When the zombie apocalypse hits the quiet Asheville, NC subdivision of Whispering Pines, the residents don't turn to the police or the military. Nope. They rely on their iron-fisted Home Owners Association! Which Jace Stanford and his family aren't too keen on. Undead hordes are hard enough to deal with in a post-apocalyptic hellscape, who needs HOA fines too? Filled with blood, gore, plenty of bad jokes, cannibals, dreaded HOA covenants, and a whole lot of snark, Z-Burbia is guaranteed to thrill and entertain! Welcome to life in Z-Burbia! Reviews- "The first novel in Jake Bible's series Z-Burbia hooked me. What appeared to be a jokey take on zombie fiction quickly develops some great characters and story." -BoingBoing.net "For those still not convinced about the zombie genre, Z-Burbia is worth a read if only for its female characters: Jake Bible doesn't have time for vapid whimpering damsels in distress. Oh no. Bible's characters are thinking, acting, feisty sorts." -Lee Murray, Bram Stoker Award-winning novelist "5.0 out of 5 stars 100% Zombie - and more. Quick, strong, gory, exciting, explosive, non-stop action. The opening part of the book does warn there will be gore, which if you are reading a zombie apocalypse book should not be a shock. Mr. Bible delivers all these. BUT he also delivers believable characters with different reasons for doing what they do. A developing political structure rising out of the ashes of civilization - from the Home-Owners Association tyrant to the constant battle between urban-and-rural. Big battles and little battles - zombies being weaponized, and parents raising kids in the Z-hellscape to be responsible adults. The layers take this book to the next level." -Erin Penn, Vine Voice, amazon.com "I love my zombies and this series is by far my favorite. The main character is just amazingly done, cause I agree that we all need a laugh in the zombie apocalypse." -UglyCasanova, 5-star Goodreads review Other books by Jake Bible: By Series: The Apex Trilogy (Dead Mech, The Americans, Metal & Ash) The Kaiju Winter Series Roak: Galactic Bounty Hunter Series The Mega/Team Grendel Thrillers The Flipside Sagas Max Rage: Intergalactic Badass! What does the future hold for fish and the people who pursue them? Fishing Through the Apocalypse explores that question through a series of fishing stories about the reality of the sport in the 21st century. Matthew Miller (director of science communications for The Nature Conservancy) explores fishing that might be considered dystopian: joining anglers as they stick their lines into trash-filled urban canals, or visiting farm ponds where you can catch giant, endangered fish for a fee. But it isn't all bleak. When it comes to fishing, the other part of the story is this: a cadre of anglers is looking to right past wrongs, to return native species, to remove dams, to appreciate the unappreciated fish, to clean our waters and protect public lands. As an angler and conservationist, Matt removes any and all preconceived notions about what it means to fish in the 21st century in order to see the different visions of the future that exist right here, right now. Fishing Through the Apocalypse offers one of the widest-ranging looks at fish conservation in the United States, and also includes some of the more unusual adventures ever featured in a fishing book. Features fishing adventures in: Idaho Colorado Wyoming New Mexico Utah Texas Florida Iowa Minnesota Illinois Washington DC Virginia Pennsylvania

The Rough Guide to Surviving the End of the World is a light-hearted yet well-informed look at threats to the very existence of life on Earth, how we might be able to deal with them and-if things go truly, horribly wrong-how we might just be able to survive. Written by scientist and sci fan Paul Parsons, this gripping book examines scenarios ranging from megafloods to space radiation, supervolcanoes to bioengineering and what you should do when the sh*t hits the fan. Along the way, we meet some of the lesser-trodden paths to oblivion, including the possibility that the human race will be gripped by mass stupidity and the outrageous idea that life on Earth could all be one giant Matrix-style computer simulation that its creators might one day decide to switch off. All are placed under the scientific spotlight and presented with clarity and humor. To survive Armageddon you need the best advice and information available, which is here presented in ample detail and capturing every plausible catastrophic scenario. Now available in ePub format.

from the beach a million times. Way out in the sea, impossible to reach. It rises gray and bare, up and up, and then out of sight. As if the sea gave birth to something meant to connect it to the sky. I've never seen the top. Maze says she's not convinced it has one. And I've always taken its impossible presence for what the Fathers say it is: a relic from before the Wipe. The hubris of pre-Wipe man, and a reminder for us all as to why it is God's Will that we never return to technology. But Maze suddenly has it in her head that the tower means something else, something different than the history the Fathers have given us. I think she's a conspiracy theorist. Until she shows me the map. Just the word mirror scribbled in red ink, next to a marking, and she expects me to go into the Deadlands with her. As long as I've known of her recklessness, and as much of a bad influence as she is on me, I can't say no. Because while she doesn't know they exist, I can't stop my feelings for her. And I start to realize, when we first pass over the rotting gates, into the ruin that was a city, that it will take something much more than either of us ever knew we had in order to survive the truth.

Her youth, innocence and strength of character reminds him of everything he has lost and the things which really matter. But as the armies of the world rise up for the ultimate battle of good versus evil, can Angelica help him regain his sanity and rediscover himself before it is too late? Author Scott W Kimak takes the classic theme of good and evil and gives it a modern twist in this inspiring tale of the importance of keeping hope in the bleakest of circumstances.

Who would you be during the zombie apocalypse - the hunter or the hunted? Some zombie apocalypse stories are full of fighting and gore and dramatic battles and narrow escapes. If that's the kind of zombie tale you're

looking for, look elsewhere, because this is not that story. This is a zombie apocalypse story about the choices we're faced with when trying to survive. Specifically, it's about Willow (just call her Will), her dysfunctional mother, and the fiancé who recently cheated on her. When the three of them stumble across a post-apocalyptic vegan hippie commune in the mountains of North Carolina, they think they've found a true utopia. (Well, except for the veganism. And all the hippies.) The community takes them in without realizing that Will and her companions are harboring a dark secret - a secret Will, her mom, and her fiancé will do almost anything to keep hidden. But when mother nature transforms their new utopia into a dystopia, Will and the community she's with face some hard choices. Ultimately, no matter what the survivors each believe about themselves, they are reminded that the only real choice you can make in a zombie apocalypse is the choice between being the hunter or the hunted. There's not a lot in between. *Bigger Monsters* is a little bit *The Walking Dead*, a little bit *The L Word*, and 100 percent a wild ride.

Z-Burbia 4: Cannibal Road: Description- Forced out of Asheville, Jace Stanford's family, along with a convoy of suburbanites, misfits, criminals, and soldiers, must battle their way through the I-40 corridor of Eastern Tennessee. When they are separated from their friends and allies in Knoxville, the Stanfords have to rely on their skills as post-apocalyptic survivors to fight off the Zs, insane Vols fans, homicidal sorority girls, and the most deadly of the post-apocalyptic threats- cannibal gangs! No longer are the Stanfords trying to survive day by day, but hour by hour and minute by minute, as they flee Z-Burbia and race through the hellscape of Cannibal Road! **Reviews-** "Once again Mr. Bible has cracked me up in the zombie apocalypse! Jace is still funny as hell, I love him. Elsbeth is still bad ass and she is my favorite. Stella and the kids brought out some cans of whoop ass as well!" -Melissa Martin, 5-star Goodreads review "I'm running out of things to say about how much I love this series. Each book is just as good as the last."

-Jennifer Wheeler, 5-star Goodreads review **Z-Burbia 5: The Bleeding Heartland: Description-** The American Midwest was a bucolic landscape that didn't quite adjust to the zombie apocalypse. Instead of open arms and welcoming faces, there are now open mouths and ravenous Zs. The blue collar drive to work hard has become a red-mouthed hunger for flesh. Jace Stanford, his family, and the rag tag bunch of Whispering Pines survivors, private military contractors, laborers, and former (hopefully?) cannibals now must face the vast, exposed space of America's Heartland in order to get to a possible sanctuary in the post-apocalyptic ruins of Boulder, Colorado. Just a simple convoy from point A to point B, right? Yeah, right. Nothing is ever simple in Z-Burbia! **Z-Burbia 6: Rocky Mountain Die: Description-** With the plains to their backs, Jace Stanford and crew are just steps from their destination: the Stronghold of Boulder, CO. All they have to do is battle the mega-powerful, corporate/political/military entity that is the Consortium, survive the brainwashed killing machines that call themselves the Sisters, and deal with a mad scientist hell bent on making life really, really hard

NOBODY NOTICED AS IT SWEEPED AROUND THE GLOBE--UNTIL BILLIONS BEGAN TO DIE. Then it got a name. The Lethargy. Everyone just gave up, all interest in life relentlessly gnawed away. Marcus was different; he became something else. Awoken. A man able to bend reality to his will and peel back the layers of the complex world he found himself alone in. His only true desire was to help safeguard mankind's future, so The Commorancy was constructed. A fabled safe haven for those lucky enough to get an invitation after passing his strict and convoluted entry requirements. But there are those out to ensure humanity is wiped from the planet entirely, led by a tattooed red man that will stop at nothing. Three hundred years living a life that was never meant to be means that Marcus' grip on reality is becoming severely warped. When fifteen-year-old Letje finally gets her invitation she finds herself completely out of her depth. Haughty goats, an almost mythical man obsessed with changing his clothes at every available opportunity, and doors that go whoosh don't help her situation as the very future of mankind hangs in the balance. With elements of fantasy, sci-fi and gothic otherworldliness The Commorancy is an exciting new dystopian series that revels in the bizarre as much as it entertains with its incredible construction of a future that seems only too possible. Entertaining, thought provoking, and odd - in a good way.

In these 14 short stories witness the plague ghetto and mass floods, the mutant district and the pleasure dens. Walk the dangerous red light canals with ladies of the night, brawl with mercenaries and break into hidden bowels where machines yet work. EXCERPT: FROM KIMBERLY BETHUNE TOMLINSON'S JOURNAL JUNE 19th, 2024 I'm glad you are reading this. It is a record of what we did when all the gods were dead. We live in the aftermath of the HEDV retrovirus outbreak. The effects of the virus were catastrophic. Billions died. Some people had immunity to the virus: the small percentage of the population that carried one abnormal copy of the hemoglobin gene, the gene that causes sickle cell disease. You see where I'm going, don't you? More people of color have survived, immune, than whites. The usual demographics of the US are now inverted. With the correlation of survival with darker skin color, it has become all race. It always was. Most white people were all right with this change. But you can guess who isn't. White supremacists. MAGA hat wearing, confederate flag waving, tiki torch bearing white people. You can guess why: their whole worldview has been flipped. Health, wealth, beauty—all that was attractive and desirable—is now associated with blackness. Poverty, illness, criminality, the breakdown of family and civility—these are white things now. And the supremacists—in full and utter denial that it is their obscure genetic connection to Africans that has granted them immunity—are apoplectic. They've declared war. They're out to exterminate all people of color. And thanks to their persistent lobbying efforts of the NRA to ensure semi-automatic rifles, high-capacity magazines, and bump stocks were never regulated (even while things such as cars, nasal decongestants, milk, and happy meals were), there are more guns left in America than people. Black people, their white allies, we knew it was time or organize, to save ourselves. So now it's wild west, Mad Max, Red Dawn, Hunger Games, Civil War II, whatever you want to call it.

The apocalypse has come. God help us.

Only Survival Matters Angela has moved Safe Haven to the apocalyptic Mountains of Georgia to make their stand. She has put a plan in motion that will free them or get them all killed. For her, everything since the apocalypse has come down to this moment. It's what she's been training for, what the Eagles have tried to prepare her for, but only fate knows if it will be enough. Major Donner has studied the descendants over his long military career. He has spent months at a time underground with them in the labs. He knows them better than anyone on the government's payroll. He's the guy they call to recapture escapees or to hunt down new specimens. His family has served in this manner for a century. His name is whispered with loathing among descendants and soldiers alike. He is brilliant, he is ruthless, and the post-apocalyptic government has just turned him loose on Safe Haven.

Z-Burbia: A Post Apocalyptic Zombie Adventure Novel Description- When the zombie apocalypse hits the quiet Asheville, NC subdivision of Whispering Pines, the residents don't turn to the police or the military. Nope. They rely on their iron-fisted Home Owners Association! Which Jace Stanford and his family aren't too keen on. Undead hordes are hard enough to deal with in a post-apocalyptic hellscape, who needs HOA fines too? Filled with blood, gore, plenty of bad jokes, cannibals, dreaded HOA covenants, and a whole lot of snark, Z-Burbia is guaranteed to thrill and entertain! Welcome to life in Z-Burbia! Reviews-

“The first novel in Jake Bible's series Z-Burbia hooked me. What appeared to be a jokey take on zombie fiction quickly develops some great characters and story.” -BoingBoing.net “For those still not convinced about the zombie genre, Z-Burbia is worth a read if only for its female characters: Jake Bible doesn't have time for vapid whimpering damsels in distress. Oh no. Bible's characters are thinking, acting, feisty sorts.” -Lee Murray, Bram Stoker Award-winning novelist

Z-Burbia 2: Parkway To Hell: Description- With Whispering Pines refusing to give up and die, Jace “Long Pork” Stanford has nothing better to do than find out who the heavily-armed newcomers in town are. Well, while he's not busy dealing with the ever present Z hordes. Or running for his life from paramilitary mercenaries. Or possibly blowing up more of the zombie-infested city because he can't help pressing buttons. Buttons are meant to be pressed, even in the apocalypse, right? Looks like it's just another day in Z-Burbia! **Z-Burbia 3: Estate of the Dead: Description-** Jace Stanford has lost family, friends, and his arm to the zombie apocalypse that hit his subdivision of Whispering Pines. But he's also gained something he never in a million years would have thought would be a plus: the cannibal savant known as Elsbeth. Now Jace needs Elsbeth's help more than ever. But is she up to the task when her past is revealed? A past that is possibly more shocking than the zombie apocalypse itself? Jace is gonna find out the hard way. And, as everyone knows, in Z-Burbia the hard way usually means a whole lot of people are going to die! Welcome back to Z-Burbia, y'all!

Z-Burbia 4: Cannibal Road: Description- Forced out of Asheville, Jace Stanford's family, along with a convoy of suburbanites, misfits, criminals, and soldiers, must battle their way through the I-40 corridor of Eastern Tennessee. When they are separated from their friends and allies in Knoxville, the Stanfords have to rely on their skills as post-apocalyptic survivors to fight off the Zs, insane Vols fans, homicidal sorority girls, and the most deadly of the post-apocalyptic threats- cannibal gangs! Z-Burbia 5: The Bleeding Heartland: Description- The American Midwest was a bucolic landscape that didn't quite adjust to the zombie apocalypse. Instead of open arms and welcoming faces, there are now open mouths and ravenous Zs. The blue collar drive to work hard has become a red-mouthed hunger for flesh. military contractors, laborers, and former (hopefully?) cannibals now must face the vast, exposed space of America's Heartland in order to get to a possible sanctuary in the post-apocalyptic ruins of Boulder, Colorado. Just a simple convoy from point A to point B, right? Yeah, right. Nothing is ever simple in Z-Burbia! Z-Burbia 6: Rocky Mountain Die: Description- With the plains to their backs, Jace Stanford and crew are just steps from their destination: the Stronghold of Boulder, CO. All they have to do is battle the mega-powerful, corporate/political/military entity that is the Consortium, survive the brainwashed killing machines that call themselves the Sisters, and deal with a mad scientist hell bent on making life really, really hard for everyone because he's just a f*ing jerk. Not a problem! If anyone can get his friends and family through a nightmare like this, it's Jace Stanford! What's that? There's a horde of zombies that's close to half a million strong coming for them all? Okay, everyone's screwed... It is Z-Burbia after all! to conquer the fledgling community they are helping to build. GLIMMER OF HOPE is an epic tale of one family's endurance and triumph after tomorrow's apocalypse.

A post-apocalyptic road trip dodging zombies. The aftermath of a nuclear holocaust, generations later. An alien spore that infects the young first. In the post-apocalyptic future, anything goes, and only the strong survive.

The 1980s was the decade when the action film as it's now known came into being. Nonstop, big-budget excitement became the standard as epic adventures like Raiders of the Lost Ark and The Road Warrior set the tone for the summer blockbusters of Sylvester Stallone, Arnold Schwarzenegger and Chuck Norris. Homages (and ripoffs) made with lesser budgets followed every hit, especially with the advent of direct-to-video releases. Providing detailed commentary on 284 films, this book explores the excitement, audacity and sheer weirdness of '80s low budget action cinema, from the American Ninja series to dime-a-dozen barbarian pictures to such bargain-basement productions as The Courier of Death, Kill Squad and Samurai Cop. The world had fallen. The mostly vacant cities were silent now. For those who had not been turned or consumed, remote locations proved the best chance to live a while longer before the inevitable end landed its teeth marks on their flesh or its disease in their blood. To eat or be eaten was the last imperative of the once noble species. All the accoutrements of being the most civilized of creatures had faded away and the human beast had been returned to the savagery of the primordial forest. This was the truth everywhere in the world, except one place—a small island, forgotten before and after the fall, a place where the sun yet shined down onto hopeful souls, 117 souls, the children of the Eden Project, who lived all their days until now in a great, glass dome. They were the children of light, pure blooded, uninfected, but they all knew (down to the smallest among them) that these hours of eternal incandescence were numbered. They all knew, every moment they breathed, that their destinies awaited them outside the glass, where darkness forever reigned. NIGHT WITHOUT END (Book Two of The Eden Project) now available

Even before the Civil War, American writers were imagining life after a massive global catastrophe. For many, the blank slate of the American continent was instead a wreckage-strewn wasteland, a new world in ruins. Bringing together epic and lyric poems, fictional tales,

travel narratives, and scientific texts, *Postapocalyptic Fantasies in Antebellum American Literature* reveals that US authors who enthusiastically celebrated the myths of primeval wilderness and virgin land also frequently resorted to speculations about the annihilation of civilizations, past and future. By examining such postapocalyptic fantasies, this study recovers an antebellum rhetoric untethered to claims for historical exceptionalism - a patriotic rhetoric that celebrates America while denying the United States a unique position outside of world history. As the scientific field of natural history produced new theories regarding biological extinction, geological transformation, and environmental collapse, American writers responded with wild visions of the ancient past and the distant future.
