.. We [have] come to have a delimited and skewed view on debt and its economy ... In this book, I argue, a more holistic social ethics of debt is established by reintegrating these two essential elements of debt: logic and story. From the perspective of a more holistic ethics of debt, neoliberal concept of debt is problematic because by neglecting the story aspect of debt, it has enervated the moral ethos of debt rendering it as a matter of mere contract and mechanical calculation"--Introduction.

Fire in My Soul pays tribute to the life and legacy of Dr. Seyoon Kim, who has taught as Professor of New Testament at Fuller Theological Seminary for almost two decades and is known internationally for his work on the origin of Paul's gospel. This collection of essays in his honor revisits classic issues in Pauline studies and offers fresh insights on Paul's use of righteousness language in his letters, the occasion and purpose of Romans, the problem of universal sinfulness, and justification by faith. It also presents several exegetical studies on the use of the Old Testament in the gospels. Scholars, students, and pastors interested in Pauline soteriology and gospel hermeneutics will find this

From their theological and devotional writings to their social and ecclesial practices, the fathers and mothers of Pietism boldly declared the ethical spirit of the Christian faith. This seventeenth-century renewal movement inspired a simple Christian ethic by connecting Christian character with the theological virtues of faith, hope, and love. They sought to cultivate these virtues by reading Scripture together, empowering the common priesthood of believers, and engaging in social and ecclesial reform toward the end of spreading the gospel.

Pietism brought together faith and life, Word and deed, and piety and social reform in effort to get back to the basic belief in the power of God's Word to engender faith and to transform human life. This book celebrates Pietism's contribution by telling the stories of three early figures--Philipp Jakob Spener, Johanna Eleonora Petersen, and August Hermann Francke--as they attended to issues of class, gender, poverty, and education through the lens of scripture. In addition to clarifying what historians call one of the least understood movements in the history of Christianity, this book challenges a religious culture that juxtaposes faith and social action, and it rehabilitates the Pietist heritage and its central role in the birth of Evangelicalism.

Vocal Technique: A Guide for Conductors, Teachers,

and Singers is the first book to connect the disciplines of vocal pedagogy, vocal science, and choral technique. It fills a need for accurate, well-researched, and easy-to-read information on how to teach and learn singing in both solo and choral contexts. This concise yet comprehensive guidebook offers numerous, practical voice-building and problem-solving suggestions and exercises, as well as clear photographs and elegant illustrations. The authors thoroughly address important topics such as breathing, onset, resonance, vowel modification, vibrato, register transitions, range extension, intonation, changing voices (both adolescent and aging), and vocal health. They integrate the perspectives of renowned artists, choral professionals, vocal pedagogues, and the latest in vocal science. This is a must-have for conductors, voice teachers, and music educators, and will benefit solo and choral singers of all ages and abilities.

This volume represents an important contribution to Peirce's work in mathematics and formal logic. An internationally recognized group of scholars explores and extends understandings of Peirce's most advanced work. The stimulating depth and originality of Peirce's thought and the continuing relevance of his ideas are brought out by this major book.

Is it time to launch that new academic program? Here is the 'art' and 'science' of answering that question. Never has it been so critical for academic leaders to adopt an entrepreneurial mindset. Traditional financial management approaches such as resource prioritization and/or cutting one's way to sustainability are no longer sufficient long-term solutions. Successful academic leaders are outward-

looking and have developed a discipline around driving entrepreneurial growth in ways that live and further leverage the mission. We need provosts, deans, and other academic leaders who are creative, willing to take intelligent risks, and ready to seek answers to questions like: "How can we do this differently?" "What do we do really well that might be leveraged in new and unique ways?" "What market opportunities exist that we are uniquely equipped to meet?" During her time as provost, Melissa Morriss-Olson has helped Bay Path University launch more than 20 successful new graduate programs over the past decade. In this comprehensive guide, Morriss-Olson will walk you through how to build and sustain entrepreneurial growth in your academic enterprise. Written by over 200 leading experts from over seventy countries, this handbook provides a comprehensive, state-of-the-art overview of the latest theory and research on volunteering, civic participation and nonprofit membership associations. The first handbook on the subject to be truly multinational and interdisciplinary in its authorship, it represents a major milestone for the discipline. Each chapter follows a rigorous theoretical structure examining definitions, historical background, key analytical issues, usable knowledge, and future trends and required research. The nine parts of the handbook cover the historical and conceptual background of the discipline; special types of volunteering; the major activity areas of volunteering and associations; influences on volunteering and association participation; the internal structures of associations; the internal processes of associations; the external environments

of associations; the scope and impacts of volunteering and associations; and conclusions and future prospects. This handbook provides an essential reference work for third-sector research and practice, including a valuable glossary of terms defining over eighty key concepts. Sponsored by the International Council of Voluntarism, Civil Society, and Social Economy Researcher Associations (ICSERA; www.icsera.org), it will appeal to scholars, policymakers and practitioners, and helps to define the emergent academic discipline of voluntaristics.

Set on September 12, 2001, *The Mercy Seat* continues Neil LaBute's unflinching fascination with the often-brutal realities of the war between the sexes. In a time of national tragedy, the world changes overnight. A man and a woman explore the choices now available to them in an existence different from the one they had lived just the day before. Can one be opportunistic in a time of universal selflessness?

The American church avoids lament but lament is a missing, essential component of Christian faith. Soong-Chan Rah's prophetic exposition of the book of Lamentations provides a biblical and theological lens for examining the church's relationship with a suffering world. Hear the prophet's lament as the necessary corrective for Christianity's future.

Principles of Fundraising: Theory and Practice provides readers with an overview of the theory and practice of fundraising for nonprofit organizations. It approaches fundraising from a marketing position, yet incorporates concepts from the law, economics, accounting, history, sociology, psychology, theology, and ethics. While many fundraising textbooks are heavily geared toward practice, this textbook balances the approach and provides a basis for further study in the field of fundraising.

The Duly Diligent Stock Investor is a practical, step-by-step guide to investing in stocks as if you were buying a business

that you intend to own for a very long time. Long-term investing in fine companies is not the only way to make money but it happens to be the way very rich and famous investor Warren Buffett has made his billions. But how do you know if a company is worthy of your investment? How do you know if becoming a part-owner will help you achieve your financial goals? How do you know you're not putting your money into a company headed for failure? Isn't Wall Street your enemy, just waiting to pick your pocket of all your hard-earned savings? The Duly Diligent Stock Investor gives you the answers and takes the mystery out of investing in stocks. Some books you buy to read. A book like this you buy to use. Granted, there are hundreds of books on the market that address every aspect of investing imaginable, many claiming to be the sure way or the fast way to riches, but The Duly Diligent Stock Investor is different. It's an easy-to-read, easy-to-understand book that walks you through a process called due diligence, leading you to a solid understanding of a company before you invest in it. The author used this process during a 25-year career financing private companies and has successfully refined it over 15 years of personally investing in public companies. He wrote this book so that if you have a \$2.99 calculator and access to the internet you can do exactly what he does before he buys stock in a company. You may have been led to believe that only financial advisors and mutual fund managers have the special skills necessary to evaluate a business. You may have heard that it's just too hard for an individual to make his or her own investment decisions. Are you discouraged by those claims or do they challenge you to prove them wrong? Yes, there's some work to being a Duly Diligent Stock Investor, but it's not hard work. Certainly not as hard as completing a New York Times crossword puzzle. By following the steps outlined in this book, you will feel confident in your ability to invest in some of

America's finest companies, even if you have never thought of yourself as sophisticated in financial matters.

Sound theological method is a necessary prerequisite for good theological work. This accessible introduction surveys contemporary theological methodology by presenting leading thinkers of the 20th and 21st centuries as models. The book presents the strengths and weaknesses in each of the major options. Rather than favoring one specific position, it helps students of theology think critically so they can understand and develop their own theological method.

In the effort towards sustainability, it has become increasingly important to develop conceptual frames to understand the dynamics of social and ecological systems. Drawing on complex systems theory, this book investigates how human societies deal with change in linked social-ecological systems, and build capacity to adapt to change. The concept of resilience is central in this context. Resilient social-ecological systems have the potential to sustain development by responding to and shaping change in a manner that does not lead to loss of future options. Resilient systems also provide capacity for renewal and innovation in the face of rapid transformation and crisis. The term navigating in the title is meant to capture this dynamic process. Case studies and examples from several geographic areas, cultures and resource types are included, merging forefront research from natural sciences, social sciences and the humanities into a common framework for new insights on sustainability.

Now with a new afterword from the author. administration, from the president's change of position on gay marriage and the transformation of religious freedom into a partisan idea, to the administration's failure to find common ground on abortion and the bitter controversy over who would give the benediction at the 2012 inauguration. The book is also a passionate call for faith in the public square, particularly for Christians to see politics as a means of loving one's neighbor and of pursuing justice for all. Engrossing, illuminating, and at time provocative, *Reclaiming Hope* changes the way we think about the relationship of politics and faith. "A pre-Trump book with serious questions for our politics in the age of Trump...More necessary than ever before." -- Sojourners "Should be read by Democrats and Republicans, liberals and conservatives, and all who are concerned by the state of our politics." --Kirsten Powers, USA Today columnist and CNN political analyst "Reclaiming Hope will certainly give you a fresh perspective on politics--but, more importantly, it may also give you a fresh perspective on faith."--Andy Stanley, senior pastor of North Point Ministries "An important and extremely timely book...Get it, read it, and talk to others about it." --Timothy Keller, author of *Reason for God* "An important contribution in this age of religious and political polarization." --J.D. Vance, author of *Hillbilly Elegy* "A lifeline for these times." --Ann Voskamp, author of *One Thousand Gifts* and *The Broken Way* "We can hope, and this book can help us." --Russell Moore, president of the Ethics & Religious Liberty Commission of the Southern Baptist Convention

Incorporating children in worship is a powerful and overlooked mark of God's kingdom. This book argues that children's full participation in worship signifies not only a vibrant, faithful communion but also offers a critical window into the Spirit's work of linking the church to Christ. Children have a vocation in worship. They embody the theological virtues in distinct ways that enrich the worship of the whole church. Moreover, incorporating children reflects the difference in unity that is God's triune life. Receiving children in their difference moves the worshipping body toward the telos of worship--glorification of God and sanctification of humanity--and habituates the worshipping body to incorporate other, often more threatening, kinds of difference.

The 14 new essays in this collection, from under-represented faculty who teach at predominantly white colleges and universities, discuss both the tenure and promotion experiences of faculty of color and are not racial, ethnic, gender, cultural or discipline specific. The book is thus not only for aspiring graduate students of color and faculty of color desirous of outside mentoring but also for administrators interested in the professional development and dilemmas of faculty of color. Faculty of color describes how they navigated the complex terrain of higher education to achieve tenure or promotion. Most of the contributors are at the associate professor stage of their careers and some hold the rank of full professor.

What does it mean to provide justice for undocumented workers who have been living among us without proper legal documentation? How can we do justice to the undocumented

Get Free Faculty Staff Directory North Park University

migrants who have been doing the low-skilled, low-paid jobs unwanted by citizens? Why should we even try to do justice for people who violate the laws of the society? Religious Ethics and Migration: Doing Justice to Undocumented Workers addresses these questions from a distinctive religious ethical perspective: the Christian theology of forgiveness and radical hospitality. In answering these questions, the author employs in-depth interdisciplinary dialogues with other relevant disciplines such as immigration history, global economics, political science, legal philosophy, and social theory. He argues that the political appropriation of a Christian theology of forgiveness and the radical hospitality modeled after it are the most practical and justifiable solutions to the current immigration crisis in North America. Critical and interdisciplinary in its approach, this book offers a unique, comprehensive, and balanced perspective regarding the urgent immigration crisis.

What is the "way of the LORD" in the book of Isaiah? Many scholars have adopted Walter Zimmerli's proposal that the "way" in Second Isaiah is a literal and physical highway extending from Babylon to Jerusalem only to be reinterpreted as a spiritual, metaphorical, and pious way of living in Third Isaiah. This book will properly define each mention of the "way" in Isaiah as well as provide a coherent interpretation of this theme's theological significance within the book. The way of the LORD is initially conceived of in the 1st half of the book as a highway leading to Zion common to both the dispersed Israelites as well as the nations. In Isaiah, Chs 34-35 provide a paradigm of what this way will entail and its theological significance.

While preparing the way for the Lord, John the Baptist declares, "Produce fruit in keeping with repentance." Many have failed to do this, in part, because repentance has become diluted. Rather than truly turning away from sin--back

to God--we often equate repentance with a mere oral confession. This domesticated, unbiblical understanding of repentance bears no fruit and lacks the power to transform broken people, relationships, systems, and structures. Our lack of repentance conforms us to the patterns of this world, keeping us content amid sinful inequities, complicit with systemic injustice, and apathetic in oppressive context. Privilege is largely a social consequence of our unwillingness to reckon with and turn from sin. Scripture repeatedly affirms that privilege is real and declares that, rather than exploiting it for selfish gain or feeling immobilized by it, Christians have an opportunity to steward privilege and a responsibility to leverage it to further the kingdom and sacrificially love our neighbors. In *Subversive Witness*, Dominique DuBois Gilliard will highlight biblical examples of privileged people who understood this kingdom call. Their faithful witness serves as a practical model for our modern context. This book will cast a new vision for faithful participation in the inbreaking kingdom as co-laborers with Christ. It will lead the church to grapple with privilege, indifference, and systemic sin in new ways, through canonically elevating these issues. Dominique uses Scripture to elucidate how privilege emerges from sin, is sustained by our hardened hearts, and keeps us complicit with oppression. He demonstrates that Christians can wield privilege as an instrument to pursue justice and further the Kingdom, instead of denying its existence, or feeling incapacitated by it. Dominique illustrates how the faithful witness of biblical leaders continue to shape modern believers who have picked up the baton as drum majors for justice, embodying Scripture's subversive call to leverage, and at times forsake, privilege to sacrificially love our neighbors, enact systemic change, and advance the kingdom of God. Examines the educational programs American Indians

developed to preserve their cultural and ethnic identity, improve their livelihood, and serve the needs of their youth in Chicago. After World War II, American Indians began relocating to urban areas in large numbers, in search of employment. Partly influenced by the Bureau of Indian Affairs, this migration from rural reservations to metropolitan centers presented both challenges and opportunities. This history examines the educational programs American Indians developed in Chicago and gives particular attention to how the American Indian community chose its own distinct path within and outside of the larger American Indian self-determination movement. In what John J. Laukaitis terms community self-determination, American Indians in Chicago demonstrated considerable agency as they developed their own programs and worked within already existent institutions. The community-based initiatives included youth programs at the American Indian Center and St. Augustine's Center for American Indians, the Native American Committee's Adult Learning Center, Little Big Horn High School, O-Wai-Ya-Wa Elementary School, Native American Educational Services College, and the Institute for Native American Development at Truman College. *Community Self-Determination* presents the first major examination of these initiatives and programs and provides an understanding of how education functioned as a form of activism for Chicago's American Indian community. "John Laukaitis has produced an important book on the role of education in the Chicago American Indian community. His meticulous research in a wide array of manuscript collections and extensive oral interviews clearly convey to readers that he knows the city, knows the places, and knows the people." — Daniel M. Strange Trades blends performances of language, verbal play, and narrative fragmentation with more conventional lyric approaches. A fifth chapter addresses the program of Saint-Riquier: the physical arrangement of the monastery that featured three churches, the largest a basilica dedicated to S. Richarius, and the Holy Savior (known for its early westwork). The number three and trinitarian symbolism was ubiquitous throughout the complex, including the building proportions. The work summarizes what is known of the interior arrangement of the basilica and the other churches, their decoration, and liturgical processions and activities.

How our colleges and universities can respond to the changing hopes and needs of society In recent decades, cognitive psychologists have cast new light on human development and given colleges new possibilities for helping students acquire skills and qualities that will enhance their lives and increase their contributions to

Get Free Faculty Staff Directory North Park University

society. In this landmark book, Derek Bok explores how colleges can reap the benefits of these discoveries and create a more robust undergraduate curriculum for the twenty-first century. Prior to this century, most psychologists thought that creativity, empathy, resilience, conscientiousness, and most personality traits were largely fixed by early childhood. What researchers have now discovered is that virtually all of these qualities continue to change through early adulthood and often well beyond. Such findings suggest that educators may be able to do much more than was previously thought possible to teach students to develop these important characteristics and thereby enable them to flourish in later life. How prepared are educators to cultivate these qualities of mind and behavior? What do they need to learn to capitalize on the possibilities? Will college faculties embrace these opportunities and make the necessary changes in their curricula and teaching methods? What can be done to hasten the process of innovation and application? In providing answers to these questions, Bok identifies the hurdles to institutional change, proposes sensible reforms, and demonstrates how our colleges can help students lead more successful, productive, and meaningful lives.

This collection of essays analyzes global depictions of the devil from theological, Biblical, and literary perspectives, spanning the late Middle Ages to the 21st century. The chapters explore demonic representations in the literary works of Johann Wolfgang von Goethe, Fyodor Dostoyevsky, Dante Alighieri, Charles Baudelaire, John Milton, H.P. This volume includes the full proceedings from the 2016 Academy of Marketing Science (AMS) Annual Conference held in Orlando, Florida, entitled Creating Marketing Magic and Innovative Future Marketing Trends. The marketing environment continues to be dynamic. As a result, researchers need to adapt to the ever-changing scene. Several macro-level factors continue to play influential roles in changing consumer lifestyles and business practices. Key factors among these include the increasing use of technology and automation, while juxtaposed by nostalgia and “back to the roots” marketing trends. At the same time, though, as marketing scholars, we are able to access emerging technology with greater ease, to undertake more rigorous research practices. The papers presented in this volume aim to address these issues by providing the most current research from various areas of marketing research, such as consumer behavior, marketing strategy, marketing theory, services marketing, advertising, branding, and many more. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its services to members and the community at large, the Academy offers conferences, congresses, and symposia that attract delegates from around the world. Presentations from

these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights, complementing the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science.

Reinvention chronicles an unprecedentedly comprehensive approach to community college reform and the leadership challenges encountered along the way. As chancellor of the City Colleges of Chicago, Cheryl L. Hyman implemented an ambitious program of systemwide reform called Reinvention. The program's impressive achievements included doubled graduation rates, improved transfer rates, and streamlined connections between college and careers. Informed by leading research on effective community college programs, Reinvention emphasized a shift in focus from access to outcomes, putting the priority on student success. Hyman offers a wake-up call for community college leaders and those concerned with student success, arguing that a significant cultural and operational shift will be required for community colleges to fulfill this mission. The story of Reinvention--its failures as well as its nascent successes--offers an inspiration and a roadmap for those seeking to make change in higher education. "Hyman's fascinating book forces us to contemplate the possible speed of college change. What emerges are valuable lessons, deeply rooted in the author's fierce determination to promote social mobility. It's a must-read for anyone seeking to understand the essential relationships among college leadership, campus culture, and the critical goal of dramatically improving community college student success." --Joshua Wyner, founder and executive director, Aspen Institute College Excellence Program "Cheryl
