A fun, farm-themed book packed with puzzles, quizzes, and, of course, lots and lots of stickers! This colourful children's activity book contains more than 250 stickers. The stickers are reusable and easy-to-peel - perfect for little fingers to add to pages again and again! Kids will love this journey around the farm, meeting the animals who live there, finding out where they live, and discovering what grows on the farm. Fascinating facts accompany simple, fun activities such as follow-the-trail, matching the animals to their babies, and a farm-themed quiz. Children are challenged to find the correct stickers to fill in the blanks in the images, and are encouraged to be creative and create their own scene out of stickers. From turkeys to tractors, and pigs to potatoes, this fun book features all the best bits of the farm!

A guided tour through the universe--and beyond! From the sun's super-hot core to the many moons of Neptune, we're traveling to the far reaches of our solar system and beyond!

Astronomer Dean Regas presents *Facts from Space!*--an exciting education on everything outside our atmosphere. Inside, you'll discover space facts and celestial trivia, including: A day on Venus is longer than its year. Early space missions ejected human waste into space, where it froze into intricate crystals that still float in space today. After being in space, some astronauts returned to Earth up to 2 inches taller than when they left. The stars in the Big Dipper are shifting among themselves and will look like a "Big Spatula" by the year 75,000. And more! Packed with fascinating information, it's a stellar read for sci-fi fans and at-home astronomers alike!

Armed with cheap digital technologies and a fiercely independent spirit, millions of young people from around the world have taken cultural production into their own hands, crafting their own clothing lines, launching their own record labels, and forging a vast, collaborative network of impassioned amateurs more interested in making than consuming. *DIY Style* tells the story of this international do-it-yourself (DIY) movement through a major case study of one of its biggest, but least known contingents: the "indie" music and fashion scene of the predominantly Muslim Southeast Asian island nation of Indonesia. Through rich ethnographic detail, in-depth historical analysis, and cutting-edge social theory, the book chronicles the rise of DIY culture in Indonesia, and also explores the phenomenon in Europe and the United States, painting an evocative portrait of vibrant communities who are not only making and distributing popular culture on their own terms, but working to tear down the barriers between production and consumption, third and first world, global and local. What emerges from the book is a cautiously optimistic view of the future of global capitalism - a creative, collectivist alternative built from the ground up. This exciting and original study is essential reading for students and
