In Paris's exclusive Saint-Germain neighborhood is a mansion. In that mansion lives a family. Deep in that mansion. The Bolts are that family, and they have secrets. The Safe House tells their story. When the Nazis came, Étienne Boltanski divorced his wife and walked out the front door, never to be seen again during the war. So far as the outside world knew, the Jewish doctor had fled. The truth was that he had sneaked back to hide in a secret crawl space at the heart of the house. There he lived for the duration of the war. With the Liberation, Étienne finally emerged, but he and his family were changed forever—anxious, reclusive, yet proudly eccentric. Their lives were spent, amid Bohemian disarray and lingering wartime fears, in the mansion's recesses or packed comically into the protective cocoon of a Fiat. That house (and its vehicular appendage) are at the heart of Christophe Boltanski's ingeniously structured, lightly fictionalized account of his grandparents and their extended family. The novel unfolds room by room—each chapter opening with a floorplan—introducing us to the characters who occupy each room, including the narrator's grandmother—a woman of “savage appetites”—and his uncle Christian, whose haunted artworks would one day make him famous. “The house was a palace,” Boltanski writes, “and they lived like hobos.” Rejecting convention as they'd rejected the outside world, the family never celebrated birthdays, or even marked the passage of time, living instead in permanent stasis, ever more closely bonded to the house itself. The Safe House was a literary sensation when published in France in 2015 and won the Prix de Prix, France's most prestigious book prize. With hints of Oulipian playfulness and an atmosphere of dark humor, The Safe House is an unforgettable portrait of a self-imprisoned family.

Indispensable to any owner of a Fiat Barchetta, this booklet will allow you to follow the repair and maintenance of your car! On a hundred pages, you will be able to note all the hours spent restoring your Barchetta, register all the parts that you have changed or repaired and note your observations. At the end of the notebook, a page is reserved to write down your addresses of garages, craftsmen or spare parts sellers.

In deciding which models to choose for inclusion in this book selected from Fiat's huge inventory, the author concentrated on three criteria - greatness, size and emotion. Where size is an easy parameter to qualify, greatness is more complicated because it is a combination of both the manufacturer's and the public's opinion. A car that is highly regarded by the public may not have been a commercial success and vice versa. A truly great car is one that works well for both parties. Emotion may be considered to be an element of greatness in that the public's 'love' for a car is a fantastic benefit for a manufacturer and must be treasured. Fiat have made the mistake of 'improving' an icon on several occasions only to find that public opinion went against them. Fortunately Fiat has been magnanimous enough to respond by giving the car buying public more of what it wants. As long as they continue to do so then Fiat's reputation as the world's greatest small car manufacturer is set to continue. The author chose the Topolino as the starting point as the car fulfils all the criteria and it was the first Fiat built in the late 1930s to satisfy the Italian public's new-found desire for mobilisation. The old conventions of car production were turned upside down with the arrival of the 600 which revolutionised car production techniques and maximised on passenger space and performance at minimal cost. These principals continued via a succession of models which include the 500, 850, 126, 127 through to more recent models like the Cinquecento and Seicento. Running in parallel with these 'cheeky' Fiats, this book covers a range of slightly larger cars that were built in huge numbers. Though rather staid in appearance, the 1950s Millecento was family transport for millions of Italians covering three decades, four when the Indian-built cars are included. Similarly the 128, Panda and Uno were 'the' Italian small cars of the '70s, '80s and '90s. Nuova Panda carries the banner to the present day.

Excerpt: Connection Timeout Mini (styled as MINI) is a British automotive marque owned by BMW which specialises in small cars. Mini originated as a specific vehicle, a small car originally known as the Morris Mini-Minor and the Austin Seven, launched by the British Motor Corporation in 1959, and developed into a brand encompassing a range of small cars, including the Clubman, Traveller and Moke. The original two-door Mini continued in production until 2000. Development of a successor began in 1995 and the new generation car was launched in 2001. The Mini range has since expanded from the core two-door Hardtop/Hatch to include the Clubman (estate), Convertible and Countryman (crossover). The Mini brand originally belonged to British Motor Corporation, which in 1966 became part of British Motor Holdings. British Motor Holdings merged with Leyland Motors in 1968 to form British Leyland. In the 1980s British Leyland was broken-up and in 1988 Rover Group, including Mini, was acquired by British Aerospace. In 1994 Rover Group was acquired by BMW. In 2000 Rover Group was broken-up by BMW, with BMW retaining the Mini brand. The...

A volume devoted to Giugiaro and Italdesign could hardly not be included in the Masterpieces of style series. Giugiaro is one of the most prestigious names in the history of automotive design, synonymous with iconic cars such as the Alfa Romeo Giulia Sprint GT and Alfetta, the Volkswagen Golf, the Audi 80, the Fiat Panda, Uno and Punto, the Lancia Delta, Thema and Prisma and the Maserati Bora, Ghibli and Merak, to mention but a few of the most successful designs to carry the Giugiaro name. Born in 1938 at Garessio in the province of Turin, Giugiaro honed his professional skills at Bertone and then at Ghia before setting up on his own when founding Giugiaro Italdesign in 1968. Today the firm is as active as ever and has been responsible for concept cars such as the Caimano, the Iguana and the Canguro, all based on Alfa Romeo mechanicals, and the Asso di Picche and the Quadri on respectively Audi and BMW chassis. This monograph covers this long technical and stylistic history, drawing on a clear, comprehensive text and hundreds of photographs, many of which previously unpublished. The series, includes books on Zagato (2017) Touring (2017), Pininfarina (2018) and, to be published soon, Bertone, Vignale and Ghia.
