Charles Cumming, lauded internationally as the successor to John le Carré, returns with his biggest, most ambitious thriller to date. Beginning in 1997, just as the British are about to re - turn Hong Kong to Chinese rule, Joe Lennox, a young operative for SIS (MI6), loses both his girlfriend and his first high profile asset—a prominent defector who disappears from a safe house. The girlfriend he lost to Miles Coolidge, a hard-bitten CIA agent; the asset to collusion between his bosses and the CIA. Over ten years later, during the run-up to the Beijing Olympics, Lennox is back in China, facing his old nemeses. With the CIA plotting to use an Islamic group to destabilize China, the SIS seeking to thwart them and his old asset the key to all of this, Joe Lennox, Miles Coolidge, and the girlfriend they shared are all hopelessly intertwined in a plot where trust is impossible and truth is unknowable. PLUS SPECIAL BONUS CONTENT: FIRST CHAPTER "SNEAK PEEK" OF CHARLES CUMMING'S THE TRINITY SIX. The most closely-guarded secret of the Cold War is about to be exposed – the identity of a SIXTH member of the infamous Cambridge spy ring. And people are killing for it... London, 1992. Late one night, Edward Crane, 76, is declared dead at a London hospital. An obituary describes him only as a 'resourceful career diplomat'. But Crane was much more than that – and the circumstances surrounding his death are far from what they seem. Fifteen years later, academic Sam Gaddis needs money. When a journalist friend asks for his help researching a possible sixth member of the notorious Trinity spy ring, Gaddis knows that she's onto a story that could turn his fortunes around. But within hours the journalist is dead, apparently from a heart attack. Taking over her investigation, Gaddis trails a man who claims to know the truth about Edward Crane. Europe still echoes with decades of deadly disinformation on both sides of the Iron Curtain. And as Gaddis follows a series of leads across the continent, he approaches a shocking revelation – one which will rock the foundations of politics from London to Moscow... "Cumming's novel is characterized by a gripping sense of realism. He displays a vast knowledge of spycraft and Cold War history, and

the dense, three-dimensional world he crafts comes complete with seedy hotels and smoky nightclubs. The result is absolutely gripping. Taut, atmospheric and immersive—an instant classic." – Kirkus Reviews (starred review) on *The Trinity Six* *The Trinity Six* is a Kirkus Reviews Best of 2011 Thrillers title.

The essays in this collection explore conflict and continuity across the spectrum of political, legal, and spiritual traditions from late medieval Umbria and Tuscany to sixteenth- and seventeenth-century Venice, Rome, and Castile. They point to a shared tradition of dispute and resolution in both ecclesiastical/spiritual and state/secular matters, whether of private conscience or public policy. Continuity of ideals, problems, and modes of resolution suggest that breaks in legal, political, or religious ideals and behavior were not as frequent or sharp as historians have argued. These continuities emerge from common methodological approaches grounded in close, careful reading of key texts and their polyvalent terms. Whether those were the terms of civil or canon law, spirituality, or astrology, each author has had to grapple with multiple possibilities, contexts, customs, and practices that reveal the shifts and continuities in their possible meanings. -- Amazon.com.

What is the scope for independent citizen action in media and cultural policy formation? How can audiences effectively voice critiques of media content? In a market-centred and consumer-oriented media world, what is the potential for monitoring, lobbying and advocacy? This book argues that there is a role for local action to defend and promote diversity in the content, images, symbols and values that people use in making sense of their lives. It focuses on media portrayals of gender - whose critique has been fundamental to the modern international women's movement. Now, research and activism have been brought together in the form of gender media monitoring - systematic data collection aimed at policy critique and practical change. The book brings together research findings and monitoring experiences from both North and South to demonstrate how women's groups have developed effective media monitoring models.

Für den Autokäufer entscheidet häufig schon der erste Blick auf ein Fahrzeug, ob er sich dafür oder dagegen entscheidet. Ausschlaggebend ist in diesem Fall die Formensprache, die sich über das Automobildesign vermittelt. Automobildesign und Technik beschreibt die Abhängigkeiten zwischen Formgebung und technischer Machbarkeit. Ohne ein vom Kunden akzeptiertes Außen- und Innendesign lässt sich ein Automobil schlecht verkaufen. Autoren sind die erfolgreichen Automobildesigner und die -techniker der großen Autoproduzenten. Sie zeigen die Lösungen zwischen technischen Zwängen, wie Aerodynamik, Produktion, Gesetzes- und Kundenanforderungen. Damit steht erstmals ein Werk zur Verfügung, das gleichzeitig die Welt des Designs und die Welt der Technik näher bringt.

This book is an authentic historical document, supported by extensive analytical information, in which former Fiat top manager Giorgio Garuzzo passionately recounts his experience within Fiat between 1976 and 1996. It is a narrative from the inside that sheds new light on events that have remained cloaked in mystery: the arrival and departure of Carlo De Benedetti, the “march of the forty thousand”, the sacking of Vittorio Ghidella, the clashes between Umberto Agnelli and Cesare Romiti, the Group’s involvement in the “clean hands” scandal, the role of Gianni Agnelli and his relationships with his brother and Cesare Romiti and the intervention of Mediobanca. Garuzzo discusses the issues connected with the range of cars and marques, touching on major themes of national or international relevance that were unrelated to Fiat but nonetheless conditioned its activities: terrorism and the unmanageability of the factories, inflation, the devaluation of the lira, the role of the trade unions and the General Confederation of Italian Industry, Japanese competition and European integration.
