

## Fijian Holdings Limited 2014 Annual Report

With the ongoing expansion of outbound foreign direct investment (FDI) in the countries representing the BRICS economic bloc (Brazil, Russia, India, China, and South Africa) – and with all of them at the same time listed among the top seven countries plagued by tax evasion and avoidance in the guise of illicit out flows – the ve governments, both individually and through cooperative initiatives, have devised new international tax strategies that are proving to be of great interest and value to other countries, both developing and developed. The core of these strategies addresses the necessity of stemming the out flow of revenue while strongly supporting FDI, both inbound and outbound while complying with international obligations including those arising from human rights laws. This book is the rst in-depth commentary on this new and evolving area of international tax law. The detailed analysis covers the entire eld of BRICS international tax law, considering topics such as the following: – information exchange procedures and pitfalls; – response to the OECD’s Base Erosion and Profit-Sharing (BEPS) initiative; – role of bilateral and multilateral double taxation conventions including the Multilateral Instrument and the Bilateral Investment Treaties; – thin capitalization; – transfer pricing; – controlled foreign corporation rules; – shortcomings related to authorities’ limited manpower; – international audit and investigation procedures; – the BRICS approach to residence and mandatory and binding arbitration; and – the BRICS approach to shaping the developing world’s international tax system. Notably, the author personally conducted interviews with senior international representatives of the BRICS tax authorities, as well as with leading BRICS academics and practitioners. Tax cases, together with human rights and investment cases and administrative guidelines in all ve countries are also included in the analysis. The study concludes with recommendations for improving each of the ve countries’ tax law and procedures, especially in the area of dispute resolution. The author’s goal is to extend the existing body of knowledge of the BRICS’ international tax laws in order to assist in developing an understanding of the BRICS approach to dealing with evasion and avoidance: an approach which facilitates both outbound and inbound FDI, simplifies tax authority administration and establishes a basis for resolving international disputes which is compatible with sovereignty. In achieving this objective, the author has produced a major work that is of immeasurable value to tax advisers, government and governance of cials, academics and researchers both in developing international taxation strategies and in helping to resolve disputes with tax authorities.

This public domain book is an open and compatible implementation of the Uniform System of Citation.

This new work of biographical reference presents succinct narrative biographies of every serving head of state and head of government. Its content covers approximately 200 countries and territories and provides over 300 biographical profiles. Each country section contains: \* A brief explanation of its type of government and the roles of the head of state, the head of government and the legislature \* Lists of the most recent heads of state and head of government, with dates of office \* Biographical profiles of current head of state and government, and other recent incumbents of these positions who remain significant and active political leaders \* A photographic section of a selection of the world's key political leaders \* A full index by name, date of taking office, and

source of authority.

Freedom in the World is the standard-setting comparative assessment of global political rights and civil liberties. The methodology of this survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories.

Ai Kihara-Hunt's Holding UNPOL to Account: Individual Criminal Accountability of United Nations Police Personnel analyzes whether mechanisms that address criminal accountability of United Nations police personnel serving in Peace Operations are effective, and if there is a problem, how it can be mitigated.

Fiji Mineral, Mining Sector Investment and Business Guide - Strategic Information and Regulations

The 40th Edition of the IRG Yearbook includes All New Zealand listed companies, The top 76 Australian listed companies and 25 of the top world companies e.g. Louis Vuitton, Apple, Berkshire Hathaway, and more! The IRG Yearbook gives a summary of the companies, their 5 year financials data and a 5 year graph of the performance with analyst consensus on High, Median and Low prices.

The Method of Hope examines the relationship between hope and knowledge by investigating how hope is produced in various forms of knowledge - Fijian, philosophical, anthropological. The book participates in on-going debates in social theory about how to reclaim the category of hope in progressive thought.

This landmark publication in the field of international law delivers expert assessment of new developments in the important work of the International Court of Justice (ICJ) from a team of renowned editors and commentators. The ICJ is the principal judicial organ of the United Nations and plays a central role in both the peaceful settlement of international disputes and the development of international law. This comprehensive Commentary on the Statute of the International Court of Justice, now in its third edition, analyses in detail not only the Statute of the Court itself but also the related provisions of the United Nations Charter as well as the relevant provisions of the Court's Rules of Procedure. Six years after the publication of the second edition, the third edition of the Commentary embraces current events before the International Court of Justice as well as before other courts and tribunals relevant for the interpretation and application of its Statute. The Commentary provides a comprehensive overview and analysis of all legal questions and issues the Court has had to address in the past, and looks forward to those it will have to address in the future. It illuminates the central issues of procedure and substance that the Court and counsel appearing before it face in their day-to-day work. In addition to commentary covering all of the articles of the Statute of the ICJ, plus the relevant articles of the Charter of the United Nations, the book includes two scene-setting chapters: Historical Introduction and General Principles of Procedural Law, as well as important and instructive chapters on Counter-Claims, Discontinuation and Withdrawal, and Evidentiary Issues.

Forecasts suggest that solid growth in Asia is likely to continue. By 2030, Asian economies are expected to be roughly four times larger than they are today, and Asia's share of global output is expected to rise to 40% of the global total. In contrast, most countries in the Pacific have experienced extended periods of relatively low growth, and many have suffered significant setbacks from disasters. This book analyzes and discerns some of the main trends driving economic relations between Asia and the Pacific. It aims to assess how the 14 Pacific developing member countries of the Asian Development Bank can better tap into opportunities arising from Asian growth, and explores how the

economic and financial integration between Asia and the Pacific can be expanded to benefit both regions. Pacific Opportunities identifies critical constraints on integration and sets out policy reforms to address these constraints to mutually beneficial economic ties between the two regions. These two very different regions have drawn closer economically over the past two decades as improvements in transport infrastructure and advances in information and communications technology have helped to bridge geographic distance.

The Asia SME Finance Monitor 2014 is the knowledge sharing product on small and medium-sized enterprises (SMEs) in Asia and the Pacific, specially focusing on SME access to finance. This publication reviews various country aspects of SME finance covering the banking sector, nonbank sector, and capital markets. It is expected to support evidence-based policy making and regulations on SME finance in the region.

From 2010 onward, Fiji witnessed one of its strongest spells of economic growth since independence. Extreme poverty is in the single digits, but nearly a third of the population is unable to meet basic needs. Fiji thus faces two major challenges: to create a business environment that can attract more private investment to help sustain its growth momentum, and to make that growth inclusive so that all of Fiji can benefit. This country diagnostic study undertaken by the Asian Development Bank identifies the critical constraints to inclusive growth in Fiji and proposes policy options for addressing them.

In Papua New Guinea hopes are high that real change is on its way; the country's political, administrative, financial and technical leaders now have to find a way to ensure the most productive distribution and use of financial resources. Many international actors are watching closely to see how this young country negotiates its path. Papua New Guinea became a major exporter of gas in 2014 when the \$19bn PNG liquefied natural gas (LNG) project was completed ahead of schedule and within budget, significantly increasing the size and strength of the economy. The year ahead is likely to see PNG benefit from the further development of its hydrocarbons sector, fuelling the growth of its economy as a whole. The LNG influx also poses challenges, however, in terms of ensuring inclusive growth and productive use of the new revenues. PNG takes pride in being a final frontier of natural and cultural development, but the task ahead is to protect the country's heritage while becoming part of the global economy.

This edition of the U.S. Geological Survey (USGS) Minerals Yearbook discusses the performance of the worldwide minerals and materials industries during year 2013 and provides background information to assist in interpreting that performance. These annual reviews are designed to provide timely statistical data on mineral commodities in various countries. This volume covers data from Asia and the Pacific. Each report includes sections on government policies and programs, environmental issues, trade and production data, industry structure and ownership, commodity sector developments, infrastructure, and a summary outlook. Audience: Government employees and contractors, as well as businesses and employees, all working in mineral-related trades, especially with interests in statistics about mineral commodities overseas, will find this resource invaluable. Check out our Minerals & Metals publications here:

The aim of this book is to provide the reader with an overview of New Zealand's international relations. It is a country that has often shown an international presence that is out of proportion to the modest spectrum of national economic, military and diplomatic capabilities at its disposal. In this volume, the editors have called upon a range of specialists representing a range of views drawn from the worlds of academia, policy-making, and civil society. It is an attempt to present a rounded picture of New Zealand's place in the world, one that does not rely exclusively on any particular perspective. The book does not claim to be exhaustive. But it does seek to present a more wide-ranging treatment of New Zealand's foreign relations than has generally been the case in the past. Five broad themes help shape and organize the contributions to the text: History and National Identity Economics and Regionalism Morality Geopolitics and National Security Interests Diplomatic Engagement and Multilateralism Contents: Introduction: New Zealand and the World: Past, Present and Future (Iati Iati and Robert G Patman) History and National Identity: Building Foreign Policy in New Zealand: The Role of the University of Otago Foreign Policy School, 1966–1976 (Austin Gee, Robert G Patman and Christopher Rudd) The New Zealand Prime Minister and the 1985 Otago Foreign Policy School — A Pivotal Moment for the Labour Government's Foreign Policy (Ken Ross) Gallipoli, National Identity and New Beginnings (Ian McGibbon) National Identity and New Zealand Foreign Policy (Terence O'Brien) Exporting Aotearoa New Zealand's Biculturalism: Lessons for Indigenous-Settler Relations in Canada (David B MacDonald) What Does New Zealand's Changing Demography Mean for Its Place in the World? (Andrew Butcher) Economics and Regionalism: New Zealand and Its Asia-Pacific Destiny: Sailing the Waka in Ever-Widening Circles (Brian Lynch) New Zealand's Evolving Response to Changing Asia-Pacific Trade and Economic Currents Since 1989 (Robert Scollay) New Zealand and the Trans-Pacific Partnership Agreement Negotiations: Strategy, Content and Lessons (Jane Kelsey) New Zealand's Strategic Influence and Interests in an Increasingly Global Pacific (Anna Powles) Old Friends in the New Asia: New Zealand, Australia and the Rise of China (Hugh White) Morality: K?wanatanga, Tino Rangatiratanga and the Constitution (Ranginui Walker and Tracey McIntosh) What Happened to the New Zealand Peace Movement? Anti-Nuclear Politics and the Quest for a More Independent Foreign Policy (Kevin P Clements) The Globalisation of the Human Security Norm: New Zealand/Aotearoa Leadership and Followership in the World (Jacqui True and Maria Tanyag) The Price of the Club: How New Zealand's Involvement in the "War on Terror" has Compromised Its Reputation as a Good International Citizen (Jon Stephenson) New Zealand, a Comprehensive Maritime Strategy, and the Promise of a New Atlantis (Peter Cozens) Geopolitics and National Security Interests: New Zealand Foreign Policy and the Challenge of Leading the United Nations Security Council in July 2015 (Murray McCully) Recalibration, Rapprochement and Resocialization: US–New Zealand Relations and the Obama Administration's "Pivot" to Asia (Joe Burton) Continuity and Change in New

### Zealand Defence Policymaking (Peter Greener) Informing the National Interest

This is the 65th issue of the AREAER. It provides a description of the foreign exchange arrangements, exchange and trade systems, and capital controls of all IMF member countries. It also provides information on the operation of foreign exchange markets and controls on international trade. It describes controls on capital transactions and measures implemented in the financial sector, including prudential measures. In addition, it reports on exchange measures imposed by member countries for security reasons. A single table provides a snapshot of the exchange and trade systems of all IMF member countries. The Overview describes in detail how the general trend toward foreign exchange liberalization continued during 2013, alongside a strengthening of the financial sector regulatory framework. A Special Topic essay examines the dynamics and evolution of capital flows. The AREAER is available in several formats. The Overview is in print and online, and the detailed information for each of the 191 member countries and territories is included on a CD that accompanies the printed Overview and in an online database, AREAER Online. In addition to the information on the exchange and trade system of IMF member countries in 2013, AREAER Online contains historical data published in previous issues of the AREAER. It is searchable by year, country, and category of measure and allows cross country comparisons for time series.

With its comprehensive coverage of political and security matters, human rights issues, economic and social questions, legal issues, and administrative and budgetary matters, the Yearbook of the United Nations stands as the authoritative reference work on the annual activities and concerns of the Organization. Fully indexed, the Yearbook includes all major General Assembly, Security Council and Economic and Social Council resolutions and decisions, uniquely placing them in a narrative context of United Nations consideration, deliberation and action. This sixty-eighth volume presents the work of the United Nations in dealing with recurring conflicts with severe humanitarian consequences including in the Syrian Arab Republic, where more than 12 million people were in need of basic food, clothing and shelter. The volume also highlights the Organization's rapid response to an escalatory global health emergency—the Ebola virus disease outbreak across West Africa. It documents the Organization's coordination of policy discussions to finalize a global sustainable development agenda, with the security of future generations as the core concern; and its efforts to rebuild societies emerging from conflict while keeping the fragile peace in other places. It further details the entry into force of the landmark Arms Trade Treaty, the missile downing of a passenger airliner in the midst of a geopolitical crisis in eastern Ukraine, and securing international human rights and humanitarian law and prosecuting abusers.

This textbook presents students with a systematic approach for the quantification and management of greenhouse gas emissions (GHG) and provides best practices for optimal carbon management and quantification. The book begins with

an overview of climate change basics and goes on to discuss carbon footprint measurements, carbon management concepts, and concludes by presenting carbon reduction solutions with applications for green buildings, smart transportation, waste management, and carbon trading and offsetting. The author provides practical examples and carbon management models that support innovative reduction solutions and presents a roadmap for the implementation and development of carbon management strategies, making it a useful resource for both upper undergraduate and graduate students as well as practitioners seeking a comprehensive framework to conduct carbon management. This report explores the growth prospects for the ocean economy, its capacity for future employment creation and innovation, and its role in addressing global challenges. Special attention is devoted to the emerging ocean-based industries.

This book represents the fourth edition of what has become an established reference work, MAJOR COMPANIES OF THE Guide to the FAR EAST & AUSTRALASIA. This volume has been carefully researched and updated since publication of the previous arrangement of the book edition, and provides more company data on the most important companies in the region. For the second time, a third volume has been added to the series, covering major companies in Company entries are listed alphabetically within each section; Australia and New Zealand. in addition three indexes are provided on coloured paper at the back of the book. The companies listed have been selected on the grounds of the size of their sales volume or balance sheet or their The alphabetical index to companies throughout Australia & importance to the business environment of the country in New Zealand lists all companies having entries in the book which they are based. irrespective of their main country of operation. The book is updated and published every year. Any company The alphabetical index to companies within Australia & New that considers it is eligible for inclusion in the next edition of Zealand lists companies by their country of operation.

During the past decade, no industry has grown faster than that of mobile communications, yet coverage of its operations remains scarce. This state-of-the-art book examines the evolving structure and strategic behaviour of the thirty largest operators i Pacific island countries (PICs) rely on national airlines for connectivity, trade, and tourism. These airlines are being struck hard by COVID-19. Losses will weigh on public sector balance sheets and pose risks to economic recovery. With a backdrop of tight fiscal space and increasing government debt, losses in airlines are adding to fiscal risks in some PICs. This paper discusses tools to evaluate and manage the fiscal risks from national airlines in the Pacific. We present a snapshot of the current state of Public Financial Management (PFM) practices in PICs and detail the best practices. This exercise would illustrate the areas in which

PICs have scope to improve their risk management with regard to national airlines. We then discuss the use of diagnostic tools and capacity development to enhance monitoring and risk management. Greater transparency and accountability in the airlines, combined with rigorous oversight, would be the first step towards improved financial management of national airlines.

Volume 1 (A and B) of the Yearbook of International Organizations covers international organizations throughout the world, comprising their aims, activities and events

In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at [www.worldbank.org/globalindex](http://www.worldbank.org/globalindex).

Pacific state-owned enterprises (SOEs) are often formed to increase service delivery effectiveness and accountability. However, historical and financial indicators show that long-term government ownership of SOEs often result in outcomes counter to these goals. Weak governance and regulatory frameworks make it difficult for SOEs to operate on strict commercial principles over the long term. This fifth study of SOE performance in the Pacific emphasizes political commitment to reform as a key driver for commercial results, as demonstrated by the experience of each of the countries benchmarked. This report was produced by the Pacific Private Sector Development Initiative, a regional technical assistance facility cofinanced by ADB, the Government of Australia, and the Government of New Zealand.

- Minerals Yearbook, 2014, V. 3: Area Reports: International: Asia and the Pacific. Volume III, Area Reports: International, is published as four separate reports. These regional reports contain the latest available minerals data on more than 180 foreign countries and discuss the importance of minerals to the economies of these nations and the United States. Each report begins with an overview of the region's mineral industries during the year. It continues with individual country chapters that examine the mining, refining, processing, and use of minerals in each country of the region and how each country's mineral industry relates to

U.S. industry. Most chapters include production tables and industry structure tables, information about Government policies and programs that affect the country's mineral industry, and an outlook section.

This book explores the theoretical and empirical relationship between democracy and governance in the Asia-Pacific region. Examining a variety of country cases and themes addressing the theoretical tension between governance and democracy, it illuminates how this impacts political and civil societies across the region. Analysing the character, structure and current trajectories of polities in the Asia-Pacific, democratic or otherwise, this book demonstrates that the role of civil society, political society and governance has significantly differed in practice from what has been commonly assumed within the international community. The book includes both theoretical investigations tracing the modern development of the concepts of governance, development and democratization as well as regional and country-specific observations of major issues, presenting comprehensive country-level studies of China, Singapore, Thailand, Cambodia, the Philippines, Myanmar, Fiji and the Solomon Islands. Presenting fascinating insight into non-democratic governance, civil society and the rule of law in illiberal contexts, *Governance and Democracy in the Asia-Pacific* will prove to be of great use to students and scholars of Asian politics and society, as well as international and comparative politics.

Fiji Mineral, Mining Sector Investment and Business Guide Volume 1 Strategic Information and RegulationsLulu.com

The conventional “grow first, clean up later” approaches to economic growth are increasingly placing the futures of regional economies and societies at risk. The forward-thinking policymaker is tasked to promote development based on eco-efficient economic growth and at the same time, record more inclusive gains in human welfare and socio-economic progress. In order to assist policymakers in responding to such challenges, ESCAP’s “Greening of economic growth” series provides quick access to easy-to-read guidance to specific policy tools.

The 41st Edition of the IRG Yearbook includes All New Zealand listed Companies, 100 Australian listed Companies and 25 of the Top world companies e.g. Louis Vuitton, Apple, Berkshire Hathaway, and more! The IRG Yearbook gives a summary of the companies, their 5 year financials data AND a 5 year graph of the performance with analyst consensus on High, median and Low prices. Why Buy The IRG Yearbook

- It is a Great reference for any investor to review the history of these NZ, Australian and World Stocks.
- It has a long shelf life, i.e. it is referred to for up to ten years after purchase.
- It is a brilliant gift for uncles, aunties, fathers, mothers, or anyone interested in Investment. It may be a student or simply someone who wants to learn.
- The Book is crammed full of concise Investment Information in an easy format for readers. There will be facts that even the most experienced investor does not know.
- There are 300 pages in the IRG Yearbook with 270 Companies from around the world.

The world’s best-selling global business strategy text, Peng's GLOBAL STRATEGY, 5E uses a reader-friendly approach to present strategic management from a truly global perspective. This edition emphasizes strategy around the globe using evidence-driven explanations with the latest research. A unique strategy tripod perspective presents three leading views - industry-based, resource-based and institution-based views - in each chapter. A conversational style emphasizes the story behind the stories, while timely debates address strategic issues, such as globalization versus de-globalization, offshoring versus non-offshoring and social media freedom of speech versus censorship. You also examine building an antitrust case against Big Tech and reducing income inequality via corporate social responsibility (CSR). Strategy-in-

action boxes, numerous chapter cases and brief, to-the-point integrative cases present current global topics. GLOBAL STRATEGY, 5E is available as a printed book or ebook. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fifteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

The methodology of this survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.
