

Essential Mcqs In Obstetrics And Gynaecology For Medical Students

Examination Emergency Medicine is a detailed fellowship exam guide to assist emergency medicine trainees; it is intended as a guide to supplement material available from ACEM and covers the preferred nature and format of question types that has evolved – for example a shift towards using photos that show clinical problems, rather than equipment or therapies in the VAQ section. style consistent with other titles in the 'Examination' series content and layout practical and relevant with sufficient detail to ensure substantial knowledge covers general aspects about preparing for the Fellowship Examination, followed by information about the individual written and clinical components. example questions and template answers for the written examination provides an overview of clinical reasoning and clinical examination technique detailed description of neurological examination

This book comprises MCQs that are designed to test the candidate's theoretical and practical knowledge of obstetrics and gynaecology as recommended in the syllabus for the MRCOG Part 2 examination. Upwards of 250 single and multiple stem questions will be included giving over 800 questions in all. Full answers with explanatory text will be provided

The collection of systems represented in this volume is a unique effort to reflect the diversity and utility of models used in biomedicine. That utility is based on the consideration that observations made in particular organisms will provide insight into the workings of other, more complex systems. This volume is therefore a comprehensive and extensive collection of these important medical parallels.

Practice Single Best Answer Questions: MRCOG Part 2 is an ideal revision resource for the new SBA format MRCOG Part 2 exam. The book contains over 200 questions across eight topics, based on the RCOG (Royal College of Obstetrics and Gynaecology) and NICE (National Institute for Health and Care Excellence) guidelines. The first chapter covers antenatal care and labour complications in UK practice, including physiology, pharmacology, and labour mechanism. Further chapters cover aspects of normal and abnormal labour, caesarean section, cardiotocography (measuring the heartbeat of an unborn baby), and foetal hypoxia. Also included are questions on endometriosis, menstrual disorders, pelvic pain, cervical intraepithelial neoplasia and cervical cancers, vulval intraepithelial neoplasia and vulval disorders. The chapter on fertility includes general questions on male and female subfertility, and the urogynaecology section features questions on general procedures and treatment in primary care. Chapter eight consists of a complete practice SBA paper of 50 questions, to be taken under examination conditions. All chapters provide references for further reading to help MRCOG candidates prepare for the Part 2 exam. Key Points Over 200 questions arranged into eight topics Questions based on RCOG and NICE guidelines Excellent practice for the new SBA format exam, including a complete practice paper Authored by the convenor for International MRCOG Part 1 courses and member of the assessment sub-committee of RCOG

Simulation in Surgical Training and Practice is reviewed extensively in this important Surgical Clinics of North America issue. Articles include: Applying Educational Theory to Simulation Based Training and Assessment in Surgery; Figuring out Team Simulation Training; Faculty Development for Simulation Training; The Evolving Role of Simulation in Teaching Surgery in Undergraduate Medical Education; Using Simulation in Inter-Professional Education; Current Status of Simulation Based Training in Graduate Medical Education; National Simulation-based Training of Fellows: The Vascular Surgery Examp? Paying For it: Funding Models for Simulation Centers; Surgical Simulation Centers as Educational Homes for Practicing Surgeons; Better Assessment: Advanced Engineering Technology for Measuring Performance In and Out of the Simulation Lab; Moving the Needle - Simulation's Impact on Patient Outcomes; Human Factors Engineering and Effective Simulation - Partners for Improved Patient Safety; Simulation for the Assessment and Improvement of Teamwork and Communication in the Operating Room; Using Simulation to Improve Systems; Simulation for Maintenance of Certification; and more!

This book is a helpful guide before and after exams. A useful handbook for medical students, trainee psychiatrists, general practitioners, psychiatric nurses, social workers and occupational therapists.

Sonography has emerged as a substantial diagnostic tool today. This handbook aims to cover ultrasound physics, abdominal and obstetric sonography, color Doppler, high resolution sonography and USG guided interventions with multiple choice questions and case reports for practical orientation.

Reflecting the new exam format, MRCOG PART 1: 550 SBAs AND MCQs offers the most up-to-date and comprehensive coverage of practice questions, for trainees preparing for the MRCOG Part 1 exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision text to maximise chances of exam success. 550 questions, reflecting the breadth of topics encountered in the actual exam Answers feature concise descriptions to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice Includes two complete mock papers to practice and improve exam technique Visually-enhanced answers to improve understanding of key concepts

The definitive guide to women's reproductive health from conception to old age. Obstetrics and Gynaecology: an evidence-based guide is the ideal resource for anyone working in the field of women's health, including medical students, junior doctors, midwives, nurses and general practitioners. Expertly written and packed with the most relevant, up-to date evidence; this obstetrics and gynaecology textbook covers all aspects of women's health from conception to puberty and from pregnancy to old age. Obstetrics and Gynaecology: an evidence-based guide addresses common areas of everyday practice. It details how to take an obstetric or gynaecological history, manage abnormal uterine bleeding and provide antenatal care. In addition, it highlights less common but equally important issues in women's health, such as gynaecological malignancies and managing multiple pregnancies. Written by an editorial team comprising an obstetrician, gynaecologist and sonographer, the content in this obstetrics and gynaecology textbook is balanced and chronologically arranged from from birth to end of life. Provides guidance in applying evidence to medical care.Obstetrics and gynaecology OSCEs with a detailed answer guide.Multiple-choice questions aligned to chapters and practice OSCEs featuring scenario, suggested history, examination and management.

Designed specifically for the revised Final FRCA examination, this book contains four mock exams, combining the new single best answer format with the traditional true/false format MCQs. A further fifth chapter contains only single best answer questions allowing candidates extra practice on this new and more difficult format. Uniquely the book includes answers with explanations and cross-references to key textbooks, allowing the candidate to read around on more difficult areas. The editor team balances extensive exam experience with recent exam success. Each question has also been expertly reviewed to ensure the highest quality and relevance to the Final FRCA. This is a must buy when preparing for this key exam.

Get Through MRCOG Part 2: Short Answer Questions is an essential revision guide for candidates preparing for the MRCOG Part 2 exam. This comprehensive collection of practice Short Answer Questions (SAQs) is designed to help candidates test and assess their own knowledge, aiding thorough preparation for the exam. The book opens with an introduction to the exam and includes advice on how to prepare for it, information on what to expect, and guidance on how to write excellent answers. This is followed by two sections: the first provides a wide range of SAQs divided into obstetric and gynaecological topics, and the second presents six practice exams set out in the format of the actual exam. For each question, the authors highlight the key words in the question, followed by a brief essay plan and then give a worked example answer. The specimen answers indicate how many marks the candidate would obtain for each point made, and are supplemented with valuable extra information and further reading, to enhance understanding and aid further revision.

Written by an interdisciplinary and multinational team of distinguished medical doctors and authors, Lifestyle Medicine presents a collection of multiple-choice questions (MCQs) designed to help prepare a new generation of clinicians with the necessary knowledge to practice Lifestyle Medicine safely and confidently. Ideal for anyone preparing for examinations in the new specialty of Lifestyle Medicine at the post-graduate level, and especially useful for those studying for the Diploma in Lifestyle Medicine, taking the American Board of Lifestyle Medicine or International Board of Lifestyle Medicine exams, you'll find every key aspect of Lifestyle Medicine in this book. 25 questions covering an introduction to lifestyle medicine, including definitions, the difference between lifestyle medicine and other fields, and Physician's Competencies in the practice of lifestyle medicine 62 questions covering the fundamentals of health behaviour change 47 questions covering key clinical processes in lifestyle medicine, including the classification of different lifestyle-related illnesses, measures of fitness, and fitness testing options 88 questions covering nutrition science, assessment, and prescription, including food labels and prescribing nutrition And much, much more: a total of 531 questions covering all key aspects of lifestyle medicine Perfect for clinicians in virtually any specialty aiming to develop expertise in lifestyle medicine, Lifestyle Medicine will also earn a place on the shelves of nurses and other allied health professionals, including pharmacists, dietitians and nutritionists, health educators, researchers, health coaches, and occupational therapists.

The Diploma of the Royal College of Obstetricians and Gynaecologists (DRCOG) examination consists of 60 multiple choice questions (MCQs) and 22 six minute structured clinical examination stations (OSCEs), of which two are rest stations. This one day examination is designed for General Practice trainees, ideally with six months' experience in obstetrics and gynaecology at the senior house officer grade. This book presents three complete DRCOG MCQ and OSCE circuits and encompasses all the possible MCQ and OSCE topics that can and have been asked in the DRCOG examination. They are presented in an identical way to the exam itself. The author, Mrs Una Coales MD, FRCSEd, DRCOG, trained in medicine in the USA and moved to practise in the UK. She has taken and passed the DRCOG exam herself and has also published popular exam texts for PLAB Parts 1 and 2.

This book established itself in its first edition as the definitive 'one-stop-shop' revision aid; the only one available to encompass all elements of the MRCOG Part 2 examination in a single volume. Now incorporating practice EMQs as well as the standard question types, this second edition will ensure that it retains its place on the 'must-have' list.

Self-Assessment by Ten Teachers presents a new opportunity for medical students to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practise their exam technique. Working well as a stand-alone book, this comprehensive self-assessment book is also designed to complement the well-known volumes 'Gynaecology by Ten Teachers' and 'Obstetrics by Ten Teachers', both of which have now reached their 18th editions. The book tests information covered in the two 'Ten Teachers' volumes via the full variety of exam question types - EMQs, MCQs, SAQs and OSCEs. Each answer has a short explanation of its own, and cross-references are also made to page numbers and topics in the main textbooks.

Covering all aspects of the syllabus, Crash Course offers students a fast way to recap on what they need to know to get through the exams with ease. Styled in an easy-to-follow, readily accessible format, each book is prepared by senior medical students or junior doctors - under faculty supervision - to give them the correct level of information perfectly tailored to current curricula requirements. The series now includes improved pedagogic features and a fully revised self-assessment section, updated to meet current examination needs. Provides the exam syllabus in one place! Written by senior medical students or junior doctors - authors WHO REALLY UNDERSTAND today's exam situation! Senior Faculty Advisors ensure complete accuracy of the text! Full artwork programme, improved 'Hints and Tips' boxes, and 'Communication' boxes help you remember the key points! Self-Assessment section - fully updated to reflect new curriculum requirements - helps you maximise your grade! Solid, accurate, user-friendly coverage provides enough detail even for those aiming at distinction! Fully updated self-assessment section - ideal for current examination practice! Includes useful 'Learning Objectives' at the start of each chapter Pharmacological and disease management information updated in line with current best practice guidelines Includes recent research findings Discusses key aspects of patient communication - presented in easy 'Communication' boxes Fully updated to include feedback from hundreds of students!

Best of Five MCQs for the MRCP Part 1 volumes 1-3 offers a comprehensive and trustworthy solution to anybody wishing to sit, pass, and excel at the Membership of the Royal College of Physicians Part 1 examination. Presented as a unique three-volume set, each volume features 375 high-quality practice questions on each of the medical systems and specialties in alphabetical order. Volume 3 features Best of Five questions on nephrology, neurology, psychiatry, respiratory medicine, and rheumatology. All 375 questions contain questions written and reviewed by successful candidates and previous examiners, and are accompanied by detailed explanations and further reading, ensuring complete and successful revision for this challenging exam. Matched to the latest Royal College curricula in coverage and format, this dedicated resource provides readers with an accurate, authoritative and evidence-based companion to the MRCP Part 1.

This essential companion to Bailey & Love's Short Practice of Surgery covers the clinical conditions most commonly encountered by medical students, junior clinicians, and surgeons in training. This is clinical anatomy at its best! Structured by body region, each chapter includes plentiful clinical photographs and images supplementing the high-quality anatomical diagrams, using the best modality to demonstrate anatomical relevance. Highlighted descriptions of clinical relevance emphasise the integrated approach so central to current teaching practice, and facilitated by the wealth of both clinical and anatomical experience of the distinguished author team.

The new edition of So you want to be a brain surgeon? continues to provide a fun yet informative guide for all medical students and for all those considering a medical degree. An entertaining, authoritative and indispensable guide for all levels, from those thinking of applying to medical school through to medical students and to young doctors. The text has been radically updated, and includes even more chapters.

Further to PasTest's 'Essential MCQs' range, here is a book specific to medical students studying for their Obstetrics and Gynaecology examinations. Three practice papers provide mixed questions and revision checklists that cover all areas.

Basic Sciences for Obstetrics and Gynaecology - MCQs presents sample multiple choice questions and answers dealing with the basic sciences in obstetrics and gynaecology. The aim of the volume is to give those candidates studying for examinations such as the MRCOG Part 1 a flavour of the examination itself. -- book cover.

Gone are the days when you present to colleagues with hand-drawn overheads. Presenting Health with PowerPoint shows how you can work through PowerPoint to create effective presentations. In an easy-to-use step-by-step format it takes you through the components of the European Computer Driving Licence the basic IT qualification and guides you through the text by showing what actually appears on the computer using screenshots toolbar icons mouse and keyboard actions. The accompanying CD-ROM provides downloadable resources and useful website links. Presenting Health with PowerPoint is designed for doctors nurses and managers at all levels throughout primary and secondary care who need not have prior knowledge of Microsoft PowerPoint.

This comprehensive question-and-answer resource covers all aspects of the curriculum for the Part 2 MRCOG examination. Candidates are given the opportunity to practise the Single Best Answer question style, to cover the content they will encounter in the examination and to assess their knowledge. As consultants actively engaged in the writing of the Part 2 Single Best Answers, the authors and editor have

provided directly applicable questions. Candidates to review the syllabus in an organised, systematic manner, with comprehensive explanations for each answer. This title also includes new sections on ethics, training, audit and clinical governance. Mock exams are also available online to familiarise candidates with the real-life examination. The detailed answers, evidence and comprehensive list of references offer an excellent training and reading source for all candidates preparing for the Part 2 MRCOG examination.

Essential MCQs in Obstetrics and Gynaecology for Medical StudentsPasTest Ltd

Modelled on the current MRCOG syllabus, *Get Through MRCOG Part 1: MCQs and EMQs* is designed to test candidates' knowledge of basic and applied sciences in obstetrics and gynaecology. 350 MCQs and 40 EMQs are presented, reflecting the level of difficulty and style of the actual examination questions. This comprehensive collection of practice questions offers a useful review of all elements of the syllabus, to help candidates test and assess their knowledge and aid thorough revision in preparation for the examination day. Written by a Specialist Registrar and a Consultant in Obstetrics and Gynaecology, and supplemented with useful explanatory material, *Get Through MRCOG Part 1: MCQs and EMQs* is the essential revision tool for all trainees preparing for this examination.

This fourth edition of *Medicine at a Glance*, the leading title in the best-selling *at a Glance* series, provides an unparalleled overview of the study of medicine, closely following the core medical curriculum. Ideal for medical students, Foundation programme doctors and those training in the allied health professions, *Medicine at a Glance* presents vital information on clinical presentations, diseases, and treatments in every major medical specialty, from cardiology to dermatology. *Medicine at a Glance*:

- Has been fully revised to reflect essential clinical and curriculum updates.
- Contains brand new material in key areas such as imaging, women's health, communication and data interpretation.
- Features a brand new, clearer text design, in the trusted *at a Glance* double-page spread style, in full-colour throughout.
- Is the ideal, practical companion to clinical attachments, available in a range of digital formats for on-the-go study and revision.
- Includes a companion website at www.ataglanceseries.com/medicine featuring interactive Multiple Choice Questions (MCQs), interactive flashcards with show/hide labels, and tables of normal values.

This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from iTunes, Google Play or the MedHand Store.

First multi-year cumulation covers six years: 1965-70.

This book includes MCQs in the basic sciences that underpin the study of obstetrics and gynaecology, as is examined in Part 1 of the membership examination. Following the syllabus recommended by the RCOG, the questions are arranged in papers of 60 questions, each question having 5 stems with True/False answer options. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD-ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

The book provides advice on how to prepare for the examination and how questions should be approached to obtain the highest marks. With more than 350 questions, preparation tips and extensive answer explanations, it is the definitive resource for those attempting the DRCOG. The book is comprehensive and authoritative: written by an experienced author and overseen by a well-respected expert in the field. It is the essential revision guide for those preparing for this examination.

This symptoms-based guide is designed to help undergraduates improve their history taking skills. It suggests prompt questions for core presentations, and case scenarios so undergrads can improve their skills with a friend. A unique section on asking difficult questions enables undergraduates to handle delicate situations sensitively.

MRCOG PART 2: 550 MCQs, EMQs and SAQs offers the most up-to-date and comprehensive coverage of practice questions for trainees preparing for the MRCOG Part 2 written exam.

Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 550 questions, comprising 250 MCQs, 250 EMQs and 50 SAQs, reflecting the breadth of topics encountered in the actual exam. Answers feature concise rationales to consolidate knowledge and understanding. Extensive evidence-based referencing to relate theory to clinical practice.

This work features a Foreword by David Taylor, Vice Dean, Leicester Medical School. "This book is the first to assist students with a new format of testing knowledge and clinical skills, i.e., the extended matching question. I am delighted my colleagues here in Leicester, where undergraduate education is given the very highest priority, have found the time and energy to write this book. This book comprehensively tests a whole range of obstetrics and gynaecology and I congratulate them for it." - David Taylor, in the Foreword. This revision aid in Obstetrics and Gynaecology is based on the Extended Matching Question format (EMQ). It contains over 200 patient vignettes arranged in topic areas covering a broad range of themes and degrees of difficulty. It provides test EMQs and detailed answers at the completion of each section. "EMQs in Obstetrics and Gynaecology" is an indispensable study and revision aid for undergraduate medical students preparing for in-course assessment in obstetrics and gynaecology as well as final exams. It also provides a vital review for specialist trainees in obstetrics and gynaecology preparing to take postgraduate exams.

This book presents medical students and those preparing for postgraduate examinations with an ideal opportunity to assess their levels of knowledge and understanding in obstetrics and gynaecology, and to practice their exam technique across a range of question formats. It can be used as a standalone revision guide, but is also designed to complement the latest editions of the best-selling volumes *Gynaecology by Ten Teachers* and *Obstetrics by Ten Teachers*. Key features: Includes an extensive range of question types—EMQs, MCQs, SBAs, SAQs, and OSCEs—providing comprehensive coverage compatible with all relevant examinations. Fully up-to-date—ensuring prospective candidates practice across all areas on which they will be tested. Clear and accessible—with concise explanations of answers and directions to the *Ten Teachers* textbooks for those seeking further advice and guidance. With coverage across the obstetrics and gynaecology curriculum, medical students and those studying for DRCOG and MRCOG examinations will find *Self Assessment in Obstetrics and Gynaecology by Ten Teachers* provides invaluable practice and guidelines during the critical revision period.

A collection of over 450 tried and tested multiple choice questions comes complete with reasoned answers. Published in association with the Royal College of Obstetricians and Gynaecologists, the pattern of questions follows that of the MRCOG Part 1 providing essential revision material and MCQ practice for this examination. This examination and revision guide comprehensively tests knowledge at all levels in obstetrics and gynaecology. The wide-ranging sample questions have detailed answers to provide proper explanation and aid understanding, and the variety of question formats prepares students for all possibilities in the examination. The best of five question format is ideal for DRCOG candidates, the EMQs prepare the MRCOG candidates, and the MCQs will test both DRCOG and MRCOG candidates. The book is also highly recommended for undergraduates preparing for their finals, who will welcome the sample best of fives and EMQs now that essays and short answer questions are becoming a thing of the past. This volume of practise true/false MCQs and short answer questions is intended to be used by the trainee obstetrician and gynaecologist as a self-assessment aid throughout training and during revision for the MRCOG examination, in particular Part 2. Questions have been carefully designed to test both theoretical and practical knowledge, and are representative of the curricular elements highlighted within the RCOG trainee logbook.
