

Essentials Of Greek And Roman Law

A Kirkus Reviews Best Book of 2018 A lively and timely introduction to the roots of self-understanding--who we are and how we should act--in the cultures of ancient Greece, the Roman Empire, and Middle Ages and the Renaissance "Know thyself"--this fundamental imperative appeared for the first time in ancient Greece, specifically in Delphi, the temple of the god Apollo, who represented the enlightened power of reason. For the Greeks, self-knowledge and identity were the basics of their civilization and their sources were to be found in where one was born and into which social group. These determined who you were and what your duties were. In this book the independent scholar Ingrid Rossellini surveys the major ideas that, from Greek and Roman antiquity through the Christian medieval era up to the dawn of modernity in the Renaissance, have guided the Western project of self-knowledge. Addressing the curious lay reader with an interdisciplinary approach that includes numerous references to the visual arts, Know Thyself will reintroduce readers to the most profound and enduring ways our civilization has framed the issues of self and society, in the process helping us rediscover the very building blocks of our personality.

The incredible influence of Ancient Greek culture on everything from science to literature to politics continues to be relevant and hotly debated. In 'The Complete Idiot's Guide to Ancient Greece', you are invited to meet the Ancient Greeks and to understand their legacy by entering their world. Profiles the most important contributions of Greek culture, including mythology, philosophy, medicine and the Olympic games. Includes further reading and travel information to help in planning a personal Odyssey.

An accessible historical exploration of the methods and motivations behind using magic in ancient Greece and Rome. In the ancient world, magic was everywhere. The supernatural abounded, turning flowers into fruit and caterpillars into butterflies. In a time before scientists studied weather patterns and figured out what caused the Earth's most mysterious phenomena, it was magic that packed a cloud full of energy until it exploded with thunderbolts. It was everyday magic, but it was still magical. In Ancient Magic, author Philip Matyszak ushers readers into that world, showing how ancient Greeks and Romans concocted love potions and cast curses, how they talked to the dead and protected themselves from evil spirits. He takes readers to a world where gods interacted with humans and where people could not only talk to spirits and deities, but could themselves become divine. Ancient Magic presents us with a new understanding of the role of magic, combining a classical historiography with a practical how-to guide. Using a wide array of sources and lavish illustrations, this book offers an engaging and accessible way into the supernatural for all.

Full of action, romance, betrayal, passion, violence, and tragedy, the timeless ancient Greek and Roman myths make

great reading. With a cast of unique characters and unbelievable story lines, classical mythology explains phenomena such as creation, weather, nature, and the universe with unparalleled drama. The Everything Classical Mythology Book is an entertaining and educational guide that explains all the great myths and explores how they have influenced language, art, music, psychology, and even today's popular culture. The book tells the fascinating stories of the gods' rise to power on Mount Olympus and of their frequent clashes with larger-than-life heroes. Rounded out with a helpful glossary, an index of characters, and many reading resources, this action-packed new addition to the Everything series brings classical mythology to life!

The frames of classical art are often seen as marginal to the images that they surround. Traditional art history has tended to view framing devices as supplementary 'ornaments'. Likewise, classical archaeologists have often treated them as tools for taxonomic analysis. This book not only argues for the integral role of framing within Graeco-Roman art, but also explores the relationship between the frames of classical antiquity and those of more modern art and aesthetics. Contributors combine close formal analysis with more theoretical approaches: chapters examine framing devices across multiple media (including vase and fresco painting, relief and free-standing sculpture, mosaics, manuscripts and inscriptions), structuring analysis around the themes of 'framing pictorial space', 'framing bodies', 'framing the sacred' and 'framing texts'. The result is a new cultural history of framing - one that probes the sophisticated and playful ways in which frames could support, delimit, shape and even interrogate the images contained within.

Here's another myth that has survived the tests of time. It has been passed on from one generation to the next, thereby preserving the lessons it brings. If you would notice, most of the Greek and Roman myths deal with curses and powers, which would pretty much describe the beliefs of the people who first told them. Are you ready to peek inside the pages? Do so now!

Explore the real Greek myths behind Percy Jackson's story - he's not the first Perseus to have run into trouble with the gods . . . These are the mysterious and exciting legends of the gods and heroes in Ancient Greece, from the adventures of Perseus, the labours of Heracles, the voyage of Jason and the Argonauts, to Odysseus and the Trojan wars.

Introduced with wit and humour by Rick Riordan, creator of the highly successful Percy Jackson series.

Have you ever wondered why Greek myths are known worldwide? Well, they have the perfect ingredients of magic, power and culture. They're fictional but they strongly reflect the cultures and traditions of Greece. In this book, we're going to discuss The Big Three: Zeus, Poseidon and Hades. Who are they? What power do they have and what realms do they reign over?

A HISTORY OF ROMAN ART, ENHANCED International Edition is a lavishly-illustrated survey of the art of Rome and

the Roman Empire from the time of Romulus to the death of Constantine, presented in its historical, political, and social context. This ENHANCED EDITION has added coverage on Etruscan art in the beginning of the text. All aspects of Roman art and architecture are treated, including private art and domestic architecture, the art of the Eastern and Western provinces, the art of freedmen, and the so-called minor arts, including cameos, silverware, and coins. The book is divided into four parts-Monarchy and Republic, Early Empire, High Empire, and Late Empire-and traces the development of Roman art from its beginnings in the 8th century BCE to the mid fourth century CE, with special chapters devoted to Pompeii and Herculaneum, Ostia, funerary and provincial art and architecture, and the earliest Christian art. The original edition of this text was warmly received in the market based on a high level of scholarship, comprehensive contents, and superb visuals.

The extraordinary story of the intermingled civilizations of ancient Greece and Rome, spanning more than six millennia from the late Bronze Age to the seventh century The magnificent civilization created by the ancient Greeks and Romans is the greatest legacy of the classical world. However, narratives about the "civilized" Greek and Roman empires resisting the barbarians at the gate are far from accurate. Tony Spawforth, an esteemed scholar, author, and media contributor, follows the thread of civilization through more than six millennia of history. His story reveals that Greek and Roman civilization, to varying degrees, was supremely and surprisingly receptive to external influences, particularly from the East. From the rise of the Mycenaean world of the sixteenth century B.C., Spawforth traces a path through the ancient Aegean to the zenith of the Hellenic state and the rise of the Roman empire, the coming of Christianity and the consequences of the first caliphate. Deeply informed, provocative, and entirely fresh, this is the first and only accessible work that tells the extraordinary story of the classical world in its entirety.

Susan Woodford illuminates the great achievements of classical art and architecture and conveys a sense of the excitement that inspired the creative artists of the ancient world. Examining all aspects of Greek and Roman visual arts, this revised edition includes a new chapter on Roman architecture, as well as new illustrations, and an updated bibliography and glossary. First Edition Hb (1982): 0-521-23222-8 First Edition Pb (1982): 0-521-29873-3

A complete introduction to the rich cultural legacy of Rome through the study of Roman art ... It includes a discussion of the relevance of Rome to the modern world, a short historical overview, and descriptions of forty-five works of art in the Roman collection organized in three thematic sections: Power and Authority in Roman Portraiture; Myth, Religion, and the Afterlife; and Daily Life in Ancient Rome. This resource also provides lesson plans and classroom activities."--Publisher website.

Originally published: Handbook of classical mythology. Santa Barbara, CA: ABC-CLIO, c2004.

Full of intriguing facts and diverting stories—the ideal introduction to the myths and tales that lie at the heart of Western culture. Who was Pandora and what was in her famous box? How did Achilles get his Achilles heel? What exactly is a Titan? And why is one computer virus known as a Trojan horse? The myths of ancient Greece and Rome can seem bewilderingly complex, yet they are so much a part of modern life and discourse that most of us know fragments of them. This comprehensive companion takes these fragments and weaves them into an accessible and enjoyable narrative, guiding the reader through the basic stories of classical myth. Philip Matyszak explains the sequences of events and introduces the major plots and characters, from the origins of the world and the labors of Hercules to the Trojan War and the voyages of Odysseus and Aeneas. He brings to life an exotic cast of heroes and monsters, wronged women and frighteningly arbitrary yet powerful gods. He also shows how the stories have survived and greatly influenced later art and culture, from Renaissance painting and sculpture to modern opera, literature, movies, and everyday products. The first comprehensive survey of the economies of classical antiquity.

In *Twelve Greeks and Romans Who Changed the World*, Carl J. Richard brings to life a group of men whose contributions fundamentally altered western society. In this compelling narrative, readers encounter a rich cast of characters, including eloquent Homer, shrewd Pericles, fiery Alexander, idealistic Plato, ambitious Caesar, dedicated Paul, and passionate Augustine. As he vibrantly describes the contributions of the individuals, Richard details the historical context in which each lived, showing how these men influenced their world and ours.

'The book is part of a series of introductory studies intended to bring the latest developments in art history to students and general readers. But it offers something new to the specialist reader too [...] the quantity of illustrations is impressive for such a slim and inexpensive book ...Classical Art is illuminating, playful, provocative, and often (literally) iconoclastic'
-Times Higher Education Supplement

This second edition examines all aspects of Roman history, and contains a new introduction, three new chapters and updated bibliographies.

Introduces ancient Greek and Latin literature, and reviews Greek and Roman history

Over his long and illustrious career as Lecturer, Reader and Professor in Edinburgh University (1961-1976), Lawrence Professor of Classical Archaeology at Cambridge (1976-2001) and currently Fellow of the McDonald Institute of Archaeology at Cambridge, Anthony Snodgrass has influenced and been associated with a long series of eminent classical archaeologists, historians and linguists. In acknowledgement of his immense academic achievement, this collection of essays by a range of international scholars reflects his wide-ranging research interests: Greek prehistory, the Greek Iron Age and Archaic era, Greek texts and Archaeology, Classical Art History, societies on the fringes of the

Greek and Roman world, and Regional Field Survey. Not only do they celebrate his achievements but they also represent new avenues of research which will have a broad appeal.

This handbook explores key aspects of art and architecture in ancient Greece and Rome. Drawing on the perspectives of scholars of various generations, nationalities, and backgrounds, it discusses Greek and Roman ideas about art and architecture, as expressed in both texts and images, along with the production of art and architecture in the Greek and Roman world.

Discover the critical vocabulary of Western architecture and the enduring influence of the five classical orders within this fully illustrated Grove Art Essentials volume. Beginning with the syntax of columns and entablatures in ancient Egypt, the authors outline the development of the classical orders and their variations in ancient Greece and Rome, tracing the revival and adaptation of these forms in the medieval period to the present day. Balancing convention and variety, the five major orders were codified in the Renaissance, and subsequent Western architecture with classical leanings continues to adopt this visual language almost as if sacrosanct. This text explores the character and history of the Doric, Ionic, Corinthian, Composite, and Tuscan orders and traces their legacy through the architecture of the Western world. Covering more than four thousand years of ancient history, from the early Egyptians to the dawn of Byzantium, an illustrated introduction to the Mediterranean's three major civilizations examines their links and traces their influence up to the present day. UP.

315 renderings of Doric and Ionic styles of dress for women, gracefully arranged Roman togas, vestments of the Eastern Orthodox Church, hairdressing, jewelry, and other decorative elements. Includes instructions and flat patterns.

Countless books detail the development of Roman law and explain the laws of the ancient Romans. Similarly, many scholars have traced the law of ancient Athens. Written for both students and educated lay readers, the chapters dealing with ancient Greece focus primarily on the law of ancient Athens in the 5th and 4th centuries B.C.E. But material relating to other Greek colonies and city states also plays a significant role in the development of ancient Greek law. The Roman law chapters explore both law and legal institutions and emphasize the growth and expansion of legal principles. Roman law still serves as the foundation for the civil laws of many nations today. And given the importance of globalization, Roman law is likely to continue to influence the modern world for the foreseeable future. Each unit begins with a "Background & Beginnings" chapter that establishes the historical context in which law developed and introduces relevant principles of jurisprudence (i.e., legal philosophy). The second chapter in each unit covers procedural aspects of the law, such as court structure, judges, trial procedure, evidence, and legislation. The remaining chapters examine substantive legal topics such as property, contracts, family law, criminal law, and the like. The text also maintains a focus on the connections and influences of social, cultural, economic, philosophical, and political forces as they have affected law and its development. In addition, several sections of the book add another dimension. These sections, entitled "Law in Literature," use works of ancient literature to explore aspects of law as seen through the eyes of poets, dramatists, orators, and historians. In theory, modern readers can learn a great deal about law through literature because literature often lacks the official filter of many traditional

legal sources. Of course each individual author brings his own biases about law and the legal system to his writing. But as long as we acknowledge the potential for such bias, these sections have the potential to offer completely different perspectives and insights.

The first anthology to present the entire range of ancient Greek and Roman stories—from myths and fairy tales to jokes Captured centaurs and satyrs, incompetent seers, people who suddenly change sex, a woman who remembers too much, a man who cannot laugh—these are just some of the colorful characters who feature in the unforgettable stories that ancient Greeks and Romans told in their daily lives. Together they created an incredibly rich body of popular oral stories that include, but range well beyond, mythology—from heroic legends, fairy tales, and fables to ghost stories, urban legends, and jokes. This unique anthology presents the largest collection of these tales ever assembled. Featuring nearly four hundred stories in authoritative and highly readable translations, this is the first book to offer a representative selection of the entire range of traditional classical storytelling. Complete with beautiful illustrations, this one-of-a-kind anthology will delight general readers as well as students of classics, fairy tales, and folklore.

Offers analysis of selected works of ancient art through a critical use of cutting-edge theory from gender studies, body studies, and art history. This book is not a standard coin catalogue, but it focuses on quantities and percentages of the mysterious 5950 sphere images on Roman coin reverses, and a few Greek coins. This research identifies political, cultural, religious and propaganda trends associated with the coin sphere images, and offers a variety of new findings.

New York Times Bestseller: This retelling of the Greek myth of Theseus, king of Athens, is “one of the truly fine historical novels of modern times” (The New York Times). In myth, Theseus was the slayer of the child-devouring Minotaur in Crete. What the founder-hero might have been in real life is another question, brilliantly explored in *The King Must Die*. Drawing on modern scholarship and archaeological findings at Knossos, Mary Renault’s *Theseus* is an utterly lifelike figure—a king of immense charisma, whose boundless strivings flow from strength and weakness—but also one steered by implacable prophecy. The story follows Theseus’s adventures from Troizen to Eleusis, where the death in the book’s title is to take place, and from Athens to Crete, where he learns to jump bulls and is named king of the victims. Richly imbued with the spirit of its time, this is a page-turner as well as a daring act of imagination. Renault’s story of Theseus continues with the sequel *The Bull from the Sea*. This ebook features an illustrated biography of Mary Renault including rare images of the author.

Book Excerpt: ...The Larvæ were regular characters in the Atellane farces at Rome, where they performed various "dances macabres." Can these possibly be the prototypes of the Dances of Death so popular in the Middle Ages? We find something very similar on the well-known silver cups discovered at Bosco Reale, though Death itself does not seem to have been represented in this way. Some of the designs in the medieval series would certainly have appealed to the average bourgeois Roman of the Trimalchio type--e.g., "Les Trois Vifs et les Trois Morts," the three men riding gaily out hunting and meeting their own skeletons. Such crude contrasts are just what one would expect to find at Pompeii. Lemures and Larvæ are often confused, but Lemures is the regular word for the dead not at rest--the "Lemuri," or spirits of the churchyard, of some parts of modern Italy. They were evil spirits, propitiated in early days with blood. Hence the first gladiatorial games were given in connection with funerals. Both in Greece and in Rome there were special festivals for appeasing these restless spirits. Originally... The fully revised second edition of this successful volume includes updates on the latest archaeological research in all chapters, and two new essays on Greek and Roman art. It retains its unique, paired essay format, as well as key contributions from leading archaeologists and historians of the classical world. Second edition is updated and revised throughout, showcasing the latest research and fresh theoretical approaches in classical archaeology Includes brand new essays on ancient Greek and Roman art in a modern context Designed to encourage

critical thinking about the interpretation of ancient material culture and the role of modern perceptions in shaping the study of art and archaeology Features paired essays – one covering the Greek world, the other, the Roman – to stimulate a dialogue not only between the two ancient cultures, but between scholars from different historiographic and methodological traditions Includes maps, chronologies, diagrams, photographs, and short editorial introductions to each chapter

The Essentials of Greek and Roman Law

A fascinating and accessible introduction to the art of ancient Greece and Rome. For everyone from casual museumgoers to students. Comprehensive and accessible, this book offers a concise synthesis of the evolution of the law in Western Europe, from ancient Rome to the beginning of the twentieth century. It situates law in the wider framework of Europe's political, economic, social and cultural developments. Tool marks and joins, Cycladic and Daedalic styles, and kouroi and kanephoroi are among the many terms pertaining to the study of classical stone sculpture that are succinctly described in this latest addition to the popular Looking At series. Presented in glossary format, this superbly illustrated book gives concise definitions of the words and phrases most frequently encountered by museum visitors in exhibition labels and texts. Throughout the book, the author focuses on the technical aspects of sculpting that influenced the style and character of the finished works. An introductory essay underscores the importance of understanding why and how ancient stone sculpture was produced, allowing readers to gain a greater appreciation of the aesthetic value of individual works. Featuring numerous illustrations of ancient stone sculptures, many from the collections of the Getty Museum, Looking at Greek and Roman Sculpture in Stone is a valuable guide for students, scholars, and all who wish to heighten their enjoyment of this classical art.

A rich and stimulating exploration of sources shedding light on slavery in Greek and Roman societies Greek and Roman Slavery offers readers an engaging and interactive approach to the complex economic, social, and political processes and contexts in which slavery was employed by Greek and Roman societies. At the same time, this sourcebook places the agency of enslaved persons at center stage, while also tracing changes over time and between different ancient slave systems. Tackling a phenomenon that was fundamental to Greek and Roman cultures, and deeply affected all of their economic, social, political, and cultural practices, this book includes a rich collection of literary, epigraphic, papyrological, and archaeological sources, many of which largely unfamiliar to non-specialists. The sources range chronologically from the archaic period to late antiquity and cover the whole of the Mediterranean, the Near East, and temperate Europe. Greek and Roman Slavery also provides readers with: A wide range of textual, visual, and material sources, many of which have never been used to illuminate a discussion of slavery Sources relating to the whole of the Mediterranean world, from the archaic period to late antiquity Interactive material filled with questions, introductions, cross-references, and bibliographies that encourages close analysis of the sources The inclusion of topics that have traditionally generated important research as well as ones at the forefront of innovative research today Ideal for students taking undergraduate and graduate courses on ancient slavery, as well as courses on slavery more generally, Greek and Roman Slavery is an indispensable sourcebook for students and scholars of History, Classics, Ancient History, Classical Archaeology, and the global study of slavery and race.
