From the millionaire entrepreneur and New York Times bestselling author of The 10X Rule comes a bold and contrarian wake-up call for anyone truly ready for success. One of the 7 best motivational books of 2016, according to Inc. Magazine. Before Grant Cardone built five successful companies (and counting), became a multimillionaire, and wrote bestselling books... he was broke, jobless, and drug-addicted. Grant had grown up with big dreams, but friends and family told him to be more reasonable and less demanding. If he played by the rules, they said, he could enjoy everyone else's version of middle class success. But when he tried it their way, he hit rock bottom. Then he tried the opposite approach. He said NO to the haters and naysayers and said YES to his burning, outrageous, animal obsession. He reclaimed his obsession with wanting to be a business rock star, a super salesman, a huge philanthropist. He wanted to live in a mansion and even own an airplane. Obsession made all of his wildest dreams come true. And it can help you achieve massive success too. As Grant says, we're in the middle of an epidemic of average. The conventional wisdom is to seek balance and take it easy. But that has really just given us an excuse to be unexceptional. If you want real success, you have to know how to harness your obsession to rocket to the top. This book will give you the inspiration and tools to break out of your cocoon of mediocrity and achieve your craziest dreams. Grant will teach you how to: - Set crazy goals--and reach them, every single day. - Feed the beast: when you value money and spend it on the right things, you get more of it. - Shut down the doubters--and use your haters as fuel. Whether you're a sales person, small business owner, or 9-to-5 working stiff, your path to happiness runs through your obsessions. It's a simple choice: be obsessed or be average.

THE INSTANT #1 NATIONAL BESTSELLER From the #1 New York Times bestselling authors of Extreme Ownership comes a new and revolutionary approach to help leaders recognize and attain the leadership balance crucial to victory. With their first book, Extreme Ownership (published in October 2015), Jocko Willink and Leif Babin set a new standard for leadership, challenging readers to become better leaders, better followers, and better people, in both their professional and personal lives. Now, in THE DICHOTOMY OF LEADERSHIP, Jocko and Leif dive even deeper into the uncharted and complex waters of a concept first introduced in Extreme Ownership: finding balance between the opposing forces that pull every leader in different directions. Here, Willink and Babin get granular into the nuances that every successful leader must navigate. Mastering the Dichotomy of Leadership requires understanding when to lead and when to follow; when to aggressively maneuver and when to pause and let things develop; when to detach and let the team run and when to dive into the details and micromanage. In addition, every leader must:

- Take Extreme Ownership of everything that impacts their mission, yet utilize Decentralize Command by giving ownership to their team.
- Care deeply about their people and their individual success and livelihoods, yet look out for the good of the overall team and above all accomplish the strategic mission.
- Exhibit the most important quality in a leader—humility, but also be willing to speak up and push back against questionable decisions that could hurt the team and the mission.

With examples from the authors' combat and training experiences in the SEAL teams, and then a demonstration of how each lesson applies to the business world, Willink and Babin clearly explain THE DICHOTOMY OF LEADERSHIP—skills that are mission-critical for any leader and any team to achieve their ultimate goal: VICTORY.

Overview and Analysis of Jocko Willink and Leif Babin's Extreme Ownership by Summary Genie. Extreme Ownership is the bestselling book by former Navy SEALs Jocko Willnik and Leif Babin who take the lessons they learned from one of the toughest military campaigns of U.S. history and apply them to the world of business. They believe that their experience in Ramadi, Iraq, battling extreme insurgents in incredibly hostile conditions gave them an understanding of leadership that can help businesses thrive. Their main principle is a notion of extreme ownership, which means taking responsibility for everything that happens, and never placing the blame on anyone else. With that fundamental principle, they then expand to other issues of leadership, including teamwork, planning and prioritization. Using their dramatic experiences in the field as a premise, they then speak of their work as consultants and show how the lessons of war can be applied to the world of business. In the book, the authors tell us that leaders are responsible for everything under their care. In war, that is a pressing issue. This means that if there is a defective production in the warehouse, dissenting employees, a culture of mistrust or any failure in the supply chain, ultimately it is the leader's fault. The title reveals the general message of the book: Exceptional commitment. Using anecdotes of his time at the head of the SEAL Three team Task Force Bruiser, Jocko and Leif, highlight the responsibility of leadership and the development of the character necessary to lead a well-equipped team. Each chapter begins with a personal military example from his time in Iraq. From these personal stories, his principles of leadership, and their application to business is presented. Again, and again success and failure are placed on the shoulders of the leader, not in the others. There is no space or scapegoats. A leader is called to take responsibility. Both Jocko and Leif emphasize the importance of a leader taking the blame for mistakes, not blaming subordinates, but allowing subordinates to receive praise for positive results. The authors focus on simplification to avoid confusion, make decisions and prioritize fluidly to execute effectively. It's important to be disciplined in all areas of life, although adaptable to changes on the fly. The lessons learned in the battle, when implemented in the business world, improve leadership, and create urgency and success in businesses. They translate scenarios of life and death in combat to tactics of success and failure in the boardroom. Exceptional commitment is the ability of a leader to take ultimate responsibility, knowing that there is no one else to blame. Belief in mission and perseverance will bring victory. That belief and passion must be clearly communicated with action plans, and the vision must be contagious, in order for leaders to succeed. **THE BIG**

IDEAS OVERVIEW The exceptional commitment is divided into 3 parts and 12 chapters, each chapter highlights a new principal and provides an application to the business world. **PART I: WIN THE WAR WITHIN** 1. Spanning a century, Pushing Cool reveals how the twin deceptions of health and Black affinity for menthol were crafted—and how the industry's disturbingly powerful narrative has endured to this day. Police put Eric Garner in a fatal chokehold for selling cigarettes on a New York City street corner. George Floyd was killed by police outside a store in Minneapolis known as "the best place to buy menthols." Black smokers overwhelmingly prefer menthol brands such as Kool, Salem, and Newport. All of this is no coincidence. The disproportionate Black deaths and cries of "I can't breathe" that ring out in our era—because of police violence, COVID-19, or menthol smoking—are intimately connected to a post-1960s history of race and exploitation. In Pushing Cool, Keith Wailoo tells the intricate and poignant story of menthol cigarettes for the first time. He pulls back the curtain to reveal the hidden persuaders who shaped menthol buying habits and racial markets across America: the world of tobacco marketers, consultants, psychologists, and social scientists, as well as Black lawmakers and civic groups including the NAACP. Today most Black smokers buy menthols, and calls to prohibit their circulation hinge on a history of the industry's targeted racial marketing. In 2009, when Congress banned flavored cigarettes as criminal enticements to encourage youth smoking, menthol cigarettes were also slated to be banned. Through a detailed study of internal tobacco industry documents, Wailoo exposes why they weren't and how they remain so popular with Black smokers.

Summary of Extreme Ownership: How U.S. Navy Seals Lead and Win by Jocko Willink and Leif Babin - Book Summary - Stella Penn In the book, "Extreme Ownership", Jocko Willink states that a group is only as good as their leader. A true leader cannot lead alone, rather, they require a group behind them that is focused on the goal. Also, a leader can only be considered a good leader when their team reaches their goals on a regular basis.
