For teachers, this reference book:• is an invaluable teaching tool presented in a clear, user-friendly format• allows you to teach English in context by using whatever is relevant and of interest to your students• saves you preparation time• can be used alongside any other classroom text. Sections include:• Language • Literature• Analysing texts• Visual analysis• The writing process• Public speaking (oral communication). In addition there are self-tests on each major section.

The impact of early retirement plans and career change on the professional and personal lives of professors and on the manpower and fiscal structures of the universities they serve is examined. The book is based on more than 50 accounts of academics who took early retirement options and a comprehensive review of incentive programs for early retirement, along with mid-career change programs. Chapter 1 explains why colleges and universities are interested in mid-career change and early retirement programs, and outlines the various options now available. Career options in industry, government, and academia are analyzed in chapter 2. Chapter 3 offers an analysis of the experiences of 70 of the first 100 or so persons who were induced to retire early, covering such topics as motivation, satisfaction with the decision, and ways that early retirement affected their well-being. Chapter 4 discusses the fiscal considerations involved in early retirement plans. Chapter 5 examines the manpower questions, including such questions as how incentive early-retirement plans will affect the age distribution of university and college faculties and whether early-retirement and mid-career change will modify age and talent distribution. Chapter 6 contains a discussion of the funding requirements and tax implications of increased-benefit retirement programs and an analysis of the legal aspects of age discrimination. The final chapter sketches the policy implications of mid-career change and early retirement, presents summary evaluation of the early-retirement schemes, and outlines a number of considerations for colleges, universities, and faculty members contemplating these options. In the final chapter several policy considerations are discussed, including: developing a mechanism for faculty review and evaluation; providing retirement and financial counseling; dissemination information about the options; and recognizing potential contributions from Emeriti. Appendices include a guide to administrator interviews and a guide to early retiree interviews. (Author/LC) Includes publications received in terms of Copyright Act no. 9 of 1916.

Karoliena Kapp is a child of the forest, born into a community of woodcutters. She is given the advantage of a good education, but it serves only to heighten her growing realisation that, because of the harsh injustices of poverty, there is little hope for the woodcutters. The day after her marriage to Johannes, himself of woodcutter stock, she realises that she has made the wrong choice. She may have escaped from the poverty of the forest, but she has exchanged her freedom for a cage. Alone and afraid, she leaves her husband and takes the road back to the forest.

Here is the story of Mary and the Girls, of Zoot, Pretty-Boy and Oubaas, of the Abrahams family who came from Bo-Kaap, of Last-Knight the barber and his prim wife. This novel is written in tribute to the people of District Six so that we do not forget. Provides information on stylistic aspects of research papers, theses, and dissertations, including sections on writing fundamentals, MLA documentation style, and copyright law

Saul Barnard is a man with a self-imposed mission - to halt the wanton destruction of the Knysna Forest, home of wild elephants and the fiercely independent families of woodcutters. For years he has protected the forest from intruders, and has developed a mystical kinship with the spirit of Old Foot, the majestic and indomitable bull elephant. When word goes round that Old Foot is on the rampage, Saul is propelled towards a terrible confrontation that will change his future for ever.

? J. Andersen Niels Bohr Institute for Astronomy Physics and Geophysics Astronomical Observatory Copenhagen ja@astro.ku.dk The development of astronomy worldwide begins at the roots: Already from childhood, humans of all nations and civilizations seem to share an innate fascination with the sky. Yet, people in different regions of the world have vastly different possibilities for pursuing this interest. In wealthy, industrialised societies the way is open to a school or higher education in science, possibly leading to a career in astronomy or basic or applied space science for the benefit of the country as well as the individual. In other regions, neither the financial nor the trained human resources are sufficient to offer that avenue to the future of the young generation, or those intellectual resources to the development of their country. This book addresses ways and means by which these obstacles can be, if not fully overcome, then at least significantly reduced.

A thought-provoking, speculative look at the world's cultural future addresses the issue of whether or not human society will progress ethically as it progressed technologically. Reprint. UP.

A series of Workbooks offering practical English lessons for school students preparing for work.

This series features classic Shakespeare retold with graphic color illustrations. Educators using the Dale-Chall vocabulary system adapted each title. Each 64-page, book retains key phrases and quotations from the original play. Research shows that the more students read, the better their vocabulary, their ability to read, and their knowledge of the world. Containing 11 reproducible exercise to maximize vocabulary development and comprehension skills, these guides include pre-and post-reading activities, story synopses, key vocabulary, and answer key. The guides are digital, you simply print the activities you need for each lesson.

Fiela's Child Penguin Random House South Africa

Seasoned classroom veterans, pre-tenured faculty, and neophyte teaching assistants alike will find this book invaluable. HHMI Professor Jo Handelsman and her colleagues at the Wisconsin Program for Scientific Teaching (WPST) have distilled key findings from education, learning, and cognitive psychology and translated them into six chapters of digestible research points and practical classroom examples. The recommendations have been tried and tested in the National Academies Summer Institute on Undergraduate Education in Biology and through the WPST. Scientific Teaching is not a prescription for better teaching. Rather, it encourages the reader to approach teaching in a way that captures the spirit and rigor of scientific research and to contribute to transforming how students learn science.

"Common Core Achieve: Mastering Essential Test Readiness Skills is designed to help you learn or strengthen the skills you need when you take your high school equivalency

test."--Page v.

This book summarizes the current knowledge and experiences on the use of soil testing and plant analysis as a diagnostic tool for assessing nutritional requirements of crops, efficient fertilizer use, saline-sodic conditions, and toxicity of metals. Discussions on analytical instrumentation used in soil testing, plant analysis, and data processing are included.

Over 21 million copies sold worldwide

The search for a means to an end to apartheid erupts into conflict between a black township youth and his "old-fashioned" black teacher.

A generation gap has emerged between parents and their girls. The mothers and fathers of tomorrow's women have little idea what their daughters are up to sexually or how they feel about it. Drawing on in-depth interviews with more than seventy young women and a wide range of psychologists, academics, and experts, renowned journalist Peggy Orenstein goes where most others fear to tread, pulling back the curtain on the hidden truths, hard lessons, and important possibilities of girls' sex lives in the modern world.

A riveting and powerful story of an unforgiving time, an unlikely friendship and an indestructible love

Dreams are the currency of Okri's writing, particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*

Sarah Lotz, internationally acclaimed author of *The Three*, and *Day Four*, describes *The Mark* as: "An entrancing, truly original novel packed with twists you won't see coming and a heroine that breaks the mould. Unputdownable." In the future, the world has flipped. Ravaged by the Conflagration, the State of Mangeria is a harsh place where the sun beats down, people's lives are run by a heartless elite and law is brutally enforced. A mark at the base of the spine controls each person's destiny. The Machine decides what work you will do and who your life partner will be. Juliet Seven - "Ettie" - will soon turn 15 and her life as a drudge will begin, her fate-mate mate will be chosen. Like everyone else, her future is marked by the numbers on her spine. But Ettie decides to challenge her destiny. And in so doing, she fulfills the prophecy that was spoken of before she even existed.

A child wanders too far into the Knysna Forest ... he never returns. Nine years later government officials working on a census find a white child living with a Coloured family in the mountains beyond the forest. They take him away from the stricken Fiela, who has brought him up as her son, and give him back to his 'original' family. Stunned and helpless, Benjamin waits for Fiela to reclaim him. But, powerless against authority, Fiela never comes. Benjamin has to grow up before he can go in search of the truth ...

A hard-hitting, and emotional story set in South Africa, following Themba and his dreams of becoming a famous footballer. Themba grows up dreaming of becoming a football star. One day he leaves the village and travels with his sister to the city in

search of their mother. Life is a struggle and Themba has to grow up fast. A lucky break gives him the chance to train as a footballer and play professionally – but Themba has a secret – should he tell the truth about his HIV and risk everything he’s ever dreamed of? ~ Themba won an IBBY award - Best Book for Young People. Karin Chubb was Shortlisted for the Marsh Award for Children’s Literature in Translation for Themba, a unique award celebrating the high quality and diversity of translated fiction for young readers. The book was also made into an award-winning film. “Beautifully translated from the original ... it is a book full of hope and the more young people who read books like this and who come to understand how other young children live, the more this hope will spread.” Books, Teens and Magazines “Themba reminds me of my own childhood and youth in a township close to a small village in the Transvaal in South Africa: Like him I wanted to escape poverty, like him I had the hope that our world will be a just world one day – and like him I loved my mother who was working at the time as a maid for a white family. To be very honest: in soccer Themba seems to be simply better than I was.” Archbishop Desmond Tutu “READ OF THE MONTH” Pride magazine “...an inspirational coming of age drama about a young South African boy’s escape from poverty and the pursuit of a dream.” Splicing online “It’s a rags to riches story – a story of hope, of dreaming your dreams and achieving them, and it’s also a story of friendship...” The Sunday Independent “It’s a really engaging book, and because Aids is a serious issue, it made us want to carry on reading more about it.” Durning Library teenage reading group “Beautifully translated from the original and it is an easy and straightforward read. However, the storyline is tough – poverty, AIDS and death haunt the pages of the book. The reader learns about the hardship of life for many ordinary South Africans (even after Mandela came to power) and the struggle for those families who have a family member suffering from AIDS. The problems they face do not lie solely in a lack of medication and good nutrition; it also lies in the ignorance of their neighbours and friends and a refusal of many to acknowledge the illness and help the ill. However this is not a depressing book – it is a book full of hope and the more young people who read books like this and who come to understand how other young children live, the more this hope will spread.” Books, Teens and Magazines

Rendered frightened and penniless by her husband's mysterious violent death, Rosalie reluctantly taps her clairvoyant skills in order to support herself in post-apartheid South Africa, an endeavor during which she pursues answers. By the award-winning author of *Who Slashed Celanire's Throat?* Reprint. 25,000 first printing.

This is one a series of original stories designed for the 12 to 16 age-group. All the stories have a strong African flavour.
