What is suspense, and why do we feel it? These questions are at the heart of the first part of this study. It develops and defends the ‘imminence theory of suspense’ – the view that suspense arises in situations that are structurally defined by something essential being imminent. Next, the study utilizes this theory as an interpretative key to Søren Kierkegaard’s seminal work ‘Frygt og Bæven’ (‘FB’). FB is an exploration of what it means to take the story of Abraham and Isaac as a paradigmatic example of faith. The study argues that a core aspect of how Kierkegaard conceptualizes faith through the figure of Abraham is suspense. The argument is built upon the observation that to have faith is to be a hero. To be hero means to belong to a story. Stories manifests different conceptualizations of time. Abraham’s story, as FB frames it, is radically geared towards something imminent – it is characterized by an essential relation of suspense. The study then explores how suspense not only forms part of the conceptualization of faith, but is also part of how this conceptualization is communicated. Thus, the study argues that there exists a symmetry of suspense between the rhetorical and the conceptual levels of the text.

Our ebook is an accurate compilation of all the essential information that you would need for your travel. With a focus on details and value-addition, this step-by-step guide will make your journey truly relaxing and most memorable. In the tradition of Uzodinma Iweala’s *Beasts of No Nation* by way of Christopher McDougall’s *Born to Run*, this is the inspirational true story of the Ugandan boy soldier who became a world-renowned runner, then found his calling as director of a world-renowned African children’s charity. “Julius can’t remember who first saw the men. He heard no warning sounds—no dog barking or twig snapping. Until this point, events had moved too swiftly for Julius to be afraid, but now panic seized him. In another instant, he realized that his old life was finished.” Thus begins the extraordinary odyssey of Julius Achon, a journey that takes a barefoot twelve-year-old boy from a village in northern Uganda to the rebel camp of the notorious Lord’s Resistance Army, where he was made a boy soldier, and then, miraculously, to a career as one of the world’s foremost middle-distance runners. But when a devastating tragedy prevents Julius from pursuing the gold at the 2004 Olympic Games in Athens, he is once again set adrift and forced to forge a new path for himself, finally finding his true calling as an internationally recognized humanitarian. Today, Julius is the director of the Achon Uganda Children’s Fund, a charity whose mission is to improve the quality of life in rural Uganda through access to healthcare, education, and athletics. While pursuing his destiny, Julius encounters a range of unforgettable characters who variously befriend and betray him: the demonic Joseph Kony, a “world-class warlord”; John Cook, a brilliant and eccentric U.S. track coach; Jim Fee, an American businessman who helps Julius build a state-of-the-art medical center deep in the Ugandan bush; and finally Kristina, Julius’s mother, whose own tragic journey forms the pivot for this spellbinding narrative of love, loss, suffering, and redemption. Written by award-winning sportswriter John Brant, *The Boy Who Runs* is an empowering tale of obstacles overcome, challenges met, and light wrested from darkness. It’s a story about forging your true path and finding your higher purpose—even when the road ahead bends in unexpected directions. Advance praise for *The Boy Who Runs* “Brant proves again why he is one of our best sportswriters, masterfully weaving a compelling narrative of an African country at war, along with the transformation of a young man from athlete to humanitarian. . . . [Achon’s] life story is a shining example of the Olympic spirit.”—Booklist (starred review) “Fantastic . . . Brant does a beautiful job of chronicling the tension. . . . Indeed, his work is first-rate throughout the book, and it makes for a read-in-one-sitting story.”—Publishers Weekly (starred review) “Inspiring . . . Achon’s difficult journey as an athlete and humanitarian reveals how sport can provide a valuable avenue of hope for those seeking to rise above tragic circumstances.”—Library Journal “This is an astonishing story about an amazing athlete who outruns not only the grinding poverty and deprivation of the Ugandan bush but brutal war and imminent death, then dedicates himself to saving his family and friends. This man has the heart of a lion. I couldn’t put this book down.”—John L. Parker, Jr., author of *Once a Runner* “An instant classic . . . John Brant has given us an epic, moving, and ultimately hopeful story about the power of sport and friendship to transcend boundaries and make the world a better place.”—Daniel Coyle, author of *The Talent Code*

Tyrone Power was as versatile in life as he was on the screen. He was several men, and during the creation of this book I have been fortunate in having the other principal "lead" in each of these lives as an active partner, coming very close at times to the point of collaboration. He was the last idol created by the vast star-making machine, Twentieth Century Fox. Coming from a family of multi-generational actors, Tyrone Power broke the proverbial mold. His on-screen charisma in the 30's and 40's propelled him to the forefront of the "must have" actors. His on-screen accomplishments were many yet he did not hesitate to enter the military when his country went to war. After the war, he continued in his career but the years took their toll. A fascinating look behind the scenes of Hollywood of the 30's and 40's and the impact of the times on a great actor.

Distinguished pediatrician Dr Robert Bucknam, M.D. and co-author Gary Ezzo are two of the world's leading experts on baby sleep and feeding patterns. Millions of new mothers across the globe are coming toward this new brand at an increasing pace as they find and share the life changing success they are achieving with their newborns. This updated Anniversary edition celebrates 25 years with Bucknam and Ezzo's groundbreaking approach which has found favor with over six million parents in all 50 states and has been translated into 20 languages around the world. For 25 years, On Becoming Babywise has been the de facto newborn parenting manual for naturally synchronizing your baby's feeding time, waketime and nighttime sleep cycles, so the whole family can sleep through the night. In his 28th year as a licensed Pediatrician, Dr. Robert Bucknam, M.D. along with co-author Gary Ezzo, demonstrate how order and stability are mutual allies of every newborn's metabolism and how parents can take advantage of these biological propensities. In particular, they note how an infant's body responds to the influences of parental routine or the lack thereof. Early chapters start with explorations of everyday aspects of infant management such as the three basic elements of daytime activities for newborns: feeding time, waketime, and naptime. Practical discussions then focus on broad and niche topics including feeding philosophies, baby sleep problems, baby scheduling challenges, nap routines, sleep training multiples, baby sleeping props, Colic and Reflux and many other dimensions which impact breast feeding schedules, bottle feeding tips, and baby sleeping training. Five resource Appendixes provide additional reference material: 1) Taking care of baby and mom 2) A timeline of what to expect and when 3)Baby Sleep Training Problems and Solutions 4)Monitoring Your Baby's Growth 5) Healthy Baby Growth Charts On Becoming Babywise is more than an infant-management concept. It is a mindset for successful parenthood. It can help any parent develop a plan that meets both the needs of a new baby and of the entire family. These principles have worked for millions of parents and, when applied with common sense to your unique situation, can work wonderfully for you too! Recommended by doctors across the country.

Cities shape the lives and outlooks of billions of people, yet they have been overshadowed in contemporary political thought by nation-states, identity groups, and concepts like justice and freedom. The Spirit of Cities revives the classical idea that a city expresses its own distinctive ethos or values. In the ancient world, Athens was synonymous with democracy and Sparta represented military discipline. In this original and engaging book, Daniel Bell and Avner de-Shalit explore how this classical idea can be applied to today's cities, and they explain why philosophy and the social sciences need to rediscover the spirit of cities. Bell and de-Shalit look at nine modern cities and the prevailing ethos that

distinguishes each one. The cities are Jerusalem (religion), Montreal (language), Singapore (nation building), Hong Kong (materialism), Beijing (political power), Oxford (learning), Berlin (tolerance and intolerance), Paris (romance), and New York (ambition). Bell and de-Shalit draw upon the richly varied histories of each city, as well as novels, poems, biographies, tourist guides, architectural landmarks, and the authors' own personal reflections and insights. They show how the ethos of each city is expressed in political, cultural, and economic life, and also how pride in a city's ethos can oppose the homogenizing tendencies of globalization and curb the excesses of nationalism. The Spirit of Cities is unreservedly impressionistic. Combining strolling and storytelling with cutting-edge theory, the book encourages debate and opens up new avenues of inquiry in philosophy and the social sciences. It is a must-read for lovers of cities everywhere. In a new preface, Bell and de-Shalit further develop their idea of "civicism," the pride city dwellers feel for their city and its ethos over that of others.

A template for pranksters, artists, adventurers and anyone interested in rampant creativity, for years to come. Tales Of The San Francisco Cacophony Society tells the history of the most influential underground cabal that you have never heard of. Rising from the ashes of the mysterious and legendary Suicide Club, The Cacophony Society, at its zenith, hosted chapters in over a dozen major cities, and influenced much of what was once called the underground. Flash Mobs, Urban Exploration, and Culture Jamming are a few of the pop culture trends that Cacophony helped kick off. Chuck Palahniuk's Fight Club, Burning Man and Internet social networking powerhouse Laughing Squid were informed and inspired by Cacophony. The Burning Man Festival actually began as a Cacophony event as did the annual, and now world-wide SantaCon. Cacophony events could range from something as simple as climbing the Golden Gate Bridge or having a discussion over drinks about a movie seen together, to something as elaborate as The Atomic Café -- an event involving a hundred bedraggled "nuclear holocaust Survivors" mounting elaborate costumed rituals throughout the bowels of a massive abandoned tooth paste factory. Yes.... Cacophony was that strange. Cacophony's heyday was concurrent with the rise of the internet. The story of this group is of historical significance for this reason.

Information about upcoming pranks, street theater and other events hosted by Cacophony was spread by paper flyers posted on telephone poles and left in coffee shops, by the Societies mailer "Rough Draft" and by word of mouth. Then, with the genesis of personal computing and social networking, the jokers, artists and troublemakers of Cacophony were among some of the first non-geeks to explore the power of this new and world changing way of communicating. Burning Man, Urban Exploration, flash mobs and the like were avenues of creativity with their roots in Cacophony, that spread like wildfire through the mechanism of these new communication technologies.

Paris. The name alone conjures images of chestnut-lined boulevards, sidewalk cafés, breathtaking façades around every corner--in short, an exquisite romanticism that has captured the American imagination for as long as there have been Americans. In 1995, Adam Gopnik, his wife, and their infant son left the familiar comforts and hassles of New York City for the urbane glamour of the City of Light. Gopnik is a longtime New Yorker writer, and the magazine has sent its writers to Paris for decades--but his was above all a personal pilgrimage to the place that had for so long been the undisputed capital of everything cultural and beautiful. It was also the opportunity to raise a child who would know what it was to romp in the Luxembourg Gardens, to

enjoy a croque monsieur in a Left Bank café--a child (and perhaps a father, too) who would have a grasp of that Parisian sense of style we Americans find so elusive. So, in the grand tradition of the American abroad, Gopnik walked the paths of the Tuileries, enjoyed philosophical discussions at his local bistro, wrote as violet twilight fell on the arrondissements. Of course, as readers of Gopnik's beloved and award-winning "Paris Journals" in The New Yorker know, there was also the matter of raising a child and carrying on with day-to-day, not-so-fabled life. Evenings with French intellectuals preceded middle-of-the-night baby feedings; afternoons were filled with trips to the Musée d'Orsay and pinball games; weekday leftovers were eaten while three-star chefs debated a "culinary crisis." As Gopnik describes in this funny and tender book, the dual processes of navigating a foreign city and becoming a parent are not completely dissimilar journeys--both hold new routines, new languages, a new set of rules by which everyday life is lived. With singular wit and insight, Gopnik weaves the magical with the mundane in a wholly delightful, often hilarious look at what it was to be an American family man in Paris at the end of the twentieth century. "We went to Paris for a sentimental reeducation-I did anyway--even though the sentiments we were instructed in were not the ones we were expecting to learn, which I believe is why they call it an education."

Latasha and the Little Red Tornado tells the story of Latasha Gandy, a precocious and inventive third-grader who lives in Pittsburgh with her hardworking mother and a naughty puppy named Ella Fitzgerald. At eight years old, Latasha cannot wait to grow up. Ella, on the other hand, absolutely refuses to! When Ella's antics push the Gandy's landlady, Mrs. Okocho, to her wits' end, Latasha realizes that she must turn her mischievous mutt into a model dog. At turns hilarious and heartbreaking, this tale of friendship and maturity follows Latasha as she struggles with Ella, school, and her mother's absence from home.

One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

The single greatest lesson parents teach their kids isn't anything they say--it's what they do. And while most parents would say they want to raise compassionate kids, they might be surprised to discover just how little they're actually modeling the behaviors they hope to pass on--qualities such as unconditional love, gentleness, forgiveness, patience, gratitude, humility, and more. In this unique book, Sami Cone shows parents a new way to look at molding their children, one in which focusing on adding good behaviors and attitudes is more powerful than eliminating bad ones. Grounding her advice in Scripture--specifically the twelve characteristics found in Colossians 3:12-17--Cone offers plenty of stories from her own life to show these principles in action. And she offers practical things parents can do right now to create a home and family that exhibits love, harmony, and generosity of spirit in a self-centered world.

Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totalling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience -- such as healthcare professionals, aid workers, military personnel, travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great interest to researchers and educators alike.

A historical adventure set during the Hundred Years' War. The story follows a young man as he leaves the shelter of an abbey in England and becomes involved with Edward, the Black Prince's campaign in Spain. Doyle later wrote a prequel, titled "Sir Nigel", concerning the early life of one of the heroes in this novel. "We go to France, and from thence I trust to Spain, in humble search of a field in which we may win advancement and perchance some small share of glory. For this purpose I would have you know that it is not my wont to let any occasion pass where it is in any way possible that honor may be gained. I would have you bear this in mind, and give great heed to it that you may bring me word of all cartels, challenges, wrongs, tyrannies, infamies, and wronging of damsels. Nor is any occasion too small to take note of, for I have known such trifles as the dropping of a gauntlet, or the flicking of a breadcrumb, when well and properly followed up, lead to a most noble spear-running."- Sir Nigel, "The White Company".

In *The Logic of Life*, bestselling author Tim Harford quite simply makes sense of this world. Life often seems to defy logic. The receptionist is clearly smarter than the boss who earns fifty times her salary. Arbitrary lines starkly divide the desirable districts of the city from the dangerous ones. Voters flock to the polling booths to elect candidates who'll rip them off to favour special interests. None of it makes logical sense — or does it? Economist and acclaimed author Tim Harford thinks it does. By weaving stories from locations as diverse as a Vegas casino to a barroom speed date, Harford aims to persuade you that people are, in fact, surprisingly logical. When a street prostitute agrees to unprotected sex, or a teenage criminal embarks on a burglary — perhaps especially when a racist employer disregards a black job applicant — we would seem to be a million miles from rational behaviour. Harford shows that, discomfitingly, we are not. It turns out that the unlikeliest of people are complying with the logic of economics and responding to future costs and benefits, often without realizing it; and socially tragic outcomes can have their roots in individually rational decisions. Brilliantly reasoned, always entertaining and often provocative, *The Logic of Life* is a book to help you understand yourself and the world around you.
