing: a) Pre-writing and planning b) Writing topics and strategies c) Editing and revising The Fifty Ways to Teach series gives you a variety of drills, games, techniques, methods, and ideas to help your students master English. Most of the ideas can be used for both beginning and advanced classes. Many require little to no preparation or special materials. When a girl in a paisley dress tells Wednesday "You belong in the sea," the whale starts to wonder, what is the sea? Readers will cheer--and get all choked up-- when, one day, Wednesday leaps higher than ever before and sets in motion a breathtaking chain of events that will carry her to her rightful home.
