Financial Markets, Institutions and Money David S. Kidwell, Anup Basu, Mark Brimble, David W. Blackwell, Dianne Thomson, Liam Lenten, Richard L. Peterson, David A. Whidbee, 2011 Financial Markets, Institutions and Money 2nd edition introduces students to the financial system, its operations, and participants. The text offers a fresh, succinct analysis of the

financial markets and discusses how the many participants in the financial system interrelate. This includes coverage of regulators, regulations and the role of the Reserve Bank of Australia, that ensure the system's smooth running, which is essential to a modern economy. The text has been significantly revised to take into account changes in the financial world. The financial crisis of 2007-09 and its impact on the efficiency of the financial system refocused the attention of the 2nd edition of *Financial Markets, Institutions and Money* on the critical role that financial systems play in an economy.

The Economics of Money, Banking, and Financial Markets Frederic S. Mishkin, 2007 *Economics of Money, Banking, and Financial Markets* heralded a dramatic shift in the teaching of the money and banking course in its first edition, and today it is still setting the standard. By applying an analytical framework to the patient, stepped-out development of models, Frederic Mishkin draws students into a deeper understanding of modern monetary theory, banking, and policy. His landmark combination of common sense applications with current, real-world events provides authoritative, comprehensive coverage in an informal tone students appreciate.

Modern Financial Markets David W. Blackwell, Mark D. Griffiths, Drew B. Winters, 2006-12-18 Throughout this concise, accessible book, readers will quickly learn the fundamental concepts of managerial finance while discovering how things really work. The material is explained using an intuitive theoretical context, providing them with a richer understanding of the material and better insights into solving problems. Finance concepts are covered in a common sense manner and the use of mathematical jargon is minimized. The unifying theme for the book is the concept of valuation since it is the most fundamental concept in finance. The authors define and discuss value in terms of net present value (NPV).
