What is it like to live a deliberate negotiated power dynamic -- a dominant/submissive, master/slave, or owner/property relationship -- as part of one's spiritual path? This book is an anthology of real people who follow that barely charted road in a variety of different faiths and spiritualities. These writings go beyond the simple matter of ethics and move into the realm of relationship as transcendent discipline. Edited by Raven Kaldera, *Sacred Power, Holy Surrender* takes us into a world where power can be uncorrupted and surrender can be a way to freedom.

This book brings a critique to the theology of the ordained ministry in contemporary Catholicism, a theology that fosters clericalism. It challenges a theology that views the ordained as "set apart" for a particular work over and against the laity. This book brings critique to current practices, including lifelong commitment to the ordained ministry, the requirement of celibacy for the ordained, and the exclusion of women from the ordained ministry. The author examines history, reclaiming elements that have been distorted or forgotten, and asks, "What is retrievable in the tradition that is freeing and redeeming for a renewed theology?" The critique of the traditional theology and current practices in the ordained ministry and the retrieval of relevant elements of the tradition is a springboard for reconstructing a theology of the ordained ministry. The model of the Trinity is suggested as an image for the ordained ministry itself and through its relational nature, the ministry of the whole church. The model of the Trinity sets the ordained ministry in its rightful context of the Christian community, where all of the gifts of the baptized are valued and where ministry is collaborative, non-hierarchical, and mutually enriching for the people of God.

The contents of this message upon prayer should be read alike by preacher and teacher, evangelist and intercessor. Its pages contain an appeal to every "worker together with Christ," and stimulate the desire for prayer in the varied relationships of Christian life. The appeal deserves a wide circulation amongst members of Prayer Circles and Prayer Unions, and, indeed, amongst all who are looking for a revival of true religion in our land, and an exodus of ambassadors for Christ to heathen and Moslem populations.

"In this new book, Ariel Glucklich argues that the experience of ritual pain, far from being a form of a madness or superstition, contains a hidden rationality and can bring about a profound transformation of the consciousness and identity of the spiritual seeker. Steering a course between purely cultural and purely biological explanation, Glucklich approaches sacred pain from the perspective of the practitioner to fully examine the psychological and spiritual effects of self-hurting. He discusses the scientific understanding of pain, drawing on research in fields such as neuropsychology and neurology. He also ranges over a broad spectrum of historical and cultural contexts, showing the many ways mystics, saints, pilgrims, mourners, shamans, taoists, Muslims, Hindus, Native Americans, and indeed members of virtually every religion have used pain to achieve a greater identification with God.

For more than two decades, internationally renowned pioneer in energy medicine Caroline Myss has been studying how people use their personal power. Through her special brand of spiritual insight and intuition, her popular workshops, and her bestselling books, Myss has helped hundreds of thousands of people meet the lifelong challenge of managing their spiritual energy and improving their lives. Now, in this inspiring new book, Myss expands her message about power in an entirely new spiritual direction. With characteristic originality, she explains how we become channels for divine grace and a conduit for miracles through kind, compassionate, generous actions, or, as she calls them, invisible acts of power. When we act compassionately, without a private agenda or expectation of credit or reward, God works invisibly, anonymously through us. And as we move from visible acts, such as giving a friend a helping hand, to invisible acts, such as prayer and healing, we undergo a profound journey of personal empowerment. The myriad simple but profound ways that people connect to create small miracles, gain a greater sense of spirituality, and transform their own -- and others' -- lives in an instant will inspire you to your own invisible acts of power...and attract them to you.

Success is measured not by the size of your brain, but rather by the size of your thinking. This intrigues a lot of people, and if you observe how people behave, you will have a clear understanding of what success really means. Time and time again, history and experience have proved that the degree of our general satisfaction and happiness is dependent on how we think. There is magic in thinking big! Positive thinking helps accomplish so much in our life, but unfortunately not everyone thinks that way. We are all products of our thinking that goes within and around us. There is an environment around us that exerts all sorts of forces on your thinking; some will push you up the ladder while others will pull you down. We have been told many times that opportunities to lead are no longer there; hence we should be content with who we are without having positive aspirations on leadership. The petty environment surrounding us also has its own narrative concerning our lives. It constantly tells us that whatever is destined will eventually happen and we have no control over it. Leaving your fate in the hands of chance can potentially ruin your life and make you miserable. Therefore, before you start giving up your dreams of a finer home or giving a better life for your children, stand firm and resist resigning to fate. Do not lie down and wait to die. Success is worth every effort you expend, and every step you make pays a dividend. Even in an environment where competition is intense, you still can succeed as long as your thinking is in the positive quadrant of your mind frame. The basic concepts and principles that underlie the power of thinking big are drawn from the highest-pedigree sources and the finest thinking minds such as Emerson who said "Great men are those who see that thoughts rule the world." Milton who wrote in his book Paradise Lost, "The mind is its own place and in itself can make a heaven of hell or a hell of heaven." Shakespeare made an interesting observation about thinking which he summarized and said "There is nothing either good or bad except that thinking makes it so." Proof is everywhere that thinking big indeed works. When you look at the lives of people who you consider as big thinkers, you will be amazed at their winning success, happiness and achievements. This book will show you proven strategies from different life situations that will turn your life around.

In this compelling sequel to Power Quest Book One: America's Obsession with the Paranormal, S. Douglas Woodward reveals the hidden history of Nazi infestation of American institutions after World War II. Beginning with the 1952 flying saucer flap over the nations capital and concluding with the CIA's clandestine mind control agenda of the 1950s-1970s, the reader is confronted with highly charged and seldom known facts. The story centers on America's erstwhile alliance with German fascism linked to the infamous personalities of Hitler's Nazi Party who escaped the war crimes trials at Nuremberg. In this second volume of Power Quest, The Ascendancy of Antichrist in America, Woodward brings to the reader the recently declassified proof our America has often shunned its most noble ideals. The author uncovers a vast record of unethical and deceptive Federal activities committed in Washington's darkened corridors of political power. Woodward condenses mountains of highly reliable research compiled by authoritative investigative journalists and insiders along with his own well-turned analysis, demonstrating that the political and spiritual evil of Nazism was often excused and encouraged by American officials as part of a blind quest to fight communism during the Cold War. Woodward makes no secret of his evangelical perspective. But Power Quest: The Ascendancy of Antichrist in America is not a selective proof texting of biblical assertions or a diatribe against liberal political views. His account is a factual his-tory that most Americans have never heard. For conservative Christian readers, Woodward speaks prophetically - challenging the cherished assumption held by political conservatives that America traditionally takes the moral high ground. And he poses an alternative view to the typical eschatological position, asking "Could America be the seat of power for a literal personage the Bible calls Antichrist?"

Amsden Ironwrought is a master blacksmith living in a remote village in Ancient Egypt. Ethan Samuels is an ordinary, fourteen year-old boy living in modern-day Chicago. Though two thousand years separate their intertwined timelines, the two of them have

more in common than they would expect. Ethan has spent the last fourteen years of his life moving from city to city with his mother, but after finally laying roots in Chicago, his life seems to have settled down. In a snowy alleyway, an unexpected mugging plunges Ethan into the magical world of the Bloodline and whisks him away to Aschwood Academy, a school for the magically gifted. There, he befriends a quirky mix of loyal friends and finds himself in the midst of a plot by the Blood Host to steal one of the most powerful relics in the world. Amsden's tale centers upon the creation of those very relics nearly two thousand years ago. A group of ambitious foreigners have discovered an unknown material near his homeland that grants them near god-like powers, and the men conquer and mercilessly rule the land fueled by the talismans they had Amsden create. Enraged by the stories of brutality and chaos, he decides to use the powers he has secretly acquired and bring the fight to them. Aschwood Academy: The Bloodline is the debut children's, fantasy novel by M. B. Cohen and is the first book in the Aschwood Academy series.

In 2008, the Musée des Beaux-Arts de Lyon acquired a painting called The Flight into Egypt which was attributed to the French artist Nicolas Poussin. Thought to have been painted in 1657, the painting had gone missing for more than three centuries. Several versions were rediscovered in the 1980s and one was passed from hand to hand, from a family who had no idea of its value to gallery owners and eventually to the museum. A painting that had been sold as a decorative object in 1986 for around 12,000 euros was acquired two decades later by the Musée des Beaux-Arts de Lyon for 17 million euros. What does this remarkable story tell us about the nature of art and the way that it is valued? How is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece, that a decorative object could become a national treasure? This is a story permeated by social magic the social alchemy that transforms lead into gold, the ordinary into the extraordinary, the profane into the sacred. Focusing on this extraordinary case, Bernard Lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece. Like a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly-prized painting commanding a record-breaking price. He thereby shows that a painting is never just a painting, and is always more than a piece of stretched canvass to which brush strokes of paint have been applied: this object, and the value we attach to it, is also the product of a complex array of social processes – with its distinctive institutions and experts – that lies behind it. And through the history of this painting, Lahire uncovers some of the fundamental structures of our social world. For the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies, in economics and politics as much as art and religion, a magic that results from the spell cast by power on those who tacitly recognize its authority. By following the trail of a single work of art, Lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art.
