African literature in the twentieth century has grown from the early poetry of Negritude to recent novels of magical realism. As novelists, poets, and playwrights testified to the unique qualities of their lives and societies, a new tradition began to emerge. Novels of testimony, novels of revolt, novels of struggle, followed by post-colonial writings, filled with complexities and ambiguities, have created a literary tradition expressive of the African spirit—a tradition influenced by earlier African oral literature, by European writings, by changing social conditions, and increasingly by African writings themselves. *Thresholds of Change in African Literature* explores the emergence of this tradition, and particularly the ways in which the emergent literature changed at each critical stage

Learn about the history, culture and techniques of Filipino Escrima with this informative martial arts guide. The history of the Philippines and her martial arts is a history of resistance and revolt. Born into this fertile time and place, Grandmaster Leo M. Giron became a child of revolution. He grew up in a time when martial arts training was a necessity, not a luxury. His system was taught to him by five renowned masters; his experience honed in the jungle warfare of World War II. The Secrets of Giron Arnis Escrima is an engaging biography of Leo Giron, a renowned master of Escrima and survivor of numerous hand-to-hand encounters in the Philippine jungles. It is also a visual and descriptive survey of Giron's fighting art—a classical weapons and empty-hand self-defense system applicable in today's modern society. Included is an overview of the twenty styles that make up the Giron system in general, and an analysis of the *de fondo* and *cadena de mano* styles in particular. Packed with over 300 historical and instructional photographs this book truly reveals the secrets of this Filipino martial art. The book features a twofold, interrelated focus. First, it looks at the unique Filipino culture; how it was greatly influenced by Spanish colonization, the oppression it suffered under foreign rule, and how the native yearning for freedom led to the development of the martial art of Arnis. The book then presents the distinct technical aspects and resultant physical manifestation of the indigenous fighting art. Centering upon the *Kombatan* method forged by Grandmaster Ernesto Amador Presas Sr., it describes numerous maneuvers utilizing stick, blade, and empty hand components, and offers information on their myriad practical applications. This volume is unique in that it is one of but a few composed by a native-born and bred Filipino author, one who absorbed lesson in the Philippines, directly under the guidance of an established system's founder. The book seeks to present Arnis in a proper light, as a simple and pragmatic method of self-protection, while debunking the more fanciful theories and concepts that have crept in as it makes its way into world consciousness.

Sonny Umpad's Eskrima provides insight on Maestro Santiago "Sonny" Umpad's life, philosophy, and teaching methods, as well as the structural underpinnings of his system. Born with the soul of a warrior, the intellect of a scholar, and a zealot's devotion to his art, Maestro Santiago "Sonny" Umpad forged an enduring contribution to the rich and colorful history of Filipino martial culture. In 1976, after immigrating to the United States, Sonny founded the school of Visayan Style Corto Kadena & Larga Mano Eskrima—rooted in his training in the Philippines and tested by a hard and dangerous life on the streets, Sonny's system was above all else practical. As Sonny's reputation as a talented fighter became well-known, he began to cross-train with masters of other martial arts, including Jesse Glover (Bruce Lee's first student) and Wally Jay (founder of Small Circle Jujitsu). One of the most innovative and visionary exponents of the Filipino arts, Sonny pioneered the concept of "mixed martial arts" long before the term was in use. Instructor George Yore has assembled the

writings of six of Sonny's students (including Wade Williams, 2012 nominee for the U.S. Martial Arts Hall of Fame) to create a biographic homage to this remarkable martial artist; basic techniques and applications are also demonstrated, accompanied by 130 step-by-step photos. Practitioners of Filipino martial arts—as well as mixed martial artists and security specialists—will find valuable instruction in techniques and applications, while the thousands of people touched by Sonny's teachings will gain a new understanding of this notoriously reclusive master's life—and how his experiences informed the development of his system.

Combat is as old as man himself. In the Philippines it developed to a degree of effectiveness unsurpassed anywhere in the world. The Filipino martial arts is an expression of man's indomitable will to survive adversity in the most direct and self-reliant manner possible. There has been an obvious need for a book that coordinates and puts into perspective the roots and principals of a fighting art, a book that explains the relationships between weapons and empty hands, philosophy and history, assesses strengths and weaknesses, and finally a book that liberates the mind from the classical way of thinking. Documentation of these arts has been supplemented with interviews with some of the last surviving Masters. Their daring exploits serve to illustrate the most deadly fighting systems that the world has known.

Eskrima, which is also known as Arnis (De Mano) or Kali, is the indigenous martial art of the Philippine Islands. Dynamic and flexible, with a wide range of training methods it can be practised by students of all ages and levels of fitness. Well known and respected as a highly practical weapons-based system, Eskrima is practised worldwide by civilians, law enforcement personnel and special units within the military. Eskrima uses training weapons (rattan sticks and daggers) from the earliest stages, alongside purely unarmed techniques. These training methods have been found particularly effective at increasing co-ordination and reflexes, providing a fast track to developing the qualities needed for practical self-defence. This fascinating book traces the history and evolution of this art form. It highlights Eskrima's essential principles and concepts. The instructional section illustrates how the Eskrimador is able to succeed in a wide range of combat situations involving fighting with both weapons and open-hands.

There has been a lack of reliable academic studies regarding Filipino martial arts (FMA) that have uniquely developed in the Philippine archipelago. This anthology assembles pioneering scholarly materials valuable for any interested in the Filipino combatives, as well as chapters specifically on the practice. Mark Wiley stands out as a leading scholar/practitioner of the Filipino arts. This book contains three chapters by him. In the first, he conducted linguistic and historical research to present the developmental background of the ancient Filipino kali and European fencing systems, thus illuminating the evolution of classical eskrima. In chapter two, Wiley attempts to classify Filipino martial arts and explore the ethos of Filipino martial culture by deriving information directly from the contemporary grandmasters who have maintained an oral transmission of information concerning the evolution and development of their respective martial systems. Part of Wiley's research also led him to seek out special repositories of artifacts. Museums collections rarely include much on Southeast Asian weapons. University of Pennsylvania Museum of Archaeology and Anthropology has nearly 1,000 martial artifacts in storerooms from the Philippines, including swords, knives, spears, shields, helmets, and armor discussed in Wiley's third chapter. On a practical side, Steven Dowd presents the art of Carlita Lañada who studied martial arts as passed down within his own family in the Philippines. He calls his rendition Kuntaw Lima-Lima, an art whose techniques are reminiscent of Okinawan karate styles, with hints of Chinese gongfu. Presented are the underlying principles, and a sayawan (form) with applications. Majia Soderholm's chapter is about Visayan Corto Kadena Eskrima and some of its concepts and training methods with regard to free-sparring with swords. It is a Filipino martial system encompassing empty-hand and non-bladed and bladed weapons. Peter Hobart presents a wonderful

tribute to Remy Presas, the founder of Modern Arnis. This retrospective is comprised of the stories and memories of many of those who knew him. Topics include Presas' theory and practice of arnis, such as importance of flow, and memories of his last seminar. The chapter by Ruel Macaraeg dives into the topic of piracy in the Philippines. His study reconstructs the pirates' martial practices through comparative historical analysis of their weapons, costume, and organization in order to draw conclusions about their relationship to martial cultures in the Philippines and across the region. In the final chapter, Ken Smith discusses a few of his favorite techniques from Modern Arnis. His insights—as well as the information found in the previous chapters—contribute to the academic understanding of Filipino martial traditions as well as the actual practice of kali, escrima, and arnis. We hope you'll enjoy the reading.

A highly effective and well-rounded Filipino martial art, Cabaes Serrada Escrima uses basic stick-fighting movements whose applicability extends into both unarmed engagement and knife fighting. In *Secrets of Cabaes Serrada Escrima*, Mark V. Wiley offers not only a clear presentation of the strikes, blocks, counters, and disarms unique to this style, but goes beyond mere self-defense techniques into the concepts underlying the fighting art, explaining how and why the moves work, and when best to use them. This revised and expanded edition of Mark Wiley's authoritative volume presents the heart of the Cabaes Serrada system in six clear parts: an outline of the history and development of the system, personal accounts of Grandmaster Angel Cabaes, discussion of the dynamics of body positioning and distance control, sections on the art's core single-stick and empty-hand defensive methods, as well as a comprehensive set of drills.

Arnis: Reflections on the History and Development of the Filipino Martial Arts is an intriguing collection of essays on Filipino martial arts. Featured are insightful essays by Filipino martial artists: Krishna K. Godhania Antonio E. Somera Abner G. Pasa Dr. Jopet Laraya Felipe P. beano, Jr. Rene J. Navarro For centuries, Filipino martial arts have played integral and often momentous roles in the history of the Philippines and in the survival of the Filipino people. But what are these arts? The PAKAMUT fighting system, as taught by GM Felix Roiles, was handed down to him by his humble grandfather, a

true Master in the Filipino Fighting Arts. Using a very simple method, this art utilizes the body's natural movements in highly effective forms of fighting techniques with the use of impact & edged weapons, and hand-to-hand combat. PAKAMUT in Cebuano means the 'Pilipino Fighting System and Style'. It was believed that Datu Mangal, the father of Datu Lapu-lapu, was the first Pilipino hero to bring the art of fighting to the island. Datu Mangal was a direct descendant of the leaders of the powerful Sri-Visayan Empire of 13th century Malay, who conquered and colonized many lands. After the empire was taken over by the Maja Pahit Empire of ancient Sumatra and Borneo, the 10 Datu and their kinsmen settled on the island of Visayan where the art continued to be refined in to what we see today

Filipino martial arts are now among the most popular in the world. Yet, as their popularity grew so did the need to open commercial classes. As a result, these arts in many cases have become commercialized, watered down, and their curriculum changed from its intended use to keeping students. Eskrima Street Defense is geared for the street. It offers readers dozens of practical techniques for dangerous street encounters in six categories: 1) Hand vs. Hand, 2) Hand vs. Knife, 3) Hand vs. Bolo, 4) Knife vs. Knife, 5) Bolo vs. Bolo, and 6) Improvised Weapons. These techniques are backed up with key principles for application, discussions of the most vulnerable striking points on the body, pointers for becoming aware of your surroundings in common public spaces where attacks occur, and rules for common sense self-defense. When applying Eskrima for street defense-as opposed to sport competition-simplicity is the key to survival. This book, like street techniques, is direct and to the point. It focuses on developing safety, awareness, and skills to survive on the street when you suddenly find yourself in a bad situation.
