Imagine ... growing up in an unfinished geodesic dome home with no heat or running water, wearing the same clothes to school every day, and eating breakfast cereal with warm goat milk. In this whimsical, poetic, and gripping autobiographical account, Jennifer Asbenson describes her abusive, dysfunctional, and chaotic upbringing, her abduction and escape from a serial killer, her years in and out of mental hospitals, her decision to heal herself, and ultimately, her path to wholeness. Jennifer tells how, from her youngest years, she learned to retreat into her imagination to develop the ability to survive. *The Girl in the Treehouse* is a profoundly compelling story, told with humor, honesty, and without self-pity, of Jennifer's emergence from mental illness and despair to happiness, through the power of forgiveness and self-love.

The Fall of a Great American City is the story of what is happening today in New York City and in many other cities across America. It is about how the crisis of affluence is now driving out everything we love most about cities: small shops, decent restaurants, public space, street life, affordable apartments, responsive government, beauty, idiosyncrasy, each other. This is the story of how we came to lose so much—how the places we love most were turned over to land bankers, billionaires, the worst people in

the world, and criminal landlords—and how we can - and must - begin to take them back. Co-published with Harper's Magazine, where an earlier version of this essay was originally published in 2018. The landlords are killing the town. As New York City approaches the third decade of the twenty-first century, it is in imminent danger of becoming something it has never been before: unremarkable. By unremarkable I don't just mean periodic, slump-in-the-art-world, all-the-bands-suck, cinema-is-dead boring. I mean flatlining. No longer a significant cultural entity but a blank white screen of mere existence. I mean The-World's-Largest-Gated-Community-with-a-few-cupcake-shops. For the first-time in our history, creative-young-people-will-no-longer want-to-come-here boring. Even, New-York-is-over boring. Or worse, New York is like everywhere else. Unremarkable. This is not some new phenomenon, but a cancer that's been metastasizing on the city for decades now. Even worse, it's not something that anyone wants, except the landlords, and not even all of them. What's happening to New York now—what's already happened to most of Manhattan, its core, and what is happening in every American city of means, Boston, Washington, San Francisco, Seattle, you name it—is something that almost nobody wants, but everybody gets. As such, the current urban crisis exemplifies our wider crisis: an America where we believe that we no longer have any ability to control the systems we live under. show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. Outliers will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

A stunning new volume from the first Native American Poet Laureate of the United States, informed by her tribal history and connection to the land. In the early 1800s, the Mvskoke people were forcibly removed from their original lands east of the Mississippi to Indian Territory, which is now part of Oklahoma. Two hundred years later, Joy Harjo returns to her family's lands and opens a dialogue

with history. In *An American Sunrise*, Harjo finds blessings in the abundance of her homeland and confronts the site where her people, and other indigenous families, essentially disappeared. From her memory of her mother's death, to her beginnings in the native rights movement, to the fresh road with her beloved, Harjo's personal life intertwines with tribal histories to create a space for renewed beginnings. Her poems sing of beauty and survival, illuminating a spirituality that connects her to her ancestors and thrums with the quiet anger of living in the ruins of injustice. A descendent of storytellers and "one of our finest—and most complicated—poets" (*Los Angeles Review of Books*), Joy Harjo continues her legacy with this latest powerful collection.

Gary Larson writes: Our story begins with a family of worms who are having dinner one fine evening and Son Worm is unhappy. Unhappy because he's found a hair in his plate of dirt. It's the proverbial straw and it leads him to bemoan his fate as a worm - he's sick and tired of being a worm, tired of being at the bottom of the food chain. His father, upset by his outburst, decides to tell him the tale of a fair human maiden called Harriet. Even with the wonder of satellite television, Harriet loved the Great Outdoors and took many wondrous walks along her favourite woodland trail, adventures filled with mystery and magic. Unfortunately, although Harriet was fair and kindhearted (to a very dangerous degree) she was also, well, dumb. She didn't quite understand what she was seeing, didn't realise that in Nature, what you see is not necessarily what you get ...
