Almost all junior barristers in civil practice are likely to encounter family law work in their first years of practice. This manual therefore provides a detailed introduction to the key areas of the substantive family law of which the junior practitioner should have a good working knowledge. Key aspects of family law covered include domestic violence, occupation of the family home, care proceedings, ancillary relief and orders under s8 Children Act 1989. In recognition of the increasing desire to avoid costly and lengthy adversarial proceedings, the manual also includes a dedicated chapter focusing specifically on the role of mediation as a tool to resolving family law disputes. It also provides invaluable practical advice on how to prepare for different types of hearings, what factors to consider in relation to negotiation, how to make persuasive submissions, and how to handle witnesses effectively, ensuring that the junior practitioner is fully prepared for his or her first steps in the family courts.

There are a number of important (landmark) cases in the development of Family Law in England and Wales that deserve detailed examination and lend themselves particularly well to historical examination. Family law cases tend to raise highly controversial issues, often on striking facts, frequently provoking wider social debate and/or extensive publicity. Consequently, the landmark cases chosen for this collection provide considerable scope, not only for doctrinal analysis and explanation of the importance and impact of

the decisions, but also for in-depth examination of the social or policy developments that influenced them. The stories behind the cases provide a fascinating insight into the complexities of family life and the drama that can be found in the family courts. In recent years, Family Law has seen enormous changes in law's engagement with the notion of 'family', with the enactment, for example, of the Civil Partnership Act 2004, the Gender Recognition Act 2004 and, more recently, the Human Fertilisation and Embryology Act 2008. As we begin to move forward into the new millennium, this is an excellent time to engage in detailed analyses and 'stock-taking' of the landmark decisions, many of which were decided in the 1970s, and which have shaped modern Family Law. This book provides a series of in-depth studies of the key leading cases, and will be of interest to students and lecturers alike.
