

Falcon Books For Polytechnic

A coolly glittering gem of detective fiction that has haunted three generations of readers, from one of the greatest mystery writers of all time. A treasure worth killing for. Sam Spade, a slightly shopworn private eye with his own solitary code of ethics. A perfumed grafter named Joel Cairo, a fat man name Gutman, and Brigid O'Shaughnessy, a beautiful and treacherous woman whose loyalties shift at the drop of a dime. These are the ingredients of Dashiell Hammett's iconic, influential, and beloved The Maltese Falcon.

THE MALTESE FALCON (1930) set the standard by which the private eye genre is judged. Sam Spade is hired by the fragrant Miss Wonderley to track down her sister, who has eloped with a louse called Floyd Thursby. But Miss Wonderley is in fact the beautiful and treacherous Brigid O'Shaughnessy, and when Spade's partner Miles Archer is shot while on Thursby's trail, Spade finds himself both hunter and hunted: can he track down the jewel-encrusted bird, a treasure worth killing for, before the Fat Man finds him?

Archery Metaphor and Ritual in Early Confucian Texts explores the significance of archery as ritual practice and image source in classical Confucian texts. Archery was one of the six traditional arts of China, the foremost military skill, a tool for education, and above all, an important custom of the rulers and aristocrats of the early dynasties. Rina Marie Camus analyzes passages inspired by archery in the texts of the Analects, Mencius, and Xunzi in relation to the shifting social and historical conditions of the late Zhou dynasty, the troubled times of early followers of the ruist master Confucius. Camus posits that archery imagery is recurrent and touches on fundamental themes of literature; ritual archers in the Analects, sharp shooters in Mencius, and the fashioning of exquisite bows and arrows in Xunzi represent the gentleman, pursuit of ren, and self-cultivation. Furthermore, Camus argues that not only is archery an important Confucian metaphor, it also proves the cognitive value of literary metaphors—more than linguistic ornamentation, metaphoric utterances have features and resonances that disclose their speakers' saliencies of thought.

This book is an outgrowth of the author's teaching experience of a course on Introduction to Chemical Engineering to the first-year chemical engineering students of the Indian Institute of Technology Madras. The book serves to introduce the students to the role of a chemical engineer in society. In addition to the classical industries, the role of chemical engineers in several esoteric areas such as semiconductor processing and biomedical engineering is discussed. Besides highlighting the principles and processes of chemical engineering, the book shows how chemical engineering concepts from the basic sciences and economics are used to seek solutions to engineering problems. The book is rich in examples of innovative solutions found to problems faced in chemical industry. It includes a wide spectrum of topics, selected from the industrial interactions of the author. It encourages the student to see the similarities in the concepts which govern

apparently dissimilar examples. It introduces various concepts, using both physical and mathematical bases, to facilitate the understanding of difficult processes such as the scale-up process. The book contains several case studies on safety, ethics and environmental issues in chemical process industries.

As an operative for Pinkerton's Detective Agency Dashiell Hammett knew about sleuthing from the inside, but his career was cut short by the ruin of his health in World War I. These three celebrated novels are therefore the products of a hard real life, not a literary education. Despite "or because of" that, Hammett had an enormous effect on mainstream writers between the wars. Like his readers, they were attracted by the combination of laconic style, sharp convincing dialogue, vivid settings and, above all, the low-life, hard-boiled characters who populate the streets of his stories. Taking detective fiction out of the drawing-room, Hammett gave murder back to the kind of people that commit it, as Raymond Chandler said. In so doing, he left his mark on modern fiction.

Monthly magazine devoted to topics of general scientific interest.

Twenty long-unavailable stories by Dashiell Hammett, the author of *The Maltese Falcon* and the incomparable master of detective fiction. In the title story, a man on a bender enters a small town and ends up unraveling the dark mystery at its heart. A woman confronts the brutal truth about her husband in the chilling story "Ruffian's Wife." "His Brother's Keeper" is a half-wit boxer's eulogy to the brother who betrayed him. "The Second-Story Angel" recounts one of the most novel cons ever devised. In seven stories, the tough and taciturn Continental Op takes on a motley collection of the deceitful, the duped, and the dead, and once again shows his uncanny ability to get at the truth. In three stories, Sam Spade confronts the darkness in the human soul while rolling his own cigarettes. And the first study for *The Thin Man* sends John Guild on a murder investigation in which almost every witness may be lying. In *Nightmare Town*, Dashiell Hammett, America's poet laureate of the dispossessed, shows us a world where people confront a multitude of evils. Whether they are trying to right wrongs or just trying to survive, all of them are rendered with Hammett's signature gifts for sharp-edged characters and blunt dialogue. Hammett said that his ambition was to elevate mystery fiction to the level of art. This collection of masterful stories clearly illustrates Hammett's success, and shows the remarkable range and variety of the fiction he produced.
