Fasting, food, and farming: Evidence from Ethiopian producers on the link of food taboos with dairy development D'Haene, Eline, Vandevelde, Senne, Minten, Bart, 2020-05-01 The impact of food taboos - often because of religion - is understudied. In Ethiopia, religious fasting by Orthodox Christians is assumed to be an important impediment for the sustainable development of a competitive dairy sector and desired higher milk consumption, especially by children. However, evidence is limited. Relying on unique data, we shed light on three major issues. First, we observe that the average annual number of fasting days that Orthodox adults are effectively adhering to is 140, less than commonly cited averages. Using this as an estimate for extrapolation, fasting is estimated to reduce annual dairy consumption by approximately 12 percent nationally. Second, farms adapt to declining milk demand during fasting by increased processing of milk into storable products - fasting contributes to larger price swings for these products. We further note continued sales of milk by non-remote farmers and reduced production - by adjusting lactation times for dairy animals - for remote farmers. Third, fasting is mostly associated with increased milk consumption by the children of dairy farmers, seemingly because of excess milk availability during fasting periods. Our results suggest that fasting habits are not a major explanation for the observed poor performance of Ethiopia's dairy sector nor low milk consumption by children. To reduce the impact of fasting on the dairy sector in Ethiopia further, investment is called for in improved milk processing, storage, and infrastructure facilities.

Faith and Work Timothy Ewest, 2018-01-01 Those who adhere to a faith tradition are longing for theories and insights into how they can be true to their faith within the workplace and yet be sensitive and respectful to others of varying faith commitments and beliefs. Yet for Christians, respect of other faith traditions is especially difficult since Christianity as the dominate religion has become secularized and institutionalized within the workplace as represented in holidays and days off. Within the multiple theoretical and research dimensions of management, religion and spirituality, this book explores theoretical, conceptual and strategic theories and research which consider how individuals and organizations integrate their Christian faith in the workplace, and how these groups attempt to change society as a whole. This historical movement is characterized by a desire for people to live a holistic life which integrates their Christian faith into the workplace, also deemed "faith at work". Historically, Christian's faith integration is manifested individually or collectively and is demonstrated in the ways it shapes and informs the values systems, ethics, character and attitudes towards work. This edited

volume draws themes out of the three historical epochs of the faith and work movement traced by Miller (2007) in the book, *God at work: The history and promise of the faith at work movement*. These organizing themes, while not congruent to the historical epochs, do capture the ways in which people of faith have historically attempted to integrate their faith into the workplace. These themes include: Individual integration, organizational strategies for integration and societal integration.

Food Cultures of the World Encyclopedia [4 volumes] Ken Albala, 2011-05-25 This comprehensive reference work introduces food culture from more than 150 countries and cultures around the world—including some from remote and unexpected peoples and places. From babka to baklava to the groundnut stew of Ghana, food culture can tell us where we've been—and maybe even where we're going. Filled with succinct, yet highly informative entries, the four-volume *Food Cultures of the World Encyclopedia* covers all of the planet's nation-states, as well as various tribes and marginalized peoples. Thus, in addition to coverage on countries as disparate as France, Ethiopia, and Tibet, there are also entries on Roma Gypsies, the Maori of New Zealand, and the Saami of northern Europe. There is even a section on food in outer space, detailing how and what astronauts eat and how they prepare for space travel as far as diet and nutrition are concerned. Each entry offers information about foodstuffs, meals, cooking methods, recipes, eating out, holidays and celebrations, and health and diet. Vignettes help readers better understand other cultures, while the inclusion of selected recipes lets them recreate dishes from other lands.

Across ten chapters they describe the land and people, its history, cultures, religions, society and politics, as well as recent issues and unique destinations, documented with tables, maps, further reading suggestions and photos.

Historical Dictionary of Ethiopia David H. Shinn, Thomas P. Ofcansky, 2013-04-11 Ethiopia is clearly one of the most important countries in Africa. First of all, with about 75 million people, it is the third most populous country in Africa. Second, it is very strategically located, in the Horn of Africa and bordering Eritrea, Sudan, Kenya, and Somalia, with some of whom it has touchy and sometimes worse relations. Yet, its capital - Addis Ababa - is the headquarters of the African Union, the prime meeting place for Africa's leaders. So, if things went poorly in Ethiopia, this would not be good for Africa, and for a long time this was the case, with internal disruption rife, until it was literally suppressed under the strong rule of the recently deceased Meles Zenawi. The *Historical Dictionary of Ethiopia, Second Edition* covers the history of Ethiopia through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has several hundred

cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Ethiopia.

Ethiopian Americans W. Gabriel Selassie I,2025-01-09 Explore the history, culture, and lived experiences of Ethiopian Americans in the USA. Ethiopia, in East Africa, is the second most populated country in Africa, home to over 125 million inhabitants. For centuries, many Ethiopians had little exposure to the outside world, and even less to Americans. However, that started to change in the 1970s. In 1974, a military-backed government deposed Emperor Haile Selassie I, and many Ethiopians emigrated to the West. Today, large populations of Ethiopian Americans live in cities such as Washington, D.C., Los Angeles, and Minneapolis. This book offers an accessible and detailed glimpse into their everyday lives. It includes an overview of Ethiopian art, media, and cuisine, biographies of accomplished Ethiopian Americans, and a revealing look into the ongoing struggle for equality and representation that many Ethiopian Americans experience.

Historical Dictionary of Ethiopia Thomas P. Ofcansky,David H. Shinn,2004-03-29 Ethiopia is one of the world's oldest countries; its Rift Valley may be the location where the ancestors of humankind originated more than four million years ago. With a population of 67 million people today, it is the third most populous country on the African continent after Nigeria and Egypt. It is the source of 86 percent of the water reaching the Aswan Dam in Egypt, most of it carried by the amazing Blue Nile. Ethiopia offers major historical sites such as the pre-Christian palace at Yeha, the stele and tombs of the old Kingdom of Axum, and the rock-carved churches of Lalibela. For anyone interested in Ethiopia, this historical dictionary, through its individual and carefully cross-referenced entries, captures the importance and intrigue of this truly significant African nation. Historical Dictionary of Ethiopia appeals to all levels of readers, providing entries for each of Ethiopia's 85 ethnic groups and covering a broad range of cultural, political, and economic topics. Readers interested in the cultural aspects or who are planning to visit Ethiopia will find a wealth of entries on art, literature, handicrafts, music, dance, bird life, geography, and historic tourist sites. Practitioners in government and non-governmental organizations will find entries on pressing economic, social, and political issues such as HIV/AIDS, female circumcision , debt, human rights, and the environment. The important historical role of missionaries and the combination of conflict and cooperation between Christians and Muslims in the region are also issues reviewed. And, finally, many of the entries highlight relations between Ethiopia and her neighbors-Eritrea, Somalia, Somaliland, Djibouti, Kenya, and Sudan. In the bibliography, considerable emphasis has been placed on including both new and old materials covering all facets of Ethiopia, organized for easy identification by areas of major interest.

Religious Celebrations [2 volumes] Bloomsbury Publishing,2011-09-13 This two-volume work presents a comprehensive survey of all the ways people celebrate religious life around the globe. Religious Celebrations is an alphabetically organized

encyclopedia that covers more than 800 celebratory occasions from all of the world's major religious communities as well as many of the minor faith traditions. The encyclopedia provides a complete reference tool for examining the myriad ways people worldwide celebrate their religious lives across religious boundaries, providing information on numerous celebratory activities never before covered in a reference work. Offering the most comprehensive coverage of religious holidays ever assembled, this two-volume book covers festivals, commemorations, holidays, and annual religious gatherings all over the world, with special attention paid to the celebrations in larger countries. Entries written by distinguished researchers and specialists on different religious communities capture the unique intensity of each event, be it fasting or feasting, frenzied activity or the universal cessation of work, a huge gathering of the faithful en masse or a small family-centered event. The work spotlights celebrations that currently exist without overlooking now-abandoned celebrations that still impact the modern world.

Beyond Surgery Anita Hannig, 2017-04-24 An “incisive and immensely insightful study” of African women, Western medicine, and how to deliver care to those who need it (Jean Comaroff, Harvard University). Over the past few decades, maternal childbirth injuries have become a potent symbol of Western biomedical intervention in Africa, affecting over one million women across the global south. Western-funded hospitals have sprung up, offering surgical sutures that ostensibly allow women who suffer from obstetric fistula to return to their communities in full health. Journalists, NGO staff, celebrities, and some physicians have crafted a stock narrative around this injury, depicting afflicted women as victims of a backward culture who have their fortunes dramatically reversed by Western aid. With *Beyond Surgery*, medical anthropologist Anita Hannig unsettles this picture for the first time and reveals the complicated truth behind the idea of biomedical intervention as quick-fix salvation. Through her in-depth ethnography of two repair and rehabilitation centers operating in Ethiopia, Hannig takes the reader deep into a world inside hospital walls, where women recount stories of loss and belonging, shame and delight. As she chronicles the lived experiences of fistula patients in clinical treatment, Hannig explores the danger of labeling “culture” the culprit, showing how this common argument ignores the larger problem of insufficient medical access in rural Africa. *Beyond Surgery* portrays the complex social outcomes of surgery in an effort to deepen our understanding of medical missions in Africa, expose cultural biases, and clear the path toward more effective ways of delivering care to those who need it most.

The Stranger at the Feast Tom Boylston, 2018-01-12 At publication date, a free ebook version of this title will be available through Luminos, University of California Press’s Open Access publishing program. Visit www.luminosoa.org to learn more. *The Stranger at the Feast* is a pathbreaking ethnographic study of one of the world’s oldest and least-understood religious traditions. Based on long-term ethnographic research on the Zege peninsula in northern Ethiopia, the author tells the story of how people have understood large-scale religious change by following local transformations in hospitality, ritual prohibition,

and feeding practices. Ethiopia has undergone radical upheaval in the transition from the imperial era of Haile Selassie to the modern secular state, but the secularization of the state has been met with the widespread revival of popular religious practice. For Orthodox Christians in Zege, everything that matters about religion comes back to how one eats and fasts with others. Boylston shows how practices of feeding and avoidance have remained central even as their meaning and purpose has dramatically changed: from a means of marking class distinctions within Orthodox society, to a marker of the difference between Orthodox Christians and other religions within the contemporary Ethiopian state.

Encyclopedia of New Year's Holidays Worldwide William D. Crump,2016-03-30 Among the world's myriad cultures and their associated calendars, the idea of a New Year is relative and hardly specifies a universal celebration or even a universal point in time. Ways of celebrating the New Year range from the observances of religious rituals and superstitions to social gatherings featuring particular foods, music, dancing, noisemaking, fireworks and drinking. This first encyclopedia devoted exclusively to the New Year includes 320 entries that give a global perspective on the New Year, beyond its traditional Western associations with Christmas. National or regional entries detail the principal traditions and customs of 130 countries, while 27 entries discuss major calendar systems in current use or of significant historical interest. The remaining entries cover a wide variety of subjects including literary works, movies, and television specials; the customs of specific ethnic groups; universal customs such as toasting and drinking; football bowl games and parades; and the New Year celebrations at the White House and the Vatican.
