Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got *The Yugo: The Rise and Fall of the Worst Car in History*. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.

During its extraordinarily long 40-year production run, the Mini was offered in hundreds of variants. First there were the standard Austin Seven and Morris Mini-Minor saloon, van, pick-up and estate versions. Then came a whole family of Mini-Coopers, the upmarket Wolseley and Riley models, the Moke and the Clubman. Later, in the 1980s and '90s, there were no less than 41 UK Limited Editions, with exotic names like Ritz and Tahiti, and 56 International Special Editions for specific export markets, for example the Mr Bean for Japan and the Cooper Silver Bullet for Germany. Minis were also built in many countries, from Italy to Australia and Uruguay, with their own modifications. And there were the distinctive and expensive coach built Minis, beloved of film and pop stars, from firms like Wood & Pickett, Bertone, Radford, Tickford and others, including the fearsome ERA Mini Turbo. Absolutely all of these Minis are covered in this book, with photographs, descriptions, specifications, performance figures, and production dates and numbers. Whether you want to look up or identify a particular Mini or simply absorb the enormous range and variety of the Mini's incarnations, this, never attempted before, is the book.
