Join 11-year-old Yuzu at her animal hospital and meet her new fluffy friends! In an engaging and cutely-drawn comic, watch Yuzu navigate issues like bullying, animal care, and understanding illness and deaths of pets and family. For an 11-year-old, Yuzu has a lot on her plate. When her mom gets sick and has to be hospitalized, Yuzu goes to live with her uncle who runs the local animal hospital. Yuzu's always been scared of animals, but she tries to help out. The resident Chihuahua is tiny and adorable, but acts up whenever Yuzu comes near. The fluffy cats that see her hiss. Yuzu just wants some peace and quiet, but what can she do?! Then an encounter with a boy and his dog turns fear into a desire to learn... And as Yuzu works hard to understand her fuzzy friends, they begin to feel comfortable around each other. Through all the tough moments in her life, from her mother's illness to bullying at school, Yuzu realizes that she can help make things all right with a little help from her animal pals, peers, and kind grown-ups. Every new patient is a furry friend in the making! Perfect for aspiring pet vets of all ages!

Someone's been setting animal traps in the nature preserve behind Brenna's house. She and her older brother, Sage, are furious - not only is that illegal, it's hurting and killing defenseless animals where they should be safe. They both want to do something, but Brenna's worried that Sage may have some really extreme plans in mind. Can she rein him in?

Jules and Josh are so excited when their parents hire ponies to attract customers to their sidewalk sale. But the Vet Volunteers notice that the ponies don't seem to be very healthy, and after an examination, they learn that the handler, Gus, has been mistreating them. Can the Vet Volunteers help the ponies get well and find a better life for them?

David is determined to learn to jump on horseback if it kills him. And sometimes he's afraid it might, like when Comet balks and won't go over the crossbar. Now that David's father is back in town, he's promised to teach David how to jump like a champion. But David can't let him know how scared he is. Because there's one thing that scares David more than falling off a horse, and that's disappointing his father. Can he overcome his fear, or even talk about it?

Sunita has always wanted a cat, but her parents are dead set against it. Then she finds a group of strays living in the wild, and knows she can domesticate them—even though she's been told that these are feral cats, who see humans as their enemies. First, she convinces Dr. Mac to examine the cats, fix them, and give them shots. Then she wants to re-release the cats, now healthy, into the neighborhood. The problem is, the neighbors consider the cats dangerous pests. Will Sunita's plan backfire?

The star of *The Incredible Dr. Pol* shares his amusing, and often poignant, tales from his four decades as a vet in rural Michigan. Dr. Jan Pol is not your typical veterinarian. Born and raised the Netherlands on a dairy farm, he is the star of Nat Geo Wild's hit show *The Incredible Dr. Pol* and has been treating animals in rural Michigan since the 1970s. Dr. Pol's more than 20,000 patients have ranged from white mice to 2600-pound horses and everything in between. From the time he was twelve years old and helped deliver a litter of piglets on his family's farm to the incredible moments captured on his hit TV show, Dr. Pol has amassed a wealth of stories of what it's like caring for this menagerie of animals. He shares his own story of growing up surrounded by animals, training to be a vet in the Netherlands, and moving to Michigan to open his first practice in a pre fab house. He has established himself as an empathetic yet no-nonsense vet who isn't afraid to make the difficult decisions in order to do what's

best for his patients—and their hard-working owners. A sick pet can bring heartache, but a sick cow or horse could threaten the very livelihood of a farmer whose modest profits are dependent on healthy livestock. Reminiscent of the classic books of James Herriot, *Never Turn Your Back on an Angus Cow* is a charming, fascinating, and funny memoir that will delight animal lovers everywhere.

From the front lines of modern medicine, *Tell Me Where It Hurts* is a fascinating insider portrait of a veterinarian, his furry patients, and the blend of old-fashioned instincts and cutting-edge technology that defines pet care in the twenty-first century. For anyone who's ever wondered what goes on behind the scenes at your veterinarian's office, *Tell Me Where It Hurts* offers a vicarious journey through twenty-four intimate, eye-opening, heartrending hours at the premier Angell Animal Medical Center in Boston. You'll learn about the amazing progress of modern animal medicine, where organ transplants, joint replacements, and state-of-the-art cancer treatments have become more and more common. With these technological advances come controversies and complexities that Dr. Trout thoughtfully explores, such as how long (and at what cost) treatments should be given, how the Internet has changed pet care, and the rise in cosmetic surgery. You'll also be inspired by the heartwarming stories of struggle and survival filling these pages. With a wry and winning tone, Dr. Trout offers up hilarious and delightful anecdotes about cuddly (or not-so-cuddly) pets and their variously zany, desperate, and demanding owners. In total, *Tell Me Where It Hurts* offers a fascinating portrait of the comedy and drama, complexities and rewards involved with loving and healing animals. Part ER, part Dog Whisperer, and part House, this heartfelt and candid book shows that while the technology has changed since James Herriot's day, the humanity and compassion remains unchanged. If you've

ever had a pet or special place in your heart for furry friends, Dr. Trout's irresistible book is for you.

Honest and heart-warming account of the highs and lows of life as a vet, by lovable TV star Rory Cowlam. Rory Cowlam, otherwise known as Rory the Vet, has had a passion for animals for as long as he can remember. As a young boy, growing up in the countryside, he fell in love with the creatures that could be found both at home and in the neighbouring farms and fields. There was never any doubt in his mind as to what he wanted to do when he grew up. Now Rory's dreams of becoming a vet are a reality. He works in a busy London practice where his honest and emotional relationships with the animals and their owners have made him the relatable and approachable face of veterinary work. But, as Rory describes here with a mixture of his trademark openness and humour, what he couldn't have known as a small boy with his heart set on becoming the next James Herriot, was what becoming a vet really entails. In an era when doctors and nurses are talking more openly about the realities of saving human lives, Rory shows what a vital service vets offer in caring for the animals that often form the very heart of the household. He describes the demanding experience of veterinary school, and offers a very human take on what it's like to treat animals, and the little talked about mental health implications that this pressured life or death industry holds. This is a frank and heart-warming account of chasing a childhood dream and learning to love the reality. A riveting, incisive, and wide-ranging book about the Right to Die movement, and the doctors, patients, and activists at the heart of this increasingly urgent issue. More states and countries are passing right-to-die laws that allow the sick and suffering to end their lives at pre-planned moments, with the help of physicians. But even where these laws exist, they leave many people behind. The Inevitable moves beyond

Read Book Fight For Life 1 Vet Volunteers

margins of the law to the people who are meticulously planning their final hours—far from medical offices, legislative chambers, hospital ethics committees, and polite conversation. It also shines a light on the people who help them: loved ones and, sometimes, clandestine groups on the Internet that together form the “euthanasia underground.” Katie Engelhart, a veteran journalist, focuses on six people representing different aspects of the right to die debate. Two are doctors: a California physician who runs a boutique assisted death clinic and has written more lethal prescriptions than anyone else in the U.S.; an Australian named Philip Nitschke who lost his medical license for teaching people how to end their lives painlessly and peacefully at “DIY Death” workshops. The other four chapters belong to people who said they wanted to die because they were suffering unbearably—of old age, chronic illness, dementia, and mental anguish—and saw suicide as their only option. Spanning North America, Europe, and Australia, *The Inevitable* offers a deeply reported and fearless look at a morally tangled subject. It introduces readers to ordinary people who are fighting to find dignity and authenticity in the final hours of their lives.

Are veterinarians real doctors? Turns out the answer is yes. *What's a Real Doctor?* fills the perceived chasm between a Doctor of Veterinary Medicine and a human Medical Doctor at an early age. Tristan, Cooper, and Clara have a thoughtful discussion to compare both careers from a child's perspective. Their discussion, without a doubt, leaves everyone a little more confident and a little more informed on what veterinarians actually do that makes them a real doctor. *What makes your heart break for our broken world?* You want to make a difference in the world. You're concerned about all the problems you see, the injustices and the suffering. But you don't know where to begin. Designed for the aspiring

activist or world-changer, this book is the key to get you started. Live Action founder Lila Rose says transformation begins with heartbreak—with seeing the injustices around you and allowing that suffering to light a fire in your soul. In this book, she shares raw and intimate stories from both her personal journey and pro-life activism that will inspire you to become a champion for your own cause. Along the way, you'll discover how to determine where the need for your gifts is the greatest and begin making a difference; overcome insecurities and imposter syndrome and become a leader through practice; find inner courage and confidence in the face of obstacles and criticism; and bounce back from mistakes to continually grow and make a long-lasting impact. The fight for a world that is more just, more beautiful, and more loving needs all of us. In allowing yourself to be wounded by the brokenness of our world, you'll find the passion you need to make a difference—and draw closer to the One who truly saves.

The Most Up-to-Date, Comprehensive and Fun Guide to Becoming a Vet - Over 100 pages This fact-pact and enlightening book covers everything kids need to know about becoming a vet. It also gives a realistic view of what daily life is like as a vet - the challenges and triumphs. My name is Susanna Lee and recently my daughter Monica, who has a passion for animals, asked me to help her find information on becoming a vet. Surprisingly, I couldn't find a book that contains up-to-date information and gives a real insight into what it takes to become a vet. Most importantly, I wanted my daughter to be able to decide for herself if veterinary medicine was truly the career for her based on getting the most rounded picture possible - the good, the bad and everything in between. So being a journalist and writer for over 20 years, I took up the challenge to create that missing book! In *How to Become a Veterinarian*, I share the latest

The Searing Portrayal Of War That Has Stunned And Galvanized Generations Of Readers An immediate bestseller upon its original publication in 1939, Dalton Trumbo's stark, profoundly troubling masterpiece about the horrors of World War I brilliantly crystallized the uncompromising brutality of war and became the most influential protest novel of the Vietnam era. Johnny Got His Gun is an undisputed classic of antiwar literature that's as timely as ever. "A terrifying book, of an extraordinary emotional intensity."--The Washington Post "Powerful. . . an eye-opener." --Michael Moore "Mr. Trumbo sets this story down almost without pause or punctuation and with a fury amounting to eloquence."--The New York Times "A book that can never be forgotten by anyone who reads it."--Saturday Review

Overseas, Mack Bolan was dubbed “Sgt. Mercy” for the compassion he showed the innocent. On the home front, they’re calling him the Executioner for what he’s doing to the guilty. In the jungles of Southeast Asia, American sniper Mack Bolan honed his skills. After twelve years, with ninety-five confirmed hits, he returns home to Massachusetts. But it’s not to reunite with his family, it’s to bury them—victims in a mass murder/suicide. Even though Bolan’s own father pulled the trigger, he knows the old man was no killer. He was driven to madness by Mafia thugs who have turned his idyllic hometown into a new kind of war zone. Duty calls . . .

Introducing an action hero “who would make Jack Reacher think twice,” this is the first book in the iconic series of vigilante justice that has become a publishing phenomenon (Empireonline.com). With more than two hundred million Executioner books sold since its debut, the series continues to stimulate. Gerry Conway, cocreator of Marvel Comics’ The Punisher, credits the Executioner as “my inspiration . . . that’s what gave me the idea for the lone, slightly psychotic avenger.” The series is also now in development as a major motion picture. War Against the Mafia is the 1st book in the Executioner series, but you may enjoy reading the series in any order.

Scout is a love of a German shepherd and really wants to do his job, but Maggie can tell that Mr. Carlson's still having a hard time. Maybe she can help. . . .

Maggie's grandmother runs an animal clinic, Dr. Mac's Place, so Maggie knows her way around animals who are in danger. When she learns that the abused and sick puppies flooding the clinic are from an illegal puppy mill, she knows that she has to find out who's running it, where it is—and save the rest of the dogs!

Wild at Heart, an exciting and informative fiction series from American Girl, shares the stories of five very different young people, all of whom have a passion for pets. Brenna, Zoe, David, Magie, and Sunita are volunteer workers at a veterinary clinic called Wild at Heart. Their experiences at the clinic tug at their hearts, test their beliefs, and, sometimes, put their lives in danger. Along the way, they witness the routines and challenges of veterinarians and learn how to care for cats, dogs, birds, horses, and even wild animals. They also share the challenges of their preteen years--school, parents, friends, and responsibility and compassion that grows as they do.

Sunita Patel is book smart and good with cats. When a hurricane approaches, Sunita realizes that Lucy, a diabetic cat with a broken leg, is in danger, along with her owner, Mrs. Clark. When the vets are called out on emergency, the evacuation starts. Will Sunita be able to save Lucy or will she be a scaredy-cat?
