Covering Oil Svetlana Tsalik, Anya Schiffrin, 2005 The Revenue Watch program and the Initiative for Policy Dialogue promote transparency and civic participation in natural resource policymaking. Journalists know how hard it is to report on government management of oil, gas, and other natural resource revenues. Governments and industry are seldom forthcoming. And reporters themselves usually lack the background in economics, engineering, geology, and corporate finance helpful to understanding the energy industry and the effects of resource wealth. This book attempts to redress the balance with practical information in easy to understand language. Chapters include Understanding the Resource Curse, A Primer on Oil, Oil Companies and the International Oil Market, the ABCs of Petroleum Contracts, and the Environmental, Social, and Human Rights Impacts of Oil Development. Tip sheets inform reporters about stories to pursue and questions to ask.

Making Microfinance Work Craig Churchill, Cheryl Frankiewicz, 2012-01 Microfinance has long been recognized as having significant potential to create jobs and reduce poverty. But to meet the twin challenges of growth and sustainability, managers of microfinance institutions (MFIs) must not only understand essential management functions: they must also be armed with innovative ideas and strategies to succeed in today's increasingly competitive environment. This book provides a valuable overview of the key management principles necessary to optimize the services of MFIs. Volume 1 examines the markets and marketing of MFIs and captures the different ways that managers can communicate the value of their products and services. It offers strategies to prevent risk from occurring and, if it does occur, explains how to rectify the situation. Practical techniques for allocating costs and determining prices are also highlighted, as well as the importance of plans, budgets and reports. Volume 2 includes chapters on various product options, including savings, insurance, leasing, money transfers, and even grants and nonfinancial services. It also explores how to combine different product menus to serve

specific market segments, such as the ultra-poor, youth, women, and small and medium enterprises. It provides specific suggestions to manage diversification, including adapting the institutional culture, redistributing responsibilities, empowering staff, communicating with clients, reengineering systems, and managing change.

*ASEAN Corporate Governance Scorecard* Asian Development Bank, 2014-06-01 Corporate governance principles provide guidance on how corporations should operate. Adoption of international corporate governance best practices leads to long-term sustainability and resilience, and can be a competitive tool to attract foreign investments. The Asian Development Bank, in partnership with the ASEAN Capital Markets Forum, have jointly developed the ASEAN Corporate Governance Scorecard, an assessment based on publicly available information and benchmarked against international best practices that encourage publicly listed companies to go beyond national legislative requirements. This report can be used by capital market regulators and other stakeholders as a reference to understand the current corporate governance standards across the region. It is also a useful diagnostic tool to guide improvement of corporate governance standards.

The Program Evaluation Standards Joint Committee on Standards for Educational Evaluation, James R. Sanders, 1994-04-06 The Program Evaluation Standards is a 'must-have' book for anyone responsible for reviewing evaluation proposals, planning and conducting evaluations, managing evaluation projects, or judging the merit and worth of evaluations once completed. For experienced practitioners, it provides a set of values and principles by which to guide successful practice, that is, a set of criteria that determines whether educational evaluations are trustworthy and fair. The Standards sets expectations of the design and implementation of educational evaluation for all practitioners in all types of educational arenas, even those involved in social programming endeavors. For newcomers and those less experienced who may be responsible for commissioning and using evaluations, the Standards supplies a useful framework of generating a list of

questions to raise about any evaluation plan or final report in an effort to assess its pros and cons. The book is an invaluable 'how-to' resource for graduate students venturing out into the field, and it instills a sense of what it means to be a responsible evaluator. For clients or consumers, the book offers advice on what they should expect of an evaluation--Publisher description.
