Written by one of ANZ's premier sustainability and social accounting academics, An Introduction to Accounting: Accountability in Organisations and Society brings today's accounting hot topics of corporate accountability, sustainability and social responsibility to life with the only complete textbook created from the ground up for these modern accounting teaching and learning concepts. An Introduction to Accounting: Accountability in Organisations and Society takes a unique approach in embracing from the start the notion of accountability for the environment and sustainability in accounting; the structure, content and learning activities provide students with an understanding of accounting's pervasive and transformative role as a social practice and organisational driver. It shows that environments, ideas and values change; the interconnectivity of society; that the planet must be respected as a resource; and that people are affected/influenced by the information they receive and the way it is presented. It is emphasised that accounting and accountability are key aspects of every person's life and that the practice of accounting, while often being seen as very technical in nature, has many social implications. Learning accounting through the lens of sustainability and the environment embeds this perspective in students' minds so that in their careers they will actively seek and use accounting information to make decisions that take into consideration accountability for the environment. In the second Canadian edition of Accounting, we have continued with the tradition of focusing on the changing needs of accounting students and their instructors by utilizing feedback from student reviews, an Editorial Advisory Board, and external reviewers. Accounting faculty from all over the country contributed to our book development process in a direct and creative way. Accounting 2nd Canadian Edition takes a learn-by-doing approach to Accounting supported by Example Exercises, Mid-Chapter Illustrative Problems, and plentiful and comprehensive end-of-chapter exercises and problems. The unique Guided Principles System lays out what is to be covered in the Chapter and is an important visual that helps students see the big picture. This integrated learning system helps guide students through the chapter content, leading to better homework outcomes, and accounting mastery. Students love the Real-World Chapter Openers and the Morning Java Financial Statements which provide a consistent reference point for users who want to see a full set of financial statements. An added critical thinking component and one-third more exercises and problems are key elements of this revision.
